Course Description:

Instruction on the effects of stress related to work, sport and academics; coping strategies are discussed and applied through physical conditioning activities. The nature of stress, determinant causes, and the physiological and psychological reactions to stress are addressed in the lecture portion of the course. The activity portion of the class will introduce and implement physiological, cognitive and behavioral stress management techniques and exercise programming.

Course Objectives:

- Describe the different types of stressors
- Identify the psycho-physiological indicators of excessive stress
- Analyze the models of stress
- Describe the mind-body connection
- Identify the contributing factors to the stress response
- Compare the differences between stress, anxiety, and arousal
- Describe the many types of coping responses to stress
- Describe the many somatic, behavioral, and cognitive stress management techniques
- Explain the importance of exercise in combating the effects of stress
- Actively engage in physiological, behavioral, and cognitive interventions throughout the semester
- Apply theoretical concepts to one's own experience to understand stress and its impact on health and our lives (experiential learning)
- Participate in interactive and dynamic classroom activities (active learning)
- Accept perspectives and experiences of all students in the class (divergent thinking)
- Foster an environment of self-directed learning (individual responsibility and self-challenge)

Physical Education Department Objectives:

- 1. Students will understand the importance of sound health and fitness principles as they relate to better health and will be able to:**
 - Recognize the physical and mental benefits of increased activity
 - Understand anatomy and basic biomechanical principles and terminology
- 2. Student will be exposed to a variety of activities providing them the opportunity to:**
 - Apply learned fundamental skills
 - Participate in a motivating and nurturing environment resulting in a greater sense of well-being and self-esteem
 - Participate in active learning to stimulate continued inquiry about physical education, health, and fitness
- 3. Students will demonstrate proficiency through knowledge and acquired skills enabling them to:**
