I. COURSE PREREQUISITES

This course is a Foundation Year master's level Field Practicum course. Students are required to take this course concurrently with SOWK 587a Integrative Learning for Social Work Practice and SOWK 543 Social Work Practice with Individuals.

II. CATALOGUE DESCRIPTION

Supervised field placement to develop practice skills in working with individuals, families, groups, communities and organizations. Graded CR/IP/NC.

III. COURSE DESCRIPTION

Course Description

Field Practicum is the direct practice portion of the MSW program. It is a collaborative endeavor between the USC Suzanne Dworak-Peck School of Social Work School and urban and rural agencies located throughout the country with a high concentration in Southern California. It provides students the opportunity to practice social work skills under the supervision of a professional social worker and apply evidence-informed interventions in their work with individuals, families, groups, organizations, and communities.

The Suzanne Dworak-Peck School of Social Work prepares students to enter their Field Practicum by engaging them in the following activities: Community Immersion, Field Education Orientation, and evidence-based intervention (EBI) training. Continuing support is provided to students through weekly Integrative Seminar classes and by a Field Faculty Liaison who serves as an educator and consultant for the internship experience. At semester end, the Field Faculty Liaison is responsible for

assigning students a grade of Credit, In Progress, or No Credit based on recommendations from agency Field Instructors.

In collaboration with the School, agencies provide learning opportunities and resources for an effective educational experience for students. Field Instructors are professional social workers who guide and teach students how to apply social work practice, values and ethics in a professional setting. Field Instructors also collaborate with students to create and approve learning plans, discuss and give feedback on Reflective Learning Tools, complete and sign end-of-semester evaluations, and ensure paperwork is finished on time.

Students are expected to take an active role in their experiences through the use of three core learning processes: self-reflection, interaction, and risk-taking. This teaching method draws on Transformative Learning Theory which asserts that students develop integrative knowledge about self and others in a dynamic, multicultural society from multiple perspectives (Lee & Greene, 2003). A primary goal is to help students understand their own and others' cultural experiences, to challenge their preconceptions and stereotypes, and to develop an attitude of openness and flexibility in cross-cultural interactions. As students explore their burgeoning professional role and identity, they will also be learning about assessment, documentation, and the informed application of EBIs.

Professional social work has developed core practice principles around several foundational concepts. Person-in-environment (P-I-E) teaches that client behavior "cannot be understood adequately without consideration of the various aspects of that individual's environment (social, political, familial, temporal, spiritual, economic, and physical)" (Kondrat, 2011). Ecological systems theory suggests clients should be viewed "...contextually within the system of relationships that forms his or her environment" (Bronfenbrenner, 1968). This includes a "person's maturing biology, his (*sic*) immediate family/community environment, and the societal landscape (that) fuels and steers his development" (Paquette & Ryan, 2001). Both P-I-E and systems theory provide context for more holistic bio-psychosocial assessments and EBIs than those that focus only on "changing an individual's behavior or psyche..." (Kondrat, 2011).

The modern framework of Intersectionality urges practitioners to recognize and validate the intersection of numerous factors within a client's life experiences, including "age, class, color, culture, disability, ethnicity, gender, gender identity and expression, immigration status, political ideology, race, religion sex, and sexual orientation" (Crenshaw, 1989; CSWE, 2008). Seen primarily through the lens of ethnicity, gender identity, race and sexual orientation, Intersectionality as a framework can help students validate client narratives of trauma, oppression, and discrimination (Crenshaw, 1989). EBIs such as Motivational Interviewing, Cognitive Behavioral Therapy (CBT), Problem-Solving Therapy and other client-centered approaches provide congruence with Intersectionality by focusing on affirming client narratives, practicing reflective listening, and eliciting change talk. These empowering theories and frameworks not only help students at the individual and group client level, but also set the stage for understanding how their work is linked to societal systems change.

Due to its direct practice component, Field Education is a natural setting for the advancement of translational science: taking research from the experimental to the applicable with a macro goal of influencing policy (Tufts University Clinical and Translational Science Institute, 2011). Each year, students in Field Practicum have the opportunity to implement research-influenced practices in multidisciplinary settings, thereby contributing to the direct application of EBIs and influencing the capacity of organizations to provide EBIs. Infusing USC Suzanne Dworak-Peck School of Social Work Field Practicum with EBIs provides a translational link between research and practice, further solidifies a developing science of social work, and underscores Field Education as the "signature pedagogy" of social work.

IV. COURSE OBJECTIVES

Objective #	Objectives
1	Integrate classroom theories and concepts with direct practice social work in vulnerable community settings where the effects of poverty, discrimination and oppression are pervasive in an effort to bring about both individual and societal change
2	Connect behavioral science to practice by learning and applying evidence-based interventions (EBIs) such as Motivational Interviewing in internship placements

Objective #	Objectives
3	Enhance skills across the spectrum of culturally appropriate social work services, from engagement to assessment, goal-setting, intervention, evaluation, and termination
4	Develop professional use of self through observation of professional social workers, self-reflection, understanding of social work values, and implementation of those values in internship placements
5	Increase proficiency in the required Council on Social Work Education's (CSWE) Core Competencies as indicated in the Comprehensive Skills Evaluation

V. COURSE FORMAT / INSTRUCTIONAL METHODS

Field Education is systematically designed, supervised, coordinated, and evaluated based on criteria by which students demonstrate the achievement of program competencies (Brooks, 2010). These competencies are articulated in the CSWE EPAs and make up the Comprehensive Skills Evaluation for Field Practicum. To prepare students for successfully achieving those competencies, a variety of instructional methods are utilized by both USC Field Faculty and agency Field Instructors.

Instructional methods consist of university-led trainings, activities, and guidance combined with community agency activities under the supervision of a designated Field Instructor, including hands-on interactions with clients, shadowing opportunities, trainings, individual supervision, group supervision, guidance on proper documentation, crisis management responses, didactic instruction, and experiential exercises. Students may also develop a working relationship with site-based employees, known as Preceptors, who help guide them in day-to-day operations and many of the activities listed above.

All USC MSW students participate in a two-day faculty-led Community Immersion that exposes them to diverse communities where they may be working as student interns and professional social workers. Students also attend a Field Education Orientation where they learn about the School's requirements for Field Practicum. In addition, all incoming students will be trained in Motivational Interviewing prior to beginning internship or during the first six weeks of their first semester. The process of training students on EBIs will include the use of:

- Case vignettes
- Videos
- Role plays
- Structured small group exercises

USC Field Faculty Liaisons are assigned to oversee the progress of the students in their field placements, including consultation for students' Field Practicum assignments. Working on behalf of the School of Social Work, the Liaisons meet with students as needed to facilitate their placement experiences and schedule Field Instructor and student contacts each semester to ensure the quality of students' learning opportunities. The Liaisons also clarify School expectations and serve as consultant and mediator for student and agency-related conflicts.

Reflective Learning Tools are used to describe student interactions with clients, provide an opportunity for Field Instructor input, and influence future client contacts. A teaching plan known as the Learning Agreement will be developed collaboratively between students and their Field Instructors. At the end of the first semester, Field Instructors will complete the Comprehensive Skills Evaluation and recommend a grade to the Field Faculty Liaison.

As discussion and participation are an integral part of the learning process, students are expected to prepare for supervision and to come to internship ready to apply the best practices of social work with agency clients and systems. Internship days are generally Mondays and Wednesdays, although some variations may occur. The number of hours required in the field (16 hrs/week) includes at least one eight-hour day. By the end of the first semester, approximately 50% of the student's weekly hours are expected to be spent in direct client contact.

VI. STUDENT LEARNING OUTCOMES

Student learning for this course relates to all ten Social Work Core Competencies:

	Social Work Core Competencies	SOWK 586a	Course Objectives
1	Demonstrate Ethical and Professional Behavior	*	4,5
2	Engage in Diversity and Difference in Practice	*	1,4,5
3	Advance Human Rights & Social, Economic, and Environmental Justice	*	1-5
4	Engage in Practice-informed Research & Research-informed Practice	*	1,3,5
5	Engage in Policy Practice	*	1,3,5
6	Engage with Individuals, Families, Groups, Organizations and Communities	*	1,2,5
7	Assess Individuals, Families, Groups, Organizations and Communities	*	1,3,5
8	Intervene with Individuals, Families, Groups, Organizations and Communities	*	1,5
9	Evaluate Practice with Individuals, Families, Groups, Organizations and Communities	*	1,2,5

* Highlighted in this course

The following table explains the highlighted competencies for Field Education, the related student learning outcomes, and the methods of assessment. Students are expected to demonstrate skill development in achieving these competencies.

Competencies/ Knowledge, Values, Skills	Student Learning Outcomes	Methods of Assessment
Demonstrate Ethical and Professional Behavior: <ul style="list-style-type: none"> Understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels Understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas Recognize personal values and the distinction between personal and professional values and understand how their personal experiences and affective reactions influence their professional judgment and behavior Understand the profession's history, its mission, and the roles and responsibilities of the profession Understand the role of other professions when engaged in inter-professional teams Recognize the importance of life-long learning and are committed to continually updating their skills to ensure they are relevant and effective Understand emerging forms of technology and the ethical use of technology in social work practice 	<p>Make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context;</p> <p>Use reflection and self-regulation to manage personal values and maintain professionalism in practice situations;</p> <p>Demonstrate professional demeanor in behavior; appearance; and oral, written, and electronic communication;</p> <p>Use technology ethically and appropriately to facilitate practice outcomes; and</p> <p>Use supervision and consultation to guide professional judgment and behavior.</p>	<p>Observation of participation and engagement in weekly practice lab</p> <p>Evaluation of participation in ethics and risk factors vignettes</p> <p>Field documentation</p> <p>Weekly supervision</p> <p>Completion of field hours</p>

<p>Engage in Diversity and Difference in Practice:</p> <ul style="list-style-type: none"> Understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Understand that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Course Schedule—Detailed Description

Guidelines for Field Practicum

The USC Suzanne Dworak-Peck School of Social Work places MSW students in thousands of internships nationally and internationally in a variety of different settings: health, mental health, public child welfare, schools, etc. This syllabus serves as a general set of expectations for our students and their Field Instructors in these internships. However, given the challenges of standardizing direct social work practice, a variety of experiences within these guidelines is expected. Therefore, it is recommended that all stakeholders involved in SOWK 586a Field Practicum utilize the following units as best practice guidelines.

Unit 1:	Community Immersion and Field Orientation	(Date)
Topics		
<ul style="list-style-type: none"> ■ Participate in activities designed to prepare students for Foundation Year Field Practicum ■ Tasks: <ul style="list-style-type: none"> ▼ Attend all-day Foundation Year Field Orientation to better understand the Field Education program, including roles expectations, responsibilities and entitlements ▼ Participate in two-day Community Immersion (occurs the week before classes start) led by Policy Faculty that exposes students to community agencies working with clients from specific geographic areas 		

This Unit relates to course objectives 3, 4, & 5.

Unit 2: Evidence-Based Intervention (EBI) Training (Date)

Topics

- Participate in Motivational Interviewing training (continued support to occur in Integrative Seminar throughout the Foundation Year)
- Confirm names and identities of Field Practicum support network: Academic Advisor, Field Instructor, Field Liaison, Preceptor (if applicable), and Integrative Seminar instructor
- Tasks:
 - ▼ Review EBI training manual prior to scheduled training
 - ▼ Attend EBI training and submit *Certificate of Completion* to Field Liaison

This Unit relates to course objectives 1, 2, 3, 4, & 5.

Unit 3: Orientation to Agency, Community and Field Instructor First Week of Field Placement (Date)

Topics

- Participate in agency-run MSW intern orientation and, if applicable, establish Preceptor relationship
- Start to review and develop skills as described in CSWE's Ten Core Competencies
- Understand student role as learner and Field Instructor role as teacher in Field Practicum
- Develop educational relationship with Field Instructor by exploring expectations, discussing teaching and learning styles, and setting field instruction schedule for one (1) hour per week
- Tasks:
 - ▼ Attend agency orientation and learn about agency's mission, service, structure, community served, and role in the community
 - ▼ Begin development of Learning Agreement in conjunction with Field Instructor

STUDY DAYS / NO CLASSES OR INTERNSHIP (Date)

FINAL EXAMINATIONS (NO INTERNSHIP) (Date)

University Policies and Guidelines

VI. ATTENDANCE POLICY

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives which could affect your course grade. Students are expected to notify the instructor by email (xxx@usc.edu) of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students' observance of a holy day. Students must make arrangements *in advance* to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to Scampus and to the USC School of Social Work Student Handbook for additional information on attendance policies.

VII. ACADEMIC CONDUCT

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Section 11, *Behavior Violating University Standards* <https://scampus.usc.edu/1100-behavior-violating-university-standards-and-appropriate-sanctions/>. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct/>.

Discrimination, sexual assault, and harassment are not tolerated by the university. You are encouraged to report any incidents to the *Office of Equity and Diversity* <http://equity.usc.edu/> or to the *Department of Public Safety* <http://capsnet.usc.edu/departments/departments-public-safety/online-forms/contact-us>. This is important for the safety whole USC community. Another member of the university community – such as a friend, classmate, advisor, or faculty member – can help initiate the report, or can initiate the report on behalf of another person. *The Center for Women and Men* <http://www.usc.edu/student-affairs/cwm/> provides 24/7 confidential support, and the sexual assault resource center webpage sarc@usc.edu describes reporting options and other resources.

VIII. SUPPORT SYSTEMS

A number of USC’s schools provide support for students who need help with scholarly writing. Check with your advisor or program staff to find out more. Students whose primary language is not English should check with the *American Language Institute* <http://dornsife.usc.edu/ali>, which sponsors courses and workshops specifically for international graduate students. *The Office of Disability Services and Programs* http://sait.usc.edu/academicsupport/centerprograms/dsp/home_index.html provides certification for students with disabilities and helps arrange the relevant accommodations. If an officially declared emergency makes travel to campus infeasible, *USC Emergency Information* <http://emergency.usc.edu/> will provide safety and other updates, including ways in which instruction will be continued by means of blackboard, teleconferencing, and other technology.

IX. STATEMENT ABOUT INCOMPLETES

The Grade of Incomplete (IN) can be assigned only if there is work not completed because of a documented illness or some other emergency occurring after the 12th week of the semester. Students must NOT assume that the instructor will agree to the grade of IN. Removal of the grade of IN must be instituted by the student and agreed to by the instructor and reported on the official “Incomplete Completion Form.”

X. POLICY ON LATE OR MAKE-UP WORK

Papers are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If the paper is late without permission, the grade will be affected.

XI. POLICY ON CHANGES TO THE SYLLABUS AND/OR COURSE REQUIREMENTS

It may be necessary to make some adjustments in the syllabus during the semester in order to respond to unforeseen or extenuating circumstances. Adjustments that are made will be communicated to students both verbally and in writing.

XII. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS

*Approved by the 1996 NASW Delegate Assembly and revised by the 2008 NASW Delegate Assembly
[<http://www.socialworkers.org/pubs/Code/code.asp>]*

Preamble

The primary mission of the social work profession is to enhance human wellbeing and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual wellbeing in a social context and the wellbeing of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. "Clients" is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.

XIII. COMPLAINTS

If you have a complaint or concern about the course or the instructor, please discuss it first with the instructor. If you feel cannot discuss it with the instructor, contact the 586a Lead Instructor (contact vacfield@usc.edu for the Lead Instructor's contact information). If you do not receive a satisfactory response or solution, contact your advisor and/or Associate Dean and MSW Chair Dr. Leslie Wind for further guidance.
