Course description:
We will examine persuasion from a variety of perspectives and consider how the target, the techniques, the source, the message, and the channel of communication all interplay in persuasion.

Target: A successful persuasion attempt directed at one subgroup of the population may fail when applied to a different subgroup.

Techniques: There are a variety of techniques available for any persuasion attempt. Knowing when and how to use these techniques effectively is central to any persuasion attempt.

Source: Persuasion attempts can originate from a variety of sources (e.g. parents, friends, government and businesses). What characteristics of a source are typical within successful persuasion attempts?

Message: Although the content conveyed in different persuasion attempts differ there are features that can be utilized within a message to improve the effectiveness of persuasion attempts.

Channel: There are multiple methods with which to reach a persuasion target (e.g. print, word of mouth, the internet). We will examine the strengths and weaknesses of different channels.

Course format
Class will meet weekly for up to 2 hours and 30 minutes. Class meetings will consist of lectures, student presentations and discussions.

Course objectives
Persuasion is a dynamic and developing discipline. Persuasion techniques of one hundred or even five years ago are different in many ways from effective persuasion techniques utilized today. This is due to a variety of reasons but primarily our understanding of persuasion has evolved, the target of persuasion techniques (us) has changed over the years, and new channels for persuasion (e.g., social media) are available. However, there are still many important lessons and effective techniques to be learned from past studies. This course will therefore examine past and current persuasion techniques. The objective of this course is to educate you regarding a variety of persuasion attempts many of you are exposed to daily.
When you have completed this course you should be able to
1. Identify persuasion attempts by individuals and organizations.
2. Increase your ability to resist persuasive appeals.
3. Understand how persuasion differs across subgroups (e.g., gender and cultures).
4. Understand the relationship between behavior and attitudes.
5. Utilize persuasion more effectively in your own day-to-day life.
6. Employ persuasion techniques to improve the effectiveness of campaigns.

Required materials

ISBN# 1433805618 or 978-1433805615.

Required journal articles are almost all available for free on the course’s blackboard.

Additional recommended but not required texts for further reading:
For another textbook that covers the same material you could read

For those who would like to delve further into theories of persuasion I recommend (but do not require)
Relevant chapters from this book are included under Further Reading

Course Requirements:
1. Attendance — As we only meet once a week, and much of the material from lecture does not overlap with that of the text, attendance is crucial. Everyone is allowed one unexplained absence per term. If you already know that you need to be absent more than once, I recommend you do not take this class.

2. Reading assignments — The lectures presume you have done the assigned reading prior to coming to class. The lectures will make much more sense if you have done the background reading ahead of time.

3. Discussion leader — Each week a team of 2-3 individuals will present the key concepts from the previous week in an innovative and entertaining manner. 20%

4. Midterm paper — You will write a 15 page paper (excluding references and appendices) on an assigned topic demonstrating your knowledge of the theories covered in the first half of the
class. 30%

5. Final paper — You will design an attitude change campaign on a topic of your own choosing integrating theories from the entire semester (18-20 pages). 40%

6. In class presentation — This course attempts to enable you not just to design a persuasive campaign but to impart that information to others in a coherent and professional manner. Consequently, in the final class period you will prepare and present an 8-10 minute summary of your campaign to the class. 10%

Final grades: Each student’s final grade will be based on the total number of points earned according to the following scale:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Grade Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>93-100%</td>

Some students think that putting effort into a course automatically equals an “A” grade regardless of the level of mastery of the course material. In other words, some students mistakenly equate effort with mastery. However, a runner can put a lot of effort into a race, but if the runner has not mastered the effective techniques of running, they may perform poorly.

Paper guidelines:
1. Papers must be word-processed, double-spaced, in 12-point Times New Roman font with 1 inch margins on all sides of the page.
2. Before you turn in your paper make sure you keep both a hard copy and a Word file.
3. Please ensure that each paper is written in APA style by referring to the APA manual.
4. Typos and spelling errors are unforgivable at this level and reflect poorly on you. This is a professional program and a paper with multiple grammar, typo or spelling errors will receive substantial deductions.
5. If you are not a native English speaker it is recommended that you have a native English speaker or someone from the Learning Lab look over your paper for grammar. The content of the paper, however, must be yours alone.
6. There will also be substantial penalties for assignments turned in after the deadline (up to one grade per day). An “incomplete” will only be given by the university with a documented emergency.
Delivery of Assignments

All written assignments must be both 1) submitted via blackboard and 2) submitted as a hard copy to my Kerckhoff mailbox or in class.

All papers (midterm and final) can be submitted in either .doc or .docx format. Do NOT submit papers in .pdf format. If you make a mistake or wish to submit a revised version blackboard will allow you to do so.

Delivering your assignments on time is crucial to your success in this course and in life more generally. The deadlines for each submission are provided with each assignment. Missing deadlines incurs significant penalties (e.g., half of the possible score). Any late assignment still has to be completed and delivered, or it may prevent you from completing the course.

The requirement of an electronic copy submitted via blackboard and a hard copy to my Kerckhoff mailbox or in person during class ensures I should receive at least one copy of your document before the deadline. This allows you to avoid late points due to electronic delivery problems or other problems.

Classroom atmosphere

In this course, we will engage in classroom discussions. Any true discussion involves personal exposure and taking risks. Your ideas may or may not be consistent with those of your classmates but we should try to respect the views and opinions of others.

There will be times when you will give wrong answers to questions posed during classroom discussions. This is acceptable because if you knew everything about persuasion, you would most likely not be enrolled in this course.

Note on use of personal laptops during class.

Many of you expect to be able to use your personal laptops in class. Laptops are useful tools but also distracting devices. When you have your laptop in front of you, there is a temptation to IM, email, check sport scores, or watch YouTube videos while your peers are trying to engage in the lecture. When you use your laptop for tasks other than note taking you distract those around you. Moreover, it is typically obvious to the instructor when a student is using their laptop for tasks unrelated to the class. To maintain the classroom atmosphere please use laptops only for note taking during class.

Academic Integrity

USC seeks to maintain an optimal learning environment. General principles of academic honesty include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one’s own academic work from misuse by others as well as to avoid using another’s work as one’s own. All students are expected to understand and abide by these principles. The Annenberg School for Communication is committed to upholding the University’s Academic Integrity code as detailed in the in the SCampus Guide. It is the policy of the School to report all violations of the code. Any serious violation or pattern of violations of the Academic Integrity Code will result in the student’s expulsion from the Communication Management program.

All submitted work for this course may be subject to an originality review as performed by Turnitin technologies (http://www.turnitin.com) to find textual similarities with other Internet content or previously submitted student work. Students of this course retain the copyright of
their own original work, and Turnitin is not permitted to use student-submitted work for any other purpose than (a) performing an originality review of the work, and (b) including that work in the database against which it checks other student-submitted work. Students will be referred to the Office of Student Judicial Affairs and Community Standards for further review, should there be any suspicion of academic dishonesty. The Review process can be found at: http://www.usc.edu/student-affairs/SJACS/.

**USC policy for students with disabilities**

Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. Please be sure the letter is delivered to me as early in the semester as possible. DSP is located in STU 301 and is open 8:30 a.m.–5:00 p.m., Monday through Friday. The phone number for DSP is (213) 740-0776.

**Lateness**

Working professionals occasionally must submit an assignment late. To encourage everyone to hand in assignments, I will accept late work. However, in fairness to those who do turn things in on time there will be a price to pay for late work. I will grade all late assignments and then deduct percentage points. Work less than 24 hours late will be deducted 10%, work more than 24 hours late but under a week late will be deducted 25%. Each additional week will result in a further 25% deduction per week late up to a maximum of a 50% deduction.

**The grade of incomplete (IN)**

*The University only allows instructors to assign a grade of incomplete if work is not completed because of documented illness or some other emergency.* Removal of the grade of IN must be instituted by the student and agreed to by myself and the department and reported on the official “Incomplete Completion Form” to the University.

**Changes to syllabus**

The course schedule will be followed as closely as possible but may vary. However, I reserve the right to make changes to the syllabus or schedule if necessary. Any changes will be announced in class or by e-mail as far in advance as possible.
