University of Southern California  
Ming Hsieh Department of Electrical Engineering

Course Number & Title: EE 348L, Electronic Circuits

Units: 4

Semester: Fall Semester

Schedule: Monday, Wednesday, Friday: 2:00pm-3:50pm

Location: OHE 230

Instructor: Dina El-Damak

Office: PHE 620

Office Hours: TBD

Contact Information: eldamak@usc.edu

Teaching Assistant: Zohreh Azizi (zazizi@usc.edu)

Course Website: https://blackboard.usc.edu

Catalogue Description:
Basic analog and digital circuit design using Bipolar Junction Transistors, Field Effect Transistors, and integrated circuits.

Course Description:
EE 348L is an introductory electronics course that explores the behavior of circuits featuring diodes, MOS Transistors, and other non-linear devices. The course covers the basics of device modeling and the fundamentals of analog circuits analysis, design such as dc-biasing and small-signal analysis of amplifiers as well as applications of integrated circuits.

EE 348L is a pre-requisite for other advanced electronic circuits courses such as EE 448L, EE 479, and EE 536a. Students interested in a career in the integrated circuits design field are encouraged to enroll in these follow-up classes to establish a strong background in mixed-signal integrated circuits design and communication circuits. Engineers specializing in this area continue to be in high demand.
Grading:
EE 348L grade is based on the following components:
Midterm Exam: 35% (October 16th)
Homework (5): 20%
Labs & Projects: 10%
Final Exam: 35% (Friday, December 13th, 2-4 pm at OHE 230)

References:

Course Administration:
• EE 348L has lecture-lab sessions on MWF 2:00pm – 3:50pm. The co-requisite is EE 338. The last day to drop the class without a W grade is October, 11th. The last day to drop the class with a W grade is November, 15th. Incomplete grades (IN) are rarely assigned. This grade may be justified, but only in exceptional cases such as student illness or a personally tragic event that occurs after the twelfth week of the semester.

• Make-up exams are not available. If you are absent during an examination, you will receive a grade of zero unless you have a valid reason for your absence, and you have discussed it with the instructor before the exam. In the event of an excuse from a midterm, a weighted final exam score will replace the missing score. If you cheat during the exam, you will receive a grade of F in the course, and you will be reported to the Office of Student Judicial Affairs and Community Standards for disciplinary action.

• Homework is crucial in EE 348L, since it provides much-needed practice in analytical techniques, it is a good measure of whether you understand fundamental concepts, and it is a prerequisite for good performance on course exams. If your weighted course average places you on the borderline between two letter grades, a poor homework average will significantly increase the probability of the lower grade.

• Try not to miss class! Students who are regularly absent typically receive poor grades. The instructor has no reservations about compiling homework assignments and exams that are predicated, in part, on material discussed in class but not in assigned readings. Historically, the average grade for EE 348L is B- following the application of a “curve.” Notwithstanding, the instructor is prepared to accept a higher average if the class does exceptionally well -- for example, a total class average score of 99/100 is an A.

• You are encouraged to use circuit design tools such as LTspice to check homework and compare your analytical solution to the simulation results, but please notice that you will not have access to it during the exams.

</table>
| 1    | Mon 08/26/2019| **Lecture 1: Class Introduction, Review.**  
- Introduction to Microelectronics: Basic Concepts  
- Analog and Digital Signals, Basic Circuit Theorems | Handout #1  
1.3, 8.1, 8.2.1, 8.2.2 |                |
|      | Wed 08/28/2019| **Lecture 2: Basic Physics of Semiconductors Review cont.**  
- Semiconductor Materials and Their Properties  
- PN Junction | Handout #2  
Optional 2 |                |
|      | Fri 08/30/2019| **Discussion Session: Review and Lab Introduction**                    |                  |                |
| 2    | Mon 09/02/2019| Labor Day, university holiday                                           |                  |                |
|      | Wed 09/04/2019| **Lecture 3: PN Junction cont., and Diode Models**                     | Handout #3  
3.1, 3.2 |                |
|      | Fri 09/06/2019| **Discussion Session: Homework1**                                       |                  | HW 1 Out       |
|      | Mon 09/09/2019| **Lecture 4: Diode Models cont.**                                       |                  |                |
|      | Wed 09/11/2019| **Lecture 5: Diode Circuits**  
- Half-Wave and Full-Wave Rectifier  
- Limiting Circuits | Handout #4  
3.5.1, 3.5.3 |                |
|      | Fri 09/13/2019| **Discussion Session: Homework2 Overview, LTSPICE**                     |                  | HW 1 Due       |
|      | Mon 09/16/2019| **Lecture 6: MOSFET I**  
- Structure of MOSFET  
- Operation of MOSFET | Handout #5  
6 |                |
|      | Wed 09/18/2019| **Lecture 7: MOSFET II**  
- MOS Device Models  
- PMOS Transistor  
- CMOS Technology |                  |                |
|      | Fri 09/20/2019| **Lab and PCB Design Tutorial**                                        |                  | HW 2 Due       |
| 3    | Mon 09/23/2019| **Lecture 8: Amplifiers: Biasing and Small-Signal models I**  
- Common Source Stage | Handout #6  
17 |                |
|      | Wed 09/25/2019| **Lecture 9: Amplifiers: Biasing and Small-Signal models II**  
- Common-Gate Stage, Source Follower |                  |                |
|      | Fri 09/27/2019| **Discussion Session: Homework3 Overview.**                            |                  | HW 3 Out       |
|      | Mon 09/30/2019| **Lecture 10: CMOS Amplifiers Examples**                               |                  | Lab Report Due |
|      | Wed 10/02/2019| **Lecture 11: DC-DC Converter I**  
- Principles of Steady-State Converter Analysis  
- Buck (Step-down) Converter | Handout #7 |                |
|      | Fri 10/04/2019| **Lab Project**                                                         |                  | HW 3 Due       |
| 4    | Mon 10/07/2019| Midterm Review                                                          |                  |                |
|      | Wed 10/09/2019| **Lab Project**                                                         |                  |                |
|      | Fri 10/11/2019| **Lab Project**                                                         |                  |                |
| 5    | Mon 10/14/2019| **Lecture 12: DC-DC Converter II**  
- Boost (Step-up) Converter | Handout #8  
4.1, 4.2, 4.3, |                |
|      | Wed 10/16/2019| **Mid-Term Exam (2:00pm – 3:50pm)**                                     |                  |                |
|      | Fri 10/18/2019| Fall recess                                                             |                  |                |
| 6    | Mon 10/21/2019| **Lecture 13: BJT I**  
- Structure of Bipolar Transistor  
- Operation of Bipolar Transistor | Handout #8  
4.1, 4.2, 4.3, |                |
|      | Wed 10/23/2019| **Lecture 14: BJT II**  
- Bipolar Transistor Model and Characteristics  
- The PNP Transistor |                  | 4.4, 4.6, 4.7 |
<p>|      | Fri 10/25/2019| <strong>Discussion Session: Lab Project Design Review</strong>                      |                  |                |</p>

Statement on Academic Conduct and Support Systems

Academic Conduct:

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Part B, Section 11, “Behavior Violating University Standards” policy.usc.edu/scampus-part-b. Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, policy.usc.edu/scientific-misconduct.

Support Systems:

Student Health Counseling Services - (213) 740-7711 – 24/7 on call engemannshc.usc.edu/counseling
Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention.

National Suicide Prevention Lifeline - 1 (800) 273-8255 – 24/7 on call suicidepreventionlifeline.org
Free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week.

Relationship and Sexual Violence Prevention Services (RSVP) - (213) 740-4900 – 24/7 on call engemannshc.usc.edu/rsvp
Free and confidential therapy services, workshops, and training for situations related to gender-based harm.

Office of Equity and Diversity (OED) | Title IX - (213) 740-5086 equity.usc.edu, titleix.usc.edu
Information about how to get help or help a survivor of harassment or discrimination, rights of protected classes, reporting options, and additional resources for students, faculty, staff, visitors, and applicants. The university prohibits discrimination or harassment based on the following protected characteristics: race, color, national origin, ancestry, religion, sex, gender, gender identity, gender expression, sexual orientation, age, physical disability, medical condition, mental disability, marital status, pregnancy, veteran status, genetic information, and any other characteristic which may be specified in applicable laws and governmental regulations.

Bias Assessment Response and Support - (213) 740-2421 studentaffairs.usc.edu/bias-assessment-response-support
Avenue to report incidents of bias, hate crimes, and microaggressions for appropriate investigation and response.

The Office of Disability Services and Programs - (213) 740-0776 dsp.usc.edu
Support and accommodations for students with disabilities. Services include assistance in providing readers/notetakers/interpreters, special accommodations for test taking needs, assistance with architectural barriers, assistive technology, and support for individual needs.

USC Support and Advocacy - (213) 821-4710 studentaffairs.usc.edu/ssa
Assists students and families in resolving complex personal, financial, and academic issues adversely affecting their success as a student.

Diversity at USC - (213) 740-2101 diversity.usc.edu
Information on events, programs and training, the Provost’s Diversity and Inclusion Council, Diversity Liaisons for each academic school, chronology, participation, and various resources for students.
USC Emergency - UPC: (213) 740-4321, HSC: (323) 442-1000 – 24/7 on call
dps.usc.edu, emergency.usc.edu
Emergency assistance and avenue to report a crime. Latest updates regarding safety, including ways in which instruction will be continued if an officially declared emergency makes travel to campus infeasible.

USC Department of Public Safety - UPC: (213) 740-6000, HSC: (323) 442-120 – 24/7 on call
dps.usc.edu
Non-emergency assistance or information.
