USC	Video Game Programming		
Viterhi	ITP 380 (4 Units)		
VICIDI	, Fall 2018		
School of Engineering			
Objective	This course provides students with an in-depth introduction to technologies and		
	techniques used in the game industry today. At semester's end, students will have:		
	1. Gained an understanding of core game systems (incl. rendering, input,		
	sound, and collision/physics)		
	2. Developed a strong understanding of essential mathematics for games		
	<ol> <li>Written multiple functional games in C++</li> <li>Learned critical thinking skills required to continue further study in the field</li> </ol>		
Concents	4. Learned childer trinking skills required to continue further study in the field		
concepts	A L Implementing gamenlay		
Prerequisites	CSCI 104 or ITP 365x		
Instructor	Clark Kromenaker		
Contact	Students in the course should post their questions on Piazza.		
	<i>Email:</i> kromenak@usc.edu (Only for non-course questions or prospective students).		
Office Hours	Tuesdays, 8:50PM-10:00PM in OHE 540		
Time/Location	Tuesday and Thursday, 7 – 8:50PM in OHE 540		
Course Structure	Each week, we have a lecture on Tuesday and a lab assignment assigned in class on		
	Thursday. The first part of each lab assignment is due at the end of class on		
	Thursdays, and the final submission is due the following Wednesday.		
	There are two midterm exams and a final exam. All exams are cumulative.		
Textbook	Madhav, Sanjay. <i>Game Programming in C++</i> .		
	Students can read this book for free through the USC library website ( <u>here</u> ).		
	Alternatively, students can purchase a copy of the book from Amazon of the OSC		
Grading	The course is graded with the following weights:		
Crading	Lab Assignments (12 x 5%) 60%		
	Midterm Exam I 12.5%		
	Midterm Exam II 12.5%		
	Final Exam 15%		
	TOTAL POSSIBLE 100%		
Software	Students will be able to setup their own PC and/or Mac computers for use in the		
	class. Students will write code in C++ using a simple game framework designed for		
	this course. Software used is Visual Studio or Xcode.		
	ITP also offers Open Lab use for all students enrolled in ITP classes. These open labs		
	are held beginning the second week of classes through the last week of classes.		
	Hours are listed at: <u>http://itp.usc.edu/labs/</u> .		

Grading Scale	Letter grades will be assigned according to the following scale:				
	93%+	A			
	90-92%	A-			
	87-89%	B+			
	83-86%	В			
	80-82%	В-			
	77-79%	C+			
	73-76%	C			
	70-72%	C-			
	69	D+			
	67-68	D			
	66	D-			
	65 and below	F			
	Half percentage points will be rounded up to the next whole percentage. So, fo instance, 89.5% is an A-, but 89.4% is a B+.				
	There is no curving. Students will receive the grade they earn. Extra credit is not				
	offered.				
Policies	Make-up policy for exams: To make up for a missed exam, the student must provide				
	a satisfactory reason (as determined by the instructor) along with proper documentation. Make-ups are only allowed under extraordinary circumstances. <i>Attendance</i> : Attendance is taken as part of your grade for Thursday lab sessions. This portion of the grade can be exempted if the student provides a satisfactory reason (as determined by the instructor) along with proper documentation.				
	Frequently miss	sed lab sessions will not be accepted.			
	Late Lab Assian	ments: I ab assignments are not accented late unless there is a			
	satisfactory reason (as determined by the instructor) along with proper				
	uocumentation	•

Statement on	Academic Conduct		
Academic Conduct	Plagiarism – presenting someone else's ideas as your own, either verbatim or recast		
and Support	in your own words – is a serious academic offense with serious consequences.		
Systems	Please familiarize yourself with the discussion of plagiarism in SCampus in Section		
	11, Behavior Violating University Standards <u>https://scampus.usc.edu/1100-</u> <u>behavior-violating-university-standards-and-appropriate-sanctions/</u> . Other forms		
	academic dishonesty are equally unacceptable. See additional information in		
	SCampus and university policies on scientific misconduct,		
	http://policy.usc.edu/scientific-misconduct/.		
	Discrimination, sexual assault, and harassment are not tolerated by the university.		
	You are encouraged to report any incidents to the Office of Equity and Diversity http://equity.usc.edu/ or to the Department of Public Safety		
	http://capsnet.usc.edu/department/department-public-safety/online-		
	forms/contact-us. This is important for the safety whole USC community. Another		
	member of the university community – such as a friend, classmate, advisor, or		
	faculty member – can help initiate the report, or can initiate the report on behalf of		
	another person. <i>The Center for Women and Men</i> <a href="http://www.usc.edu/student-affairs/cwm/">http://www.usc.edu/student-affairs/cwm/</a> provides 24/7 confidential support, and the sexual assault resource		
	center webpage <u>sarc.usc.edu</u> describes reporting options and other resources.		
	Support Systems		
A number of USC's schools provide support for students who need help with			
	scholarly writing. Check with your advisor or program staff to find out more.		
	Students whose primary language is not English should check with the American		
	Language Institute http://dornsife.usc.edu/ali, which sponsors courses and		
	workshops specifically for international graduate students. The Office of Disability		
	Services and Programs		
	http://sait.usc.edu/academicsupport/centerprograms/dsp/home_index.html provides certification for students with disabilities and helps arrange the relevant accommodations. If an officially declared emergency makes travel to campus infeasible, USC Emergency Information <u>http://emergency.usc.edu/</u> will provide		
	safety and other updates, including ways in which instruction will be continued by		
	means of blackboard, teleconferencing, and other technology.		
A Further Note on	In this class, all homework submissions will be compared with current, previous,		
Plagiarism	and future students' submissions using MOSS, which is a code plagiarism		
	identification program. If your code significantly matches another student's		
	submission, you will be reported to SJACS with the recommended penalty of an F in		
	the course.		
	It is okay to discuss solutions to specific problems with other students, but it is not		
	okay to look through another student's code. It does not matter if this code is		
	online or from a student you know, it is cheating. Do not share your code with		
	anyone else in this or a future section of the course, as allowing someone else to
