I. Course Description
In this course you will learn the basic web technologies (HTML, CSS, JavaScript and jQuery) needed to build modern interactive multimedia projects. In addition, you will use contemporary storytelling skills to create advanced online story packages with multiple elements, including text, visuals (video, photos, graphics, etc.), audio, interactivity and navigation, with heavy emphasis on web development and coding. You will conceive, design, code and produce an advanced multimedia package.

The class will meet once a week for direct instruction, hands-on exercises and more. You will practice your coding skills with focused bi-weekly assignments. In addition to your bi-weekly assignments, you must pitch and produce one longer project during the semester. This can be an individual project or a group project of no more than three people working together.

While coding is the next crucial skill for creative professionals to incorporate, not everyone will come out of this course as a developer. But no one will be left behind, and at the very least you will understand the role and potential for web development in the present and future of the creative professions. That in itself is invaluable in getting you a job in today’s market.

II. Overall Learning Objectives and Assessment
The goal of this course is to teach you how to use front-end Web development to produce engaging and innovative multimedia stories.

By the end of this course you should be able to sketch, design and code a website from scratch, using HTML, CSS, JavaScript and JQuery plug-ins to tell a rich multimedia story. Building on your journalistic storytelling skills, this class focuses solely on the creation and production of stories told only via the Web.

III. Description of Assignments
Assignment 0: Multimedia/interactive examples. Due before class Week 2
Assignment 1: HTML/CSS problem set. Due before class Week 4
Assignment 2: Flexbox and responsive. Due before class Week 6.
Assignment 3: JQuery problem set 1. Due before class Week 9
Assignment 4: JQuery problem set 2. Due before class Week 12
Final Project: Due on day of scheduled final exam. NOTE: Your JOUR 320 final project is in conjunction with JOUR 307: Reporting and Writing II.

c. Grading Standards

The content of your projects must meet all journalistic standards: adherence to AP style, grammatically correct, well proofed, and most importantly, the work must be your own (see the plagiarism policies below under IX. Policies and Procedures).

This is a coding class so format, neatness and documentation will be graded. I will take up to two (of 20) points off for bad formatting on any given assignment.

Points will be taken off if problems on assignments are not completed.

Participation will be graded on a number of criteria, including (but not exclusively) collaboration and helping out classmates if you understand something that someone else is struggling with.

If on your assignments you simply copy and paste a classmate’s work into your assignment, your instructor will be able to tell, and you will not get any credit. That is also called plagiarism.

I also grade on effort. Not everyone will find this course material easy, but if you try your hardest (and I can tell), your grade will reflect that. However, simply passing in an incomplete assignment does not count as effort. Effort means that you have tried to complete the assignment, identified where you are having trouble and then sought out your instructor for extra help.

"A" and "B" projects/assignments should have ALL components; i.e., students should not get higher than a C+ unless everything is turned in.

- "A" project/assignment is submitted on time, has only minor bugs, JS well formatted and documented, and shows exceptional effort and creativity.
● “B” project/assignment is on time, and completed but requires more than minor bug fixes (CSS styling as well as JavaScript/JS functionality) and/or is not documented correctly or is badly formatted. Fulfills all basic requirements, but nothing beyond that.
● “C” project/assignment is late, is not complete and/or functioning. Requires major bug fixes. The student should have requested help from the professor.
● “D” project/assignment is late, incomplete, failed to meet the major criteria of the assignment, has numerous errors. Should not have been submitted.
● “F” project/assignment has not been submitted or is plagiarized from someone else’s code or project. You can use someone else’s code as example or inspiration, but you cannot present someone else’s project as your own.

In addition, style errors and other breaches of journalistic standards will result in point deductions. Extra design and creativity is given extra credit.

• Fabricating a story or making up quotes or information.
• Plagiarizing a script/article, part of a script/article or information from any source.
• Staging video or telling interview subjects what to say.
• Using video shot by someone else and presenting it as original work.
• Shooting video in one location and presenting it as another location.
• Using the camcorder to intentionally intimidate, provoke or incite a person or a group of people to elicit more “dramatic” video.
• Promising, paying or giving someone something in exchange for doing an interview either on or off camera.
• Missing a deadline.

V. Assignment Submission Policy
A. All assignments are due on the dates specified. Lacking prior discussion and agreement with the instructor, late assignments will automatically be given a grade of F.
B. Assignments should be submitted via a Dropbox link that will be provided to you. All coding assignments should be .zipped up before submission. The project folder and the zip file should be named like so: “lastname-firstname-assignment[number]”. Please rename your project folder before you zip it up for submission. One point will be subtracted for each assignment that is not labeled or submitted correctly.

VI. Required Readings and Supplementary Materials
While there is no required text in this course, there are a number of websites and tutorials you will be asked to read and work your way through, including:

• HTML tutorial: http://w3schools.com/html/default.asp
• CSS tutorial: http://w3schools.com/css/default.asp
• Begin Bootstrap tutorials: http://www.w3resource.com/twitter-bootstrap/tutorial.php and http://getbootstrap.com/2.3.2/getting-started.html
• JavaScript tutorial: http://w3schools.com/js/default.asp
• JQuery tutorial: http://w3schools.com/jquery/default.asp

For reference textbooks, these are recommended:

These are also good reference and learning sites:
Lynda (http://www.usc.edu/its/lynda)
W3Schools (http://www.w3schools.com/)
Codecademy (http://www.codecademy.com)
VII. Laptop Policy
All undergraduate and graduate Annenberg majors and minors are required to have a PC or Apple laptop that can be used in Annenberg classes. Please refer to the Annenberg Digital Lounge for more information. To connect to USC’s Secure Wireless network, please visit USC’s Information Technology Services website.

VIII. Add/Drop Dates for Session 001 (15 weeks: 1/7/19 – 4/26/19)
Friday, January 25: Last day to register and add classes for Session 001
Friday, January 25: Last day to drop a class without a mark of “W,” except for Monday-only classes, and receive a refund for Session 001
Tuesday, January 29: last day to drop a Monday-only class without a mark of “W” and receive a refund for Session 001
Friday, February 22: Last day to drop a course without a mark of “W” on the transcript. [Please drop any course by the end of week three (or the week three equivalent for short sessions) to avoid tuition charges.]
Friday, April 5: Last day to drop a class with a mark of “W” for Session 001

X. Policies and Procedures
Additional Policies
Collaboration and helping out classmates if you understand something that they are struggling with is very
Important to success in this class. I also grade on effort. Not everyone will find this course material easy, but if you try your hardest (and I can tell), your grade will reflect that.

Each class builds on the previous one, so it is crucial that you do not miss a class or fall behind. If you have to miss a class, let me know in advance so we can discuss how to keep you up to speed. If you are struggling with some concepts or code, let me know and I will meet with you separately to go over it.

This can be complicated material, especially if you are not paying attention. Do not text, chat with your friends on Facebook, or play on your computer during the instruction.

**Internships**

The value of professional internships as part of the overall educational experience of our students has long been recognized by the School of Journalism. Accordingly, while internships are not required for successful completion of this course, any student enrolled in this course that undertakes and completes an approved, non-paid internship during this semester shall earn academic extra credit herein of an amount equal to 1 percent of the total available semester points for this course. To receive instructor approval, a student must request an internship letter from the Annenberg Career Development Office and bring it to the instructor to sign by the end of the third week of classes. The student must submit the signed letter to the media organization, along with the evaluation form provided by the Career Development Office. The form should be filled out by the intern supervisor and returned to the instructor at the end of the semester. No credit will be given if an evaluation form is not turned into the instructor by the last day of class. Note: The internship must be unpaid and can only be applied to one journalism or public relations class.

**Statement on Academic Conduct and Support Systems**

*a. Academic Conduct*

**Plagiarism**

Presenting someone else’s ideas as your own, either verbatim or recast in your own words - is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Section 11, *Behavior Violating University Standards* (https://policy.usc.edu/scampus-part-b/). Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct (http://policy.usc.edu/scientific-misconduct/).

**USC School of Journalism Policy on Academic Integrity**

The following is the USC Annenberg School of Journalism’s policy on academic integrity and repeated in the syllabus for every course in the school:

“Since its founding, the USC School of Journalism has maintained a commitment to the highest standards of ethical conduct and academic excellence. Any student found plagiarizing, fabricating, cheating on examinations, and/or purchasing papers or other assignments faces sanctions ranging from an ‘F’ on the assignment to dismissal from the School of Journalism. All academic integrity violations will be reported to the office of Student Judicial Affairs & Community Standards (SJACS), as per university policy, as well as journalism school administrators.”

In addition, it is assumed that the work you submit for this course is work you have produced entirely by yourself, and has not been previously produced by you for submission in another course or Learning Lab, without approval of the instructor.

**b. Support Systems**

**Student Counseling Services (SCS) – (213) 740-7711 – 24/7 on call**

XI. About Your Instructor

Channing Joseph has taught at USC Annenberg since the summer of 2017. As a reporter, he was first to break the story of Wikileaks’ 2007 publication of secret military documents from the war in Afghanistan. His reporting has taken him from the southernmost tip of Africa to the sunny mountains of rural Japan.

As an editor, he has directed and shaped the work of two dozen Pulitzer Prize winners. He has served as editor-in-chief of SF Weekly, San Francisco’s flagship alternative newspaper, as well as on staff at The New York Times and Associated Press. As a staff editor at The New York Times, he edited projects that resulted in the release of several wrongfully convicted prisoners and helped earn the paper two Polk Awards and a Pulitzer Prize.
