I. COURSE PREREQUISITES

SOWK 534

II. CATALOGUE DESCRIPTION

Structure and operation of current American social welfare programs (social policy analysis).

III. COURSE DESCRIPTION

The purpose of this course is to understand – by study and by doing – the building blocks of how social welfare policy is developed and implemented in the United States; the substantive rationale for policy; the role of social workers in all areas of practice in promoting social justice; how to advocate; and the integration of practice with policy.

Understanding social welfare policy is vital to social work practice because it fundamentally affects the lives of those served by the profession. Social welfare policy defines who gets what services, resources, and opportunities, and shapes service delivery systems. For these reasons it's essential that social workers know about the issues and choices that are embedded in various responses to social problems, guided by an understanding of the ethical responsibilities as expressed in the NASW Code of Ethics, and by the analysis of processes that lead to the formulation and delivery of social welfare policies, to more effectively comprehend the ways in which you can be instrumental in shaping policy choices.

This course builds on the substantive understanding of policy development and critical thinking skills acquired in SOWK 534, focusing attention on the analysis of selected current policy issues in key sectors

of social welfare, as well as in focusing student activity within the processes and strategies of policy advocacy to redress social and economic injustice and empower less advantaged groups in our society.

SOWK 535 provides a foundation for second year, concentration-specific, policy courses (SOWK 630s) in which students apply policy analytic and policy advocacy skills to develop specific policy proposals in a particular service sector.

IV. COURSE OBJECTIVES

The Social Welfare course (SOWK 535) will:

Objective #	Objectives
1	Present the general provisions of major social welfare policies in several key institutional sectors as well as current pivotal issues that are central to the policy discourse in each sector.
2	Develop students' abilities to analyze various policy options for addressing social problems and the social, political and economic issues that are involved in decision making, through acquiring detailed knowledge of how culturally sensitive social welfare policies are developed in response to social needs.
3	Explain how to weigh ethical implications, social values, and professional mandates in shaping reasoned choices for advancing policy proposals.
4	Teach how to effectively advocate for services, rights, social justice, and equal protection for and with individuals, groups, and communities.
5	Provide the opportunity to learn and practice the roles and skills that social workers use to influence the policy process at organizational, community and institutional levels, including the development and use of tools for monitoring and assessing the effectiveness of social welfare programs.

V. COURSE FORMAT / INSTRUCTIONAL METHODS

This class will include a variety of teaching/learning modalities. The instructor will provide lectures, but classes will be interactive and students will be encouraged to discuss their ideas and experiences. Selected asynchronous sessions may feature videotapes or speakers to illustrate the topics under examination. Students will work in small groups on an advocacy project in which they will support a piece of proposed legislation or reform existing policy, and undertake activities outside of the classroom that could include lobbying visits, campaign activities, editorial submissions, and community actions.

USC School of Social Work Grading Standards

Within the School of Social Work, grades are determined in each class based on the following standards which have been established by the faculty of the School:

1) Grades of A or A- are reserved for student work which not only demonstrates very good mastery of content but which also shows that the student has undertaken a complex task, has applied critical thinking skills to the assignment, and/or has demonstrated creativity in her or his approach to the assignment. The difference between these two grades would be determined by the degree to which these skills have demonstrated by the student.

(2) A grade of B+ will be given to work which is judged to be very good. This grade denotes that a student has demonstrated a more-than-competent understanding of the material being tested in the assignment.

(3) A grade of B will be given to student work which meets the basic requirements of the assignment. It denotes that the student has done adequate work on the assignment and meets basic course expectations.

(4) A grade of B- will denote that a student's performance was less than adequate on an assignment, reflecting only moderate grasp of content and/or expectations.

(5) A grade of C would reflect a minimal grasp of the assignments, poor organization of ideas and/or several significant areas requiring improvement.

(6) Grades between C- to F will be applied to denote a failure to meet minimum standards, reflecting serious deficiencies in all aspects of a student's performance on the assignment.

University Policies and Guidelines

IX. ATTENDANCE POLICY

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives which could affect your course grade. Students are expected to notify the instructor by email (see instructor for email) if any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students' observance of a holy day. Students must make arrangements *in advance* to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to SCampus and to the USC School of Social Work Student Handbook for additional information on attendance policies.

X. ACADEMIC CONDUCT

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Section 11, *Behavior Violating University Standards* <https://scampus.usc.edu/1100-behavior-violating-university-standards-and-appropriate-sanctions/>. Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct/>.

Discrimination, sexual assault, and harassment are not tolerated by the university. You are encouraged to report any incidents to the *Office of Equity and Diversity* <http://equity.usc.edu/> or to the *Department of Public Safety* <http://capsnet.usc.edu/departments/public-safety/online-forms/contact-us>. This is important for the safety whole USC community. Another member of the university community – such as a friend, classmate, advisor, or faculty member – can help initiate the report, or can initiate the report on behalf of another person. *The Center for Women and Men* <http://www.usc.edu/student-affairs/cwm/> provides 24/7 confidential support, and the sexual assault resource center webpage sarc@usc.edu describes reporting options and other resources.

XI. SUPPORT SYSTEMS

A number of USC's schools provide support for students who need help with scholarly writing. Check with your advisor or program staff to find out more. Students whose primary language is not English should check with the *American Language Institute* <http://dornsife.usc.edu/ali>, which sponsors courses and workshops specifically for international graduate students. *The Office of Disability Services and Programs* http://sait.usc.edu/academicsupport/centerprograms/dsp/home_index.html provides certification for students with disabilities and helps arrange the relevant accommodations. If an officially declared emergency makes travel to campus infeasible, *USC Emergency Information* <http://emergency.usc.edu> will provide safety and other updates, including ways in which instruction will be continued by means of blackboard, teleconferencing, and other technology.

XII. STATEMENT ABOUT INCOMPLETES

The Grade of Incomplete (IN) can be assigned only if there is work not completed because of a documented illness or some other emergency occurring after the 12th week of the semester. Students must NOT assume that the instructor will agree to the grade of IN. Removal of the grade of IN must be instituted by the student and agreed to by the instructor and reported on the official "Incomplete Completion Form."

XIII. POLICY ON LATE OR MAKE-UP WORK

Papers are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If the paper is late without permission, the grade will be affected.

XIV. POLICY ON CHANGES TO THE SYLLABUS AND/OR COURSE REQUIREMENTS

It may be necessary to make some adjustments in the syllabus during the semester in order to respond to unforeseen or extenuating circumstances. Adjustments that are made will be communicated to students both verbally and in writing.

XV. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS

Approved by the 1996 NASW Delegate Assembly and revised by the 2008 NASW Delegate Assembly
[\[http://www.socialworkers.org/pubs/Code/code.asp\]](http://www.socialworkers.org/pubs/Code/code.asp)

Preamble

The primary mission of the social work profession is to enhance human wellbeing and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual wellbeing in a social context and the wellbeing of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. "Clients" is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.
