

Objective	This course provides students with an in-depth introduction to technologies and techniques used in the game industry today. At semester's end, students will have: <ol style="list-style-type: none"> 1. Gained an understanding of core game systems (incl. rendering, input, sound, and collision/physics) 2. Developed a strong understanding of essential mathematics for games 3. Written multiple functional games in C++ 4. Learned critical thinking skills required to continue further study in the field 										
Concepts	3D math for games. C++. 3D graphics. Collision detection. Introduction to A.I. Implementing gameplay. Getting a job in the game industry.										
Prerequisites	CSCI 104 or ITP 365x										
Instructor	Clark Kromenaker										
Contact	Students in the course should post their questions on Piazza. <i>Email:</i> kromenak@usc.edu (Only for non-course questions, grading concerns, or prospective students).										
Office Hours	Tuesdays, 8:50PM-10:00PM in OHE 540										
Time/Location	Tuesday and Thursday, 7 – 8:50PM in OHE 540										
Course Structure	Each week, we have a lecture on Tuesday and a lab assignment assigned in class on Thursday. The first part of each lab assignment is due at the end of class on Thursdays, and the final submission is due the following Wednesday. There are two midterm exams and a final exam. All exams are cumulative.										
Textbook	<i>Game Programming Algorithms and Techniques</i> . Sanjay Madhav. ISBN-10: 0321940156. (Amazon link)										
Grading	The course is graded with the following weights: <table border="1"> <tr> <td>Lab Assignments (12 x 5%)</td> <td>60%</td> </tr> <tr> <td>Midterm Exam I</td> <td>12.5%</td> </tr> <tr> <td>Midterm Exam II</td> <td>12.5%</td> </tr> <tr> <td>Final Exam</td> <td>15%</td> </tr> <tr> <td>TOTAL POSSIBLE</td> <td>100%</td> </tr> </table>	Lab Assignments (12 x 5%)	60%	Midterm Exam I	12.5%	Midterm Exam II	12.5%	Final Exam	15%	TOTAL POSSIBLE	100%
Lab Assignments (12 x 5%)	60%										
Midterm Exam I	12.5%										
Midterm Exam II	12.5%										
Final Exam	15%										
TOTAL POSSIBLE	100%										
Software	Students will be able to setup their own PC and/or Mac computers for use in the class. Students will write code in C++ using a simple game framework designed for this course. ITP also offers Open Lab use for all students enrolled in ITP classes. These open labs are held beginning the second week of classes through the last week of classes. Hours are listed at: http://itp.usc.edu/labs/ .										

Grading Scale Letter grades will be assigned according to the following scale:

93%+	A
90-92%	A-
87-89%	B+
83-86%	B
80-82%	B-
77-79%	C+
73-76%	C
70-72%	C-
69	D+
67-68	D
66	D-
65 and below	F

Half percentage points will be rounded up to the next whole percentage. So for instance, 89.5% is an A-, but 89.4% is a B+.

There is no curving. Students will receive the grade they earn. Extra credit is generally not offered.

Policies *Make-up policy for exams:* To make up for a missed exam, the student must provide a satisfactory reason (as determined by the instructor) along with proper documentation. Make-ups are only allowed under extraordinary circumstances.

Late Lab Assignments: Lab assignments *are not accepted late* unless there is a satisfactory reason (as determined by the instructor) along with proper documentation.

<p>Statement on Academic Conduct and Support Systems</p>	<p>Academic Conduct Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in <i>SCampus</i> in Section 11, <i>Behavior Violating University Standards</i> https://scampus.usc.edu/1100-behavior-violating-university-standards-and-appropriate-sanctions/. Other forms of academic dishonesty are equally unacceptable. See additional information in <i>SCampus</i> and university policies on scientific misconduct, http://policy.usc.edu/scientific-misconduct/.</p>
	<p>Discrimination, sexual assault, and harassment are not tolerated by the university. You are encouraged to report any incidents to the <i>Office of Equity and Diversity</i> http://equity.usc.edu/ or to the <i>Department of Public Safety</i> http://capsnet.usc.edu/departments/departments-public-safety/online-forms/contact-us. This is important for the safety whole USC community. Another member of the university community – such as a friend, classmate, advisor, or faculty member – can help initiate the report, or can initiate the report on behalf of another person. <i>The Center for Women and Men</i> http://www.usc.edu/student-affairs/cwm/ provides 24/7 confidential support, and the sexual assault resource center webpage sarc.usc.edu describes reporting options and other resources.</p>
	<p>Support Systems A number of USC’s schools provide support for students who need help with scholarly writing. Check with your advisor or program staff to find out more. Students whose primary language is not English should check with the <i>American Language Institute</i> http://dornsife.usc.edu/ali, which sponsors courses and workshops specifically for international graduate students. <i>The Office of Disability Services and Programs</i> http://sait.usc.edu/academicssupport/centerprograms/dsp/home_index.html provides certification for students with disabilities and helps arrange the relevant accommodations. If an officially declared emergency makes travel to campus infeasible, <i>USC Emergency Information</i> http://emergency.usc.edu/ will provide safety and other updates, including ways in which instruction will be continued by means of blackboard, teleconferencing, and other technology.</p>
<p>A Further Note on Plagiarism</p>	<p>In this class, all homework submissions will be compared with current, previous, and future students’ submissions using MOSS, which is a code plagiarism identification program. If your code significantly matches another student’s submission, you will be reported to SJACS with the recommended penalty of an F in the course.</p> <p>It is okay to discuss solutions to specific problems with other students, but it is not okay to look through another student’s code. It does not matter if this code is online or from a student you know, it is cheating. Do not share your code with anyone else in this or a future section of the course, as allowing someone else to copy your code carries the same penalty as you copying the code yourself.</p>

Course Outline			
W	Date	Topic(s)	Reading/Labs
1	8/22	Course Intro; Game Programming Basics	Ch. 1;
	8/24	Lab 1 – Debugging	
2	8/29	2D Graphics Basics; Game Object Models	Ch. 2;
	8/31	Lab 2 – Pong	Lab 1 DUE 8/30 @ 11:59PM
3	9/5	Vector Math and Physics Basics	Ch. 3 (pp. 41-29); Ch. 7 (pp. 148-151)
	9/7	Lab 3 – Asteroids	Lab 2 DUE 9/6 @ 11:59PM
4	9/12	More Vector Math; Level Representations	Ch. 3 (pp. 50-57); Ch. 4 (pp. 88-91)
	9/14	Lab 4 – Blocks	Lab 3 DUE 9/13 @ 11:59PM
5	9/19	Platforming Physics and Sound	
	9/21	Lab 5 – Basic Platformer	Lab 4 DUE 9/20 @ 11:59PM
6	9/26	Midterm Practice/Review	
	9/28	Midterm Exam I	
7	10/3	Side scrollers, 2D cameras, parallax	
	10/5	Lab 6 – Endless Runner	Lab 5 DUE 10/4 @ 11:59PM
8	10/10	Artificial Intelligence	Ch. 9;
	10/12	Lab 7 – Tower Defense	Lab 6 DUE 10/11 @ 11:59PM
9	10/17	3D Graphics, OpenGL	Ch. 3 (pp. 58-61); Ch. 4 (pp. 65-75)
	10/19	Lab 8 – TBD	Lab 7 DUE 10/18 @ 11:59PM
10	10/24	More 3D Graphics	Ch. 4 (pp. 76-88)
	10/26	Lab 9 – TBD	Lab 8 DUE 10/25 @ 11:59PM
11	10/31	Midterm Practice/Review	
	11/2	Midterm Exam II	
12	11/7	Collision and Game Physics, Part 2	Ch. 7 (pp. 127-148)
	11/9	Lab 10 – TBD	Lab 9 DUE 11/8 @ 11:59PM
13	11/14	Camera Systems	Ch. 8;
	11/16	Lab 11 – TBD	Lab 10 DUE 11/15 @ 11:59PM
14	11/21	User Interfaces	Ch. 10
	11/23	Thanksgiving Holiday (no class)	
15	11/28	Lab 12 – TBD	Lab 11 DUE 11/27 @ 11:59PM
	11/30	Final Practice/Review	Lab 12 DUE 12/1 @ 11:59PM
		Final Exam – Thursday, December 7 @ 7:00-9:00PM
