Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. Please be sure the letter is delivered to me as early in the semester as possible. DSP is located in STU 301 and is open from 8:30 a.m. to 5:00 p.m., Monday through Friday. The phone number for DSP is 213-740-0776.

Students are expected to adhere to, and will be bound by, the University and school policies governing academic integrity.

Who Should Take This Course?
This course is an elective, capstone-type learning experience for graduate business students who have the business knowledge that comes from industry experience and the core curriculum. Students who enjoy drawing upon core knowledge from multiple disciplines and applying that knowledge to actual business situations will enjoy this learning experience.

Course Description
In this class, we will address strategic and operational issues that companies face in multiple industries, and the responses of chief financial officers who are responsible for multiple aspects of planning around the core strategic objectives of an entity. We will view the business as a whole—from the eyes of the Chief Financial Officer within the business.

The class will consist of several segments, each generally beginning with key issues that a single industry faces and migrating to particular issues within a single company and how the CFO...
addresses them. In each industry segment, we first will discuss strategic objectives and performance within one industry group, focusing on the key moving parts, relevant issues and where to look to effectively measure performance. Second, we will focus on one to three key industry issues and relative performance among a few companies within the industry. Finally, we will hear from the CFO from one or more of those companies as to how he or she manages the business with respect to the issues and the sources of information used to manage them.

**Course Objectives**

Students who participate in this class will be working to accomplish the following objectives:

- Apply practical thinking skills from various business disciplines to industry issues
- Develop an appreciation for a financial management perspective on strategic and operational issues
- Increase resources and skills for business problem-solving
- Broaden awareness of industry risks and strategies and apply this knowledge to on-the-job situations
- Experience direct interaction with chief financial officers of major, locally-based entities
- Grow in excitement for long-term career opportunities

**Assignments and Grading**

All assignments must be turned in on time in order to receive any credit. No late materials will be accepted.

All students will complete industry background assignments on specific companies/industries.

The class will form teams and each team will prepare debate outlines during the semester. We will have student-led debates on each industry during the semester. Each team will use its two outlines to lead a portion of the debate on specific companies. I will expect participation from everyone (not just the assigned groups) in these discussions.

Ten chief financial officer guest speakers will address the class throughout the semester. The guest speaker’s remarks should comprise less than one-half of the class time and the remaining time will consist of questions and answers. Each student will prepare question outlines relating to two companies and their industries by the date of the guest speaker presentation for that company. These students will be expected to lead the questioning of the speaker during the presentation, with the participation of all students in the class.

Each student will complete a final paper selecting a single strategic priority that is shared by two of the companies we have analyzed (from different industries) and evaluating their comparative business objectives and operational responses. I will record attendance on occasion.

| Attendance, participation and assignments | 170 points |
| 2 question outlines (15 points each) | 30 points |
| 2 debate outlines (50 points each) (group grades) | 100 points |
| Leadership of 2 debates (50% group grade and 50% individual grade) | 100 points |
| Final paper | 100 points |
500 points

Grading
We will adhere to the USC Leventhal School of Accounting and Marshall School of Business grading standards for graduate programs. For elective courses, the class average is usually around 3.4, which is between a B+ and an A-. You must receive a C or better to pass this course and you must have an overall B average (3.0 minimum) in order to graduate from USC.

The policy of the Marshall School of Business applies to the retention of graded material. University policy requires that final exams and all other grade work which affected the course grade be kept for one year. Other papers or work that instructors hand back but that students fail to pick up can be held for one month, as long as this policy is specified in the syllabus.

Academic Conduct
Students enrolled in any class offered by the Leventhal School of Accounting are expected to uphold and adhere to the standards of academic integrity established by the Leventhal School of Accounting Student Honor Code. Students are responsible for obtaining, reading, and understanding the Honor Code System handbook. Students who are found to have violated the Code will be subject to disciplinary action as described in the handbook. For more specific information, please refer to the Student Honor Code System handbook, available in class or from the receptionist in ACC 101.

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Section 11, Behavior Violating University Standards https://scampus.usc.edu/1100-behavior-violating-university-standards-and-appropriate-sanctions/. Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, http://policy.usc.edu/scientific-misconduct/.

Support Systems
Discrimination, sexual assault, and harassment are not tolerated by the university. You are encouraged to report any incidents to the Office of Equity and Diversity http://equity.usc.edu or to the Department of Public Safety http://capsnet.usc.edu/department/department-public-safety/online-forms/contact-us. This is important for the safety whole USC community. Another member of the university community – such as a friend, classmate, advisor, or faculty member – can help initiate the report, or can initiate the report on behalf of another person. The Center for Women and Men http://www.usc.edu/student-affairs/cwm/ provides 24/7 confidential support, and the sexual assault resource center webpage sarc@usc.edu describes reporting options and other resources.

Students whose primary language is not English should check with the American Language Institute http://dornsife.usc.edu/ali, which sponsors courses and workshops specifically for international graduate students.

The Office of Disability Services and Programs - http://sait.usc.edu/academicsupport/centerprograms/dsp/home_index.html provides certification for students with disabilities and helps arrange the relevant accommodations.

If an officially declared emergency makes travel to campus infeasible, USC Emergency Information http://emergency.usc.edu/ will provide safety and other updates, including ways in which instruction will be continued by means of blackboard, teleconferencing, and other technology.
