I. COURSE PREREQUISITES

SOWK 505 and SOWK 535

II. CATALOGUE DESCRIPTION

Theoretical and practical approaches to clinical practice with military families. Overview of common social issues in the military system and demands on the family dynamic.

III. COURSE DESCRIPTION

The purpose of this course is to understand the military culture within which military families function, the stressors such as deployment that they navigate, and the diversity of military family structures and how a range of diversity filters can impact the military family and military culture. The different military contexts (i.e., active duty, guard/reserve, veteran) are explored. Ethical issues for working in this environment are considered. Theory-based and research-informed strategies to intervene with military families are reviewed. Military family policies are examined and critiqued. Family life cycle interactions with the military demands are discussed. Students

completing this course will have a more in-depth understanding of and ability to work with the military and the military families that are a vital part of society.

IV. COURSE OBJECTIVES

The Clinical Practice with the Military Family: Understanding and Intervening course (SOWK 640) will:

Objective #	Objectives
1	Provide students with an understanding of the military culture and how military families cope with and thrive within the military.
2	Challenge the student to consider ethical dilemmas, diversity issues, and the many stressors inherent in the military, when striving to intervene with military families.
3	Explore theories and research-informed intervention strategies and have the student assess and develop intervention goals with case studies.

V. COURSE FORMAT / INSTRUCTIONAL METHODS

The instructional methods used in this class will be classroom discussion, student presentations on key topics, in-class critical thinking exercises, use of videotapes and a case-based final exam. This class will also be web-enhanced using Blackboard: <https://blackboard.usc.edu>

VII. COURSE ASSIGNMENTS, DUE DATES & GRADING

Assignment	Due Date	% of Final Grade
Assignment 1: Reflective Paper	4 th week	20%
Assignment 2: Family Assessment	Start 4 th week	20 %
Assignment 3: Problem Solving Assignment	Start 5 th week	25%
Assignment 4: Theory of Change Paper	Last week of class	25 %
Meaningful Class Participation (including discussion forums/role play if assigned by instructor)		10 %
Trauma Training is 5 % of class participation		

Each of the major assignments are described below.

* Students must be informed of their midterm grade no later than the 8th week of class.

Assignment 1: Reflective Journal Assignment

This written assignment is focused on required course readings of your choice. You are to select at least **6 readings from the required** and briefly summarize the main ideas or concepts. Discuss how these relate to the cases you have in the field, and to the course content with regard to military family demands/stressors. Use the readings to help you further explore issues that have been challenging to you in the field. Relevant counter-transference issues that impact your clinical work should also be included. The paper should be 6 pages long (including references); you may write in the first person narrative; and use APA style for citations and references.

NOTE: This assignment needs to integrate readings and personal reflections about field/practice in relation to military families and not merely a summarization of readings. .
(Note: Two citations from the same source do not count as 2 different readings this would only count as 1 reading, i.e. book chapters.)

Due: 4th Week

This assignment relates to student learning outcomes 1, 3, and 4.

The questions written below provide a suggested framework for this assignment:

- What are your thoughts regarding your ability to work with military families and children as a social worker?
- What were your preconceived thoughts regarding military families and children? What are the implications for you?
- What changes might you make in terms of your approach in working with military populations? What are your plans for future actions?

- What happened in class that enriched your learning? What happened in class that provided you with greater insight?
- What are your thoughts, feelings, assumptions, beliefs, values, attitudes about topics discussed in class?
- What is your reasoning for selecting military social work as a sub-concentration?
 - Now that you have almost completed this course, what was the most useful or insightful part of your learning?

Assignment 2: Topic In-Class Presentation: Family Assessment and Diversity Engagement

Each student will present a Powerpoint presentation in class on their family of origin. Students will discuss family race, culture, family members, relationships, strengths and weakness. Student will also provide self-reflections, racial or religious incidents or learnings about another ethnic group or culture for the purpose of group learning, **genogram** and recommendations to improve relationships within the family of origin. *Students are the gate keeper of personal information that they feel uncomfortable with regard to sharing.* Interventions for improvement can include a family therapy orientation (psychodynamic, CBT, etc). Students will also discuss how interventions will help build a more functional family. Each presentation should be **10- 15 minutes. Date of presentation will be determined in class along with grading rubric. Additional areas for consideration are listed below. Students may also present a family from a different origin than their own.**

1. Boundaries
2. Rules (implicit and explicit)
3. Attachment styles (use a legend to define close ties i.e. double lines versus conflict, i.e. curvy lines)
4. Family myths
5. Significant losses
6. Communication styles and patterns
7. Intergenerational patterns-i.e. military
8. LGBT
9. Blended family issues
10. Single-parent family
11. Cultural and ethnic themes

Assignment 3: Problem Solving Based Assignment

Students are to present (or in pairs if assigned by instructor) to the class on a macro topic relating to military families and or children who are in a military family. For instance, if students choose the problem of substance use disorders in military personnel, then students should present the findings on this topic and then apply a macro based **intervention, i.e. policy change or**

population health related intervention. Students should also consider current events that impact the lives of military children and families, i.e. budget cuts proposed by congress, protracted and continuous wars, housing collapse, educating civilian communities, females in combat and impact on being a mother, etc. Students will discuss the role of a social worker and or advocacy. Students will present on their topic area, which will be **selected in the second class session.** For these class sessions the presenters will have done more reading (outside of the syllabus) than the rest of the class. Students may be paired with a classmate by the instructor (no more than 2 students) depending on class size. The in-class presentation should include the use of PowerPoint and the student presenters should lead a discussion on this topic area for 20- 30 minutes, no more (watch your time). The use of experiential exercises such as role plays, use of case vignettes or leading a class debate is encouraged. Please provide professor a copy of the presentation on the day that you present. . **Date of presentation will be determined in class**

Due: TBD

This assignment relates to student learning outcomes 1, 2, 3, 4, 5, and 6.

Assignment 4: Theory of Change Paper

Theory of Change Paper: Students will write a 6-7 page double-spaced paper (APA style, citations and reference page) related to military families and children **for a clinical journal article submission.** In this paper students will address beliefs on psychopathology, dysfunction, and parent-child or parent-parent relational distress that some military families (couples, children or the family unit) face while serving. Discuss: What brings these families into therapy? What are barriers to mental health services? How can change occur? How would family therapy, couples therapy or individual therapy assist this population in adjusting? Further, students should be prepared to propose a theory on how to help people move from dysfunctional states to states of functionality. Minimal of 8 references required. Students should also discuss as a social work professional how they can make an impact and/or discuss how they would advocate for military families and or children. **Students may pair as co-authors.** Students should also include the name of the journal they submitted the journal to for print and. include it in the reference section of paper. The paper must include the following:

- Discussion of the relevant descriptive features of an identified problem military families are challenged with and relating that problem to a theoretical framework(s) we have discussed or you have found in your readings.
- Provide an analysis, referencing theories, indicating the contextual and personal factors that are most relevant for explaining the problem and discussing interventions and needed public response to problems or policy change or advocacy agenda.
- Provide a discussion of a population based intervention approach-evidenced-based (if applicable to your assignment). Intervention options (with an analysis of relative strengths and weaknesses) can be part of this discussion. Discuss agency, policies past versus current changes, if applicable.
- Discuss any legal, ethical and policy issues impacting the problem.

- Provide community and military specific resources and referrals (if applicable).
- Discuss diversity, gender or cultural issues associated with the case or policy as applicable.

Due: (Last Day of Class)

This assignment relates to student learning outcomes 4, 5, 6, 7, 8, 9, 10, 11, 12, and 13.

Class Participation:

Each student is to participate in designated class activities and discussions in each class. In addition, students may choose one or both of the options below to demonstrate active participation in the learning process. Students may also be expected to participate in on-line discussion boards as arranged by instructor. Attendance to class and promptness are also part of the participation grade. **Cell phone usage (texting) and recreational computer use are not permitted during class time. This will count against your class participation grade percentage.**

Trauma Focused CBT. (n.d.). <http://tfcbt.musc.edu>

(Instructor Note: This is an optional free training—a web-based course. Students who take the training and turn in the certificate to their instructor will earn credit towards their class participation grade. (5 pts)

Policy on Late Assignments

Assignments are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If an assignment is late without permission, the grade will be affected (2 points for each day late).

Grading

Class grades will be based on the following:

Class Grades		Final Grade	
3.85 – 4	A	93 – 100	A
3.60 – 3.84	A-	90 – 92	A-
3.25 – 3.59	B+	87 – 89	B+
2.90 – 3.24	B	83 – 86	B
2.60 – 2.87	B-	80 – 82	B-
2.25 – 2.50	C+	77 – 79	C+
1.90 – 2.24	C	73 – 76	C
		70 – 72	C-

Grades in the School of Social Work are determined based on the following standards that have been established by the faculty of the School:

Grades of A or A- are reserved for student work which not only demonstrates strong mastery of content but which also shows that the student has undertaken a complex task, has applied critical thinking skills to the assignment, and/or has demonstrated creativity in her or his approach to the assignment. The difference between these two grades would be determined by the degree to which these skills have been demonstrated by the student.

A grade of B+ will be given to work that is judged to be very good and demonstrates a more-than-competent understanding of the material being tested in the assignment.

A grade of B will be given to student work, which meets the basic requirements of the assignment and demonstrates work that meets course expectations at an adequate level.

A grade of B- will indicate that a student's performance was less than adequate on an assignment and reflects only moderate grasp of content and/or expectations.

A grade of C would reflect a minimal grasp of the assignments, poor organization of ideas and/or several areas requiring improvement.

Grades between C- and F will denote a failure to meet minimum standards, reflecting serious deficiencies in all aspects of a student's performance on the assignment.

VIII. REQUIRED AND SUPPLEMENTARY INSTRUCTIONAL MATERIALS & RESOURCES

Required Textbooks

University Policies and Guidelines

IX. ATTENDANCE POLICY

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives which could affect your course grade. Students are expected to notify the instructor by email (xxx@usc.edu) of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students' observance of a holy day. Students must make arrangements *in advance* to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to Scampus and to the USC School of Social Work Student Handbook for additional information on attendance policies.

X. ACADEMIC CONDUCT

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Section 11, *Behavior Violating University Standards* <https://scampus.usc.edu/1100-behavior-violating-university-standards-and-appropriate-sanctions/>. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct/>.

Discrimination, sexual assault, and harassment are not tolerated by the university. You are encouraged to report any incidents to the *Office of Equity and Diversity* <http://equity.usc.edu/> or to the *Department of Public Safety* <http://capsnet.usc.edu/department/department-public-safety/online-forms/contact-us>. This is important for the safety whole USC community. Another member of the university community – such as a friend, classmate, advisor, or faculty member – can help initiate the report, or can initiate the report on behalf of another person. *The Center for Women and Men* <http://www.usc.edu/student-affairs/cwm/> provides 24/7 confidential support, and the sexual assault resource center webpage sarc@usc.edu describes reporting options and other resources.

XI. STATEMENT FOR STUDENTS WITH DISABILITIES

Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. *Please be sure the letter is delivered to the*

instructor as early in the semester as possible. DSP is located in STU 301 and is open from 8:30 a.m. to 5:00 p.m., Monday through Friday.

Students from all academic centers (including the Virtual Academic Center) may contact Ed Roth, Director of the DSP office at 213-740-0776 or ability@usc.edu.

XII. EMERGENCY RESPONSE INFORMATION

Note: The following Emergency Response Information pertains to students on campus, but please note its importance should you be on campus for a temporary or extended period. When not on campus: Call the 911 listing in your local community for any emergency.

To receive information, call the main number (213) 740-2711, press #2. “For recorded announcements, events, emergency communications or critical incident information.”

To leave a message, call (213) 740-8311

For additional university information, please call (213) 740-9233

Or visit university website: <http://emergency.usc.edu>

If it becomes necessary to evacuate the building, please go to the following locations carefully and using stairwells only. Never use elevators in an emergency evacuation.

Students may also sign up for a **USC Trojans Alert** account to receive alerts and emergency notifications on their cell phone, pager, PDA, or e-mail account. Register at <https://trojansalert.usc.edu>.

XIII. STATEMENT ABOUT INCOMPLETES

The Grade of Incomplete (IN) can be assigned only if there is work not completed because of a documented illness or some other emergency occurring after the 12th week of the semester. Students must NOT assume that the instructor will agree to the grade of IN. Removal of the grade of IN must be instituted by the student and agreed to be the instructor and reported on the official “Incomplete Completion Form.”

XIV. POLICY ON LATE OR MAKE-UP WORK

Papers are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If the paper is late without permission, the grade will be affected.

XV. POLICY ON CHANGES TO THE SYLLABUS AND/OR COURSE REQUIREMENTS

It may be necessary to make some adjustments in the syllabus during the semester in order to respond to unforeseen or extenuating circumstances. Adjustments that are made will be communicated to students both verbally and in writing.

XVI. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS

Approved by the 1996 NASW Delegate Assembly and revised by the 2008 NASW Delegate Assembly [<http://www.socialworkers.org/pubs/Code/code.asp>]

Preamble

The primary mission of the social work profession is to enhance human wellbeing and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual wellbeing in a social context and the well-being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. "Clients" is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.

XVII. COMPLAINTS

If you have a complaint or concern about the course or the instructor, please discuss it first with the instructor. If you feel you cannot discuss it with the instructor, contact the chair of the sub-concentration, Anthony Hassan, at hassana@usc.edu. If you do not receive a satisfactory response or solution, contact your advisor or Dr. Paul Maiden, Vice Dean and Professor of Academic and Student Affairs, at rmaiden@usc.edu. Or, if you are a student of the VAC, contact June Wiley, Director of the Virtual Academic Center, at (213) 821-0901 or june.wiley@usc.edu for further guidance

XVIII. TIPS FOR MAXIMIZING YOUR LEARNING EXPERIENCE IN THIS COURSE

- ✓ Be mindful of getting proper nutrition, exercise, rest and sleep!
- ✓ Come to class.
- ✓ Complete required readings and assignments before coming to class.
- ✓ Before coming to class, review the materials from the previous Unit and the current Unit, and scan the topics to be covered in the next Unit.
- ✓ Come to class prepared to ask any questions you might have.
- ✓ Participate in class discussions.
- ✓ After you leave class, review the materials assigned for that Unit again, along with your notes from that Unit.
- ✓ If you don't understand something, ask questions! Ask questions in class, during office hours, and/or through email!
- ✓ Keep up with the assigned readings.

Don't procrastinate or postpone working on assignments.
