Course Description and Outline

Overview
Introduction to Art Direction examines the role of the art director in motion pictures, television and other forms of cinematic imagery. Students learn how to use art direction to contribute to the storytelling process. Students develop the skills required by an art department and create projects that offer hands on experience solving the problems of bringing a script to the screen.

Learning Objectives
• This course examines the visual history and development of art direction and production design for cinema.
• The course focuses on the Hollywood Art Department: the staff, their responsibilities and relationships both internally and externally with the other crafts and departments of a production.
• Students learn how visual design elements enhance story, theme, character, location, cinematography, editing, and visual effects.
• Students learn tools to create a final presentation using script breakdowns, research boards, conceptual illustrations, sample boards, working drawings, and white models.

Tests, Projects & Assignments
• Visual Diaries: students maintain a visual diary of at least one page per week of inspirational visual material – photos, sketches, colors, textures, etc. This diary is submitted to the instructor at the end of the semester.
• Assignments: Students are given a variety of classroom and take home projects.
• Mid-term Test: There is a mid-term test covering class lectures, classroom work and take home assignments.
• Final Exam: Each student creates and presents a completed design for a set.

Tardiness and unexcused absences will negatively affect a student’s grade. If a student must miss class, please notify the professor and the course SA in advance via email.

**Final Grade Calculation:**

- 5% – Visual Diary
- 40% – Class Projects/assignments
- 20% – Mid-term test
