Course Description

Analysis of forces acting on particles and rigid bodies in static equilibrium; equivalent systems of forces; friction; centroids and moments of inertia; introduction to energy methods. (from the USC Course Catalogue)

The subject of Statics deals with forces and moments acting on rigid bodies at rest covering coplanar and non-coplanar forces, concurrent and non-concurrent forces, friction forces, centroid and moments of inertia. Much time will be spent finding resultant forces for a variety of force systems, as well as analyzing forces acting on bodies to find the reacting forces supporting those bodies. Students will develop critical thinking skills necessary to formulate appropriate approaches to problem solutions.

Learning Objectives

Throughout the semester students will develop an understanding of, and demonstrate their proficiency in the following concepts and principles pertaining to vector mechanics, statics:

1. Components of a force and the resultant force for a systems of forces
2. Moment caused by a force acting on a rigid body
3. Principle of transmissibility and the line of action
4. Moment due to several concurrent forces
5. Force and moment reactions at the supports and connections of a rigid body
6. Force in members of a truss using the Method of Joints and the Method of Sections
7. Centroid and center of gravity for an area and a rigid body
8. Moment of inertia and radius of gyration of a composite area

Prerequisite(s): MATH 125

Co-Requisite (s): n/a

Concurrent Enrollment: n/a

Recommended Preparation: AME 101, PHYS 151L

Course Content and Discussion Forum

This course will use Piazza for all class discussions. Refrain from emailing questions related to assignments, midterms, etc., and instead **use Piazza**. The TA, myself and even you can answer questions as they arise, thus providing an efficient means for communication. If you have issues accessing the Piazza, contact team@piazza.com directly. Before the semester begins, verify that you have access to these websites; Piazza is accessed from within the Blackboard page. **Recommended download:** Piazza App for phones. It works!

Description and Assessment of Assignments

There will be two Midterm Exams held during the regular lecture time: Thursday September 28th and Thursday November 2nd. The Final Exam will be Tuesday December 12th from 11a-1p. All written exams and

quizzes will be closed book and closed notes. Homework sets will be assigned weekly. Homework will not be collected; however, a weekly quiz will be given that covers the material from the assigned homework set. Thus, it is your responsibility to complete the problem set before each week's quiz or midterm exam. All quizzes and exams are typically administered on Thursday at the start of the lecture section, unless otherwise noted. Midterms will utilize the entire section time (12:30-1:50p); quizzes will be much shorter, and the remaining time will be used for a standard lecture session.

In order to receive credit for your work, all quiz and exam problems must be presented in a clear, organized manner. Solutions must show evidence of work; "magic" answers will not be accepted. Partial credit may be given if the solution is presented in a logical fashion. Students are encouraged to study the assigned HW sets together; however, each individual must ensure they obtain an understanding of the material. Between the instructor and the Teaching Assistant, there are office hours throughout the week to help you through the course. This time is best utilized when students come prepared with an attempt at a solution, thus allowing us to help you through your thought process.

All quizzes, the midterm and final exam are to be completed as an individual. Failure to comply with this requirement will result in a failing grade for the course. Read the section titled **Academic Conduct** below.

Grading Breakdown

Subject to change; see Course Schedule for Quiz/Exam dates.

There will be no makeup quizzes or makeup exams. Missing an exam or a quiz or will result in a score of 0. However, note that your lowest scoring quiz will be dropped from the final grade calculation. All exams count towards the final grade.

Assignment	% of Grade
Quizzes (10)	20
Midterms (2)	50
Final Exam	30
Total	100

Academic Conduct

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Familiarize yourself with the discussion of plagiarism in *SCampus* in Section 11, *Behavior Violating University Standards* <https://scampus.usc.edu/b/11-00-behavior-violating-university-standards-and-appropriate-sanctions/>, and **view the guidelines presented in Appendix A at the end of this document**. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

Discrimination, sexual assault, and harassment are not tolerated by the university. You are encouraged to report any incidents to the *Office of Equity and Diversity* <http://equity.usc.edu> or to the *Department of Public Safety* <http://capsnet.usc.edu/department/department-public-safety/online-forms/contact-us>. This is important for the safety of the whole USC community. Another member of the university community – such as a friend, classmate, advisor, or faculty member – can help initiate the report, or can initiate the report on behalf of another person. *The Center for Women and Men* <http://www.usc.edu/student-affairs/cwm/> provides 24/7 confidential support, and the sexual assault resource center webpage <http://sarc.usc.edu> describes reporting options and other resources.

Support Systems

A number of USC's schools provide support for students who need help with scholarly writing. Check with your advisor or program staff to find out more. Students whose primary language is not English should check with the *American Language Institute* <http://dornsife.usc.edu/ali>, which sponsors courses and workshops specifically for international graduate students. *The Office of Disability Services and Programs* <http://dsp.usc.edu/> provides certification for students with disabilities and helps arrange the relevant accommodations. If an officially declared emergency makes travel to campus infeasible, *USC Emergency Information* <http://emergency.usc.edu> will provide safety and other updates, including ways in which instruction will be continued by means of blackboard, teleconferencing, and other technology.
