

## Syllabus BISC/QBIO 481 Fall 2019

### Structural Bioinformatics from Atoms to Cells

**Time and Location:** TTh 11:00 am - 12:20 pm      **Room:** RRI 101

#### Instructors:

|  |                          |                  |
|--|--------------------------|------------------|
| Dr. Remo Rohs (1 <sup>st</sup> part)         | RRI-413H; (213) 740-0552 | rohs@usc.edu     |
| Dr. Vsevolod Katritch (2 <sup>nd</sup> part) | MCB-317; (213) 821-1488  | katritch@usc.edu |

#### Teaching Assistants:

|  |          |                  |
|--|----------|------------------|
| Jared Sagendorf (1 <sup>st</sup> part) | RRI-413M | sagendor@usc.edu |
| Nilkanth Patel (2 <sup>nd</sup> part)  | MCB-320  | nilkantp@usc.edu |

#### Description:

This course will introduce the principles of computational structural biology ranging in scope from the molecular structures of biological macromolecules to their structural organization at the cellular level. Structural bioinformatics methods are introduced for the analysis and structural prediction of proteins, nucleic acids and their assemblies. The principles of molecular interactions and recognition are illustrated. We will exemplify all computational and theoretical approaches with practical examples, and introduce related software packages and databases.

#### Goals:

The students shall obtain necessary skills to analyze and predict structural properties of biological macromolecules and complexes, which includes proteins and nucleic acids. Our students shall gain a good understanding of key concepts of structure and dynamics of biological assemblies at the atomic, molecular, and cellular level.

#### Required reading:

The Molecules of Life – Physical and Chemical Principles. First Edition, 2012. John Kuriyan, Boyana Konforti, and David Wemmer. Garland Science. Taylor & Francis. The book can be rented or purchased on amazon.com, or required Chapters can be purchased directly from Garland Science.

#### Recommended reading:

Introduction to Proteins – Structure, Function, and Motion. First Edition, 2011. Amit Kessel and Nir Ben-Tal. Chapman & Hall/CRC. Francis & Taylor Group.

Structural Bioinformatics, Vol. 44, Series: Methods of Biochemical Analysis; 2005, Editor(s): Philip E. Bourne, Helge Weissig. Print ISBN: 9780471202004; Online ISBN: 9780471721208; DOI: 10.1002/0471721204

**Course contents:**

Biological web resources, structure databases, structure alignment, protein, DNA, and RNA structure, molecular recognition, threading methods for protein structure modeling, protein dynamics, structural analysis and molecular simulation algorithms.

**Grade:**

Course grade will be based on homework, a mid-term and final examination as follows:

Percentage of final grade:

Homework Projects: 33 %

Mid-term Examination: 33 %

Final Examination: 33 %

The final and mid-term examinations will be comprehensive written tests. Six homework projects will be assigned by the instructors. You should hand in your projects by the due date specified by the instructors. Points will be subtracted for projects submitted after the due date.

**Statement for Observance of Religious Holidays:**

The university's policy grants students excused absences from class to observe religious holidays (<http://orl.usc.edu/religiouslife/holydays/absences.html>). In this case, please contact your instructor in advance to agree on alternative course requirements.

**Statement for Students with Disabilities:**

Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. Please be sure the letter is delivered to your instructor as early in the semester as possible. DSP is located in STU 301 and is open 8:30 a.m.–5:00 p.m., Monday through Friday. The phone number for DSP is (213) 740-0776.

**Statement on Academic Integrity:**

USC seeks to maintain an optimal learning environment. General principles of academic honesty include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one's own academic work from misuse by others as well as to avoid using another's work as one's own. All students are expected to understand and abide by these principles. SCampus, the Student Guidebook, contains the Student Conduct Code in Section 11.00, while the recommended sanctions are located in Appendix A: <http://www.usc.edu/dept/publications/SCAMPUS/gov/>. Students will be referred to the Office of Student Judicial Affairs and Community Standards for further review, should there be any suspicion of academic dishonesty. The Review process can be found at: <http://www.usc.edu/student-affairs/SJACS/>.

## **Tentative Schedule:**

### **Week 1: Lectures 1 and 2 (Rohs) 08/27-08/29**

Topics: Introduction to molecular structure / Energy and intermolecular forces / Visualization of molecular structures / Protein Data Bank/ Protein structure / Calculation of bond and torsion angles  
Reading: Molecules of Life, Ch. 1

### **Week 2: Lectures 3 and 4 (Rohs) 09/03-09/05**

Topics: Protein structure / Secondary structure elements / Ramachandran plot / Nucleic acid structure / Computational structure analysis / Calculation of helical parameters  
Reading: Molecules of Life, Ch. 4A-B, Ch. 2

### **Week 3: Lectures 5 and 6 (Rohs) 09/10-09/12**

Topics: Molecular dynamics simulations / Monte Carlo simulations / Electrostatics calculations and solvation models  
Reading: Molecules of Life, Ch. 6C

### **Week 4: Lectures 7 and 8 (Rohs) 09/17-09/19**

Topics: Methods of structure determination and prediction / X-ray crystallography and NMR spectroscopy / High-throughput experiments for probing protein-DNA binding  
Reading: Introduction to Proteins, Ch. 3.1-3.3

### **Week 5: Lectures 9 and 10 (Rohs) 09/24-09/26**

Topics: Molecular Dynamics simulations, methods and applications (guest lecture by Dr. Rosa Di Felice) / Data mining and high-throughput DNA shape prediction

### **Week 6: Lectures 11 and 12 (Rohs) 10/01-10/03**

Topics: Machine learning techniques for binding specificity predictions (guest lecture by Dr. Tsu-Pei Chiu) / Computational Analysis of Protein-DNA structures (guest lecture by Jared Sagendorf)

### **Week 7: Lectures 13 and 14 (Rohs) 10/08-10/10**

Topics: Affinity and specificity in molecular interactions / Cooperativity through co-factors and oligomerization / Protein-nucleic acid recognition / Transcription factors / Nucleosome / Review for Midterm  
Reading: Molecules of Life, Ch. 13A+13C

### **Week 8: Midterm Exam 10/15 (Rohs) & Fall Recess 10/17**

**Week 8: Lectures 15 (Katritch) 10/22-10/24**

Topics: Overview structural biology of the cell – historic perspective - breakthrough discoveries

**Week 9: Lectures 16 and 17 (Katritch) 10/29-10/31**

Topics: Protein folding problem / Membrane proteins vs. soluble proteins

**Week 10: Lectures 18 and 19 (Katritch) 11/05-11/07**

Topics: Protein sequence similarity / Sequence alignment and dynamic programming

**Week 11: Lectures 20 and 21 (Katritch) 11/012-11/14**

Protein structure motifs / protein structure variation and structure space / protein classification / protein structure modeling (Comparative modeling and ab initio methods)

**Week 12: Lectures 22 and 23 (Katritch) 11/19-11/21**

Topics: Protein interactions: Detection of interactions and principles of protein recognition / Structure determination of protein complexes / Principles of cryo electron microscopy

**Week 13: Lectures 24 (Katritch) and Thanksgiving holiday 11/26-11/28**

Topics: Modeling of protein complexes / Prediction of protein interactions / Protein docking methods / Molecular organization of the cell / Protein crowding

**Week 14: Lecture 25 and Lecture 26 (Katritch) 11/26-11/28**

Topics: / Methods for determining the ultra structures of cells and the cellular distribution of proteins and complexes / Cryo electron tomography

**Week 15: Lecture 27 and Lecture 28 (Katritch) 12/03-12/05**

Topics: Structure organization of the genome / structure function correlations of genomes

**Study Break: 12/07/19 – 12/10/2019**

**Final Exam 12/12/19 (Katritch) RRI: 301, 8am-10am.**

Please note that reading assignments and homework due dates will be announced at a later time.

## Statement on Academic Conduct and Support Systems

### Academic Conduct:

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Part B, Section 11, “Behavior Violating University Standards” [policy.usc.edu/scampus-part-b](http://policy.usc.edu/scampus-part-b). Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, [policy.usc.edu/scientific-misconduct](http://policy.usc.edu/scientific-misconduct).

### Support Systems:

*Student Health Counseling Services - (213) 740-7711 – 24/7 on call*

[engemannshc.usc.edu/counseling](http://engemannshc.usc.edu/counseling)

Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention.

*National Suicide Prevention Lifeline - 1 (800) 273-8255 – 24/7 on call*

[suicidepreventionlifeline.org](http://suicidepreventionlifeline.org)

Free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week.

*Relationship and Sexual Violence Prevention Services (RSVP) - (213) 740-4900 – 24/7 on call*

[engemannshc.usc.edu/rsvp](http://engemannshc.usc.edu/rsvp)

Free and confidential therapy services, workshops, and training for situations related to gender-based harm.

*Office of Equity and Diversity (OED) | Title IX - (213) 740-5086*

[equity.usc.edu](http://equity.usc.edu), [titleix.usc.edu](http://titleix.usc.edu)

Information about how to get help or help a survivor of harassment or discrimination, rights of protected classes, reporting options, and additional resources for students, faculty, staff, visitors, and applicants. The university prohibits discrimination or harassment based on the following protected characteristics: race, color, national origin, ancestry, religion, sex, gender, gender identity, gender expression, sexual orientation, age, physical disability, medical condition, mental disability, marital status, pregnancy, veteran status, genetic information, and any other characteristic which may be specified in applicable laws and governmental regulations.

*Bias Assessment Response and Support - (213) 740-2421*

[studentaffairs.usc.edu/bias-assessment-response-support](http://studentaffairs.usc.edu/bias-assessment-response-support)

Avenue to report incidents of bias, hate crimes, and microaggressions for appropriate investigation and response.

*The Office of Disability Services and Programs - (213) 740-0776*

[dsp.usc.edu](http://dsp.usc.edu)

Support and accommodations for students with disabilities. Services include assistance in providing readers/notetakers/interpreters, special accommodations for test taking needs, assistance with architectural barriers, assistive technology, and support for individual needs.

*USC Support and Advocacy - (213) 821-4710*

[studentaffairs.usc.edu/ssa](http://studentaffairs.usc.edu/ssa)

Assists students and families in resolving complex personal, financial, and academic issues adversely affecting their success as a student.

*Diversity at USC - (213) 740-2101*

[diversity.usc.edu](http://diversity.usc.edu)

Information on events, programs and training, the Provost's Diversity and Inclusion Council, Diversity Liaisons for each academic school, chronology, participation, and various resources for students.

*USC Emergency - UPC: (213) 740-4321, HSC: (323) 442-1000 – 24/7 on call*

[dsp.usc.edu](http://dsp.usc.edu), [emergency.usc.edu](http://emergency.usc.edu)

Emergency assistance and avenue to report a crime. Latest updates regarding safety, including ways in which instruction will be continued if an officially declared emergency makes travel to campus infeasible.

*USC Department of Public Safety - UPC: (213) 740-6000, HSC: (323) 442-120 – 24/7 on call*

[dsp.usc.edu](http://dsp.usc.edu)

Non-emergency assistance or information.
