II. CATALOGUE DESCRIPTION

Through didactic and experiential methods, students learn to interpret and apply leadership theory and research. Covers skills of effective leadership at all organizational levels.

III. COURSE DESCRIPTION

On April 22-23, 2010, 400 social work leaders, ranging in age from 22 to 85, met in Washington, DC to explore issues facing the profession. Leadership development was one of the 10 imperatives voted on by the attendees. This imperative's goal is the integration of leadership training in social work **at all levels** in order **to identify the next generation of social work leaders among Gen X and Gen Y professionals.**¹ As social work professionals, our leadership begins with understanding and managing ourselves so that we can be in service to the individuals, groups, communities and organizations we serve. In addition, we serve as leaders to strengthen the profession through direct practice, community organizing, supervision, consultation, administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Our ultimate goal as social work leaders is in the sustainability of a profession that has sought to enhance the wellbeing of mankind in all walks of life. This includes taking responsibility for the development of others through supervision, mentoring, teaching, management and self-leadership.

Leadership is defined as "a process of influencing others to achieve a goal." This course is derived from theory and research and uses real life observations and experiences from both faculty and students.

¹ 2010 Congress @naswdc.org

Advanced social work professionals require leadership knowledge, skills, and abilities to better understand and meet the challenges of working within complex and diverse urban social settings that address a range of contemporary social service issues. The course will address a panoply of topics to enhance effective practices. Among these are motivation, communication skills, power and influence, team building and group facilitation, conflict management, and various approaches to leadership styles and methods with emphasis on situational approaches and transformational leadership. One purpose of this course is to help students become more effective leaders and to better understand the demands of leadership. Specifically, the course will serve as a guide for interpreting leadership theory and research and fill the gaps between leadership theory and practice. While not all master's level social workers will take responsibility for formally leading or managing organizations and projects, but informal leaders do emerge and followership is intrinsically a part of the leadership process. This course is built on the integration of leadership, followership, and the situation as an essential component of excellence for advanced social work practice.

The course will be taught from the perspective that students will be engaged throughout their lives in organizational contexts and that understanding leadership will be useful, whether they are internal employees, managers or directors or external advocates or consultants attempting to affect the setting and the community. VII. COURSE ASSIGNMENTS, DUE DATES & GRADING

Assignment	Due Date	% of Final Grade
Assignment 1 - Strength Based Analysis	Week 7	20%
Assignment 2 - Team Oral Presentation	Weeks 9-15	20%
Assignment 3 - Leadership Development and Self Efficacy Plan	Week 11	20%
Assignment 4 - Leadership Approaches & Application	Final Week	30%
Class Participation	Ongoing	10%

Each of the major assignments is described below:

Assignment One: Strength Based Analysis (20%)

In assignment one, you will create your strength based leadership profile identifying strengths you wish to augment, areas you wish to improve and weaknesses to eliminate. An array of inputs will inform this analysis, including results from the various assessments you took and the views you obtained from others in the 360 feedback process.

Due: Date (Week 7)

This assignment relates to student learning outcomes 1, 2, 3, 4, 5, 7, 8, 11, & 14

Assignment Two: Group Oral Presentation (20%)

Students will form teams. Teams are typically comprised of two to three students (depending on the size of the class, team size may vary). Each team is to decide on a topic relevant to the course. A list of topics is included at the end of the syllabus to stimulate your thinking about the presentation. You are by no means limited to the topics on the list and it is strongly recommend you follow your specific interests about leadership. Class time will be devoted to having you meet with your groups and prepare for the presentation. I will circulate among the groups and help you with the creation and development of your presentation. Team presentations typically run five to seven minutes per member. Each team member must contribute to the development of the presentation and participate in the presentation; no free riding! The presentation must inform the class about some topic relevant to leadership (note: please avoid using the topic of power in the oral presentation; your knowledge of power was already assessed in the midterm). We will discuss this further in class. Instructor approval is required for your presentation topic and the instructor will probably want to coordinate lectures to complement the team’s presentation. Teams ordinarily present during class Units nine (9)-15, but your instructor will provide specific timelines. Oral presentations will be evaluated on the basis of being prepared, informative and delivered in a manner, which holds the interest of the audience.

Some ideas to stimulate your thoughts on leadership topics for the team oral presentations:

Authentic leadership	contrasting leadership of large & small agencies

The difference between these two grades would be determined by the degree to which these skills have demonstrated by the student.
- (2) A grade of B+ will be given to work which is judged to be very good. This grade denotes that a student has demonstrated a more-than-competent understanding of the material being tested in the assignment.
- (3) A grade of B will be given to student work which meets the basic requirements of the assignment. It denotes that the student has done adequate work on the assignment and meets basic course expectations.
- (4) A grade of B- will denote that a student's performance was less than adequate on an assignment, reflecting only moderate grasp of content and/or expectations.
- (5) A grade of C would reflect a minimal grasp of the assignments, poor organization of ideas and/or several significant areas requiring improvement.
- (6) Grades between C- to F will be applied to denote a failure to meet minimum standards, reflecting serious deficiencies in all aspects of a student's performance on the assignment.

University Policies and Guidelines

IX. ATTENDANCE POLICY

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives which could affect your

course grade. Students are expected to notify the instructor by email of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students' observance of a holy day. Students must make arrangements *in advance* to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to Scampus and to the USC School of Social Work Student Handbook for additional information on attendance policies.

X. STATEMENT ON ACADEMIC INTEGRITY

USC seeks to maintain an optimal learning environment. General principles of academic honesty include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one's own academic work from misuse by others as well as to avoid using another's work as one's own. All students are expected to understand and abide by these principles. *SCampus*, the Student Guidebook, contains the Student Conduct Code in Section 11.00, while the recommended sanctions are located in Appendix A: <http://www.usc.edu/dept/publications/SCAMPUS/gov/>. Students will be referred to the Office of Student Judicial Affairs and Community Standards for further review, should there be any suspicion of academic dishonesty. The Review process can be found at: <http://www.usc.edu/student-affairs/SJACS/>.

Additionally, it should be noted that violations of academic integrity are not only violations of USC principles and policies, but also violations of the values of the social work profession.

XI. STATEMENT FOR STUDENTS WITH DISABILITIES

Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. *Please be sure the letter is delivered to the instructor as early in the semester as possible.* DSP is located in STU 301 and is open from 8:30 a.m. to 5:00 p.m., Monday through Friday.

Students from all academic centers (including the Virtual Academic Center) may contact Ed Roth, Director of the DSP office at 213-740-0776 or ability@usc.edu.

XIII. STATEMENT ABOUT INCOMPLETES

The Grade of Incomplete (IN) can be assigned only if there is work not completed because of a documented illness or some other emergency occurring after the 12th week of the semester. Students must NOT assume that the instructor will agree to the grade of IN. Removal of the grade of IN must be instituted by the student and agreed to be the instructor and reported on the official “Incomplete Completion Form.”

XIV. POLICY ON LATE OR MAKE-UP WORK

Papers are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If the paper is late without permission, the grade will be affected.

XVI. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS (OPTIONAL)

*Approved by the 1996 NASW Delegate Assembly and revised by the 2008 NASW Delegate Assembly
[<http://www.socialworkers.org/pubs/Code/code.asp>]*

Preamble

The primary mission of the social work profession is to enhance human wellbeing & help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, & living in poverty. A historic and defining feature of social work is the profession’s focus on individual wellbeing in a social context and the wellbeing of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. “Clients” is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals’ needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

These core values reflect what is unique to the social work profession. Core values, & the principles that flow from them, must be balanced within the context and complexity of the human experience.
