

Advanced Writing in the Natural Sciences

Description:

Writing 340 begins with the assumption that you have already acquired fundamental competencies in college-level essay writing. **This class will focus on writing for professional audiences within the Natural Sciences, e.g. the Biological Sciences (botany, zoology, microbiology, and medicine), Environmental Studies, Physics, Chemistry, Astronomy, Atmospheric Science, Oceanography, or Marine Biology.**

Texts

- Kip Andersen and Keegan Kuhn, *“The Sustainability Secret.”* Earth Aware Publications: 2015.
- Multiple readings within the Natural Sciences to be distributed in class and/or located by you.
