No Office Hours: By Appointment Only  

Class SA: TBA  

Welcome to CTPR 422. We meet FRIDAY MORNINGs from 10am to 11:50am SCX 212. This is a very fast paced lecture and hands-on workshop class. You will get your hands dirty and you will sit quietly and listen to longwinded descriptions. Good attendance is strongly recommended. If you miss even one class you can fall significantly behind.  

ATTENDANCE  
Tardiness or unexcused absences will not be tolerated. Missing even one class can make you fall drastically behind. Excused absences can be made up and must be cleared with the instructor.  

COURSE OBJECTIVE  
The objective of this course is for the student to learn the basic and most fundamental skills necessary to be a professional makeup artist in the entertainment industry. Basic corrective beauty, injury simulation and fantasy are some of the techniques we will work on in this class. Human anatomy, physiology and decay will be constant themes throughout this course. You will also be ingrained with the necessary professionalism and set etiquette required to have a career in this industry.  

REQUIRED EQUIPMENT  
You will need a positive attitude and a willingness to learn things you might not have ever done and are terrified to try. Some materials will be provided in class; however you will need to pick up products throughout this course for specific projects. A list of these items will be handed out on the first day of class.  

SKILLS  
Brush and hand dexterity are essential in the class as well a strong knowledge of the visible color spectrum. I will teach you all of these skills and expect that you will have none of them when you began this class.  

FINAL FILM PROJECT  
Every project in this class is geared to prepare you for your final project. You will be cut loose to apply all the skills you have learn throughout this course to create your own character. This character must be cinematically believable and show your artistic skill as well as an understanding of physiology.
ASSIGNMENTS
Each week I will demonstrate specific techniques to achieve a variety of effects. The following week you will mimic these techniques to achieve a similar effect of your choosing.

DUE – CLASS Thirteen  
Makeup Morgue
As a Makeup Artist you will be expected to recreate effects that may not be something you have ever experienced. Whether you are recreating a period makeup from ancient Egypt, a 1970’s Disco Queen or a shotgun wound to the chest, a Morgue is essential for any accurate recreation. A Morgue is a collection of photos that will aid you in the recreation of any makeup effect you may need to simulate. Here are some examples of the categories found in a Makeup Morgue:

- Facial Hair
- Bullet Holes
- Lacerations
- Burns
- Different Ages of Men
- Different Ages of Women
- Eyes
- Noses
- Ears
- Etc....

This is only a few of the possible categories you will find in a Morgue. This Morgue is your project and it should be organized the way it will work best for you. The grading of your Morgue will be in the following categories.

- Presentation
- Organization
- Number of Categories (3 minimum)
- Originality of Photos

Resources for a Morgue can be found anywhere that stimulates your creativity. Time Magazine is a great resource for real people. Any number of the world’s beauty magazines are a good source for pretty people. E.M.T. and medical books are good for finding tasteful images of real injuries. The Internet is a fine source for unique images but be cautious. There is no one editing the material people put online and you can find some unexpectedly grisly images.
BOOKS I RECOMMEND

- *Stage Makeup* - Richard Corson
- *Special Make-up Effects* – Vincent J-R Kehoe
- *Modern Make-Up* – Ellen M. Gall and Leslie H. Carter
- *Metamorphoses* – Diakonoff
- *Transfigurations* – Veruschka

GRADING

It is difficult to grade someone on their artistic ability. It is for this reason that I have created some projects so that a student can be graded based on their level of participation.

- Hands-On Exercises: 20%
- Midterm: 30%
- Morgue: 20%
- Final Project: 30%

Extra Credit: +5%

<table>
<thead>
<tr>
<th>Grade Earned</th>
<th>Percentage of Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>91</td>
</tr>
<tr>
<td>B</td>
<td>80</td>
</tr>
<tr>
<td>C</td>
<td>70</td>
</tr>
<tr>
<td>D</td>
<td>Below 70</td>
</tr>
</tbody>
</table>

Extra credit is available if you are falling behind in any category. You are not required to perform any extra credit or you can perform as much extra credit as you like. To receive extra credit you must work as a makeup artist on any film or print project. I will need photos and a note from the person in charge of the project you work on in order to earn the credit.

All absences must be discussed with me beforehand in order to be able to make up the missed class.

</table>
First Project – Matching Skin Tones

Fundamentals of the visible color spectrum and how it affects your work, introduction to the tools and products in your kit, match a classmate’s skin tone with only the primary colors.

Second Project – Highlight/Shadow

Discuss human bone structure and ageing, sculpting the face with color not just painting it.

Third Project – Injury Simulation

Discuss Human anatomy, physiology and decay then create lacerations, bullet holes, scraps, blood, scars, stab wounds, black eye/burses with only the simple products in your kit.
Two Part Midterm

Part One – Hands On: 50% of Midterm Grade

You have learned enough in this class and it’s time to design your own character. I will make it easy on you. The subject is “Crack Head.” I use the term in its most generic sense. What I am looking for is an extreme addict with one foot in the grave - the walking dead. Seriously! With the basic understanding of color, shading, injury and decay this should be a snap.

Part Two – Written: 50% of Midterm Grade

I will test your academic skills. Have you been paying attention during class, taking notes, technical understanding of the art form? The test will consist of 10 questions, all short answer.

Fourth Project – Cadaver/Frostbite

Discuss the physiological effects of early decay and all three levels of frostbite. Achieve these effects realistically with simple products.

Fifth Project – Fantasy

Discuss out of this world ideas and creatures, still adhering to the rules of nature. Use the skills learned in previous projects to create a fantastical being of your choice.
Sixth Project – Working Smoke Effect

Introduction to prosthetics, burn injury simulation, blood tubing, smoke effect.

Final Project

Use all skills learned in the class to create a character that is interesting to you, something you think you will have fun with. No rules, no specific criteria. You are only required to do the face in class. If your character has special hair, body make-up or costume you can do all that before you come in.

You will want to wear clothes you don’t love. Projects can get messy and might be way too much fun.
STUDENTS WITH DISABILITIES
Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. Please be sure that the letter is delivered to the professor as early in the semester as possible. DSP is located in STU 301 and is open 8:30 am-5pm, Monday through Friday. The phone number is 213-740-0776.

STATEMENT ON ACADEMIC INTEGRITY
USC seeks to maintain an optimal learning environment. General principles of academic honesty include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one’s own academic work from misuse by others as well as to avoid using another’s work as one’s own. All students are expected to understand and abide by these principles. Scampus, the Student Guidebook, contains the Student Conduct Code in Section 11.00, while the recommended sanctions are located in Appendix A:
http://www.usc.edu/dept/publications/SCAMPUS/gov/.

Students will be referred to the Office of Student Judicial Affairs and Community Standards for further review, should there be any suspicion of academic dishonesty. The Review process can be found at:
http://www.usc.edu/student-affairs/SJACS/.

EMERGENCY PREPAREDNESS/COURSE CONTINUITY IN A CRISIS
In case of a declared emergency if travel to campus is not feasible, USC executive leadership will announce an electronic way for instructors to teach students in their residence halls or homes using a combination of Blackboard, teleconferencing, and other technologies.

Please activate your course in Blackboard with access to the course syllabus. Whether or not you use Blackboard regularly, these preparations will be crucial in an emergency. USC's Blackboard learning management system and support information is available at blackboard.usc.edu.

DISRUPTIVE STUDENT BEHAVIOR
Behavior that persistently or grossly interferes with classroom activities is considered disruptive behavior and may be subject to disciplinary action. Such behavior inhibits other students’ ability to learn and an instructor’s ability to teach. A student responsible for disruptive behavior may be required to leave class pending discussion and resolution of the problem and may be reported to the Office of Student Judicial Affairs for disciplinary action.
