Course description

This course is the first tax course offered in a number of seven and one-half week courses for accounting majors. Together, these courses cover financial accounting, auditing, internal control, systems, and taxation. The focus of this course is basic tax issues for taxpayers including individuals and businesses. The topics include basic income tax computation, income definition, property transactions, taxes and investment and financing decisions, etc. The purpose is to provide a basic understanding of the role of taxes in decision-making and to prepare students for advanced topics in the second tax course.

The materials used in this course include the tax law (the Internal Revenue Code), authoritative governmental regulations, and Internal Revenue Service rulings. We will learn to do basic research of tax issues using the sources. In addition, we will discuss several case studies which put the tax rules into specific business context.

OBJECTIVE 3 (Ethical Decision Making): Students will demonstrate an understanding of ethics, ethical behavior and ethical decision making with respect to taxation issues.

3. All assignments are due on the dates indicated on the course syllabus. Late assignment will receive a grade of ZERO.
4. Class attendance is very important in developing a coherent view of the materials covered in the course. It is expected that each student will be prepared for each class and will participate through volunteering or by being called on to add to the discussion.
5. The grade point average for this class is roughly 3.3.
6. This course is subject to the Honor Code of Leventhal School of Accounting.
7. According to the *Guidelines on Documents Retention*, University policy requires that "Final exams and all other grade work which affected the course grade" be kept for one year. Other papers or work that instructors hand back but that students fail to pick up can be held for one month, as long as this policy is specified in the syllabus.

Emergency Preparedness/Course Continuity

Explanation - This section is a syllabus requirement. Instructors should be prepared to assign students a "Plan B" project that can be completed at a distance. For additional information about maintaining your classes in an emergency please access: cst.usc.edu/services/emergencyprep.html.

In case of a declared emergency if travel to campus is not feasible, USC executive leadership will announce an electronic way for instructors to teach students in their residence halls or homes using a combination of Blackboard, teleconferencing, and other technologies.

Please activate your course in Blackboard with access to the course syllabus. Whether or not you use Blackboard regularly, these preparations will be crucial in an emergency. USC's Blackboard learning management system and support information is available at blackboard.usc.edu.
