Introduction to recording consoles used in music designed for records and film and TV music synchronized to picture and music scoring procedures. Recording consoles serve as the basis for all computer software audio and recording programs so a firm understanding of functions and routing will increase understanding of current and future software development.

Significant objectives include:

- an understanding of important approaches to recording various types of music for film and records.
- an understanding of the history and development of consoles.
- understanding equipment requirements needed for different applications and situations.
- an appreciation of digital audio workstations control surfaces compared to analog consoles

Significant Outcomes include, but not limited to:

- Routing requirements
- Gain structure
- Workflow situations
  - Records
  - Film scoring
- Speaker configurations and uses
- Stem mixing
  - Records
  - Scoring

Requirements, Exams and Grading Information:

There will be one mid term, a final, and one course performance exam. The tests will contain mostly short answer or multiple choice. A study guide may be available the class meeting prior to each test. Tests must be taken during the scheduled times and cannot be made up at a later date.

*Class Participation*

*10%*

Participation in all class sessions will be monitored and will count towards your final grade. Because of the specialized nature of this subject, attendance and participation are critical for understanding the material and concepts covered in this class.

## **SYLLABUS: MTEC 491, The Recording Console** □

---

A guest speaker may come to class with information specific to the Final Performance Exam. Missing classes can prevent you from completing this project in an accurate and successful fashion. Be advised!

There will be a minimum of one field trip to a recording studio and possibly one trip to a scoring facilities. These will be in addition to the regularly scheduled class meetings and attendance is mandatory and these will be counted as class meetings. Hopefully ample time of date and times will be given so arrangements can be made with other classes, internships, etc.

Attendance in all class sessions will be monitored. Missing more than two classes can lower grades proportionately. Missing more than three classes qualifies for being dropped from the course or you will receive a grade of FAIL and you must contact me before continuing.

If you cannot attend a class, it is your responsibility to get notes from BlackBoard or a classmate. If an extenuating circumstance arises that forces you to miss more than the allowed classes, contact the instructor immediately.

### GRADING SUMMARY:

1. Midterm	25%
2. Course Hands-On Exercise	25%

## Academic Conduct

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Section 11, *Behavior Violating University Standards*<https://scampus.usc.edu/1100-behavior-violating-university-standards-and-appropriate-sanctions/>. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct/>. Academic Integrity violations will result in a failing grade for submitted material and for the course, and possible dismissal from the Music Industry Program for majors and minors.

## Class Participation

Attendance in all class sessions will be monitored and will count towards your final grade. If you are not in class you cannot participate. Because of the specialized nature of this subject, attendance and participation are critical for understanding the material and concepts covered in this class. However, missing more than two classes can lower grades proportionately. Missing more than four classes qualifies you to be dropped from the course or you can receive a grade of FAIL. If you cannot attend a class, it is your responsibility to get notes from BlackBoard or a classmate, not me. If an extenuating circumstance arises that forces you to miss more than the allowed classes, contact the instructor immediately.

### Pop Quizzes:

Occasional quizzes may be given without warning to insure that the class is keeping up with assigned reading and lectures.

### Classroom Behavior:

No food in class

### ***No cell phones or computers on in class!***

If you’re looking at your cell phone it must be on.

There will be no sleeping, eating or drinking in class. During demonstrations and guest lecturers, there will be no talking outside of the context of classroom activities. If you feel the need to talk, please step outside until you are finished. If you are asked to leave class for any reason, you must make an appointment with to see me and discuss the matter before you will be readmitted to class. If you are asked to leave a second time, you will not be allowed to return.

### Student Disability:

Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. Please be sure the letter is delivered to me (or to TA) as early in the semester as possible.
