Wednesday**

**Course Time: 4:00 PM-
5:15 PM (PST)**

Course Location: VAC

I. COURSE PREREQUISITES

Students enrolled in SOWK 615 are required to have completed two semesters of foundation year practice.

II. CATALOGUE DESCRIPTION

Theory and multimodal approaches for brief therapy and crisis intervention with diverse clientele in a range of mental health and health settings.

III. COURSE DESCRIPTION

SOWK 615, Brief Therapy and Crisis Intervention, is an advanced clinical practice course designed to teach second year practice students the theories and techniques of brief treatment and crisis intervention. Students will receive historical, theoretical, and clinical information sufficient to work with individuals, couples, families, groups, and organizations. Ethical, professional, transference, and counter transference issues will be addressed as they relate to brief therapy modalities.

IV. COURSE OBJECTIVES

Objective #	Objectives
1	Demonstrate knowledge of relevant brief therapy and crisis intervention theories.
2	Implement brief therapy and crisis intervention models and techniques with individuals' families, groups and organizations.

Objective #	Objectives
3	Treat specific client problems and populations including, but not limited to: Ethnically, culturally and sexually diverse clients, psychiatric, mood and substance abuse issues, medical and community crises
4	Become knowledgeable about research based, best practice models and what client populations are best served by them.
5	Explore efficacy and ethical issues, raised by managed care and mandated brief therapy for clients.

V. COURSE FORMAT / INSTRUCTIONAL METHODS

This advanced practice course will be taught with a combination of didactic lecture, classroom discussion, videos, and experiential exercises. Students will be expected to work with a client in their field placement agency, applying course content and sharing the process of this experience with classmates.

VI. STUDENT LEARNING OUTCOMES

Student learning for this course relates to one or more of the following ten social work core competencies:

	Social Work Core Competencies	SWK 615	Course Objective
1	Professional Identity	*	1-5
2	Ethical Practice	*	1-5
3	Critical Thinking	*	1-5
4	Diversity in Practice	*	1-5
5	Human Rights & Justice	*	1-5
6	Research Based Practice	*	1-5
7	Human Behavior	*	1-5
8	Policy Practice	*	1-5
9	Practice Contexts	*	1-5
10	Engage, Assess, Intervene, Evaluate	*	1-5

* Highlighted in this course

The following table explains the highlighted competencies for this course, the related student learning outcomes, and the method of assessment.

VII. COURSE ASSIGNMENTS, DUE DATES & GRADING

Assignment	Due Date	% of Final Grade
#1-Brief Reaction Paper	Unit 4	10%
Midterm – Case Study	Unit 7	35%
#2 -Application Exercise of Brief Therapy	Unit 10	10%

Assignment	Due Date	% of Final Grade
Brief Therapy Demonstration	Finals Week	35%
Class Participation	On going	10%

Each of the major assignments is described below.

Class grades will be based on the following:

ASSIGNMENT #1: BRIEF REACTION PAPER – 10%

Due on Unit 4

During unit 4, the student will watch the HBO documentary “Bellevue Inside Out”. For VAC students, the film is located in Unit 4 of your asynchronous material. All other students may access the film via the internet at <http://www.youtube.com/watch?v=1nVEN1Reeaw&list=PL64D75B9549BB123D>. The student will be required to write a short paper (3 pages maximum) which includes a brief overview of the film, discusses pertinent themes/issues and applies knowledge of crisis theory and intervention to an individual from the film. The student will be graded on how well they demonstrate an understanding of and application of topics discussed in class and the reading material.

I. Introduction

- a. Provide a brief overview of the film. (Limit your discussion to 1-2 paragraphs)
- b. Include a discussion of the key topic/subject of the film and what you feel is its overall purpose.
- c. Discuss how the film relates to course material/content.

II. Reaction/Analysis- Discuss a minimum of 2 of the following:

- Do you think the film overlooked or left out anything important? What?
- Did the film hold your interest? Why or why not?
- What did you realize as the result of watching this film?
- What questions does the film raise for you—about the material or other issues?
- Did the film challenge your existing views about mental health crisis?

III. Application

Select an individual from the documentary.

- a. Using crisis theory describe the development of the crisis for this individual.
- b. How would you apply the Robert’s crisis intervention model to your work with this individual? For example, if the client identifies substance abuse as the last straw precipitant, discuss how you might help the client to generate and explore alternative ways to cope/manage their psychiatric symptoms as means of decreasing future crisis and build resiliency.
- c. Identify and briefly discuss potential barriers to implementation of your intervention. How might you decrease these barriers?

CASE STUDY MIDTERM ASSIGNMENT – 35%*Due on Unit 7*

The purpose of the midterm assignment is to integrate learning obtained from the unit readings and discussion about crisis intervention and apply it to a clinical case. Written work will be evaluated on how well the student formulates and conceptualizes the case utilizing crisis theory, demonstrates an understanding and application of the Robert's crisis intervention model to the case study.

In the first portion of the assignment you will be expected to develop a case study of a single person which should include the following:

Brief agency description and the role of the social worker within the agency.**Case History**

- Include a brief discussion about the circumstances under which the client presented to your agency for assistance. (For example, is the client self-referred, voluntary, involuntary, etc.? Why are they presenting for help at this time.)

Description of the presenting problem including pertinent biopsychosocial data as it relates to the individuals current crisis state.

- Describe/conceptualize the presenting problem using crisis theory
- Include discussion of the crisis precipitant, subjective distress; failed coping and subsequent impairments in functioning precipitated the need for crisis intervention. (This is not simply a retelling of the problem identified; rather you are synthesizing the information provided in your assessment into a clear and concise problem statement.)
- How long has this been a problem and how is it impacted functioning.
- Include a discussion about similar crisis and coping strategies the individual utilized to resolve this crisis.
- Include any relevant cultural/personal factors (sexual identity, traumatic events, significant attachments, etc.) that contribute to the development, maintenance or resolution of the individual's crisis.

In the second portion of the assignment the student will develop an intervention plan that addresses the presenting problem discussed in Part 1 of the assignment:

Apply and describe crisis intervention strategies that may be utilized, using Robert's stage crisis intervention model.

- The student is required to discuss each stage of the Robert's model and specifically discuss how they will offer interventions consistent with the stage being discussed. (For example, what interventions will be implemented to assess lethality (stage 1) or generate and explore alternatives (stage 5)?
While the student may incorporate and utilize an "eclectic approach" within the second portion of the paper, the student must demonstrate where and how these interventions will be utilized within the Robert's 7 stage model of crisis intervention.
- The student must include a brief discussion of their clinical rationale which is empirically supported for their intervention plan.

Throughout the paper, provide conceptual and empirical evidence to support your problem formulation and intervention strategies, referencing a minimum of 5 scholarly works, at least 3 of which must be outside materials (i.e., not on the syllabus). You may organize your work in a manner you chose however, you must address all topics identified in the assignment guidelines.

The paper should be 8-10 pages in length (not counting references or title page), double-spaced, with 1-inch margins on all sides. Use citation and referencing styles as specified in the Publication Manual of the American Psychological Association (APA style). Throughout the paper, provide conceptual and empirical evidence to support your problem formulation and intervention strategies, referencing a minimum of 5 scholarly works, at least 3 of which must be outside materials (i.e., not on the syllabus).

Midterm assignments are due during the week of **Unit 7**. The date to be determined by your instructor. Papers may be submitted via the course assignment upload page at the VAC or emailed to the instructor. Papers not received by the deadline will lose half a grade point for each day they are late.

The evaluation of the paper will be based on whether you addressed all aspects of the assignment (adequate case description; problem formulation and appropriate interventions; references), the quality of your written work (organization, flow, clarity, grammar, spelling), and the correct application of APA style.

The assignment is worth 35% of your overall grade for this course.

ASSIGNMENT #2 APPLICATION OF BRIEF THERAPEUTIC METHODS—10%

Due on Unit 10

During Unit 10, the student will watch episode of A&E “Obsessed” which explores symptoms and treatment of Obsessive Compulsive Disorder utilizing CBT. The student will select an individual from the episode and apply knowledge of CBT theory and clinical skills discussed during class and in the reading material. The student will be required to select either Sharon or Patricia and discuss the following:

Conceptualize the client’s problem utilizing cognitive behavioral formulation.

- Identify automatic thoughts and core schema demonstrated by the selected individual.
 - Automatic thoughts and core schema may not be explicitly identified and the student’s discussion of these elements may be hypothesized based on the information given.
- Identify emotional and behavioral responses/compensatory strategies that the individual engages in.
 - Include a discussion of the resulting functional impairments caused by these behaviors.
- Include discussion and identify any psychosocial history which may be used to explain and understand the development and maintenance of symptoms. Include identification of any relevant psychosocial stressors experienced by the individual discussed.

Identify and describe 2 interventions demonstrated by the therapist that addressed the selected individual’s cognitions.

- What cognitive interventions would you add? Describe how you would integrate these interventions into treatment (i.e. use of automatic thought records, generating rational alternatives, decatastrophizing etc.)

Identify and describe 2 interventions demonstrated by the therapist that addressed the selected individual’s behavioral responses. Describe 1 additional behavioral intervention you would add to enhance the overall efficacy of treatment with this individual? (This may include activity scheduling, activation etc.)

Describe barriers that the client demonstrated and evaluate how the therapist managed these throughout the treatment process.

- **What additional methods could be utilized to manage barriers or obstacles to change in the therapeutic process?**

- o You may include a discussion of how you would utilize CBT to work with barriers within treatment, psychoeducation, motivational interviewing, relapse prevention etc.

BRIEF TREATMENT INTERVENTION DEMONSTRATION AND CRITICAL ANALYSIS— 35%

Due during finals week.

The final assignment will apply Brief Treatment clinical skills learned in Units 8-14. The 2-part assignment will consist of a role play exercise and a critical analysis/reflective written paper.

The objective of Part 1 of this assignment is to demonstrate an understanding of skills learned by application of them within a recorded session.

In **Part 1** the student will record an unrehearsed, spontaneous therapy “session”. The student will be the therapist. The student will receive case vignettes of three potential clients at the conclusion of Unit 14. The student will randomly select a client that will be role played when they arrive to their “session”. In the case vignette, the student will be provided with all of the relevant biopsychosocial data that they would obtain by conducting an assessment. The student will assume that sufficient time has passed to develop the therapeutic relationship with their client. The session should be reflective of sessions in the “middle phase” of treatment which may be session 2 and beyond. The student should review the case vignettes and develop a “working hypothesis” or case conceptualization prior to the start of the session. The student may begin their “session” with a discussion with your client about this conceptualization/ hypothesis.

The student may practice/prepare for the role play prior to taping, and it is encouraged that you consider potential issues that the “client” may present with and how to address these issues within the session. Students will not have the opportunity to “start over” however, may address any areas of improvement in Part 2 of the assignment. Finally, students may not script sessions. The purpose of the assignment is to approach the session as you would one in your clinical practice.

VAC Students: Contact student support 24 hours prior to completion of your recorded session if you would like to have a conference line connected to your room. Please note that it takes a minimum of 24 hours for recorded session to be available to review on the VAC platform.

The student will have a maximum of 30-45 minutes for their session. During the session, the student will utilize clinical skills from Cognitive Behavioral and/or Solution Focused Therapy Brief treatment models. The student may utilize an “eclectic” approach however, **no more** than 10% of interventions utilized may be outside of those discussed in class. Examples of interventions may include but are not limited to: the miracle question, Socratic questioning, homework assignments, exposure, decatastrophizing, activity scheduling, etc. There is no expectation of a minimum or maximum number of interventions, however, those offered should be appropriate to the “clients” presenting problem.

The objective of Part 2 of the assignment is for the student to review and reflect upon their clinical work conducted in Part 1.

In **Part 2** the student will review the recorded session and complete a written critical analysis and reflection about their role play. The written part of the final should not exceed 8 pages and includes a discussion of the following:

Introduce the interviewee or client:

- Describe the interviewee or client in terms of their age, gender, ethnicity, race, sexual orientation, spirituality or other relevant social identities.
- Describe the presenting problem. Include any relevant biopsychosocial data as it relates to understanding/explaining the “clients” presenting problem. Since this information was provided to the student, your discussion should not exceed 1 page and should include a brief discussion of the students’ formulation of the client’s presenting problem.

Analysis and Critique

The student is required to analyze and evaluate a minimum of 5 skills/interventions demonstrated in the role play. No more than 1 may be a basic interviewing or attending skill (i.e. open ended questioning, empathic/reflective listening etc.) The student will include the interview dialogue that is being discussed and evaluated. The student should use quotes and/or describe how they used the intervention/skills within the session. The student will analyze their role play, identifying the skill that is being demonstrated in the dialogue. In your analysis, include a discussion about the clinical rationale/intent of the skill/intervention demonstrated.

Finally, the student will critically evaluate the skill/intervention utilized, specifically discussing the relevant strengths and weaknesses; and any modifications you would make to your use of the skill/intervention. If there was not an opportunity during the interview to demonstrate a particular skill, include a discussion with an example of how you may have utilized the skill/intervention if the occasion had arisen to do so.

Personal Reflection

To conclude their written analysis and critique, the student will reflect upon their overall ability to implement brief treatment interventions that were discussed throughout the course. The student should identify areas of growth as well as areas of continued practice and study that they may have at the conclusion of the course.

The student will be graded on how well they execute the brief treatment interventions utilized (40%) and their overall analysis and critique of skills demonstrated (50%). Finally, they will be graded on the overall organization and clarity of their written work. (10%) The assignment does not require the use of any outside resources, however, if the student chooses to do so, all work must be cited utilizing 6th edition APA format guidelines and include a reference page. On your cover page, the student must include the URL for the recorded session which will be reviewed by the instructor, or provide a DVD or other electronic version of the recording. **UPC Students:** You may utilize Google Drive or Dropbox to share your video link with your instructor.

The student's written assignment must be emailed/uploaded to the assignment page by a date to be determined by the instructor. Late assignments will be penalized a half grade point for each 24 hour period after the due date, the assignment is turned in.

CLASS PARTICIPATION - 10%

Student is expected to come to and remain in class for entire sessions. Student is expected to participate in class discussions. Texting and working on anything other than course material is considered not participating and participations points will be deducted accordingly.

Grading Standards

Grades of A or A- are reserved for student work which not only demonstrates very good mastery of content but which also shows that the student has undertaken a complex task, has applied critical thinking skills to the assignment, and/or has demonstrated creativity in her or his approach to the assignment. The difference between these two grades would be determined by the degree to which these skills have been demonstrated by the student.

A grade of B+ will be given to work which is judged to be very good. This grade denotes that a student has demonstrated a more-than-competent understanding of the material being evaluated in the assignment.

A grade of B will be given to student work which meets the basic requirements of the assignment. It denotes that the student has done adequate work on the assignment and meets basic course expectations.

A grade of B- will denote that a student's performance was less than adequate on an assignment, reflecting only moderate grasp of content and/or expectations.

A grade of C would reflect a minimal grasp of the assignment, poor organization of ideas and/or several significant areas requiring improvement.

Grades between C- and F will be applied to denote a failure to meet minimum standards, reflecting serious deficiencies in all aspects of a student's performance on the assignment.

REQUIRED AND SUPPLEMENTARY INSTRUCTIONAL MATERIALS & RESOURCES

Required Textbooks

The following textbooks are required readings for SOWK 615. Each book was carefully chosen to expose students to the most essential concepts for this course. There are very few articles on the reading list. We understand that these books are expensive. There are alternative methods for retrieving the readings, including accessing digital copies of books on library reserve services, renting text books from commercial online services, etc.

Berg, I. & de Jong, P. (2012). *Interviewing for solutions*. 4th Edition. New York: Thompson Brooks/Cole.

Roberts, A. (Eds.). (2005). *Crisis intervention handbook*. New York: Oxford University Press.

Wright, J., Basco, M. & Thase, M. (2006) *Learning Cognitive Behavior Therapy: An illustrated guide*. Washington, DC: American Psychiatric Publishing, Inc.

Course readings outside of the course texts may be located on ARES. Additional required and recommended readings may be assigned by the instructor throughout the course.

University Policies and Guidelines

VIII. ATTENDANCE POLICY

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives which could affect your course grade. Students are expected to notify the instructor by email of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students' observance of a holy day. Students must make arrangements *in advance* to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to Scampus and to the USC School of Social Work Student Handbook for additional information on attendance policies.

IX. STATEMENT ON ACADEMIC INTEGRITY

USC seeks to maintain an optimal learning environment. General principles of academic honesty include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one's own academic work from misuse by others as well as to avoid using another's work as one's own. All students are expected to understand and abide by these principles. *SCampus*, the Student Guidebook, contains the Student Conduct Code in Section 11.00, while the recommended sanctions are located in Appendix A: <http://www.usc.edu/dept/publications/SCAMPUS/gov/>. Students will be referred to the Office of Student Judicial Affairs and Community Standards for further review, should there be any suspicion of academic dishonesty. The Review process can be found at: <http://www.usc.edu/student-affairs/SJACS/>.

Additionally, it should be noted that violations of academic integrity are not only violations of USC principles and policies, but also violations of the values of the social work profession.

X. STATEMENT FOR STUDENTS WITH DISABILITIES

Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. *Please be sure the letter is delivered to the instructor as early in the semester as possible.* DSP is located in STU 301 and is open from 8:30 a.m. to 5:00 p.m., Monday through Friday. The phone number for DSP is (213) 740-0776.

XI. EMERGENCY RESPONSE INFORMATION

To receive information, call main number (213)740-2711, press #2. "For recorded announcements, events, emergency communications or critical incident information."

To leave a message, call (213) 740-8311

For additional university information, please call (213) 740-9233

Or visit university website: <http://emergency.usc.edu>

If it becomes necessary to evacuate the building, please go to the following locations carefully and using stairwells only. Never use elevators in an emergency evacuation.

Students may also sign up for a **USC Trojans Alert** account to receive alerts and emergency notifications on their cell phone, pager, PDA, or e-mail account. Register at <https://trojansalert.usc.edu>.

UNIVERSITY PARK CAMPUS		ACADEMIC CENTERS	
City Center	Front of Building (12 th & Olive)	Orange County	Faculty Parking Lot
MRF	Lot B	San Diego	Building Parking Lot
SWC	Lot B	Skirball	Front of Building
VKC	McCarthy Quad

XII. STATEMENT ABOUT INCOMPLETES

The Grade of Incomplete (IN) can be assigned only if there is work not completed because of a documented illness or some other emergency occurring after the 12th week of the semester. Students must NOT assume that the instructor will agree to the grade of IN. Removal of the grade of IN must be instituted by the student and agreed to be the instructor and reported on the official “Incomplete Completion Form.”

XIII. POLICY ON LATE OR MAKE-UP WORK

Papers are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If the paper is late without permission, the grade will be affected.

XIV. POLICY ON CHANGES TO THE SYLLABUS AND/OR COURSE REQUIREMENTS

It may be necessary to make some adjustments in the syllabus during the semester in order to respond to unforeseen or extenuating circumstances. Adjustments that are made will be communicated to students both verbally and in writing.

XV. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS

Approved by the 1996 NASW Delegate Assembly and revised by the 2008 NASW Delegate Assembly [http://www.socialworkers.org/pubs/Code/code.asp]

Preamble

The primary mission of the social work profession is to enhance human wellbeing and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession’s focus on individual wellbeing in a social context and the wellbeing of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. “Clients” is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation administration, advocacy, social and political action, policy development and

implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

Service
Social justice
Dignity and worth of the person
Importance of human relationships
Integrity
Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.

XVI. COMPLAINTS

If you have a complaint or concern about the course or the instructor, please discuss it first with the instructor. If you feel cannot discuss it with the instructor, contact the chair of the [xxx]. If you do not receive a satisfactory response or solution, contact your advisor and/or Vice Dean Dr. Paul Maiden for further guidance.

XVII. TIPS FOR MAXIMIZING YOUR LEARNING EXPERIENCE IN THIS COURSE

- ✓ Be mindful of getting proper nutrition, exercise, rest and sleep!
- ✓ Come to class.
- ✓ Complete required readings and assignments BEFORE coming to class.
- ✓ BEFORE coming to class, review the materials from the previous Unit AND the current Unit, AND scan the topics to be covered in the next Unit.
- ✓ Come to class prepared to ask any questions you might have.
- ✓ Participate in class discussions.
- ✓ AFTER you leave class, review the materials assigned for that Unit again, along with your notes from that Unit.
- ✓ If you don't understand something, ask questions! Ask questions in class, during office hours, and/or through email!
- ✓ Keep up with the assigned readings.

Don't procrastinate or postpone working on assignments.
