Human Biology (HBIO) 200g The Human Animal

Session 050: May 16 – June 26, 2018
Lectures: M, Tu, W, Th: 10:00 - 11:50am, AHF B10* Seminar room
Labs: M and W: 1 - 2:50pm, AHF B10* Seminar room

Professor: Dr. Stephanie Bogart sbogart@usc.edu
Office: AHF (Hancock), Jane Goodall Center, B10-B*
Office Hours: Tuesdays 12-2pm, or by appointment
* Enter Hancock, walk down the corridor to the right. Take the stairwell (second set of stairs just past the elevator) to the basement and turn left where you will see the Jane Goodall Center. My office is the first one on the right. E-mail is always the best way to reach me for questions or an appointment.

Course Content: This is a course introducing the student to an evolutionary and biological view of the human species. We begin by surveying the history of evolutionary thought and examining the structure of evolutionary theory. We then survey the Primate order, followed by an examination of the fossil evidence for human evolution. We conclude with a consideration of how evolution may influence the modern human species. Theoretical questions are discussed confronting the field in the 21st century, to familiarize you with the major issues. We will give particular emphasis to evolutionary explanations for the origins of modern humans, to ecological influences on behavior, and to evolutionary implications for the origins of human behavior.

The course objectives will provide students with:
  o A core knowledge base in human evolution including approaches in evolutionary biology, biological anthropology, paleontology, comparative primate behavioral ecology, population genetics, and modern human variation and adaptation.
  o An understanding of ecological and evolutionary processes including the role of genetic variation, heredity, and natural selection as well as the implications these processes have for the origins and evolution of modern humans and their biology.

As a GE life sciences course, students will gain opportunities allowing for:
  o A basic grasp of the scientific method
  o An understanding of how data is generated, presented and interpreted
  o Hands-on science

Textbooks:
- Annual Editions in Physical Anthropology, 26th Edition (do not buy other editions)
- Through a Window, by Jane Goodall (1991), many used copies available
  o Supplements the material presented in lecture

Grading: Grading will be done on a total points accumulated basis as follows:
35% = Midterm 1
35% = Midterm 2
30% = Lab (assignments, attendance, participation)
*Attendance will be taken in lecture randomly. Progressive improvement on exams during the semester and your effort in labs will also be taken into account. *Extra credit options will be available to you.

**Course grades, syllabus, announcements and handouts will be posted on Blackboard.**

**Lectures:** Partial powerpoint slides (with minimal text and figures) are posted on Blackboard. If you miss a class, please do not ask Dr. Bogart; you should seek a classmate to obtain notes.

**Labs:** Your regular attendance in labs is required, and will help to decide final grades. It is very difficult to get an "A" grade in this course without going to lab every week and participating. During lab sessions we will discuss the readings, review course material, do hands-on learning projects, hold exam reviews, and show videos to supplement the course material.

**Academic Accommodations:** A letter of verification for approved accommodations can be obtained from DSP. Deliver this letter to Dr. Bogart as early in the semester as possible.

DSP: Student Union (STU) 301 - 8:30-5:00pm Monday – Friday, (213) 740-0776

**Examinations:** All regularly scheduled exams will be a combination of objective and essay questions. Make-up exams will be given only if you have a written, official university excuse, health or activity-related. Students who are officially excused from scheduled exams will take a make-up administered no more than one week after the class exam date. This makeup will cover the same material, but in a different format - usually more essay-based - than the in-class exam.

**Academic Conduct (USC Statement)**

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Section 11, Behavior Violating University Standards [https://scampus.usc.edu/1100-behavior-violating-university-standards-and-appropriate-sanctions/](https://scampus.usc.edu/1100-behavior-violating-university-standards-and-appropriate-sanctions/). Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, [http://policy.usc.edu/scientific-misconduct/](http://policy.usc.edu/scientific-misconduct/).

Discrimination, sexual assault, and harassment are not tolerated by the university. You are encouraged to report any incidents to the Office of Equity and Diversity [http://equity.usc.edu/](http://equity.usc.edu/) or to the Department of Public Safety [http://capsnet.usc.edu/department/department-public-safety/online-forms/contact-us](http://capsnet.usc.edu/department/department-public-safety/online-forms/contact-us). This is important for the safety whole USC community. Another member of the university community – such as a friend, classmate, advisor, or faculty member – can help initiate the report, or can initiate the report on behalf of another person. The Center for Women and Men [http://www.usc.edu/student-affairs/cwm/](http://www.usc.edu/student-affairs/cwm/) provides 24/7 confidential support, and the sexual assault resource center webpage [sarc@usc.edu](mailto:sarc@usc.edu) describes reporting options and other resources.

**Support Systems**

A number of USC’s schools provide support for students who need help with scholarly writing. Check with your advisor or program staff to find out more. Students whose primary language is not English should check with the American Language Institute [http://dornsife.usc.edu/ali](http://dornsife.usc.edu/ali), which sponsors courses and workshops specifically for international graduate students. The Office of Disability Services and Programs [http://sait.usc.edu/academicsupport/centerprograms/dsp/home_index.html](http://sait.usc.edu/academicsupport/centerprograms/dsp/home_index.html) provides certification for students with disabilities and helps arrange the relevant accommodations. If an officially declared emergency makes travel to campus infeasible, USC Emergency Information [http://emergency.usc.edu/](http://emergency.usc.edu/) will provide safety and other updates, including ways in which instruction will be continued by means of blackboard, teleconferencing, and other technology.
**SCHEDULE: (Subject to revision)**

*NOTE* - follow your lab syllabus for lab assignments and *Annual Edition* readings.

<table>
<thead>
<tr>
<th>Lecture Topic</th>
<th>Reference BA* chapter</th>

| **Week 1:** May 16-17  
Intro, Bio Anth, Science, History of evolutionary thought | 1                      | W: NO LAB                                    |
| **Week 2:** May 21-24  
Evolution, adaptation/SS, species concepts, Speciation, Taxonomy/Phylogeny | 2-5                    | M: Evolution lab & readings  
W: Human skeleton & movie |
| **Week 3:** May 28-31  
NO CLASS MONDAY  
Primate origins, The Primates, Primate ecology & culture | 6-7                    | M: NO LAB  
W: Primate lab |
| **Week 4:** June 4-7  
Primate evolution, Conservation  
*TUE: MIDTERM 1*  
Locomotion, Forensics, Dating & Geology | 8-9                    | M: *Through a Window* & Review  
W: Readings, Locomotion lab |
| **Week 5:** June 11-14  
W: Hominins II, Readings |
| **Week 6:** June 18-21  
Models of human origins, cognition and language, human behavior, evolutionary medicine | 5, 14-16               | M: Readings  
W: Readings |
| **Week 7:** June 25-26  
Pseudoscience and media  
*TUE: MIDTERM 2* |                        | M: Review |

*BA: *Biological Anthropology* textbook
