SPRING 2020

CLASS OVERVIEW:

CTPR 310 is an intensive practical group experience in making projects, strongly emphasizing creativity and collaboration. The class centers on three-student partnerships planning, shooting, and editing, three (5 minute 30 second) sync sound projects in which students and faculty work together addressing the aesthetic, technical, and ethical issues integral to creative group collaboration.

Please keep this class in perspective. One thing it is not; it is not a Junior Thesis Class, but rather a mid-curriculum course of three exercises designed to give you the opportunity to sharpen all of your production skills. To that end, it is many things - a unique opportunity to learn through practical experience; an exercise in problem solving; a chance to develop professional skills; an introduction to the fascinating dynamics of group interaction, but the ultimate goal is to facilitate growth as storytellers and filmmakers. To do this, we must all endeavor to create an environment fostering creative imagination and collaboration, and artistic integrity.

CLASS DESCRIPTION:

This class is a workshop in both creativity and collaboration. During the 15 weeks, each partnership will make three short color digital projects, together. Students will rotate through the major disciplines of Producing, Directing, Picture Editing, Sound Recording/Design/Editing, and Cinematography, by performing different multiple roles in rotation between the three projects. (See CTPR 310 PARTNERS: PROJECT ROLES AND ROTATIONS schedule in back of syllabus.) These projects are highly collaborative efforts combining students' functions in their individual "roles" into a productive and creative team. In this class there is no such thing as "your project" or "your partners' project." Success of each project depends on joint full-out effort. A lack of collaboration on your part or your partners' part will result in a compromised project and the risk of a lower grade in the course.

During the semester you will screen your dailies and cuts for your classmates, SAs, and your instructors, in the Full Class Session ...and you will get a ton of feedback. You will also attend Break Out Sessions with the instructor who specializes in the discipline that you are performing, and with students working in that discipline in other projects in your class. Much of what you will learn you will learn on your feet - by doing. But you will also benefit by learning to listen to and filter the critiques you receive, and through the discussions in the Break Out Sessions

In completing your projects, you will go through all the basic steps of scripting, pre-production, production, post-production, and finalizing, and you will get a handle on the nitty-gritty details of these steps of the process. But, most importantly, you will have the freedom to experiment, and to push both yourself and the medium to realize your particular vision. Aesthetic risk taking will be condoned here.

BOUNDARIES AND RULES: (Well... there always are some...)

CTPR 310—18489 Green Section

SPRING 2020

- 1) The final length of each project may not exceed 5 minutes and 30 seconds with an additional 30 seconds for credits. Your finished project will be your fine cut picture and mixed sound. It is the students' responsibility to make DVDs or the equivalent files of the finished project for their actors and crew. Check with your faculty and SAs about making DVDs from your Avid DNX file.
- 2) Students must purchase their own 64GB SDXC Class 10 cards, to record footage, and one 2to8GB SD card, to contain the camera settings, for the FS5 digital camera. The FS5 requires a 64GB SDXC Class 10 card to record in the proper codec (XAVC 50mbs) for this class. Smaller cards will not allow you to record in this format. Additionally, smaller cards will not allow you to record in higher frame rates for slow motion shots. Cards from Kingston, Lexar, Transcend and Sandisk have all been tested with the camera and are available at local stores and on Amazon.
- 3) It is recommended that shooting on a project be limited to one 64GB card (approximately 125 minutes or a 25:1 ratio.)
- 4) All members of the production partnership, i.e. all students associated with the production number, are equally accountable for the care and return of equipment in good condition and at the appointed time. Late, damage and lost fees will be charged equally to all members of the production number, even if member(s) were not present for the equipment check out.
- 5) See the 310 Burger for script guidelines. Dialogue and/or voice over, if any, may be only a minor element in your storytelling, no more than 40%. The emphasis of this class is to communicate through images and sound. Dependency on words is strongly discouraged, so don't count on them. Stories are told through the action. Stretch your minds in this area.
- 6) All shooting must take place within a 50-mile radius of USC. Also, the length of a shooting day is strictly limited and may include travel time. (See "The Production Day" at the end of the syllabus for specific regulations.)
- 7) All shooting must be done on the school's Sony PXW-FS5 camera. Only if this camera is not appropriate due to the technical nature of a shot, a supplemental camera may be requested. Students must submit a written request to the Lead Professor at least a week prior to the first week of prep for their project and follow the procedure on the USC SCA Supplemental Camera Usage Request found on the SCA Community website in the Production Documents Section within the Student Production Resources. All supplemental equipment used with the camera must be approved by camera and lead faculty at least one week prior to the shoot. Drones are specifically not permitted in CTPR 310.
- 8) Cuts screened during Full Class and Editing Breakout will be screened from the AVID timeline.

CTPR 310—18489 Green Section

SPRING 2020

At SCA we provide students with great flexibility and options where they choose to edit. Students can use The AVID Labs or if they have AVID on their laptops they can edit at home or anywhere in the school. Room B152 is designed for editing on a laptop, plugged into two monitors, a keyboard and a mouse.

If you choose to edit on a laptop, please follow the following requirements:

You must use an SCA approved laptop **along** with the following:

- An SCA approved hard drive
- A thumb drive
- Headphones with a 1/4-inch phono jack (in B152)
- Avid software and Sapphire software (free) as specified in enclosed links (you will need to have the same versions of AVID and Sapphire as those in the lab in order to move your project between your laptop and the lab or classroom computers.)

Check out this link and purchase only approved SCA equipment and software.

<http://cinema.usc.edu/laptops/> On the link that there are special laptop prices available for students through the USC bookstore. In addition, our IT Department has established a special relationship for us with Melrose Mac. If you are experiencing difficulty reaching Melrose Mac or the contact listed on the Cinema site for Sapphire plugins, please email creativetech@cinema.usc.edu with as much detail as possible about the issue you are experiencing.

- 9) All shooting for each project must be done on the two weekends indicated in the Weekly Schedule. Production is limited to two days per weekend. Weekday shooting is prohibited, except under extremely rare circumstances. Petitions to justify weekday shoots must be presented in writing and approved by both Producing and Directing faculty. No one on the set of a weekday shoot may miss a class in **any** division of the University.
- 10) Each project budget is up to, but **not necessarily as much as**, \$1250 to be provided by the project's director and approved by both the project's producer and director. If, in the opinion of the faculty, the project cannot be completed for that amount, adjustments to the script and or approach will be required. This is an absolute cap with **no exceptions**, meaning that **you can spend less than this amount**, and we encourage you to budget and spend as little as possible. Each director will be responsible for depositing the production funds into a joint bank account, shared with the trio. The producer will be responsible for creating the budget, making payments on behalf of the production, and providing a final cost report demonstrating how the funds were disbursed. **If more than the allowable \$1250 is found to be spent on the project, the producer's grade for the course will be lowered one full notch (EG. B to C.)**
- 11) All members of a given production number are equally responsible for the check out and return of the equipment in proper working condition, safe and on time. This includes camera,

CTPR 310—18489 Green Section

SPRING 2020

lighting and sound equipment. The equipment is checked out to all members of the production number even if they have not been present or signed out any gear in person. Check SCA Community to see all production numbers you are associated with and therefore responsible for. Check SCA Knowledgebase for Camera and Lighting room operating hours, guidelines and contact info. Camera returns require only one member of the trio to be present for the return. The member that returns will be verbally informed of any missing gear and an automated email will be sent to the email of the student that checked out the camera gear at the start of the semester. This email will list what has and has not been returned. There will be a three day window after the return date to return missing gear. After that the equipment will be declared lost and the trio will be charged. No late returns of equipment will be accepted after that date. The trio is financially responsible as a group for the cost of replacement.

GRAY AREAS AND RED FLAGS: (check these out with your instructor or your Lead SA before you proceed or just stay away from them)

- 1) **Use of professional facilities or technicians from outside the department for mixing, shooting, editing, or any other aspect of the production that is taught as a part of this class will be considered an infringement of academic integrity and will result in an immediate "F" for the course.**
- 2) **Each member of the trio has specific assigned jobs for each project. Any member of the trio found doing the job of another member risks failure of the course. Use of students from outside the partnership in any of these roles will similarly impact your final grade. However, outside professionals with skills in music composition and recording, make-up, and special effects, may be used in your project. (See "Required Partnership Roles" for clarification of any gray area.)**
- 3) **All copyrighted material must be cleared and acknowledged in your credits.** Clearance can run the gamut from being a giant pain to totally impossible, and copyrighted material can include everything from the obvious (an adaptation) to the unexpected (an album cover or a baseball cap). So be careful how you decorate your sets. All music in the project must be composed for the project.
- 4) **All children, even your own, require a Certified Studio Teacher present on the set.** This can cost bucks unless you can talk one of LA's CSTs into doing it for the credit and the glory. You must also notify the Head of Physical Production if you intend to use a child and bring a written clearance from the Head of Physical Production to your instructor **before** filming with a child.
- 5) **The City of Los Angeles Film Permit Office requires that an off-duty police officer be hired for the filming of any exterior scene in which a weapon is brandished (this includes prop guns). The rate for an off-duty officer is about \$400 for an 8-hour day.**

CTPR 310—18489 Green Section

SPRING 2020

SAFETY: (And we can't emphasize this strongly enough, since every working professional knows at least one person who has been injured or killed during production.)

Read the Safety Handbook and understand the contents. Footage shot in unsafe conditions will be withheld from the final projects and confiscated. A Students' privileges may be suspended. Your grades may be lowered, including the possibility of failing.

CTPR 310 VEHICLE POLICY

In addition to POV shots from inside a closed automobile, moving motor vehicles may be used in CTPR 310 productions on University of Southern California property, private property (both commercial and non-commercial), and public property. Such motor vehicle use, either moving or non-moving will require all necessary **permits and oversight** by the owners of the properties, evidence of which must be presented to all the section instructors as well as SCA Head of Production prior to shooting. This documentation must include location permits from the agency that controls the property, as well as detailed shooting plans, and an approved Hazardous Shooting Form.

The Rule of six does not apply in these situations

For all motor vehicle use on public or commercial property, proof of securing off duty police sufficient to control traffic for the shoot must be presented prior to the shoot.

Moving motor vehicles may not be used as a dolly to record staged action.

No grip or electrical equipment may be used in a shoot involving a moving motor vehicle.

The driver may not be interviewed or deliver dialogue while the vehicle is in motion.

USC BOILERPLATE: "All students are expected to understand and abide by the USC School of Cinematic Arts guidelines. Violations of any of the safety guidelines may result in disciplinary action ranging from confiscation of footage to expulsion from the University."

Remember that you are responsible for reading and following the safety procedures in the Safety handout. Safety is the responsibility of all three partners: here, especially, you hang together. Any safety violation will reflect on all partners and make each subject to possible disciplinary action.

Discuss with your Camera, Directing, and Producing instructors any and all shots that involve weapons, projectiles, cars, stunts, or risky procedures before shooting your project. They must be cleared and signed off on the proper forms **before you shoot**, not only by your Directing, Producing, and Camera instructors, but also by the school Head of Physical Production. We will help you find a way to safely get the shot you want.

CTPR 310—18489 Green Section

SPRING 2020

The hazardous shooting form can be found online at:

https://scacommunity.usc.edu/resources/physical_production/hazardous_form.cfm

The form is a three-step process. You must complete it, have your directing, producing, AND cinematography instructors approve and sign it. Then take it to the Head of Physical production for a signature, and, finally, back to your producing instructor for final approval. In order to complete this process, you will have to start a week before shooting. Any hazardous shooting done without a completed form will result in confiscation of the footage and possible disciplinary action.

Stay alert on the set at all times. You will be dealing with electricity, hot lights, and fatigue. With this combination, even routine procedures can lead to accidents.

Any accident or damage that happens on the set **must** be documented in an ACCIDENT REPORT, in writing, signed by all three partners. A copy must be given to your producing instructor the next day.

If you are faced with a change in production plans that raise new safety or ethical issues, CALL your producing instructor or producing SA and discuss it, immediately. If you are uncertain as to how to proceed or cannot reach your instructor or SA, post-pone the shot/scene until a later time and continue shooting scenes that pose no safety problem.

PARTNERSHIPS: Collaboration is key. Learning to work with someone else is one of the most important aspects of this class. All of you can make projects on your own; you have already completed a class where you did a number of them. From this point on, with very few exceptions, you will be doing projects with other people. Working with partners presents unique challenges, mostly enriching, but sometimes producing very negative feelings. Your SAs and instructors will do their best to help you through any partnership difficulties you may have, but ultimately the success of your partnership is your responsibility.

Bottom line, though, you may not change partners or role orders, do a project on your own in this class, usurp any of your trio-mates' responsibilities, or disrupt the class activities of your trio and classmates. This is considered a failed partnership and can result in a failing grade for all three partners. See page 13 for additional details on Disruptive Behavior.

DETAILS, DETAILS: (The Production Notebook, and other paperwork.)

- 1) A file of the DIGITAL PRODUCTION NOTEBOOK must be kept on all students' desktop during production (as to have access in case shooting location does not have Wi-Fi). As well, a file or notebook with printed documents will be required on set for shooting (documents including location releases, volunteer forms, actors' forms, Exhibit G, call sheets, etc.) Each partnership must collect copies of location permits, actor releases, emergency medical information, music clearances, call sheets, script breakdowns, lined scripts, etc., and put them in a **Digital Production Notebook** for

CTPR 310—18489 Green Section

SPRING 2020

archival purpose. Turn these into your Producing instructor at picture lock. (See “Production Book Requirements” pages 21-23 for a complete list of necessary documents) You will not get a grade until this is completed. This is just good practice.

- 2) Deadlines are important and must be met all along the way if you are to complete your project on time. Meeting deadlines is also a large component of your grade. Please refer to the attached calendar weekly to be sure that you know what is expected at all times. In particular, you will be **required** to shoot about 1/2 of your project each shooting weekend and have the material you shot edited by the following Editing Break Out Session. If, for any reason, you are not going to shoot on a given weekend, you must get explicit written permission from your Cinematography, Producing, and Directing instructors. If you will be unable to edit your material before the following Editing Break Out Session after it is screened in dailies, you must have written permission from your editing instructor. At picture lock, you will be required to have at least three tracks of sound cut in addition to your locked picture. Absolutely no changes to the picture are permitted after picture lock.
- 3) Other deadlines are noted on your schedule. In particular, production paperwork including script drafts, breakdowns, call sheets, storyboards, shot lists and lined scripts are due (**in duplicate**) when noted. This paperwork is the equal responsibility of all three partners at all times and graded accordingly. There are a lot of other deadlines to keep track of, and we will remind you of them throughout the semester. The best rule, though, is “don’t put anything off”.
- 4) Each partner will be required to turn in copies of an individual production journal weekly to your Faculty and Producing/Directing SA. These are intended to be personal journals and not merely progress reports. Please feel free to express any and all thoughts you may have about the process you are going through, both problems and successes. And please be honest. The journals are confidential and will not be shared with your fellow students.

If you are unclear about anything, or have any questions whatsoever, contact your instructors or SAs.

CONFERENCES AND SUCH:

Instructors are available during the hours listed above. Contact your instructor if you wish to schedule a meeting. Please feel free to contact either any instructor or SA with whatever questions or problems that you might have during the semester. Most issues can be easily solved, so don’t be shy.

AND YES, THE GRADES:

The final grade for CTPR 310 is determined as follows:

Timely delivery of journals to Producing and Directing Instructors

10%

CTPR 310—18489 Green Section

SPRING 2020

Sound:	18%*
Editing:	18%*
Producing:	18%*
Cinematography:	18%*
Directing:	18%*

*Each of your five discipline instructors will evaluate your grade for that area according to the following formula:

Level of skill	30%
Successful execution (includes delivery of all working & finished materials)	30%
Effort, Attitude and Collaboration	30%
Class participation	10%

“Participation” is defined as constructive in-class activity, including, but not limited to, asking questions, giving constructive opinions on lessons and other students’ work.

“Collaboration” is defined as working well with your trio mates, both in spirit and as an equal contributing partner.

Grading Scale

Course final grades will be determined using the following scale

A	95-100
A-	90-94
B+	87-89
B	83-86
B-	80-82
C+	77-79
C	73-76
C-	70-72
D+	67-69
D	63-66
D-	60-62
F	59 and below

Production Division Attendance Policy

This course relies heavily on interaction between instructor and students and your participation constitutes a significant component of the learning process. Your attendance is fundamental to the structure of this course and the objectives and goals and is therefore mandatory

Students are expected to be on time and prepared for each class. Two Tuesday or other Full Class Session absences over the entirety of the course will result in a student's overall grade being lowered by one full letter (IE: A becomes B). A third absence will result in a student's

CTPR 310—18489 Green Section

SPRING 2020

grade being lowered by one additional full letter (IE: B becomes C). A student's grade will be lowered by one full letter for each additional absence. Four late class arrivals greater than seven minutes to these sessions equate to one full absence.

Each absence in a discipline's breakout session will result in a lowering the student's grade for that discipline one full grade. Two late class arrivals greater than seven minutes equate to one full absence for each discipline breakout session.

An absence during green light sessions or picture lock will result in lowering a student's grade one full grade but will not be counted as a Full Class absence (no double jeopardy.)

SAs will tally attendance and turn in attendance sheets to Producing faculty at the time when grades are recorded.

If a student misses class due to an emergency, the student must contact the professor prior to class or contact the Production Office at 213-740-3317.

Turn your phone all the way off during class. This applies to **ALL PERSONAL ELECTRONIC DEVICES** (known or unknown throughout the present or any expanded universe). The success of this class depends on every student's full presence. Or, as Ram Dass said, "Be here now." Students will receive a downgrade of one notch (B becomes B-) for every two instances of violation of the policy of having cell phones on during class.

Statement on Academic Conduct and Support Systems

Academic Conduct:

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Part B, Section 11, “Behavior Violating University Standards” policy.usc.edu/scampus-part-b. Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, policy.usc.edu/scientific-misconduct.

Support Systems:

Student Health Counseling Services - (213) 740-7711 – 24/7 on call

engemannshc.usc.edu/counseling

Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention.

Student Health Leave Coordinator – 213-821-4710

Located in the USC Support and Advocacy office, the Health Leave Coordinator processes requests for health leaves of absence and advocates for students taking such leaves when needed.

<https://policy.usc.edu/student-health-leave-absence/>

National Suicide Prevention Lifeline - 1 (800) 273-8255 – 24/7 on call

suicidepreventionlifeline.org

Free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week.

Relationship and Sexual Violence Prevention Services (RSVP) - (213) 740-4900 – 24/7 on call

engemannshc.usc.edu/rsvp

Free and confidential therapy services, workshops, and training for situations related to gender-based harm.

Office of Equity and Diversity (OED) | Title IX - (213) 740-5086

equity.usc.edu, titleix.usc.edu

Information about how to get help or help a survivor of harassment or discrimination, rights of protected classes, reporting options, and additional resources for students, faculty, staff, visitors, and applicants. The university prohibits discrimination or harassment based on the following protected characteristics: race, color, national origin, ancestry, religion, sex, gender, gender identity, gender expression, sexual orientation, age, physical disability, medical condition, mental disability, marital status, pregnancy, veteran status, genetic information, and

USC Emergency - UPC: (213) 740-4321, HSC: (323) 442-1000 – 24/7 on call

dps.usc.edu, emergency.usc.edu

Emergency assistance and avenue to report a crime. Latest updates regarding safety, including ways in which instruction will be continued if an officially declared emergency makes travel to campus infeasible.

USC Department of Public Safety - UPC: (213) 740-6000, HSC: (323) 442-120 – 24/7 on call

dps.usc.edu

Non-emergency assistance or information.

Diversity and Inclusion

Diversity and Inclusion are foundational to the SCA community. We are committed to fostering a welcoming and supportive environment where students of all identities and backgrounds can flourish. The classroom should be a space for open discussion of ideas and self-expression; however, SCA will not tolerate verbal or written abuse, threats, harassment, intimidation or violence against person or property. If students are concerned about these matters in the

CTPR 310—18489 Green Section

SPRING 2020

classroom setting they are encouraged to contact their SCA Diversity and Inclusion Liaison, <http://cinema.usc.edu/about/diversity.cfm>; e-mail diversity@cinema.usc.edu. You can also report discrimination based on a protected class here <https://equity.usc.edu/harassment-or-discrimination/>

Disruptive Student Behavior:

Behavior that persistently or grossly interferes with classroom activities is considered disruptive behavior and may be subject to disciplinary action. Such behavior inhibits other students' ability to learn and an instructor's ability to teach. A student responsible for disruptive behavior may be required to leave class pending discussion and resolution of the problem and may be reported to the Office of Student Judicial Affairs for disciplinary action.

REQUIRED VIEWING:

AFTER ALL THAT...

Enjoy yourselves! This class can be a lot of work and even very stressful. The best antidote is to be working on a project that is MEANINGFUL to you personally. Don't get lost thinking of your last project, your next project, or the great job you'll get in Hollywood. Think only of THIS project, breathe life into it, and give it your all. That is the key to success.

THE PRODUCTION DAY

1. **Stage work:** Twelve hours from start to finish including a half hour for lunch. A thirteenth hour may be used for wrapping equipment.
2. **Report To:** Crew and cast may report to a location within a thirty-mile radius from USC. It is a twelve-hour day commencing with the first call.

If the crew starts at 8 A.M. and the cast is called at 10 A.M., the day ends at 8 P.M. There is no 13th hour for wrap. A half hour lunch is included in the twelve hours.

3. **Outside the “Zone”:** If the location is between thirty and fifty miles from USC all travel time is considered work time.

If the crew leaves from USC at 7 A.M. and travels an hour and a half to the location and must travel an hour and a half back at the end of the day, the practical effect is the students have only a nine-hour shooting day.

Travel may not be added to the front or back as an outside entity. A half-hour lunch is also deducted from the total twelve hours.

Distant Location: LOCATIONS BEYOND 50 MILES ARE NOT ALLOWED.

THE BEST USE OF THE SHOOTING DAY IS EITHER AN ON-CAMPUS OR A NEARBY LOCATION
