COURSE FORMAT:

This course is divided into fifteen modules, and each module is intended to cover one week [note: because of the shortened summer semester, multiple topics may be condensed into one week]. Module activities may include reading assignments, weekly lessons, interactive exercises, homework assignments, Blackboard discussion forums, class sessions, and quizzes or exams. It is expected that students will have completed all required activities and assignments before attending their class sessions each week.

Students should ensure that they can access all of the online tools via Blackboard prior to the start of classes.

OVERVIEW OF TOOLSETS:

<u>Blackboard (Bb)</u>. Blackboard is the primary learning management system currently used at USC and may be accessed at <u>USC Blackboard Home Page</u>. From the Blackboard Course Home Page, students can access their course syllabus, identify readings, participate in discussion forums, submit assignments, take quizzes and exams, and review grades at any time. They can also access links to the other platforms used in this course.

Zoom. Zoom is the platform used for all online sessions and online office hours. A link and instructions to join MarshallTALK sessions will be posted in the Bb Course Home Page under the "MarshallTALK" tab. For more information about Zoom, go to: Zoom Support Tutorials

COURSE POLICIES:

- 1. Exams and quizzes will be given online. Instructions will be posted on Blackboard and the due dates are indicated in the syllabus. Exams will be timed but students have a flexible window in which to take the exam. Make up examinations will generally not be given, except in the case of a well-documented emergency, and arranged for in advance with the instructor. Extra credit assignments will not be available.
- 2. Your preparation grade involves the timely (i.e., before class that week) completion of the pre-recorded videos and self-assessment exercises for the Module. These exercises are graded for completion only not for correctness. You can try these exercises as often as necessary to learn the material although only one attempt is necessary for full preparation credit.
- 3. The participation grade is based on a combination of your discussion board posts (where indicated in the syllabus), as well as general preparation for and participation in the class sessions. Your grade for the discussion forum will be based on your participation in the forum as well as on the thoughtfulness and relevance of the posts. In this course homework problems (posted with Course Materials) are for your practice and learning and are not submitted for a grade. However, homework problems will be covered in the class sessions. Each student is expected to present the solution to at least one homework problem during the semester in our class sessions as part of your class participation grade.
- 4. Students are expected to attend all class sessions. Students who miss these live class sessions consistently or frequently will not be allowed to pass the course.
- 5. The research paper will be evaluated based on content as well as on the effectiveness of your communication. This includes grammar, spelling, organization, and other essentials of effective writing. The topic will be posted in Blackboard.

GRADING POLICY:

This course adheres to the USC Leventhal School of Accounting and Marshall School of Business grading standards for graduate programs. In general, final course grades at the graduate level in a core course average approximately B+ (3.3), but may vary based on class performance. For elective courses, the class average is usually higher--approximating 3.5, which is between a B+ and an A-. You must receive a C or better to pass a class, and you must have an *overall* B average (3.0 minimum) in order to graduate from USC. The graded elements of this course are listed in this syllabus along with information about how they will be evaluated.
