Social Work 665

Program Development & Grant Writing for Social Workers

3 Units

Fall 2013

I. COURSE PREREQUISITES

SOWK 503, SOWK 505, SOWK 534, and SOWK 535

II. CATALOGUE DESCRIPTION

Planning and program development that are generalized to any setting and relevant to direct and macro social work practice expertise.

III. COURSE DESCRIPTION

Utilizing the theory of Effectiveness-Based Program Planning, this course is designed to provide second year social work students with the skills to plan and design programs and write grants/proposals. Results Based Accountability framework is incorporated to provide students with the knowledge of whole population and program performance accountability to measure effectiveness of agencies, services, and programs. Emphasis is placed on the importance of developing the macro practice skills of problem analysis, need assessment, program planning and development, goal and objective formulation, developing program performance measures and logic models, and finding funders, responding to requests for proposals and then persuasively writing a grant to secure the resources needed to implement or sustain a program.

The course emphasizes agency-based action planning. This encompasses: a) how agencies acquire, analyze and use information from clients and other sources; b) how information and an evidenced based approach informs practice, service planning and program design; c) how service planning and program design is used to advance the well being of clients and communities through action planning; d) how service planning and program design logically guides the grant proposal process; and e) how funded grants affect program and service delivery implementation. This eventuates in information for micro and macro practitioners to identify those interventions that work best and differentiate from ones that work
poorly. Such information is incorporated to improve and develop effective programs and services through the use of evidenced based literature, research and information to substantiate needs and support an effective program design and strategy.

Note: Each written assignment is designed to provide the experience of writing a full grant proposal, along with relevant attachments, graphics, and documents. The first two assignments will comprise the two halves of a grant proposal, and the final proposal presentation will be a compilation of those papers, with professor’s recommended edits incorporated, presented to the class as if the proposed program or proposal were being presented to a group of funders, the presenter’s board, or collaborative partners being asked to join the program. This comprehensive format allows students to gain practice experience in constructing a program proposal by breaking up each section and receiving feedback to construct a well-written and designed final grant proposal. Students, traditionally, have benefited from this format and have done very well on the final project. In fact, some students were able to use the final proposal to seek and acquire grant funds for a program or service designed around the objectives of their respective field placements or other settings. The three assignments are designed to assist you in planning and developing the elements needed for a sound grant proposal that can actually be funded.

Each of the major assignments is summarized below.

Assignment 1: Paper/Proposal

This paper will provide the experience of writing a letter of inquiry, the first half of a full grant proposal, and attachments and graphics. This assignment will mirror and give you hands-on practice in the grantwriting process, including the research, data collection, program planning, editing, and collaboration required.

This paper should be a maximum of 7 single-spaced pages written in a narrative format not inclusive of the reference section and/or attachments. The paper will include: (1) a letter of inquiry (LOI); (2) an overview of your field placement or agency of focus for these assignments: the agency’s mission; type of agency/overall agency focus; population(s) served and geographic location(s); and services provided; (3) A statement of need/problem statement which includes a problem analysis and needs assessment identifying the prevalence of the problem/issue to be addressed, contributing factors, problem assessment data at the general, at-risk, and population levels, current/anticipated gaps in service, and what has been done, previously, to address the problem; (4) the program hypothesis and evidence-informed program and/or policy intervention(s) proposed; (5) the general goals and specific measurable outcome objectives of the proposed program(s) and program intervention(s); (6) a description of your program design and implementation plan; and (7) an attached task plan and scope of work to graphically describe your program.

Full assignment instructions will be given by instructor prior to due date.

Due: 7th class

This assignment relates to student learning outcomes 1-4, 6-14, and 16-19.

Assignment 2: Paper/Proposal

This paper will provide the experience of writing the second half of a full grant proposal, and relevant attachments and graphics. This assignment will mirror and give you hands-on practice in the grantwriting process, including the research, data collection, program and evaluation planning, editing, and collaboration required.

This paper should be a maximum of 7 single-spaced pages written in a narrative format not inclusive of the reference section and/or attachments. The paper will include: (1) an abstract for the proposal; (2) a description of the capabilities of the agency applying for funds via this RFP; (3) a description of the capabilities of collaborative partners who will assist in carrying out the proposed program; (4) a sustainability plan to keep this program thriving beyond the funding requested in this proposal; (5) a description of how program success will be identified and measured; (6) an attached logic model illustrating the relationship between the issue/problem, interventions, outputs, outcomes and tools; (7) a budget narrative that provides justification for each line item in the proposed budget; and (8) an attached line-item budget for the proposed program.
Full assignment instructions will be given by instructor prior to due date.

**Due: 11th Class**

*This assignment relates to student learning outcome 15.*

**Assignment 3: Final Proposal Presentation**

This presentation will provide the experience of editing a full grant proposal and relevant attachments and graphics, using boiler plate information from prior documents, and presenting the proposal to a group. The group in this case will be this class; in the real world, it might be funders, or your own board, or collaborative partners to whom you are trying to sell the proposed program. This assignment will mirror and give you hands-on practice in the grantwriting process, including the editing and collaboration required, and the presentation or marketing of your program plan.

This presentation shall provide attendees with an overview of your proposal (the combination of your two papers written for this course, with professor’s recommended edits incorporated).

Full assignment instructions will be given by instructor prior to assignment due date.

**Due: 11-14th Class**

*This assignment relates to student learning outcome 1-19.*

**Class Participation (10% of Course Grade)**

**Grading**

Faculty will use the full range of grades (A-F) in their evaluation of assignments and finals, etc. Within the School of Social Work, grades are determined in each class based on the following standards, which have been established by the faculty of the School:

**Grades of A or A- will be reserved for work which not only demonstrates very good mastery of the content, but which in addition demonstrates that the student had undertaken a complex task and applied critical thinking skills to the assignment. The difference between these two grades will be determined by the degree of these skills demonstrated by the student.**

**A grade of B+ will be given to work that is judged very good. It denotes that the student had demonstrated more than a competent understanding of the material pertinent to the assignment.**

**A grade of B will be given to student work that meets the basic requirement of the assignment. It denotes that the student has done adequate work on the assignment and has met basic course expectations.**

**A grade of B- denotes that a student performed less than adequately on an assignment with only a moderate grasp of content and/or expectations.**
A grade of C or C- reflects a minimal grasp of the assignment, poor organization of ideas and/or several significant areas requiring improvement.

A grade of D reflects serious deficiencies in all aspects of the student’s performance on the assignment.

University Policies and Guidelines

IX. ATTENDANCE POLICY

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives which could affect your course grade. Students are expected to notify the instructor by email (demi@usc.edu) of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students’ observance of a holy day. Students must make arrangements in advance to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to Scampus and to the USC School of Social Work Student Handbook for additional information on attendance policies.

X. STATEMENT ON ACADEMIC INTEGRITY

USC seeks to maintain an optimal learning environment. General principles of academic honesty include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one’s own academic work from misuse by others as well as to avoid using another’s work as one’s own. All students are expected to understand and abide by these principles. SCampus, the Student Guidebook, contains the Student Conduct Code in Section 11.00, while the recommended sanctions are located in Appendix A: http://www.usc.edu/dept/publications/SCAMPUS/gov/. Students will be referred to the Office of Student Judicial Affairs and Community Standards for further review, should there be any suspicion of academic dishonesty. The Review process can be found at: http://www.usc.edu/student-affairs/SJACS/.

Additionally, it should be noted that violations of academic integrity are not only violations of USC principles and policies, but also violations of the values of the social work profession.

XI. STATEMENT FOR STUDENTS WITH DISABILITIES

Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. Please be sure the letter is delivered to the instructor as early in the semester as possible. DSP is located in STU 301 and is open from 8:30 a.m. to 5:00 p.m., Monday through Friday.

Students from all academic centers (including the Virtual Academic Center) may contact Ed Roth, Director of the DSP office at 213-740-0776 or ability@usc.edu.

XIII. STATEMENT ABOUT INCOMPLETES

The Grade of Incomplete (IN) can be assigned only if there is work not completed because of a documented illness or some other emergency occurring after the 12th week of the semester. Students must NOT assume that the instructor will agree to the grade of IN. Removal of the grade of IN must be instituted by the student and agreed to be the instructor and reported on the official “Incomplete Completion Form.”

XIV. POLICY ON LATE OR MAKE-UP WORK

Papers are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If the paper is late without permission, the grade will be affected.

XV. POLICY ON CHANGES TO THE SYLLABUS AND/OR COURSE REQUIREMENTS

It may be necessary to make some adjustments in the syllabus during the semester in order to respond to unforeseen or extenuating circumstances. Adjustments that are made will be communicated to students both verbally and in writing.

XVI. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS

Approved by the 1996 NASW Delegate Assembly and revised by the 2008 NASW Delegate Assembly [http://www.socialworkers.org/pubs/Code/code.asp]

Preamble

The primary mission of the social work profession is to enhance human well being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual well being in a social context and the well being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. “Clients” is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals’ needs and social problems.
The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession’s history, are the foundation of social work’s unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.
