CMGT 537
The industry, science and culture of video games
USC Annenberg School for Communication

Professor Dmitri Williams
dcwillia@usc.edu
ANN 406
Class hours: 6:00-8:50 Thursdays
Office hours by appointment. Preceding class is easiest, but other times are possible.
ANN 414K

Course Description

Video games are now one of the major sectors of the entertainment industry, having surpassed the film industry in receipts. However, video games are having a cultural impact far beyond their role as an economic commodity. In this class, we will explore all of these dynamics, studying the history of videogames, the present industry landscape, their social and cultural impact, and developments in technology, design, and industry organization. There is a strong emphasis on the industry itself—business models, competition, changes in technology, etc. In-class sessions (and evaluations) stress student participation and involvement.

Texts and Supplies:

Readings will be posted on Blackboard at least a week prior to the assigned date. Also required is “Replay” by Tristan Donovan (available on Amazon new, used or Kindle).

All students are required to subscribe to the daily email feed from http://www.gamesindustry.biz and gamasutra.com.

Components of the Course Grade:

● In-class participation: 10%
  Please note that informed participation in class will matter more than in a typical course.

● In-class group projects: 20%
  There are two group-based projects during the term:
  1) Group presentations on gender in gaming (10%)
  2) Mock debate on game effects and regulation (10%)
Industry Interview: 15%
Find a full-time industry person who will give you 30-60 minutes of their time. Interview them about a topic of your interest, then write up a summary of the interview in a two-page paper. Be prepared to talk about what you learned in class the next week, and use presentation materials if needed. You may not interview one of our guest speakers.

Game company profile: 10%
Write a two-page profile of a game company. Include its origins, its market, and its prospects. Explain where it lives in the overall industry structure, and where it lies on the vertical chain. What are its strengths and weaknesses? How would you advise the company? Would you invest? You’ll be graded based on how well you use course concepts in the profile.

Game analysis: 15%
Play a game in depth. In two pages, explain its genre, its pros and cons and suggest what its rating should be, then note whether your assessment matches the actual rating. Then, review the game as if you were a designer, using concepts from the readings, class, speakers or field visits. Get beyond description. If the game does something well or poorly, explain or hypothesize why that is.

Term project: 30% (25% paper, 5% presentation)
Your term project will consist of a 15-20 page paper analyzing some aspect of games. This can be corporate, cultural, social scientific, or another area proposed by the student. Tailor it to your own interests, and to a practical real-world project if you like. Papers based on some kind of empirical data—whether statistical or qualitative—always fare better. The term paper is due Dec. 10 by 5 pm to my email inbox. If you want feedback, you need to give me a hard copy in addition to the emailed copy, plus a return addressed and stamped envelope.

**Academic Conduct**

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Section 11, Behavior Violating University Standards[https://scampus.usc.edu/1100-behavior-violating-university-standards-and-appropriate-sanctions/](https://scampus.usc.edu/1100-behavior-violating-university-standards-and-appropriate-sanctions/). Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, [http://policy.usc.edu/scientific-misconduct/](http://policy.usc.edu/scientific-misconduct/).

Discrimination, sexual assault, and harassment are not tolerated by the university. You are encouraged to report any incidents to the Office of Equity and
Diversity [http://equity.usc.edu/](http://equity.usc.edu/) or to the [Department of Public Safety](http://capsnet.usc.edu/department/department-public-safety/online-forms/contact-us). This is important for the safety whole USC community. Another member of the university community – such as a friend, classmate, advisor, or faculty member – can help initiate the report, or can initiate the report on behalf of another person. The [Center for Women and Men](http://www.usc.edu/student-affairs/cwm/) provides 24/7 confidential support, and the sexual assault resource center webpage [sarc@usc.edu](mailto:sarc@usc.edu) describes reporting options and other resources.

**Support Systems**

A number of USC’s schools provide support for students who need help with scholarly writing. Check with your advisor or program staff to find out more. Students whose primary language is not English should check with the [American Language Institute](http://dornsife.usc.edu/ali), which sponsors courses and workshops specifically for international graduate students. The [Office of Disability Services and Programs](http://sait.usc.edu/academicsupport/centerprograms/dsp/home_index.html) provides certification for students with disabilities and helps arrange the relevant accommodations. If an officially declared emergency makes travel to campus infeasible, [USC Emergency Information](http://emergency.usc.edu/) will provide safety and other updates, including ways in which instruction will be continued by means of blackboard, teleconferencing, and other technology.

**Stress Management**

Students are under a lot of pressure. If you start to feel overwhelmed, it is important that you reach out for help. A good place to start is the USC Student Counseling Services office at 213-740-7711. The service is confidential, and there is no charge.
Schedule
Aug. 27. Introduction: Overview, taxonomy, early history, genres
Reading:

Sep 3. Industry History of Video Games
Reading:
- Donovan, Ch. 1-8.

Sep. 10. Industry Economics: I/O model, vertical integration, state of the industry, creative destruction, convergence, distribution models,
Reading:
- Kline et al., “Digital Play” Ch. 8, p. 169-192
Optional:
- DFC Industry Overview

Sep. 17.
Media Constructions/Social history of gaming, Left vs. Right
Reading:
**ASSIGNMENT DUE: Game company analysis**

Sep. 24. Field Trip, mainstream gaming
**ASSIGNMENT DUE: Play 3 [Studio] games**
Reading:
- Donovan, Ch. 26 (Mainstream gaming)
- DFC Brief, Candy Crush Saga
Oct. 1. Modern Games
Reading:
- Donovan, Ch. 22 (Beatmania)

ASSIGNMENT DUE: Game review
CONFIRMED GUEST, 6pm: Robin Kaminsky, former SVP of Activision. On free to play studios and marketing vs. development. (90 minutes)

Oct. 8.
Analytics, data and user research, Social networks and their impact/virality
- DFC Brief: Core Gamer
