

Social Work 506

Human Behavior in the Social Environment

3 Units

Summer 2018

Instructor: Anne Blair, MSW, ACSW

E-Mail: anneblair@usc.edu

Course Day: Mondays/Thursdays

Telephone: 928-853-2219 – always email to set a time, do not text

Office: VAC

Course Location: VAC

Office Hours: Mondays: 10:30 – 11:30am PST

Thursdays: 11am – 12pm PST or by appointment

I. COURSE PREREQUISITES

None

II. CATALOGUE DESCRIPTION

The person-in-environment, biopsychosocial perspective is the lens through which theories of personality, family, group, organization, community, and culture and the interaction among these systems are explored.

III. COURSE DESCRIPTION

This course prepares students with a critical working knowledge of a set of core theories of human behavior and development as foundational preparation for the social work field. The course introduces students to the values and ethics of social work and to the profession's person-in-environment orientation for understanding human behavior. Biopsychosocial dimensions of human behavior are critically examined through focused study in four intellectual domains considered essential for 21st-century social work: neurobiological aspects of behavior, psychodynamic theory, social cognitive behavioral theory, and social network theory. These domains provide a core set of lenses through which students will learn to critically analyze how people develop and function across a spectrum of micro to macro social systems (e.g., individual, family, social group/network, organizational/institutional, community, cultural, and temporal), and how these systems promote or impede health, well-being, and resiliency. The course will afford students the opportunity to thoughtfully apply theoretical concepts and empirical knowledge to case studies of contemporary situations involving a range of adaptive issues for a diverse array of client systems. Special attention will be given to the influence of diversity characterized by (but not limited to) age, gender, class, race, ethnicity, culture, sexual orientation, disability, and religion. The course makes important linkages between theory, practice, and research, specifically in evaluating biopsychosocial factors that impinge on person-in-environment functioning across micro, mezzo, and macro contexts.

IV. COURSE OBJECTIVES

Objective #	Objectives
1	Teach the values and ethical standards of social work, as well as the profession's person-in-environment, biopsychosocial framework for understanding human behavior in the social environment. Provide an environment that encourages students to explore how their particular gender, age, religion, ethnicity, social class, and sexual orientation influence their personal ethics and how these variables may affect their ethical decision-making in professional practice.
2	Provide opportunities for students to increase awareness of the dynamics of social privilege, social disadvantage, and social inequality, and the unique needs of diverse populations (gender, race, sexual orientation, social class, religion, and vulnerable and oppressed groups). Help students to critically examine the extent to which mainstream theories of behavior and development consider the special influence of diversity on human behavior.
3	Foster students' critical analysis of theories and their relation to the social work profession in order to provide students with analytical skills necessary to integrate and apply multiple (sometimes competing) perspectives, using varying learning formats through both oral and written assignments and case study analysis.
4	Present foundation materials on the complex nature and scope of human behavior and the social environment and how understanding of behavior theories assist social workers in becoming effective change agents in micro, mezzo, and macro contexts. Emphasis will also be placed on the role of research in generating, supporting, and revising the knowledge base, as well as the relative gap in evidence across theories and populations.
5	Provide the theoretical foundation needed for students to develop core knowledge of human behavior and the social environment. Demonstrate an in-depth understanding of four major domains of knowledge (neurobiology, psychodynamic theory, behaviorism/social cognitive theory, and social network theory) considered foundational to 21st-century social work practice.

V. COURSE FORMAT/INSTRUCTIONAL METHODS

The course will encompass a combination of diverse learning modalities and tools, which may include, but are not limited to the following: didactic presentations by the instructor; small- and large-group discussions; case studies; videos; guest speakers; experiential exercises; and computer-based, online activities.

The online teaching and learning environment provided by the University's Blackboard Academic Suite™ System (<https://blackboard.usc.edu/>) will support access to course-related materials and communication for on-ground students, whereas, the Virtual Academic Center (VAC) platform will be utilized for MSW@USC students.

VI. STUDENT LEARNING OUTCOMES

The following table lists the nine Social Work core competencies as defined by the Council on Social Work Education's 2015 Educational Policy and Accreditation Standards:

Social Work Core Competencies	
1	Demonstrate Ethical and Professional Behavior *
2	Engage in Diversity and Difference in Practice *
3	Advance Human Rights and Social, Economic, and Environmental Justice
4	Engage in Practice-informed Research and Research-informed Practice
5	Engage in Policy Practice
6	Engage with Individuals, Families, Groups, Organizations, and Communities
7	Assess Individuals, Families, Groups, Organizations, and Communities *
8	Intervene with Individuals, Families, Groups, Organizations, and Communities
9	Evaluate Practice with Individuals, Families, Groups, Organizations and Communities

* Highlighted in this course

The following table shows the competencies highlighted in this course, the related course objectives, student learning outcomes, and dimensions of each competency measured. The final column provides the location of course content related to the competency.

Competency	Objectives	Behaviors	Dimensions	Content
<p>Competency 1: Demonstrate Ethical and Professional Behavior Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels. Social workers understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize personal values and the distinction between personal and professional values. They also understand how their personal experiences and affective reactions influence their professional judgment and behavior. Social workers understand the profession's history, its mission, and the roles and responsibilities of the profession. Social Workers also understand the role of other professions when engaged in inter-professional teams. Social workers recognize the importance of life-long learning and are committed to continually updating their skills to ensure they are relevant and effective. Social workers also understand emerging forms of technology and the ethical use of technology in social work practice.</p>	<p>1. Teach the values and ethical standards of social work, as well as the profession's person-in-environment, biopsychosocial framework for understanding human behavior in the social environment. Provide an environment that encourages students to explore how their particular gender, age, religion, ethnicity, social class, and sexual orientation influence their personal ethics and how these variables may affect their ethical decision-making in professional practice.</p>	<p>1a. Makes ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context.</p>	<p>Values, Skills</p>	<ol style="list-style-type: none"> 1. Course Overview/The Nature of Theories 2. Assignment 1: Personal Reflection 3. Assignment 3: Life History Interview and Oral Presentation 4. Class Participation

Competency	Objectives	Behaviors	Dimensions	Content
<p>Competency 2: Engage Diversity and Difference in Practice</p> <p>Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a culture's structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate, or create privilege and power.</p>	<p>2a. Applies and communicates understanding of the importance of diversity and difference in shaping life experiences in practice at the micro, mezzo, and macro levels.</p>	<p>2a. Applies and communicates understanding of the importance of diversity and difference in shaping life experiences in practice at the micro, mezzo, and macro levels.</p>	<p>Knowledge, Skills</p>	<p>1. Assignment 2: Take-home Quizzes</p> <p>2. Assignment 3: Life History Interview and Oral Presentation</p> <p>3. Class Participation</p>
	<p>1. Teach the values and ethical standards of social work, as well as the profession's person-in-environment, biopsychosocial framework for understanding human behavior in the social environment. Provide an environment that encourages students to explore how their particular gender, age, religion, ethnicity, social class, and sexual orientation influence their personal ethics and how these variables may affect their ethical decision-making in professional practice.</p>	<p>2c. Applies self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.</p>	<p>Cognitive and Affective Processes</p>	<p>1. Assignment 1: Personal Reflection</p> <p>2. Unit 1: Course Overview/The Nature of Theories</p> <p>3. Unit 2: Systems and Ecological Theories</p> <p>4. Unit 4: Biopsychosocial Development in Early Childhood</p> <p>5. Unit 5: Psychodynamic Theories</p> <p>6. Units 8+9: Learning Theories:</p> <p>7. Unit 13: Theories of Social Conflict and Social Identity</p> <p>8. Unit 14: Neurobiology and Social Relations</p>

Competency	Objectives	Behaviors	Dimensions	Content
<p>Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities</p> <p>Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness. Social workers recognize the implications of the larger practice context in the assessment process and value the importance of inter-professional collaboration in this process. Social workers understand how</p>	<p>3. Foster students' critical analysis of theories and their relation to the social work profession in order to provide students with analytical skills necessary to integrate and apply multiple (sometimes competing) perspectives, using varying learning formats through both oral and written assignments and case study analysis.</p> <p>4. Present foundation materials on the complex nature and scope of human behavior and the social environment and how understanding of behavior theories assist social workers in becoming effective change agents in micro, mezzo, and macro contexts. Emphasis will also be placed on the role of research in generating, supporting, and revising the knowledge base, as well as the relative gap in evidence across theories and populations.</p> <p>5. Provide the theoretical foundation needed for students to develop core knowledge of human behavior and the social</p>	<p>7b. Applies knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies</p> <p>7c. Develops mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies</p>	<p>Knowledge, Skill, Cognitive and Affective Processes</p>	<ol style="list-style-type: none"> 1. Unit 2: Systems and Ecological Theories 2. Unit 3: Neurobiology and Social Work 3. Unit 4: Biopsychosocial Development in Early Childhood 4. Units 5+6: Personality Theories 5. Unit 7: Biopsychosocial Development in School-Aged Children 7. Units 8+9: Learning Theories 8. Unit 10: Biopsychosocial Development in Adolescence and Early Adulthood Developmental milestones 9. VII. COURSE ASSIGNMENTS, DUE DATES, AND GRADING

Assignment	Due Date	% of Final Grade
1) Personal Reflection	Unit 2	15%
2) Take-home Quizzes: Theoretical Analysis	Unit 8, 11	40%
3) Life History Interview and Oral Presentation	Unit 14, 15	35%
4) Class Participation	Ongoing	10%

Each of the major assignments is described briefly below. Detailed guidelines for each assignment will be distributed in class.

1) Personal Reflection (15% of course grade)

Students will complete a written reflection about key concepts related to the social work practice paradigm and code of ethics introduced in Unit 1.

Due: Unit 2 by 11:59pm PST on the day of your class by submission in the VAC

This assignment relates to student learning outcomes 1, 2, 7.

2) Take-home Quizzes: Theoretical Analysis (40% of course grade; each quiz is 20%)

Students will complete two (2) take-home quizzes. Quiz 1 will be based on content from Units 4 through 6 (early childhood development and personality theories) and will be due in Unit 8. Quiz 2 will be based on content from Units 7 through 9 (school-age child development and learning theories) and will be due in Unit 11.

Due: Units 8, 11

This assignment relates to student learning outcomes 1, 2, 7.

3) Life History Interview and Oral Presentation (35% of course grade)

Students will integrate their learning across the semester by conducting a life history interview with an older adult (age 70 or older) and writing a theoretical analysis of the person's development and behavior across the life course. Students also will present their work in class.

Due: Units 14, 15

This assignment relates to student learning outcomes 1, 2, 7.

4) Class Participation (10% of course grade)

Students' active involvement in the class is considered essential to their growth as practitioners. Consistent attendance, preparation for and participation in class discussions and activities, timely completion of coursework and assignments, and personal conduct that fosters a respectful, collegial, and professional learning environment are expected.

Class participation will be assessed according to the following criteria:

“A” range: Very Good to Outstanding: Contributions in class reflect thorough preparation, and participation is substantial. Ideas offered are always substantive. Regularly provides one or more major insights and comments that provoke deeper thought. If this person were not a member of the class, the quality of discussion and class activities would be diminished markedly.

“B” range: Good: Contributions in class reflect solid preparation. Ideas offered are usually substantive, and participation is regular. Provides generally useful insights and some comments that provoke thought. If this person were not a member of the class, the quality of discussion would be diminished somewhat.

“C” range: Adequate: Contributions in class reflect some preparation. Ideas offered are somewhat substantive. Provides some insights, but seldom offers comments that provoke deeper thought.

Participation is somewhat regular. If this person were not a member of the class, the quality of discussion would be diminished slightly. Please note: The minimum passing grade at the graduate level is “C”.

“C-“ or “D” range: Inadequate: Says little in class and does not adequately participate in activities or present insights or ideas. Does not appear to be engaged. Submits late work. If this person were not a member of the class, the quality of discussion would not be affected.

“F”: **Nonparticipant/Unsatisfactory:** Misses class. When present, contributions in class, if any, reflect inadequate preparation. Ideas offered are seldom substantive, and behavior may be inappropriate and/or disrespectful. Unable to work effectively on in-class assignments/activities and detracts from the learning process. Regularly misses assignment deadlines, if work is submitted at all.

Class grades will be based on the following letter grade distribution:

Letter Grade		Grade Point Equivalent	
93–100	A	3.85–4	A
90–92	A–	3.60–3.84	A–
87–89	B+	3.25–3.59	B+
83–86	B	2.90–3.24	B
80–82	B–	2.60–2.87	B–
77–79	C+	2.25–2.50	C+
73–76	C	1.90–2.24	C
70–72	C–		

Within the School of Social Work, grades are determined in each class based on the following standards, which have been established by the faculty of the school: (1) Grades of A or A– are reserved for student work that not only demonstrates very good mastery of content but that also shows that the student has undertaken a complex task, has applied critical thinking skills to the assignment, and/or has demonstrated creativity in her or his approach to the assignment. The difference between these two grades would be determined by the degree to which the student has demonstrated these skills. (2) A grade of B+ will be given to work that is judged to be very good. This grade denotes that a student has demonstrated a more-than-competent understanding of the material being tested in the assignment. (3) A grade of B will be given to student work that meets the basic requirements of the assignment. It denotes that the student has done adequate work on the assignment and meets basic course expectations. (4) A grade of B– will denote that a student’s performance was less than adequate on an assignment, reflecting only moderate grasp of content and/or expectations. (5) A grade of C would reflect a minimal grasp of the assignments, poor organization of ideas and/or several significant areas requiring improvement. (6) **Grades between C– and F will be applied to denote a failure to meet minimum standards**, reflecting serious deficiencies in all aspects of a student’s performance on the assignment.

VIII. REQUIRED AND SUPPLEMENTARY INSTRUCTIONAL MATERIALS AND RESOURCES

Required Textbook

Robbins, S. P., Chatterjee, P., & Canda, E. R. (2012). *Contemporary human behavior theory: A critical perspective for social work* (3rd ed.). Boston, MA: Allyn & Bacon.

Recommended Textbook

7 **Biopsychosocial Development in School-Aged Children**

- Developmental milestones 6–12
- Peer acceptance
- Self-concept
- Models of moral development

8 **Learning Theories: Behaviorism**

Take-home Quiz 1 due

- Classical conditioning
- Operant conditioning
- Diversity spotlight

9 **Learning Theories: Cognitive Development and Social Cognitive Theory**

Take-home Quiz 2 posts

- Cognitive and moral development
- Social cognitive theory
 - Social learning
 - Self-efficacy
- Diversity spotlight

10 **Biopsychosocial Development in Adolescence and Early Adulthood**

- Developmental milestones
- Neurobiology of adolescent behavior
- Models of early adult development
- Gender differences
- Neurobiology of subjective well-being, romantic love, and monogamy

11 **Biopsychosocial Development in Middle and Older Adulthood**

Take-home Quiz 2 due

- Stereotypes about aging
- Attachment in older adults
- Biological development

12 **THEORIES OF SOCIAL RELATIONS AND SOCIAL CONFLICT
(Units 12–14)**

Social Networks and Social Support

- Social support and biopsychosocial well-being
 - Social networks and social service systems
 - Social networks and social influence
 - Social capital
-

13 **Theories of Social Conflict and Social Identity**

- Conflict theory
- Critical race theory
- Intersectionality
- Diversity spotlight

14 **Neurobiology and Social Relations**

Oral presentations

- Neurobiology and politics
- Diversity spotlight:
 - ▼ Cultural neuroscience
 - ▼ Neurobiology of prejudice

15 **COURSE REVIEW AND WRAP-UP**

Oral presentations, cont'd

- Social work practice paradigm
- Social work values and ethics
- Theories of development and behavior

Life History Interview
paper due

STUDY DAYS/NO CLASSES

FINAL EXAMINATIONS

Course Schedule—Detailed Description

HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT: A SOCIAL WORK PERSPECTIVE (Units 1–3)

Unit 1: Course Overview: The Nature of Theories

Month Date

Topics of Focus

- Course and syllabus overview
- Social work values and ethics
- Social work practice paradigm: biopsychosocial/person-in-the-environment
- The nature of theories
- Diversity spotlight: human behavior theory and the African American experience

This unit relates to course objectives 1, 4, and 5.

Required Reading:

Barkley, J. (2009). Biopsychosocial assessment: Why the biopsychosocial and rarely the social? *Journal of the Canadian Academy of Child and Adolescent Psychiatry*, 18(4), 344-347.

NASW—National Association of Social Workers. (n.d.). *Code of ethics*. Retrieved from <https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English>

Topics of Focus

- Object Relations theory
- Attachment theory
- Attachment and affect regulation, neurobiology

Supplemental Topics:

- Relational theory
- Intersubjectivity theory

This unit relates to course objectives 3, 4, and 5.

Required Readings:

- Flanagan, L.M. (2011). Object relations theory. In J. Berzoff, L. Flanagan, & P. Hertz (Eds.), *Inside out and outside in: Psychodynamic clinical theory and psychopathology in contemporary multicultural contexts* (pp. 118-130). Lanham, MD: Rowman & Littlefield Publishers, Inc.

Unit 7: Biopsychosocial Development in School-Aged Children

Month Date

Topics of Focus

- Developmental milestones
- Peer relations
- Self-concept
- Models of moral development
- Diversity spotlight: Sex differences in peer relationships

Supplemental Topics

Shame resilience theory

This unit relates to course objectives 2, 3, 4, and 5.

Required Readings:

Sabol, T. J., & Pianta, R. C. (2012). Patterns of school readiness forecast achievement and socioemotional development at the end of elementary school. *Child Development, 83*(1), 282–299.

Unit 9: Learning Theories, Continued: Cognitive Development and Social Cognitive Theory **Month Date**

Topics of Focus

- Cognitive and moral development
 - Kohlberg, Gilligan
- Social cognitive theory
 - Social learning
 - Self-efficacy
- Diversity spotlight: cultural context of learned behavior

This unit relates to course objectives 2, 3, 4, and 5.

Required Readings:

Bandura, A. (1999). Exercise of personal and collective efficacy in changing societies. In A. Bandura (Ed.) *Self-efficacy in changing societies* (pp. 1-13; 34-38). Cambridge, UK: Cambridge University Press. (Instructor note: Classic article)

Unit 11: Biopsychosocial Development in Middle and Older Adulthood **Month Date**

Topics of Focus

- Models of adult development
- Stereotypes about aging

Supplemental Topics

- Stress and memory
- Love and attachment in adults

This unit relates to course objectives 2, 3, 4, and 5.

Required Readings:

Hooyman, N. R., & Kiyak, H. A. (2010). Personality and mental health in old age. In *Social gerontology: A multidisciplinary perspective*, 9th ed. (pp. 223–258). Boston: Pearson Education.

Unit 15: Course Review and Wrap-Up

Month Date

Topic of Focus

- Social work ethics and theories: A review

This unit relates to course objectives 1–5.

Required Reading:

Robbins, S., Chatterjee, P., & Canda, E. (2012). Application of the theories. In *Contemporary human behavior theory: A critical perspective for social work*, 3rd ed. (pp. 409–428). Boston: Allyn & Bacon.

STUDY DAYS / NO CLASSES

Month Date

FINAL EXAMINATIONS

Month Date

University Policies and Guidelines

IX. ATTENDANCE POLICY

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives, which could affect your course grade. Students are expected to notify the instructor by email (xxx@usc.edu) of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations that conflict with students' observance of a holy day. Students must make arrangements *in advance* to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to SCampus and to the *USC School of Social Work Student Handbook* for additional information on attendance policies.

information on attendance policies.

X. ACADEMIC CONDUCT

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Section 11, *Behavior Violating University Standards* <https://policy.usc.edu/scampus-part-b/>. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct/>.

XI. SUPPORT SYSTEMS

Student Counseling Services (SCS) - (213) 740-7711 – 24/7 on call

Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention. <https://engemannshc.usc.edu/counseling/>

National Suicide Prevention Lifeline - 1-800-273-8255

Provides free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week. <http://www.suicidepreventionlifeline.org>

Relationship & Sexual Violence Prevention Services (RSVP) - (213) 740-4900 - 24/7 on call

Free and confidential therapy services, workshops, and training for situations related to gender-based harm. <https://engemannshc.usc.edu/rsvp/>

Sexual Assault Resource Center

For more information about how to get help or help a survivor, rights, reporting options, and additional resources, visit the website: <http://sarc.usc.edu/>

Office of Equity and Diversity (OED)/Title IX compliance – (213) 740-5086

Works with faculty, staff, visitors, applicants, and students around issues of protected class. <https://equity.usc.edu/>

Bias Assessment Response and Support

Incidents of bias, hate crimes and microaggressions need to be reported allowing for appropriate investigation and response. <https://studentaffairs.usc.edu/bias-assessment-response-support/>

Student Support & Advocacy – (213) 821-4710

Assists students and families in resolving complex issues adversely affecting their success as a student
EX: personal, financial, and academic. <https://studentaffairs.usc.edu/ssa/>

Diversity at USC – <https://diversity.usc.edu/>

Tab for Events, Programs and Training, Task Force (including representatives for each school),
Chronology, Participate, Resources for Students

XII. STATEMENT ABOUT INCOMPLETES

The grade of Incomplete (IN) can be assigned only if there is work not completed because of a documented illness or some other emergency occurring after the 12th week of the semester. Students must NOT assume that the instructor will agree to the grade of IN. Removal of the grade of IN must be instituted by the student and agreed to be the instructor and reported on the official “Incomplete Completion Form.”

XIII. POLICY ON LATE OR MAKE-UP WORK

Papers are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If the paper is late without permission, the grade will be affected.

XIV. POLICY ON CHANGES TO THE SYLLABUS AND/OR COURSE REQUIREMENTS

It may be necessary to make some adjustments in the syllabus during the semester in order to respond to unforeseen or extenuating circumstances. Adjustments that are made will be communicated to students both verbally and in writing.

XV. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS (OPTIONAL)

*Approved by the 1996 NASW Delegate Assembly and revised by the 2008 NASW Delegate Assembly
[<http://www.socialworkers.org/pubs/Code/code.asp>]*

Preamble

The primary mission of the social work profession is to enhance human well-being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual well-being in a social context and the well-being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. “Clients” is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.

XVI. COMPLAINTS

If you have a complaint or concern about the course or the instructor, please discuss it first with the instructor. If you feel cannot discuss it with the instructor, contact the Course Lead: Prof. Sara McSweyn (mcsweyn@usc.edu) for on ground students or Dr. Tyan Parker Dominguez (tyanpark@usc.edu) for VAC students. If you do not receive a satisfactory response or solution, contact your advisor and/or the MSW Chair, Dr. Leslie Wind (wind@usc.edu), for further guidance.

XVII. TIPS FOR MAXIMIZING YOUR LEARNING EXPERIENCE IN THIS COURSE (OPTIONAL)

- ü Be mindful of getting proper nutrition, exercise, rest, and sleep!
- ü Come to class.
- ü Complete required readings and assignments BEFORE coming to class.
- ü BEFORE coming to class, review the materials from the previous unit AND the current unit, AND scan the topics to be covered in the next unit.
- ü Come to class prepared to ask any questions you might have.
- ü Participate in class discussions.
- ü AFTER you leave class, review the materials assigned for that unit again, along with your notes from that unit.
- ü If you don't understand something, ask questions! Ask questions in class, during office hours, and/or through e-mail!
- ü Keep up with the assigned readings.

Don't procrastinate or postpone working on assignments.
