Course Description

Introduction to computer hardware, operating systems, networks, programming. Survey of application software in business and industry. Computer issues in the work place and society.

Learning Objectives

Upon completing this course, students will:

- Understand the fundamentals of information technology
- Understand how businesses use information technology
- Learn core concepts of computing and modern systems
- Understand modern software programs and packages
- Learn about upcoming IT technologies

Prerequisite(s): none

Co-Requisite(s): none

Concurrent Enrollment: none

Recommended Preparation: Students should be familiar with the use of computers, email, and web browsers.

Course Notes

This course is designed to be an introductory course in information technology. The course focuses on key concepts for understanding modern computer systems. Students will also learn about the capabilities and limitations of information technology systems. The focus of the course is on how technology is used in and by businesses and organizations.

Technological Proficiency and Hardware/Software Required

Students should be familiar with the use of email and web browsers. Students should bring laptops to class. Microsoft Office should be installed on the laptop (and is available for free from <http://software.usc.edu>). Mac users will need to use Windows for some assignments. Windows is available virtually from Viterbi IT at <https://mydesktop.vlab.usc.edu/> - Instructions for Viterbi IT's virtual desktop interface may be found at <https://viterbiit.usc.edu/wp-content/uploads/2018/01/MyDesktop-Logon-Instructions-08212017.pdf>

Required Readings and Supplementary Materials

There is no required textbook to purchase for this class. All lecture PowerPoint slides will be posted to blackboard and will be required reading for the exams. In addition, there will be online articles (links on Blackboard) that will be assigned reading based upon current topics and industry trends in business technologies.

Description and Assessment of Assignments

You will create PowerPoint presentations, Excel spreadsheets, Access databases, websites in DreamWeaver, and blogs. Graders will use a rubric to assess grade.

The lab assignments will be posted on Blackboard under the "Assignments" section. Each lab will include instructions, a due date, and a link for electronic submission. There will be at least 5 labs assigned, some in multiple parts.

Lab attendance is not mandatory, but there are some software packages that may not be available in non-ITP labs. If you have questions about any of the lab assignments, attend a lab session. Do not send any email to the instructor regarding lab instructions. You are also invited and encouraged to attend the instructor's office hours for lab-related questions.

You must keep a backup copy of all lab work, including assignments you submit on Blackboard. You are required to save your labs on your laptop, in an email to yourself, or on a website such as <http://www.dropbox.com>. You will not be able to save your work on the lab computers, but you can save your work on the virtual desktop available from Viterbi at <https://mydesktop.vlab.usc.edu/>

Grading Breakdown

The following percentage breakdown will be used in determining the grade for the course.

Assignment Submission Policy

Labs must be submitted on Blackboard. Do not email them to the instructor.

It is your responsibility to submit your assignments on or before the due date. Assignments turned in one day late will have 20% of the total points deducted from the graded score. Assignments turned in two days late will have 50% of the total points deducted from the graded score. After two days, submissions will not be accepted and you will receive a 0.

Grading Timeline

Standard timeline is one week. Notify instructor if grades are not posted within 10 days of assignment due date.

Additional Policies

Attendance is recorded during each lecture. Class attendance is mandatory (lab attendance is not; see above). If you are going to be absent from lecture, email valid excuse to instructor more than one hour prior to class to be counted as present. Only proper businesslike emails accepted.

No make-up exams (except for documented medical or family emergencies) will be offered nor will there be any changes made to the Final Exam schedule.
