I. COURSE PREREQUISITES

None

II. CATALOGUE DESCRIPTION

Study of social work organizations with emphasis on their policy contexts, organizational theory, and the development of delivery systems.

III. COURSE DESCRIPTION

This course focuses on the development of macro practice skills for social workers whose primary assignments are clinical. The purpose of this course is to prepare students to work more effectively within complex political, organizational, and community social service settings. It seeks to educate and develop informed practitioners capable of successful practice in organizational and policy contexts.

The course is designed to help students understand and analyze the policy context of practice and to review organizational and administrative theory, as well as examine their practical implications for social service delivery systems and social work practice within them. Several methods of systematic observation are compared. Organizations are described and analyzed within their policy sector and interorganizational network in order to help students appreciate the constraints and forces within which the organization must adapt. This perspective is applied to the analysis of communities and social service organizations, and the understanding of community and organizational characteristics that affect the delivery and design of services.

The course employs a general systems approach as a framework for learning about policies, organizations, problem solving, and change. Issues pertaining to adequacy, equity, access, and the direction of social services are considered in defining practitioner's roles and strategies. The course addresses issues of social and organizational accountability, program development, organizing on behalf of clients and professionals, and the ethics of policy and administrative practice. It focuses on preparing social workers for innovative, effective, and integrated social work practice in diverse, complex, and urban environments.

IV. COURSE OBJECTIVES

Objective No.	Objectives
1	Provide students with a framework for studying the history of social welfare in the United States and analyzing the evolution of current welfare policies.
2	Teach basic skills of community assessment and the impact of social welfare policies on communities.
3	Provide information and methods for learning how to understand the legislative sources of social welfare services provided by organizations at the local, state, and national levels as well as legal mandates and organizational structures designed to deliver social services at the international level.
4	Provide opportunities for students to understand and practice the skills needed for macro practice with organizations, communities, and governments.
5	Teach and provide ways to practice effective team building, conflict resolution, and organizational goal setting.

V. COURSE FORMAT/INSTRUCTIONAL METHODS

A combination of lecture, class discussion, and experiential exercises will be used in class. These exercises may include the use of videotapes, role-play, debates, or structured small-group exercises. Material from the Community Immersion program as well as the student's field placement will be used to illustrate class content and to provide integration between class and field. As class discussion is an integral part of the learning process, students are expected to come to class ready to discuss required

reading and its application to theory and practice. Attendance will be taken at each class.

Class Participation (10% of Course Grade)

Students are expected to contribute to the development of a positive learning environment and to demonstrate their learning through written and oral assignments and through active, oral class participation. Class participation should consist of meaningful, thoughtful, and respectful participation based on having completed required and independent readings and assignments prior to class. When in class, students should demonstrate their understanding of the material and be prepared to offer comments or reflections about the material and actively engage in experiential exercises. Alternatively, students may have a set of thoughtful questions about the material. Class participation and reading are worth 10 points of the final grade.

Students are further expected to complete assignments on or before the due date and notify the instructor if they are having difficulty comprehending the course material or keeping up with the assignments. Failure to meet these expectations may result in the reduction of grades.

Grading

Grading in this course will be based on class participation, compliance with the assignments and quality of the work produced. Within the School of Social Work, grades are determined in each class based on the following standards, which have been established by the faculty of the School:

Grades of A or A- are reserved for student work that not only demonstrates very good mastery of content but that also shows that the student has undertaken a complex task, has applied critical-thinking skills to the assignment, and/or has demonstrated creativity in her or his approach to the assignment. The difference between these two grades would be determined by the degree to which these skills have demonstrated by the student.

A grade of B+ is given to work that is judged to be very good. This grade denotes that a student has demonstrated a more-than-competent understanding of the material being tested in the assignment.

A grade of B is given to student work that meets the basic requirements of the assignment. It denotes that the student has done adequate work on the assignment and meets basic course expectations.

A grade of B- denotes that a student's performance was less than adequate on an assignment, reflecting only moderate grasp of content and/or expectations.

A grade of C reflects a minimal grasp of the assignments, poor organization of ideas, and/or several significant areas requiring improvement.

Grades between C- and F denote a failure to meet minimum standards, reflecting serious deficiencies in all aspects of a student’s performance on the assignment.

Class grades will be based on the following:

Class Grades		Final Grade	
3.85–4	A	93–100	A
3.60–3.84	A-	90–92	A-
3.25–3.59	B+	87–89	B+
2.90–3.24	B	83–86	B
2.60–2.87	B-	80–82	B-
2.25–2.50	C+	77–79	C+
1.90–2.24	C	73–76	C
		70–72	C-

Late-paper policy: In the event, that a paper is submitted after the paper deadline without the professor’s advance permission, the following penalties will apply:

1. A 10% deduction in points per day will be applied for up to 3 days after the due date.
2. After 3 days late, the student’s academic advisor will be notified.
3. After the third day, the paper will earn no more than 50% of the credit possible for the assignment.

Rewrite policy: Submitted papers earning a grade below B are allowed to be rewritten and resubmitted to the professor, no later than 2 weeks after the original paper is returned to the student, for a maximum grade (if earned) of B.

STUDY DAYS/NO CLASSES

University Policies and Guidelines

IX. ATTENDANCE POLICY

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives, which could affect your course grade. Students are expected to notify the instructor by e-mail (skratz@usc.edu) of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students' observance of a holy day. Students must make arrangements *in advance* to complete class work that will be missed, or to reschedule an examination, due to holy days observance.

Please refer to Scampus and to the USC School of Social Work Student Handbook for additional information on attendance policies.

X. STATEMENT ON ACADEMIC INTEGRITY

USC seeks to maintain an optimal learning environment. General principles of academic honesty include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one's own academic work from misuse by others as well as to avoid using another's work as one's own. All students are expected to understand and abide by these principles. SCampus, the Student Guidebook, contains the Student Conduct Code in Section 11.00, while the recommended sanctions are located in Appendix A: <http://www.usc.edu/dept/publications/SCAMPUS/gov/>. Students will be referred to the Office of Student Judicial Affairs and Community Standards for further review should there be any suspicion of academic dishonesty. The Review process can be found at: <http://www.usc.edu/student-affairs/SJACS/>.

Additionally, it should be noted that violations of academic integrity are not only violations of USC principles and policies but also violations of the values of the social work profession.

XI. STATEMENT FOR STUDENTS WITH DISABILITIES

Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. *Please be sure the letter is delivered to the instructor as early in the semester as possible.* DSP is located in STU 301 and is open from 8:30 a.m. to 5:00 p.m., Monday through Friday.

Students from all academic centers (including the Virtual Academic Center) may contact Ed Roth, Director of the DSP office at 213-740-0776 or ability@usc.edu.

XVI. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS

Approved by the 1996 NASW Delegate Assembly and revised by the 2008 NASW Delegate Assembly [<http://www.socialworkers.org/pubs/Code/code.asp>]

Preamble

The primary mission of the social work profession is to enhance human well-being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual well-being in a social context and the well-being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. "Clients" is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.
