II. CATALOGUE DESCRIPTION

Recognition of domestic violence and examination of effective intervention measures and preventive methods.

III. COURSE DESCRIPTION

This course will focus on the issue of domestic violence from the intervention point of view. Course content is structured on an interdisciplinary perspective that will enable students to recognize domestic violence and be able to examine not only effective intervention measures, but also preventative methods. The course will demonstrate how these tools and this knowledge can be optimized through the intersection of various organizations working with victims/survivors, batterers and each other.

Current issues of domestic violence to be addressed in this course include why victims stay, when victims leave, the role of social workers, law enforcement, shelters, batterer's intervention programs, the impact of domestic violence on children, mental health and substance abuse concerns, cultural awareness issues, theory and research of domestic violence.

This course examines controversial theories of domestic violence: For example, battering is a learned behavior versus a psychology behavior; assessing for the dangerousness of domestic violence. The course also provides the tools and knowledge that will assist students to work with victims/survivors/batterers in making decisions that are in their own best interests. Students will be able to identify the necessary services that are available for referral and understand how best to interact with other agencies on behalf of the victim/survivor or batterer.

IV. COURSE OBJECTIVES

The Domestic Violence course (SOWK 666) will:

Objective #	Objectives
1	Help students identify the dynamics of domestic violence and its impact on the family.
2	Facilitate students' ability to assess the safety of the victims of domestic violence and facilitate safety planning.
3	Promote understanding of the influences of why victims stay: culture, children, religion including post-traumatic stress disorder, traumatic bonding, and Stockholm syndrome.
4	Increase understanding of why batterers batter.
5	Teach students how to interact with the appropriate agencies in assisting victims/survivors/batterers/children and domestic violence families. VII. COURSE ASSIGNMENTS, DUE DATES & GRADING

Assignment	Due Date	% of Final Grade
Assignment 1-3	Every 3 rd week	15% each
Assignment 4: Final Paper		45%
Class Participation	Ongoing	10%

Each of the major assignments is described below.

Assignments 1-3: (Each paper will count 15% of overall grade)

The semester will consist of three (3) small papers and a final. The three small papers will provide students with more in-depth knowledge and broaden their knowledge of domestic violence. The papers will be due every three weeks; will be 5-8 pages in length; will require a minimum of five (5) citations. Topic one will be: Who is Ellen Pence and her contributions to domestic violence. Topic two will be: student's choice: the impact of domestic violence on health OR the impact of domestic violence on mental health. Topic three will be: draft outline of the final paper; part I of final. Topic four will be: the final paper; expands on topic three. Short papers should include no less than five references with the vast majority being from accredited books and journals and any supplements from the Internet must be from recognized, reputable organizations. Websites such as Wikipedia and sniggle are NOT acceptable.

Assignments 1-3 papers will count 15% and contribute to the overall grade for the class.

Assignment 3 will be a draft of the final paper to provide students feedback for the final paper. It is recommended that students exceed the 5-8 page length; the more comprehensive the draft, the less work is needed in the final and more feedback the instructor can provide. This should include the issue/problems of the topic chosen for the final. This is part I of the final paper.

Format for Assignments 1-3: 1 inch margins (top, bottom and sides), typed with 12 point type (preferably in Times Roman) and double spaced. Page length does NOT include cover page or references.

Note: Papers that do not meet the deadline may not be accepted unless prior arrangement has been made with the instructor. Late papers will be downgraded one-half grade for each day late.

Due: Every three weeks; first paper is due in Unit 4; second paper is due in Unit 7; and third paper (draft of final) is due in Unit 10

This assignment relates to student learning outcomes 3, 4, 5 and 7.

Assignment 4: Final Paper (45% of overall grade)

The final paper will be to design or re-design an intervention program **OR** a topic of interest along with recommendations to improve the system (e.g., the laws of China compared to the laws of the US or How Fairy Tales Objectify Women). The final paper may take existing programs and re-design them in a fashion that would improve the outcomes. The final paper should include no less than 15 references with the vast majority being from accredited books and journals, and any supplements from the Internet must be from recognized, reputable organizations. The final paper should be 10-15 pages in length (**not** including cover page and reference page(s)).

For topics that are not a design or redesign of a program, check with instructor for approval.

Format for Final Paper: 1 inch margins (top, bottom and sides), typed with 12 point type (preferably in Times Roman) and double spaced. Page length does NOT include cover page or references.

Due:

This assignment relates to student learning outcome 3, 4, 5, and 7.

Class Participation (10% of Course Grade)

Students are expected to participate in interactive exercises in class and participate in class discussions. Evaluation of class participation includes frequency, quality of participation, discussion, attendance, and

involvement in interactive exercises. Students will be expected to discuss their questions and ideas in relation to weekly readings, exercises, guest speakers and videos.

Guidelines for Evaluating Participation Including Participation in Experiential Exercises

10: Outstanding Contributor: Contributions in class reflect exceptional preparation and participation is substantial. Ideas offered are always substantive, provides one or more major insights as well as direction for the class. Application to cases held is on target and on topic. Challenges are well substantiated, persuasively presented, and presented with excellent comportment. If this person were not a member of the class, the quality of discussion would be diminished markedly. Exemplary behavior in experiential exercises demonstrating on target behavior in role plays, small group discussions, and other activities.

9: Very Good Contributor: Contributions in class reflect thorough preparation and frequency is participation is high. Ideas offered are usually substantive, provide good insights and sometimes direction for the class. Application to cases held is usually on target and on topic. Challenges are well substantiated, often persuasive, and presented with excellent comportment. If this person were not a member of the class, the quality of discussion would be diminished. Good activity in experiential exercises demonstrating behavior that is usually on target in role plays, small group discussions, and other activities.

8: Good Contributor: Contributions in class reflect solid preparation. Ideas offered are usually substantive and participation is very regular, provides generally useful insights but seldom offer a new direction for the discussion. Sometimes provides application of class material to cases held. Challenges are sometimes presented, fairly well substantiated, and are sometimes persuasive with good comportment. If this person were not a member of the class, the quality of discussion would be diminished somewhat. Behavior in experiential exercises demonstrates good understanding of methods in role plays, small group discussions, and other activities.

7: Adequate Contributor: Contributions in class reflect some preparation. Ideas offered are somewhat substantive, provides some insights but seldom offers a new direction for the discussion. Participation is somewhat regular. Challenges are sometimes presented, and are sometimes persuasive with adequate comportment. If this person were not a member of the class, the quality of discussion would be diminished slightly. Occasionally applies class content to cases. Behavior in experiential exercises is occasionally sporadically on target demonstrating uneven understanding of methods in role plays, small group discussions, and other activities.

6: Inadequate: This person says little in class. Hence, there is not an adequate basis for evaluation. If this person were not a member of the class, the quality of discussion would not be changed. Does not participate actively in exercises but sits almost silently and does not ever present material to the class from exercises. Does not appear to be engaged.

5: Non-Participant: Attends class only.

Citations: no citation shall be more than 10 years old. If using an older citation, it must be clear that this citation (e.g. attachment theory) is the origin but recent research must be used for support. Inclusion of research older than 10 years old and not properly cited will result in point deductions.

Grading

Grades of A or A- are reserved for student work which not only demonstrates very good mastery of content but which also shows that the student has undertaken a complex task, has applied critical thinking skills to the assignment, and/or has demonstrated creativity in her or his approach to the assignment. The difference between these two grades would be determined by the degree to which these skills have been demonstrated by the student.

A grade of B+ will be given to work which is judged to be very good. This grade denotes that a student has demonstrated a more-than-competent understanding of the material being evaluated in the assignment.

A grade of B will be given to student work which meets the basic requirements of the assignment. It denotes that the student has done adequate work on the assignment and meets basic course expectations.

A grade of B- will denote that a student's performance was less than adequate on an assignment, reflecting only moderate grasp of content and/or expectations.

A grade of C would reflect a minimal grasp of the assignment, poor organization of ideas and/or several significant areas requiring improvement.

Grades between C- and F will be applied to denote a failure to meet minimum standards, reflecting serious deficiencies in all aspects of a student's performance on the assignment.

Class grades will be based on the following:

Class Grades		Final Grade	
3.85 – 4	A	93 – 100	A
3.60 – 3.84	A-	90 – 92	A-
3.25 – 3.59	B+	87 – 89	B+
2.90 – 3.24	B	83 – 86	B
2.60 – 2.89	B-	80 – 82	B-
2.25 – 2.59	C+	77 – 79	C+
1.90 – 2.24	C	73 – 76	C
		70 – 72	C-

FINAL EXAMINATIONS

UPC/City Center students upload your papers to Blackboard.

VAC students upload papers under Assignments at the bottom of the Coursework page.

University Policies and Guidelines

IX. ATTENDANCE POLICY

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives which could affect your course grade. Students are expected to notify the instructor by email (lmurad@usc.edu) of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students' observance of a holy day. Students must make arrangements *in advance* to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to Scampus and to the USC School of Social Work Student Handbook for additional information on attendance policies.

X. STATEMENT ON ACADEMIC INTEGRITY

USC seeks to maintain an optimal learning environment. General principles of academic honesty include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one's own academic work from misuse by others as well as to avoid using another's work as one's own. All students are expected to understand and abide by these principles. *SCampus*, the Student Guidebook, contains the Student Conduct Code in Section 11.00, while the recommended sanctions are located in Appendix A: <http://www.usc.edu/dept/publications/SCAMPUS/gov/>. Students will be referred to the Office of Student Judicial Affairs and Community Standards for further review, should there be any suspicion of academic dishonesty. The Review process can be found at: <http://www.usc.edu/student-affairs/SJACS/>.

Additionally, it should be noted that violations of academic integrity are not only violations of USC principles and policies, but also violations of the values of the social work profession.

XI. STATEMENT FOR STUDENTS WITH DISABILITIES

Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. *Please be sure the letter is delivered to the instructor as early in the semester as possible.* DSP is located in STU 301 and is open from 8:30 a.m. to 5:00 p.m., Monday through Friday.

Students from all academic centers (including the Virtual Academic Center) may contact Ed Roth, Director of the DSP office at 213-740-0776 or ability@usc.edu.

XVI. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS

*Approved by the 1996 NASW Delegate Assembly and revised by the 2008 NASW Delegate Assembly
[<http://www.socialworkers.org/pubs/Code/code.asp>]*

Preamble

The primary mission of the social work profession is to enhance human wellbeing and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual wellbeing in a social context and the wellbeing of society. Fundamental to

social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. “Clients” is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals’ needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession’s history, are the foundation of social work’s unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.
