

USC Mrs. T.H. Chan Division of
Occupational Science and Occupational Therapy

OT 575 Spring 2018

**Instructors: Pam Roberts, PhD, MSHA, OTR/L, SCFES, FAOTA, CPHQ, FNAP, FACRM
Joan Surfus, OTD, OTR/L, SWC**

DYSPHAGIA ACROSS THE LIFESPAN: PEDIATRICS THROUGH GERIATRICS

COURSE SYLLABUS

Lecture/Presentation: Thursday, 5:00-9:10 pm in CHP Room 111

Dates: January 11, 2018-February 22, 2018

Office Hours: Thursday, 4:30-5:00 pm or by appointment

Office Phone: 818-590-0004 (Pam) or 310-489-0741 (Joan)

E-mail: pamela.roberts@cshs.org or joans@ptnmail.org

COURSE DESCRIPTION:

This course is designed for occupational therapy students who have an interest in learning dysphagia across the lifespan: pediatrics through geriatrics. It is intended for those students who wish to gain a better understanding of the oral, pharyngeal, and esophageal structures and function as they relate to normal and abnormal swallowing. This course will address various assessment and treatment strategies for patients and caregivers. The course will utilize a combination of didactic, case studies, and hands on experiences.

GOALS AND OBJECTIVES:

The overall goals of this course are for the student to: (1) learn core knowledge related to the occupational therapy practitioner's unique role with people who have a swallowing problem that interferes with their daily occupations, (2) use this knowledge for clinical problem solving, and (3) understand how occupational therapy's unique perspective fits overall dysphagia management for pediatrics through geriatrics. These goals are further specified in the following behavioral objectives.

Upon completion of the course the student should be able to:

1. Identify the difference between dysphagia and feeding/eating and the value of participation in mealtime activities.
2. Identify the history of dysphagia.
3. Identify anatomy and physiology of swallowing to describe the phases of swallowing, describe the role of the postural and respiratory systems in the integrity of dysphagia skills, and describe the indications for referral for a swallowing assessment and role within dysphagia management.
4. Identify structures, anatomy and physiology of a normal swallow for pediatrics through geriatrics.
5. Identify populations where dysphagia may occur.
6. Assess the oral preparatory, oral, pharyngeal, and esophageal phases of swallow through practical application for pediatrics through geriatrics.
7. Identify what type of assessment is most appropriate.
8. Identify precautions and safety issues related to swallowing.
9. Establish a basic treatment plan for initiation of feeding and swallowing program in the domain of practice reflecting on an individual's medical, pharmaceutical, ethical, and life span presentations.
10. Identify nutritional intake methods used for patients with swallowing dysfunction.
11. Identify different evaluation and treatment interventions based on the type of study and level of evidence for selected populations.
12. Discuss considerations for non-oral feeders.
13. Discuss effects of medications on dysphagia and implications for assessment and intervention.
14. Identify changes association with normal aging that are considered during swallowing assessment and intervention.
15. Identify the importance of and strategies for the engagement of caregivers in promoting feeding/eating skills.
16. Discuss occupational therapy roles and responsibilities for service provision for dysphagia management including CPT coding.
17. Discuss ethical considerations in dysphagia management through the lifespan.
18. Discuss AOTA and CBOT's position of dysphagia management for occupational therapy practitioners including specialty certification in Feeding, Eating, and Swallowing.

Objectives primarily address ACOTE Standard B.5.14 (2011 standards version)

CLASS POLICIES AND PROCEDURES:

ADA

Students requesting academic accommodations based on a disability are required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP when adequate documentation is filed. Please be sure the letter is delivered to the instructor as early in the semester as possible. DSP is open Monday-Friday, 8:30-5:00. The office is in Student Union 301, and their phone number is (213) 740-0776.

University Student Conduct Code

The Student Handbook (SCampus) specifies the "Student Conduct Code" principles and procedures. All students are required to read and understand the Conduct Code. Violations of the Code include but are not limited to plagiarism, fabrication, unauthorized collaboration, and violation of examinations. Code violations and sanctions are outlined in the student manual. These standards of academic integrity will be adhered to in this class. Please feel free to ask questions and obtain clarification regarding academic integrity.

Drop Policy

Drop date is different for courses that are provided for half the semester only. Please check with the USC Mrs. T. H. Chan Division of Occupational Science and Occupational Therapy for date requirements.

Statement on Academic Conduct and Support Systems

Academic Conduct:

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, “Behavior Violating University Standards” policy.usc.edu/scampus-part-b. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

Support Systems:

Student Counseling Services (SCS) – (213) 740-7711 – 24/7 on call

Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention. engemannshc.usc.edu/counseling

National Suicide Prevention Lifeline – 1 (800) 273-8255

Provides free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week. www.suicidepreventionlifeline.org

Relationship and Sexual Violence Prevention Services (RSVP) – (213) 740-4900 – 24/7 on call

Free and confidential therapy services, workshops, and training for situations related to gender-based harm. engemannshc.usc.edu/rsvp

Sexual Assault Resource Center

For more information about how to get help or help a survivor, rights, reporting options, and additional resources, visit the website: sarc.usc.edu

Office of Equity and Diversity (OED)/Title IX Compliance – (213) 740-5086

Works with faculty, staff, visitors, applicants, and students around issues of protected class. equity.usc.edu

Bias Assessment Response and Support

Incidents of bias, hate crimes and microaggressions need to be reported allowing for appropriate investigation and response. studentaffairs.usc.edu/bias-assessment-response-support

The Office of Disability Services and Programs

Provides certification for students with disabilities and helps arrange relevant accommodations. dsp.usc.edu

Student Support and Advocacy – (213) 821-4710

Assists students and families in resolving complex issues adversely affecting their success as a student EX: personal, financial, and academic. studentaffairs.usc.edu/ssa

Diversity at USC

Information on events, programs and training, the Diversity Task Force (including representatives for each school), chronology, participation, and various resources for students. diversity.usc.edu

USC Emergency Information

Provides safety and other updates, including ways in which instruction will be continued if an officially declared emergency makes travel to campus infeasible. emergency.usc.edu

USC Department of Public Safety – UPC: (213) 740-4321 – HSC: (323) 442-1000 – 24-hour emergency or to report a crime. Provides overall safety to USC community. dps.usc.edu

Attendance

Class attendance is **required**. However, if a student is unable to attend class (due to personal illness, death in immediate family, or professional activities that have prior approval) the instructor must be notified. If you are unable to attend class leave a message for the instructor at 818-590-0004 or 310-489-0741. **Attendance will be included in the evaluation of participation for the course.**

Assignments

Article critiques and presentations are due on the date stated in the course outline (Each student will be assigned small group and will present a synopsis to the class based on outline provided for article critiques). Late assignments, if accepted will be penalized by a reduced grade and may jeopardize successful completion of the course.

Students are expected to read assignments before coming to class.

Students are responsible for obtaining handouts and assignments given out in class and/or posted on blackboard.

REQUIRED TEXTS:

1. Morris, SE & Klein, MD (2000). Pre-Feeding Skills: A Comprehensive Resource for Mealtime Development (2nd Edition). USA: Therapy Skill Builders.
2. Logemann, J. (1997). Evaluation and Treatment of Swallowing Disorders, (2nd edition). San Diego, CA: College-Hill Press, Inc.
3. Selected articles by instructors.

OPTIONAL TEXT:

1. Avery, W (2010). Dysphagia Care and Related Feeding Concerns for Adults (2nd Edition). Maryland: American Occupational Therapy Association.

COURSE ASSIGNMENTS AND GRADING:

Class Participation	10%
Group Article Critiques/Presentation	20%
Final Exam	70%

Course is CR/NC.

You **MUST** pass the Final Exam in order to pass the course. Passing on the Final Exam is 70%.

ASSIGNMENTS:

Article Critiques: Each Student will complete two peer reviewed article critiques to link research to practice. Articles must be within the last 5 years and from peer reviewed journal. Presentations are a total of **10 minutes!**

- One pediatric or adolescent peer reviewed feeding, eating, or swallowing article.
- One adult or geriatric peer reviewed feeding, eating, or swallowing article.
- Electronic copies of the articles AND the PowerPoint presentations **MUST** be provided to the instructors the DAY BEFORE by 5 pm the presentation is due

The article critiques will include review of evidence based feeding, eating and/or swallowing practice and will include a power point presentation for each article.

Refer to Article Critique Guidelines for specifics. Each group will have specific topic areas. Presentation of the PowerPoint presentation to the class will occur based on content of article. The expectation is that the presentation will be “professional” including professional dress and to be a total of **10 minutes. Goal is to be concise!**

Final Exam: The final exam will consist of a written exam covering key aspects based on course objectives. You **MUST** pass the Final Exam in order to pass the course.

OT 575 Weekly Schedule-Spring 2018

WEEK:	DATE:	TOPIC:	READINGS:
1	January 11	<ul style="list-style-type: none"> • Introduction to course • History of Dysphagia • Overview of Feeding, Eating and Swallowing • Anatomy and Physiology • Common diagnostic populations with dysphagia • Phases of Swallowing • AOTA and CBOT Positions on Dysphagia • CPT Coding 	<ul style="list-style-type: none"> • Pre-Feeding Skills: Chapter 1: p. 7-13 • Pre-Feeding Skills: Chapter 4: p. 43-58 • Pre-Feeding Skills: Chapter 5: p. 59-95 • Evaluation and Treatment of Swallowing Disorders: Chapter 1: p. 1-11 • Evaluation and Treatment of Swallowing Disorders: Chapter 2: p. 13-52 • Specialized Knowledge and Skills in Eating and Feeding for Occupational Therapy Practice (2007), American Journal of Occupational Therapy, Vol. 61 (6), 686-700 or Dysphagia Care and Related Feeding Concerns for Adults: Appendix B • California Code of Regulations 4150-4155, Article 6: Advanced Practice • 4153: Swallowing Assessment, Evaluation, or Intervention. • Dysphagia Care and Related Feeding Concerns for Adults: Appendix C and D-Competencies, Criteria and Client Outcomes: Specialty Certification in Feeding, Eating, and Swallowing: Occupational Therapist, Occupational Therapy Assistant • Dysphagia Care and Related Feeding Concerns for Adults: Appendix E-Guidelines for Supervision,

			<p>Roles and Responsibilities During the Delivery of Occupational Therapy Services</p> <ul style="list-style-type: none"> • Cox, M, Roberts, P, Holm, S, Kurfuerst, S, Lynch, A, Schuberth, L (2006). • Special Certification in Feeding, Eating, and Swallowing: Benefiting Clients and Occupational Therapy Practitioners, OT Practice, Vol 11, Issue 8, May 8, 2006.
<p>Objectives:</p> <ul style="list-style-type: none"> • Identify the difference between dysphagia and feeding/eating and the value of participation in mealtime activities. • Identify the history of dysphagia • Identify anatomy and physiology of swallowing to describe the phases of swallowing, describe the role of the postural and respiratory systems in the integrity of dysphagia skills, and describe the indications for referral for a swallowing assessment and role within dysphagia management. • Identify populations in which dysphagia may occur • Identify structures, anatomy and physiology of a normal swallow for pediatrics through geriatrics • Assess the oral preparatory, oral, pharyngeal, and esophageal phases of swallow through practical application for pediatrics through geriatrics • Discuss occupational therapy roles and responsibilities for service provision for dysphagia management including CPT coding • Discuss AOTA and CBOT's position of dysphagia management for occupational therapy practitioners • Discuss specialty certification including competencies, criteria, and client outcomes 			
WEEK:	DATE:	TOPIC:	READINGS:
2	January 18	<ul style="list-style-type: none"> • General Assessment Considerations • Types of Assessments • Dysphagia Clinical Screen • Clinical Dysphagia Evaluation-Adults and Geriatrics • Clinical Dysphagia Evaluation-Adults and 	<ul style="list-style-type: none"> • Evaluation and Treatment of Swallowing Disorders: Chapter 2: p. 13-52 • Evaluation and Treatment of Swallowing Disorders: Chapter 5: p.135-168
