I. COURSE PREREQUISITES

Social Work Practice with Children and Families Across Settings is an introductory course in the Department of Children, Youth and Families. Students will have successfully completed the foundation semester before enrolling in this course.

II. CATALOGUE DESCRIPTION

Theory and principles underlying social work in host settings and nonspecialty sector settings with a primary emphasis on working with children, youth, and families.

III. COURSE DESCRIPTION

Children and families receiving social work services often navigate multiple service sectors. In some settings, social work is the primary focus of the agency (e.g., child welfare, mental health, youth empowerment programs). In other settings, social workers operate in a "host setting" where social work is not the primary function or profession; in these settings, administrators may not be particularly familiar with social work values and ethical standards (e.g., correctional facilities, the military, hospitals, and schools). Moving across service sectors presents unique challenges for children, families, and social workers. Often children and families do not know how to achieve their goals within the confines of various service sectors or they "fall through the cracks" when trying to move between service sectors. Social workers' efforts can be ineffectual if they do not understand how to collaborate with other family serving sectors or when they change employment from one sector to another. In this course, students will explore various settings where children and families commonly receive social work services in order to understand the objective of the setting, the organization of the setting, the role of the social worker in the setting, and the common methods of working with children and families in the setting. Upon completion of this course students will have knowledge to enhance their facility in working within varied children and

family serving settings. Students will also have developed knowledge to assist families in navigating multiple service sectors.

IV. COURSE OBJECTIVES

The Social Work Practice with Children and Families Across Settings course (SOWK 610) will:

Objective No.	Objectives
1	Introduce students to the mission, organizational structure, and role of the social worker in service sectors where children and families most often receive social work services.
2	Demonstrate the generalist skills that social workers can use across multiple service sectors.
3	Provide students with in-depth knowledge of the unique skills required in specific service settings.
4	Provide the foundation for students to be able to work in multiple settings serving children and family.
5	Introduce students to theories of interagency collaboration and develop collaborative skills when working across service settings.

V. COURSE FORMAT / INSTRUCTIONAL METHODS

The format of the course will consist of didactic instruction and experiential exercises. These exercises may include the use of videotapes, role-play, or structured small group exercises. Material from the field will be used to illustrate class content and to provide integration between class and field. Confidentiality of material shared in class will be maintained. As class discussion is an integral part of the learning process, students are expected to come to class ready to discuss required reading and its application to theory and practice.

VI. STUDENT LEARNING OUTCOMES

The following table lists the nine social work core competencies as defined by the Council on Social Work Education's 2015 Educational Policy and Accreditation Standards:

Social Work Core Competencies	
1	Demonstrate Ethical and Professional Behavior*
2	Engage in Diversity and Difference in Practice
3	Advance Human Rights and Social, Economic, and Environmental Justice
4	Engage in Practice-informed Research and Research-informed Practice
5	Engage in Policy Practice
6	Engage with Individuals, Families, Groups, Organizations, and Communities*
7	Assess Individuals, Families, Groups, Organizations, and Communities
8	Intervene with Individuals, Families, Groups, Organizations, and Communities
9	Evaluate Practice with Individuals, Families, Groups, Organizations and Communities

* Highlighted in this course

The following table shows the competencies highlighted in this course, the related course objectives, student learning outcomes, and dimensions of each competency measured. The final column provides the location of course content related to the competency.

Competency	Objectives	Behaviors	Dimensions	Content
<p>Competency 1: Demonstrate Ethical and Professional Behavior Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that impact children, youth, and families at the micro, mezzo, and macro levels. Social workers employ ethical decision-making and critical thinking when working with children, youth, and families. Social workers understand the distinctions between personal and professional values and apply rigorous self-reflection to monitor the influence of personal experiences and affective reactions as they make professional judgments and decisions in their work with children, youth, and families. Social workers understand social work roles and the roles of other professionals involved in the lives of children and families, and use collaboration to positively impact the lives of their clients in a variety of contexts.</p> <p>Social workers specializing in work with children, youth, and families recognize the importance of life-long learning and continual updating of knowledge and skills for effective and responsible practice. Competency	Objectives	Behaviors	Dimensions	Content
<p>Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities Child and family social workers understand that engagement is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse children, youth, and families. They understand the importance of significant relationships and development from an ecological perspective with an understanding of risk and protective factors and how these interact within the larger social environment. Social workers utilize theories of human behavior and the social environment to facilitate engagement with their clients and the groups, organizations, institutions, and communities that impact them. Social workers understand and utilize varied engagement strategies to advance practice effectiveness with diverse children, youth, and families and thus advance social, economic and environmental justice within marginalized communities. Social workers understand that their personal experiences and affective reactions may have an impact on their ability to effectively engage with diverse families and children. Social workers understand the role of relationship-building and interprofessional collaboration in facilitating engagement with children, youth, and families.</p>	<p>2. VII. COURSE ASSIGNMENTS, DUE DATES, AND GRADING

Assignment	Due Date	% of Final Grade
Assignment 1: Organizational Analysis of Host Setting	Unit 5	25%
Assignment 2: Collaborative Plan Paper and Presentation	TBA	30%
Assignment 3: Case Analysis and Transferable Skills Paper	Unit 14	35%
Class Participation	Ongoing	10%

Each of the major assignments is described below.

Assignment 1

This assignment focuses on examining the mission, organizational structure, and service delivery in a host setting where children and families are served.

Due: Unit 5

This assignment relates to Student Learning Outcomes 1, 2, 6, 7, 8, and 9.

Assignment 2

Based on interagency collaboration theory, students will develop and present a plan for two service sectors to collaborate in order to better serve children and families.

Due: TBA

This assignment relates to Student Learning Outcomes 1, 2, 6, 7, 8, and 9.

Assignment 3

In this assignment students will describe and apply generalist social work skills to a case vignette and illustrate how they can be used in settings where children and families are served.

Due: Unit 14

This assignment relates to Student Learning Outcomes 1, 2, 6, 7, 8, and 9.

Class Participation (10% of Course Grade)

It is expected that students will attend class regularly, participate in the class discussions, and submit work promptly. Failure to meet these expectations may result in reduction in grades.

Your involvement in this class is considered essential to your growth as a practitioner. You will be asked to discuss the material assigned, participate in role-playing, exercises, etc. Knowing the "right" answers is not nearly as important as being willing to risk, explore your ideas, and be open to new information and ideas. Your presence in class along with preparation by having completed the asynchronous material, read required readings, considered the assignments, and participation in discussion, is essential.

Guidelines for Evaluating Class Participation:

10: Outstanding Contributor: Contributions in class reflect exceptional preparation and participation is substantial. Ideas offered are always substantive, provides one or more major insights as well as direction for the class. Application to cases held is on target and on topic. Challenges are well substantiated, persuasively presented, and presented with excellent comportment. If this person were not a member of the class, the quality of discussion would be diminished markedly. Exemplary behavior in experiential exercises demonstrating on target behavior in role plays, small-group discussions, and other activities.

9: Very Good Contributor: Contributions in class reflect thorough preparation and frequency in participation is high. Ideas offered are usually substantive, provide good insights and sometimes direction for the class. Application to cases held is usually on target and on topic. Challenges are well substantiated, often persuasive, and presented with excellent comportment. If this person were not a member of the class, the quality of discussion would be diminished. Good activity in experiential exercises demonstrating behavior that is usually on target in role plays, small-group discussions, and other activities.

8: Good Contributor: Contributions in class reflect solid preparation. Ideas offered are usually substantive and participation is very regular, provides generally useful insights but seldom offer a new direction for the discussion. Sometimes provides application of class material to cases held. Challenges are sometimes presented, fairly well substantiated, and are sometimes persuasive with good comportment. If this person were not a member of the class, the quality of discussion would be diminished somewhat. Behavior in experiential exercises demonstrates good understanding of methods in role plays, small-group discussions, and other activities.

7: Adequate Contributor: Contributions in class reflect some preparation. Ideas offered are somewhat substantive, provides some insights but seldom offers a new direction for the discussion. Participation is somewhat regular. Challenges are sometimes presented, and are sometimes persuasive with adequate comportment. If this person were not a member of the class, the quality of discussion would be diminished slightly. Occasionally applies class content to cases. Behavior in experiential exercises is occasionally sporadically on target demonstrating uneven understanding of methods in role plays, small-group discussions, and other activities.

6: Inadequate: This student says little in class. Hence, there is not an adequate basis for evaluation. The student doesn't participate actively in exercises and sits mostly silently in group activities and in class discussions.

5: Non-participant: Attends class only. Does not appear to be engaged.

Class grades will be based on the following:

Class Grades		Final Grade	
3.85–4.00	A	93–100	A
3.60–3.84	A-	90–92	A-
3.25–3.59	B+	87–89	B+
2.90–3.24	B	83–86	B
2.60–2.87	B-	80–82	B-
2.25–2.50	C+	77–79	C+

Class Grades		Final Grade	
1.90–2.24	C	73–76	C
		70–72	C-

Within the School of Social Work, grades are determined in each class based on the following standards which have been established by the faculty of the School: (1) Grades of A or A- are reserved for student work which not only demonstrates very good mastery of content but which also shows that the student has undertaken a complex task, has applied critical thinking skills to the assignment, and/or has demonstrated creativity in her or his approach to the assignment. The difference between these two grades would be determined by the degree to which these skills have been demonstrated by the student. (2) A grade of B+ will be given to work which is judged to be very good. This grade denotes that a student has demonstrated a more-than-competent understanding of the material being tested in the assignment. (3) A grade of B will be given to student work which meets the basic requirements of the assignment. It denotes that the student has done adequate work on the assignment and meets basic course expectations. (4) A grade of B- will denote that a student's performance was less than adequate on an assignment, reflecting only moderate grasp of content and/or expectations. (5) A grade of C would reflect a minimal grasp of the assignments, poor organization of ideas and/or several significant areas requiring improvement. (6) Grades between C- and F will be applied to denote a failure to meet minimum standards, reflecting serious deficiencies in all aspects of a student's performance on the assignment.

University Policies and Guidelines

IX. ATTENDANCE POLICY

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives which could affect your course grade. Students are expected to notify the instructor by email (xxx@usc.edu) of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students' observance of a holy day. Students must make arrangements *in advance* to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to Scampus and to the USC School of Social Work Student Handbook for additional information on attendance policies.

X. ACADEMIC CONDUCT

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, "Behavior Violating University Standards" <https://policy.usc.edu/scampus-part-b/>. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

XII. ADDITIONAL RESOURCES

Students enrolled in the Virtual Academic Center can access support services for themselves and their families by contacting Perspectives, Ltd., an independent student assistance program offering crisis services, short-term counseling, and referral 24/7. To access Perspectives, Ltd., call 800-456-6327.

XIII. STATEMENT ABOUT INCOMPLETES

The Grade of Incomplete (IN) can be assigned only if there is work not completed because of a documented illness or some other emergency occurring after the 12th week of the semester. Students must NOT assume that the instructor will agree to the grade of IN. Removal of the grade of IN must be instituted by the student and agreed to be the instructor and reported on the official “Incomplete Completion Form.”

XIV. POLICY ON LATE OR MAKE-UP WORK

Papers are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If the paper is late without permission, the grade will be affected.

XV. POLICY ON CHANGES TO THE SYLLABUS AND/OR COURSE REQUIREMENTS

It may be necessary to make some adjustments in the syllabus during the semester in order to respond to unforeseen or extenuating circumstances. Adjustments that are made will be communicated to students both verbally and in writing.

XVI. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS (OPTIONAL)

Approved by the 1996 NASW Delegate Assembly and revised by the 2017 NASW Delegate Assembly
<https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English>

Preamble

The primary mission of the social work profession is to enhance human well-being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual well-being in a social context and the well-being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. "Clients" is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation, administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.
