Course Description
This course introduces students to core skills in interactive design, including conceptualizing interactive systems, prototyping, playtesting, and managing an iterative design process to meet specific and meaningful experience goals for users. The overarching themes of the class are:

**Preparation** – Developing a vocabulary of interactive design concepts and formal elements of interactivity, deep analysis of interactive systems, focusing on the player/user experience, study of prior art.

**Process** – Setting experience goals, ideation techniques, brainstorming, prototyping methods, playtesting, iterative design, specification, presentation.

**Practice** – Developing & exercising skills, initiating projects, follow through, giving and taking critique.

**Partnership** – Developing a collaborative mindset, communication skills, sharing authorship, managing yourself and others.

The course approaches interactivity as a participatory art form, with the designer’s goal to provide a specific and meaningful experience for the users and to respond quickly and creatively to feedback during the design process. During the course of the semester, the exercises and assignments primarily focus on developing low- and non-technical prototypes of interactive concepts, experimenting with games, improvisational theater, fine arts, toys, interactive narrative, and real and virtual play spaces.

A central purpose of this course is to give students the opportunity to explore various types of design strategies, to discover their own strengths and interests, and to provide them with a wide repertoire of techniques upon which to draw in the future. In addition, the course will introduce students to the “playcentric” design methodology practiced in the Interactive Media and Games Division, encouraging them to develop a focus on the central user experience that anchors their design process.

This is a studio class and a large part of the class content will focus on in-class discussion, critique, and problem solving for individual projects. As such, it is imperative that students treat the development of their design projects professionally and bring requested milestones to class on time, ready to present. Students will be expected to participate actively in all discussions and critique sessions, giving and receiving feedback of the highest quality.
Throughout this class, students are encouraged to take risks and to look beyond prior art, in-class examples and common wisdom to explore new and different design ideas. In many cases, students will be assigned to work in partnerships or teams and the quality of students’ participation within these groups is of great importance – perhaps as important as the final project. Interactive media in all forms is a collaborative discipline and learning to communicate, share workload, learn from and help others excel is a core value in this field.

**Note regarding the Diversity & Inclusion Labs**
Throughout the course of the semester, there will be five weeks during which there will be a Friday lab organized by the Council for Diversity and Inclusion. These labs will be from 2:00 PM to 4:50 PM on the dates listed below. (Note that these hours are listed on the schedule of classes as part of this course and therefore should always be available in your calendar. On dates when the Diversity & Inclusion labs are not in session, you are free to use the time as you choose.) The meetings for this lab will be held in SCA 108. The Diversity & Inclusion labs are a required part of the course; failure to attend these meetings will negatively affect your grade.

- Friday, August 24, 2:00-4:50pm, SCA 108.
- Friday, September 21, 2:00-4:50pm, SCA 108.
- Friday, October 19, 2:00-4:50pm, SCA 108.
- Friday, November 16, 2:00-4:50pm, SCA 108.
- Friday, November 30, 2:00-4:50pm SCA 108.

**Prerequisite(s)**
Open to IMGD M.F.A. and iMAP Ph.D. students (as well as other interested and qualified students, by interview with the instructor).

**Course Notes**
This class combines elements of a studio production course with theory and lecture. A major component of the course will be the collaborative design and development of three game projects, which will be presented and playtested in class. Students are expected to participate actively in these group projects and respectfully in the critique of one another’s work.

This course will deal with game design in both tabletop and digital concepts. Non-digital work is used to study fundamental game design concepts, and the practice of paper prototyping techniques will prove useful to the digital design practice.

Participating in in-class playtests is a requirement of the class. Designers must quickly and clearly explain their game system to the playtesters and lead them through a 25-minute play session. After the group has played the game, the designers must lead a critique of their own game, eliciting as much feedback as possible from their playtesters. At the end of the session, the design team as a group must submit a copy of the game description and rules, as well as a playtest postmortem document synthesizing the comments of the playtesters. Both of these documents will be evaluated as part of the assignment grade. All participants in the group projects will receive the same grade and should strive to contribute equally to the project.

**Technological Proficiency and Hardware/Software Required**
There are no technology requirements for this class, however several technical proficiencies may prove beneficial. Many students will use image creation or layout software (like Adobe Photoshop and Adobe InDesign) to create artwork for their paper prototypes. Students may also organize their designs using common office tools such as word processors, spreadsheets, flow-charting software or project management tools like Asana or Trello. For the final game project, which will be co-created in CTIN 534, where technology proficiency is a component of the class, students will use Twine, RPG Maker, Ren’Py, Unity, or a similar digital game framework. Students who do not have previous experience with any of these
tools may use Twine for this assignment, which does not require programming, or may partner with students who have technical skills on this assignment. Please communicate with the instructor if you have any questions about the technical requirements for your assignments.

**Required Readings and Supplementary Materials**
This course has two required texts, which are available online or from the USC Library. (Note that the latest edition of Game Design Workshop may not be available in the library, but the 3rd edition, which is available to check out, will suffice if you are not able to purchase a copy.)

*Game Design Workshop, 4th Edition: A Playcentric Approach to Creating Innovative Games* by Tracy Fullerton

*Designing Interactions by Bill Moggridge*

In addition, there will be several chapters and articles assigned as reading. These will be made available in class or on the course website.

Students will be required to supply their own materials for paper prototyping and developing physical games. As the needs of specific projects may vary, students should plan to have a small budget for these materials. However, commonly used supplies include:

- Index cards
- Colored markers
- Polyhedral dice
- Construction paper

**Course Website**
A copy of this syllabus is available at the course website: [www.tracyfullerton.com/541](http://www.tracyfullerton.com/541)

**Overview of Assignments**

**Written Analysis & Ideation Assignments**
- Simple system analysis 1-2 pgs, due week 2
- Board game system analysis 3-5 pgs, due week 3
- System treatment 3-5 pgs, due week 5

**Prototype Projects**
- Up the River variation, due week 7
- Meaningful play prototype, due week 10
- Narrative play 1st prototype, due week 12
- Digital prototype (co-assigned as 534 final project), testable version due week 14 and final build and post-mortem due at final exam

**Collaboration Assignment**
- Skill sharing, due week 15
Grading Breakdown

Assignment Submission Policy
All written and digital assignments, including the documentation component of each of the game projects, should be submitted by email to tfullerton@cinema.usc.edu by the start of class on the day that they are due. Games that will be playtested in class must be brought to class, ready to be played.

Missing an Assignment Deadline, Incompletes
The only acceptable excuses for missing an assignment deadline or taking an incomplete in the course are personal illness or a family emergency. Students must inform the instructors before the assignment due date and present verifiable evidence in order for a deadline extension to be granted. Students who wish to take incompletes must also present documentation of the problem to the instructors or student assistant before final grades are due. Incompletes are only available after the week-twelve withdrawal deadline.

For assignments turned in after the assignment deadline without prior permission from the instructor, a penalty will be imposed equal to 10% of the total available points for the assignment, for each day or part of a day that the assignment is late, up to a maximum of seven days.

Attendance Policy
Punctual attendance at all classes is mandatory. Students arriving more than five minutes late to three classes, more than ten minutes late to a single class, or leaving early, will be marked as having an unexcused absence from class, unless prior permission has been obtained from the instructors. The following guidelines are from the Interactive Media Division & Games handbook regarding absences and grading and apply to all students.

Guidelines for absences affecting grading
Two unexcused absences: lowers grade ½ grade (for example, from A to A-)
Three unexcused absences: lowers grade one full grade
Four or more unexcused absences: request to withdraw from course (instructor’s discretion)

Excused absences are:
Illness (with a doctor’s verification)
Family or personal emergency (with verification)
Observance of religious holy day (with advance notice to instructor)

Unauthorized Social Media Use During Class
Social media use, including text messaging, Internet messaging and email, is not permitted in class unless explicitly permitted by the instructors. A 0.5% grade reduction will result from each occurrence of a student being found using social media in class.
A Safer Space
In this class, we make a commitment to foster a welcoming and supportive environment where students of all identities and backgrounds can flourish. This means that we will use preferred pronouns and respect self-identifications. While debate and discussion are welcome, please remain aware of the implications of your words and the images that you include in your work. If the instructor or another student points out that something you have said or shared with the group might be offensive, avoid being defensive; this is a valuable opportunity for us to grow and learn together.

Because this class involves presentation and discussion of creative projects that will contain a range of materials, some of which may present difficulties for others in the class, students and groups are encouraged to use content or trigger warnings as part of their presentation as appropriate.

If you have a concern about any aspect of the class, you are encouraged to speak with the instructor. If you feel uncomfortable speaking with the instructor, you are also welcome to speak with either the graduate advisor for the division, who can discuss the issue with you directly or point you toward other on- and off-campus resources for addressing your concern.

Course content by class meeting

Week 1: Overview of the class – introduction to each other, discussion of course goals and themes: preparation, process, practice and partnership, assign collaboration partners for skill sharing assignment, intro to systems thinking, analysis of simple systems.

   Analysis Assignment 1: Written analysis of simple system – due week 2
   Collaboration Assignment: Choose someone from whom to learn a skill, someone to whom to teach a skill (presentation of skills is due week 15)

   Diversity Lab Friday 2-4:50 PM, SCA 108

Week 2: Formal elements of interactive systems – discuss outcome of simple system analysis, deconstructing Set, Connect 4, Tic Tac Toe, looking at more complex interactive systems, discovering the “play” in a system, assign play groups for board game analysis.

   Reading due Week 2: GDW Chapters 1 – 3, 5, Moggridge Foreword, Introduction
   Analysis Assignment 2: Board game analysis – due week 3

Week 3: Labor Day – University holiday, no class meeting or office hours
   Board game analysis due on Tuesday of this week.

Week 4: Experience goals and ideation techniques – discuss outcomes of board game analysis, dramatic and dynamic elements of games, intro to brainstorming techniques, in-class practice, discuss turning ideas into designs. (Guest Professor Sean Bouchard, no office hours this week)

   Reading due Week 4: Rules of Play Ironclad essay, GDW Chapter 4, 6, 14
   Analysis Assignment 3: System treatment – due week 5

Week 5: Prototyping strategies – discuss outcomes of system treatments, intro to prototyping techniques, asking design questions, getting the most out of prototypes, playing and analyzing Up the River, assign design teams for Up the River variation assignment.

   Reading due Week 5: GDW Chapter 7, Moggridge Chapter 10 - People and Prototypes
   Prototype #1: Up the River variation – due week 7

   Diversity Lab Friday 2-4:50 PM, SCA 108
Week 6: Team building, planning, communication – discuss agile development, collaboration skills.

Reading due Week 6: GDW Chapter 12, 13

Week 7: Playtesting and the iterative process -- playtest & critiques of Up the River variations, guest critique.

Reading due Week 7: GDW Chapters 9-11, Mogridge Chapter 1 – Tim Mott interview

Week 8: Meaningful play – expressive elements of interactive systems, levels of engagement, serious games, values in play mechanics, Grow-a-Game exercises, ideation for meaningful play prototype.

Reading due Week 8: DeKoven The Well Played Game, Forward - Chapter 1; Bogost “Persuasive Games;” Norman, Emotional Design – Three Teapots
Prototype #2: Meaningful play – due week 10

Mid-term conferences (by appointment)
Attend IndieCade!

Reading due Week 9: New Games Book, “It Began with WWIV;” “Sustainable Play” in Games and Culture, Fullerton, Pearce, Fron and Morie

Diversity Lab Friday 2-4:50 PM, SCA 108

Week 10: Playtest & critique meaningful play prototypes, guest critique.

Reading due Week 9: Mogridge Chapter 4 - David Liddle interview, David Kelley interview

Week 11: Narrative play – systems of storytelling, “narrative toys”, recombinant narrative exercises, in-class brainstorming for narrative play prototypes, design groups assigned for prototypes.

Reading due Week 11: Mogridge Chapter 5 – Will Wright interview, Rules of Play Chapter 26 – Games as Narrative Play
Prototype #3: Narrative play project 1st prototype – due week 12

Week 12: Playtest & critique of narrative prototypes, discuss iterating from paper to digital prototypes.

Reading due Week 12: GDW Chapter 8, Swink, Game Feel Chapter 1, “Defining Game Feel”
Prototype #4: Digital prototype (534 projects) – due week 14

Week 13: Agency and affordance – designing for a range of player agency, affordances of platforms and controls, in-class play experiments with imagining unique play experiences, discussion of progress on narrative play prototypes.

Reading due Week 13: Mogridge Chapter 8 – Hiroshi Ishii interview, Bill Gaver interview; Swink, Game Feel Chapter 6, “Input Metrics”

Diversity Lab Friday 2-4:50 PM, SCA 108

Week 14: Formal playtesting – usability process, playtest & critique of digital prototypes (534 final projects), discuss post-mortems.
Diversity Lab Friday 2-4:50 PM, SCA 108

**Week 15:** Working as a designer – discussion of areas of opportunity for designers, presentation of skill sharing assignment outcomes, class wrap-up.

Reading due Week 15: GDW Chapters 15-16

**Final Exam:** Final game builds, playtesting notes and semester post-mortems due.
Statement on Academic Conduct and Support Systems

**Academic Conduct:**
Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Part B, Section 11, “Behavior Violating University Standards” [https://policy.usc.edu/scampus-part-b/](https://policy.usc.edu/scampus-part-b/). Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, [http://policy.usc.edu/scientific-misconduct](http://policy.usc.edu/scientific-misconduct).

**Support Systems:**
**Student Counseling Services (SCS) - (213) 740-7711 – 24/7 on call**
Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention. [https://engemannshc.usc.edu/counseling/](https://engemannshc.usc.edu/counseling/)

**National Suicide Prevention Lifeline - 1-800-273-8255**
Provides free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week. [http://www.suicidepreventionlifeline.org](http://www.suicidepreventionlifeline.org)

**Relationship and Sexual Violence Prevention Services (RSVP) - (213) 740-4900 - 24/7 on call**
Free and confidential therapy services, workshops, and training for situations related to gender-based harm. [https://engemannshc.usc.edu/rsvp/](https://engemannshc.usc.edu/rsvp/)

**Sexual Assault Resource Center**
For more information about how to get help or help a survivor, rights, reporting options, and additional resources, visit the website: [http://sarc.usc.edu/](http://sarc.usc.edu/)

**Office of Equity and Diversity (OED)/Title IX Compliance – (213) 740-5086**
Works with faculty, staff, visitors, applicants, and students around issues of protected class. [https://equity.usc.edu/](https://equity.usc.edu/)

**Bias Assessment Response and Support**
Incidents of bias, hate crimes and microaggressions need to be reported allowing for appropriate investigation and response. [https://studentaffairs.usc.edu/bias-assessment-response-support/](https://studentaffairs.usc.edu/bias-assessment-response-support/)

**The Office of Disability Services and Programs**
Provides certification for students with disabilities and helps arrange relevant accommodations. [http://dsp.usc.edu](http://dsp.usc.edu)

**Student Support and Advocacy – (213) 821-4710**
Assists students and families in resolving complex issues adversely affecting their success as a student EX: personal, financial, and academic. [https://studentaffairs.usc.edu/ssa/](https://studentaffairs.usc.edu/ssa/)

**Diversity at USC**
Information on events, programs and training, the Diversity Task Force (including representatives for each school), chronology, participation, and various resources for students. [https://diversity.usc.edu/](https://diversity.usc.edu/)

**USC Emergency Information**
Provides safety and other updates, including ways in which instruction will be continued if an officially declared emergency makes travel to campus infeasible. [http://emergency.usc.edu](http://emergency.usc.edu)

**USC Department of Public Safety – 213-740-4321 (UPC) and 323-442-1000 (HSC) for 24-hour emergency assistance or to report a crime.**
Provides overall safety to USC community. [http://dps.usc.edu](http://dps.usc.edu)
PLEASE NOTE:
FOOD AND DRINKS (OTHER THAN WATER) ARE NOT PERMITTED IN ANY INSTRUCTIONAL SPACES IN THE CINEMATIC ARTS COMPLEX
