Introduction to Audio Recording and Editing (MTEC 246)
Course Syllabus, Spring 2017 – 43415 and 43424
Mondays 10-11:50AM or Tuesdays 12-1:50PM G147 Lab

Instructor: Charles Gutierrez:
E-mail: chgutier@usc.edu
Mailbox: LPB 118
Office: TBD
Office Hours: On UPC Campus M-Th, and/or by appointment

Course Description
MTEC 246 is an 8-week semester course introducing techniques and applications of recording, editing and mixing of digitally produced sound on personal computers. Discussions will also include a study of current hardware and software required as well as standardized basic editing workflows and techniques of music, dialog, and sound effects for song, commercials and film.

Important Registration Information
Enrolled or enrolling students are given ONLY the first week of instruction to add/drop an 8-week semester course.
Please review these policies via Trojan online scheduling. No exceptions will be allowed.

Student Course Objectives:
• Understand DAW Audio Technology
• Create and Configure a Pro Tools Session
• Use the Main Pro Tools Windows and Displays
• Import Audio Files and Clips
• Work with Selections and Navigate a Pro Tools Session
• Create Audio Clips and Edit Tracks
• Record Audio into Pro Tools Session
• Use Audio Loops in Production Process
• Process Audio Using Native AAX Plug-ins
• Create Stereo Mixes Within Pro Tools
• Bounce Tracks and Disk
• Basic File Asset Management

Requirements, Exams and Grading Information:
Student evaluation in MTEC 246 will consist of tests, practical lab assignments and an assigned student project. The assignments include short lab exercises and a term project. In general, students will be given one week to complete and turn in lab exercises. Assignments turned in late will be lowered one grade per week and will not be accepted beyond two weeks late. All assignments must carefully follow file management and format guidelines. Instructions for the term projects will be available at a later date. But, in general, will include demonstrated and learned techniques from all course work to date.

Quizzes will be administered throughout the semester from assigned online module content, consisting of multiple choice/answer, true/false, multiple answers, and hot spot questions. Quizzes and tests must be taken during the scheduled times and cannot be made up at a later date.

Attendance is taken each class and will count towards your final participation point grade. After one absence your overall participation grade points will be lowered one point for each additional absence. Because of the importance of hands on experience with this subject, attendance to all classes is the only method of understanding the concepts of these specialized topics.
Grading Summary:

<table>
<thead>
<tr>
<th>ITEM</th>
<th>Value</th>
<th>Grading Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Participation</td>
<td>10%</td>
<td>See Syllabus for details</td>
</tr>
<tr>
<td>2. Quizzes (3)</td>
<td>30%</td>
<td>Total question possible/total % correct</td>
</tr>
<tr>
<td>3. Final Project</td>
<td>30%</td>
<td>Follow outline directions and timely submission</td>
</tr>
<tr>
<td>4. Lab Exercises (6)</td>
<td>30%</td>
<td>Timely submission, complete as directed</td>
</tr>
</tbody>
</table>

***Please be advised anyone found surfing the web will be asked to leave the class. Before you can be readmitted to the class you must meet with the program chair.

Class Materials:

1. Reference headphones are required and should be brought to all classes. Must have ¼” connector or adapter. No ear buds please. All assignments will be evaluated using AKG 240M or Sony MDR 7506 reference headphones!
2. USB Memory Stick

Communication:
Please make it a daily habit to use/check your USC E-mail account. Any E-mails I send to the class will use that account. ***Please add “246” in the subject header of all emails that you send me*** This will help me to organize all the emails that I receive and respond to you more quickly.

Blackboard:
In addition all course materials and class grades will be posted on Blackboard (http://blackboard.usc.edu). For example the course syllabus can be found under Course Syllabus, Module information under Content, and exercise and project instructions under Assignments.

Disabilities:
Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. Please be sure the letter is delivered to me as early in the semester as possible. DSP is located in STU 301 and is open 8:30 a.m.-5:00 p.m. Monday through Friday. The phone number for DSP is 213/740-0776.

Academic Integrity:
Academic Integrity-Students are expected to adhere to the Academic Integrity Guidelines of USC as outlined in the current edition of SCampus. Work found to contain plagiarized or uncited materials will be referred to the USC Office of Student Conduct for review. Academic Integrity violations will result in a failing grade for submitted material and for the course, and dismissal from the Music Industry Program for majors and minors.

Page 2
Course Schedule (Schedule and Content Subject to Instructor Change)

Week 1
Introduction
DAW System Components Overview
Opening Pro Tools session
Overview of DAW GUI
Saving session
Lab 1 – Basic Usage and Simple Two-Track Edit
*Module Assignment 1: DAW Basics*

Week 2
Recording Audio
Signal Flow
  Latency
  Hardware Buffer
Using line and microphone signals
Setting basic levels
Record Options
  Click/Options
  Conductor
  Session Tempo
  Pre/Post
  Punch In/Out
Editing Timeline Clips
  Separate
  Capture
  Trim
Rename Clips
Lab 2 – Recording Lab
*Module Assignment 2: Basic Digital Theory*

Week 3
Creating session
Session Parameters
Importing Media into Session
Basic Editing Techniques
  Tab to Transient
  Navigation and Viewing audio files
Using Loops
  Import Loops
  Duplicate
  Repeat
  TCE Trim
Elastic Audio Tracks
  Tempo Conforming Clips
Loop Trim
Lab 3 – Loops, Conform and Editing Lab
*Module Assignment 3: Microphones*
*Quiz 1: Module 1 and 2*
Week 4
Track Balance
Panning
Signal Processing
Editing Project Due
Lab 4 – Mix Lab 1 - Mixing Basics (Balance)
Module Assignment 4: Processing Basics – EQ and Dynamics

Week 5
Effect Processing
Spectral Processing
Dynamic Processing
AAX Plug-In Usage
Printing Tracks – Internal Recording II
Lab 5 - Mix Lab 2
Quiz 2: Modules 3 and 4

Week 6
Additional Processing Techniques
Master Bus Processing
Basic Dither Usage
Bouncing Session
File asset management
Lab 6 – Bounce and Asset Management

Week 7
Open Lecture review or concepts
Quiz 3: Pro Tools Interactive Test

Week 8
Course Review
Final Production Due
