#### I. COURSE PREREQUISITES

This is an advanced master's level Field Education course. Students take this class concurrently with 698b. To participate in this course, students must successfully complete SOWK 589a, SOWK 588, 589b, 698a, and 699a.

#### II. CATALOGUE DESCRIPTION

Supervised field placement to develop depth of skill and practice in area of department focus. Graded CR/NC/IP/INC.

#### III. COURSE DESCRIPTION

This course is the fourth semester direct practice portion of the MSW program. It is a collaborative endeavor between the USC School of Social Work agencies located throughout the world. This advanced course provides students the opportunity to practice social work skills and apply evidencebased interventions (EBIs) in their work with individuals, families, groups, organizations, communities and

businesses with higher competency expectations than the first two semesters of the MSW program. Each student receives continual support provided by a Field Faculty Liaison who serves as an educator. consultant and coach for the field education internship experience to emphasize the Four C's of Field Education at USC: 1) collaboration, 2) communication, 3) creativity, and 4) critical thinking. Students utilize critical thinking and creativity through application of EBIs on the micro, mezzo and macro level of practice. Students utilize effective communication techniques in working with clients, agency employees and USC faculty to enhance their professional development as social workers.

In the final semester of field education, students will demonstrate an increase in the quality of micro, mezzo, and macro social work services. MSW students are expected to build on their knowledge, skills, and values learned in their first three semesters of field education internships. Through continued collaboration with the School, agencies will continue to provide learning opportunities and resources for an effective educational experience for students. Field Instructors are professional masters' level social workers who guide and teach students how to apply social work practice, values, and ethics in a professional setting. Field Instructors also collaborate with students and preceptors, if applicable, to create and approve learning agreements, discuss and give feedback on Reflective Learning Tools, complete and sign end-of-semester evaluations, and ensure paperwork is finished on time.

SCI students will effectively demonstrate specialized practice coursework concepts, while practicing social work and developing competencies in their specialized area of practice in organizations, business and community settings. AMHW students will effectively demonstrate specialized practice coursework concepts, while practicing social work and developing competencies in their specialized area of practice in agencies serving adults. CYF students will effectively demonstrate specialized practice coursework concepts, while practicing social work and developing competencies in their specialized area of practice in agencies serving children, youth and families.

Students are expected to continue to take an active role in their experiences through the use of three core learning processes: self-reflection, interaction, and risk-taking. This teaching method draws on Transformative Learning Theory which asserts that students develop integrative knowledge about self and others in a dynamic, multicultural society from multiple perspectives. A primary goal is to help students understand their own and others' cultural experiences, to challenge their preconceptions and stereotypes, and to develop an attitude of openness and flexibility in cross-cultural interactions.

This course provides an opportunity for School departments to implement research-influenced practices in multidisciplinary settings, thereby, contributing to the direct application of EBIs and influencing the capacity of organizations to provide EBIs. Infusing field education internship with EBIs provides a translational link between research and practice, further solidifying a developing science of social work, and underscores Field Education as the "signature pedagogy" of social work.

At semester ends, the Field Faculty Liaison is responsible for assigning students a grade of Credit, In Progress, or No Credit.

#### IV. COURSE OBJECTIVES

Objective #	Objectives
1	Effectively integrate AMHW, CYF and SCI classroom theories and specialized concepts with micro, mezzo, and macro social work practice in a variety of community settings that address the effects of poverty, discrimination and oppression; influence changes at the individual, family and group level; and bring about organizational and societal change.
2	Connect the developing science of social work to practice by demonstrating specific AMHW, CYF and SCI evidence-based interventions (EBIs) in internship placements.
3	Enhance and extend skills across the spectrum of culturally appropriate social work services, may include direct practice skills such as engagement, assessment, goalsetting, intervention, termination, and evaluation; mezzo practice skills such as case

	management, resource/referral, family work, and support system; and macro practice skills such as community organizing, fund development and grant writing, policy analysis, and program development, implementation, and evaluation.
4	Cultivate professional use of self through observation of professional social workers, self-reflection, understanding of social work values, and implementation of those values in internship placements.
5	Demonstrate proficiency in the required Council on Social Work Education's (CSWE) Core Competencies as indicated in the Comprehensive Skills Evaluation related to departmental (AMHW, CYF and SCI) specialized behaviors.
6	Effectively develop and expand effective communication skills demonstrating critical thinking and creativity for intra/interdisciplinary collaboration, service delivery, oral presentation and written documentation within the specialized field education internship setting.

### V. COURSE FORMAT / INSTRUCTIONAL METHODS

Field Education is systematically designed, supervised, coordinated, and evaluated based on criteria by which students demonstrate the achievement of program competencies (Brooks, 2010). These competencies are articulated in the CSWE EPAs and make up the end of semester evaluation for field education internship. To prepare students for successfully achieving those competencies, a variety of instructional methods are utilized by both USC Field Faculty and agency Field Instructors.

Instructional methods consist of university-led trainings, activities, and guidance combined with community agency activities under the supervision of a designated Field Instructor, including hands-on interactions with clients, shadowing opportunities, trainings, individual supervision, group supervision, guidance on proper documentation, crisis management responses, didactic instruction, and experiential exercises. Students may also develop a working relationship with site-based employees, known as Preceptors, who help guide them in day-to-day operations and many of the activities listed above.

USC Field Faculty Liaisons are assigned to oversee the progress of the students in their field placements, including consultation for students' field education internship assignments. Working on behalf of the Suzanne Dworak-Peck School of Social Work, the Liaisons meet with students as needed to facilitate their placement experiences and schedule Field Instructor and student contacts each semester to ensure the quality of students' learning opportunities. The Liaisons also clarify School expectations and serve as consultant and mediator for student and internship-related conflicts.

Reflective Learning Tools are teaching tools that reflect student interactions with clients, systems that impact clients, and agency or community decision-makers. They also provide opportunities for Field Instructors' input and can influence future interventions. A teaching plan known as the Learning Agreement will be developed and/or revisited collaboratively between students and their Field Instructors. At the end of the first semester, Field Instructors will complete the end of semester evaluation and recommend a grade to the Field Faculty Liaison.

As discussion and participation are an integral part of the learning process, students are expected to prepare for supervision and to come to internship ready to apply the best practices of social work with clients and systems. Internship days are generally during the week Monday through Friday, although some variations may occur. The number of hours required in the field (20 hrs/week) includes at least one full eight-hour day.

## **VI. STUDENT LEARNING OUTCOMES**

The following table lists the nine Social Work Core Competencies as defined by the Council on Social Work Education's 2015 Educational Policy and Accreditation Standards:

	Social Work Core Competencies
1	Demonstrate Ethical and
	Professional Behavior
2	Engage in Diversity and Difference in

Competency	Objectives	Behaviors	Dimension s	Content
2. Engage in Diversity and Difference in Practice  Social workers understand how diversity and difference characterize and shape the human experience and are critical to identity formation across one's life span and in a variety of settings. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and perspectives, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand how life experiences arising from oppression, poverty, marginalization, or privilege and power, can affect community and organizational culture and well-being. Social workers recognize the extent to which social structures, values and cultural systems, including those within communities, organizations, and businesses, may oppress, marginalize, alienate, exclude, or create or enhance privilege and power in arenas of intervention.	1. Integrate classroom theories and concepts with social work practice in vulnerable community settings where the effects of poverty, discrimination and oppression are pervasive in an effort to bring about change at individual, community, organizational and societal levels.  3. Enhance skills across the spectrum of culturally appropriate social work services, from engagement to assessment, goal-setting, intervention, evaluation, and termination.  5. Increase proficiency in the required Council on Social Work Education's (CSWE) Core Competencies as indicated in the Comprehensive Skills Evaluation.	a. Understand the importance of diversity and difference in shaping one's own and others' life experiences and biases and their possible impact on practice across micro, mezzo, and macro levels, occurring in communities and organizations and business environments.  b. 3. Advance Human Rights and Social, Economic, and Environmental Justice Social workers understand that every individual, regardless of position in society, has fundamental human rights such as freedom, safety, privacy, an adequate standard of living, health care, and education. Social workers understand the global interconnections of oppression and human rights violations, theories of human need and social justice and strategies to promote social and economic justice and human rights. Social workers use strategies designed to eliminate oppressive structural barriers in order to ensure more equitable distribution of resources, access to opportunities, social goods, and services. Social workers recognize their responsibility to protect the human rights and well-being of individuals in communities, organizations, and businesses across the globe.	Objectives  1. Integrate classroom theories and concepts with social work practice in vulnerable community settings where the effects of poverty, discrimination and oppression are pervasive in an effort to bring about change at individual, community, organizational and societal levels.  5. Increase proficiency in the required Council on Social Work Education's (CSWE) Core Competencies as indicated in the Comprehensive Skills Evaluation.	a. Understand and assess economic trends, business practices, social trends, and governmental actions nationally and globally to recognize the impact on the well-being of individuals, families and communities.  b. Understand the tendency for human behaviors in communities, organizations, and businesses and for organizational structures and cultures to create oppressive, exclusive, or stressful environments.  c. Identify and intervene effectively in oppressive, exclusive and/or stressful environments using knowledge of human behavior, culture, group dynamics, historical marginalization and other factors that impact the functioning of individuals, groups, communities, organizations and business environments. \*All field hours and documentation must be completed to pass this course. In order for students to receive credit (CR), they need to receive a minimum of 83% on assignments and must complete the minimum required hours of field activities for the semester. (Partial credit for these requirements will not be given.)

#### Assignment 1: Review Educational Goals in Learning Agreement with Field Instructor

Review education goals in the Learning Agreement and revise to incorporate department-specific competencies through collaboration with your Field Instructor and Preceptor (if applicable).

Due: Unit 5

This assignment relates to student learning outcome 6.

# Assignment 2a/b: Reflective Learning Tools and Field Documentation

Complete and submit Reflective Learning Tool (RLT) (a minimum of 8/semester) to the Field Instructor. There are multiple Reflective Learning Tool forms to choose from based on the setting type:

- Individual (Micro)
  - Shadowing other social workers, individual interactions with assigned clients
- Group (Mezzo)
  - Psychoeducational groups, processing groups, co-facilitating groups
- Community (Macro)
  - o Events, agency orientation, meetings, assigned projects, activities, trainings

On Campus Program (OCP): the RLT Log is accessible through the IPT system and needs to be completed electronically on a regular basis (approximately 2 RLTs per month). The log is due on the last date of field. Samples of RLTs are available through the USC Suzanne Dworak-Peck School of Social Work website at <a href="https://dworakpeck.usc.edu/msw-on-campus/field-education/students-forms">https://dworakpeck.usc.edu/msw-on-campus/field-education/students-forms</a>.

Virtual Academic Center (VAC): the Field Practicum Log needs to be signed by the agency field instructor to verify hours, RLT, and weekly supervision ideally during weekly supervision. The preceptor can also sign to document to verify the number of field hours completed. The completed log is due monthly and uploaded to the platform.

Due 2a: Ongoing

Due 2b: End of Semester

This assignment relates to student learning outcomes 1-4 and 6-9.

### **Assignment 3: Development of Competencies and Field Hours**

For Credit in this assignment, students will:

- Demonstrate advanced skills in the CSWE Core Competencies as listed in the end of semester evaluation.
- Complete a self-assessment (suggested activity) by rating themselves on the end of semester evaluation.
- Review and discuss the end of semester evaluation completed by the Field Instructor, who makes the grade recommendation. If satisfied that the content accurately reflects progress, student and Field Instructor sign as instructed.\*
- Ensure that the completed evaluation is received by the Field Liaison.
- Complete required number of Field placement hours (20/week). \*\*

Due: Student and Field Instructor will complete the Year-End Evaluation and submit electronically along with the signed Reflective Learning Tool Log to Field Liaison by Unit 15.

This assignment relates to student learning outcomes 1-9.

\*If there are issues that are unresolved, discuss with your Field Instructor and, if needed, contact your Field Liaison.

\*\*Required hours in field education internship for the semester include a minimum of four hours of Department Immersion, with the remaining hours gained at the field placement. Students will not receive a Credit in this course if they do not complete the required hours. If discussed in advance and arranged with the Field Instructor, students are allowed eight (8) hours per semester for religious holidays. Students may take the equivalent of one eight (8) hour sick day per semester as long as they notify the Field Instructor in a timely manner. Make-up hours for time missed must also be discussed with the Field Instructor. Any attendance issues that arise should be addressed with the student's Field Liaison. Record keeping of required field hours is a joint responsibility of the student and the Field Instructor. To the fullest extent possible, students are expected to observe the site attendance and time schedule policies. However, Advanced Applied Learning in Field Education is a class and students must adhere to the course start and end dates as well as important Field Education activities and events in the USC Field Calendar. If the site is closed on a non-University holiday, the student is expected to make up this time.

Course grades will be based on the following:

\*\*All field hours must be completed to pass this course. In order for students to receive credit (CR) they need to receive a minimum of 83% on assignments and must complete required field hours. (Partial credit for this requirement will not be given.)

Assignment Grades		Final Grade	
Credit	83% or above	Credit	83% or above
No Credit	82% or below	No Credit	82% or below

Within the USC Suzanne Dworak-Peck School of Social Work, grades are determined in each class based on the following standards which have been established by the faculty of the School: (1) Grades of A or A- are reserved for student work which not only demonstrates very good mastery of content but which also shows that the student has undertaken a complex task, has applied critical thinking skills to the assignment, and/or has demonstrated creativity in her or his approach to the assignment. The difference between these two grades would be determined by the degree to which these skills have been demonstrated by the student. (2) A grade of B+ will be given to work which is judged to be very

good. This grade denotes that a student has demonstrated a more-than-competent understanding of the material being tested in the assignment. (3) A grade of B will be given to student work which meets the basic requirements of the assignment. It denotes that the student has done adequate work on the assignment and meets basic course expectations. (4) A grade of B- will denote that a student's performance was less than adequate on an assignment, reflecting only moderate grasp of content and/or expectations. (5) A grade of C would reflect a minimal grasp of the assignments, poor organization of ideas and/or several significant areas requiring improvement. (6) Grades between C- and F will be applied to denote a failure to meet minimum standards, reflecting serious deficiencies in all aspects of a student's performance on the assignment.

As a professional school, class attendance and participation is an essential part of your professional training and development at the USC Suzanne Dworak-Peck School of Social Work. You are expected to attend all classes and meaningfully participate. For Ground courses, having more than 2 unexcused absences in class may result in the lowering of your grade by a half grade. Additional absences can result in additional deductions. For VAC courses, meaningful participation requires active engagement in class discussions and maintaining an active screen. Having more than two unexcused absences in class may result in the lowering of your grade by a half grade. Additional absences in the live class can result in additional deductions. Furthermore, unless directed by your course instructor, you are expected to complete all asynchronous content and activities prior to the scheduled live class discussion. Failure to complete two asynchronous units before the live class without prior permission may also lower your final grade by a half grade. Not completing additional units can result in additional deductions.

# **Guidelines for SOWK 699b: Advanced Learning in Field Education**

The USC School of Social Work places MSW students in thousands of internships nationally and internationally in a variety of different settings: health, mental health, public child welfare, schools, in-person or virtual, etc. This syllabus serves as a general set of expectations for our students and their instructors. However, given the challenges of standardizing direct social work practice, a variety of experiences within these guidelines is expected. Therefore, all stakeholders involved in field education activities should view this document as best practice guidelines.

STUDY DAYS / NO CLASSES OR INTERNSHIP

Date

# **University Policies and Guidelines**

#### IX. **ATTENDANCE POLICY**

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives which could affect your course grade. Students are expected to notify the instructor by email (xxx@usc.edu) of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students' observance of a holy day. Students must make arrangements in advance to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to Scampus and to the USC School of Social Work Student Handbook for additional information on attendance policies.

#### X. **ACADEMIC CONDUCT**

Plagiarism - presenting someone else's ideas as your own, either verbatim or recast in your own words is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Part B, Section 11, "Behavior Violating University Standards" https://policy.usc.edu/scampus-part-b/. Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, http://policy.usc.edu/scientific-misconduct.

#### XIII. STATEMENT ABOUT INCOMPLETES

The Grade of Incomplete (IN) can be assigned only if there is work not completed because of a documented illness or some other emergency occurring after the 12th week of the semester. Students must NOT assume that the instructor will agree to the grade of IN. Removal of the grade of IN must be instituted by the student and agreed to be the instructor and reported on the official "Incomplete Completion Form."

#### XIV. POLICY ON LATE OR MAKE-UP WORK

Papers are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If the paper is late without permission, the grade will be affected.

#### XV. POLICY ON CHANGES TO THE SYLLABUS AND/OR COURSE REQUIREMENTS

It may be necessary to make some adjustments in the syllabus during the semester in order to respond to unforeseen or extenuating circumstances. Adjustments that are made will be communicated to students both verbally and in writing.

# XVI. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS (OPTIONAL)

Approved by the 1996 NASW Delegate Assembly and revised by the 2017 NASW Delegate Assembly <a href="https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English">https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English</a>

#### **Preamble**

The primary mission of the social work profession is to enhance human well-being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the

profession's focus on individual well-being in a social context and the well-being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in livina.

Social workers promote social justice and social change with and on behalf of clients. "Clients" is used inclusively to refer to individuals, families, groups, organizations, and communities. .Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation, administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.
