I. COURSE PREREQUISITES

Clinical Social Work Practice with Individuals, Families, & Groups (SOWK 544) is built upon a liberal arts undergraduate foundation. First-year students are expected to have, and be able to draw upon, basic knowledge and theory found in various social science disciplines including psychology, sociology, anthropology, and biology.

II. CATALOGUE DESCRIPTION

Principles underlying generic social work practice with emphasis on working with individuals, families, and groups.

III. COURSE DESCRIPTION

Given the complex and diverse urban/rural environments in which social workers practice and the diverse situations in which they intervene, a generalist social work education offers the best foundation for effective social work practice. SOWK 544 is designed to educate and prepare generalist social workers with the knowledge and skills needed to assess the person-in-environment (PIE) configuration and decide which system(s)—individuals, families, groups, communities, and/or organizations—are most appropriate for the focus of work and service provision.

Clinical Social Work Practice with Individuals, Families, & Groups (SOWK 544) introduces generalist social work principles emphasizing a systems perspective, the continuum of service delivery levels and modalities, and a commitment to underserved and vulnerable populations. In addition, knowledge of professional identity, the profession's ethical standards, and the ethical dilemmas that occur as social work values and professional ethics are operationalized in practice.

The course takes a sequenced approach to teaching basic practice skills; students are exposed simultaneously to the theory, research and necessary skills required to work with individuals, families and groups in the engagement, assessment, intervention, termination, and evaluation

phases of treatment. The person-in-environment and systems approach to practice are emphasized, highlighting the necessity for multilevel intervention. The importance of research to social work practice is introduced as it applies to the understanding of client problems and the choice and effectiveness of interventions.

IV. COURSE OBJECTIVES

Clinical Social Work Practice with Individuals, Families, & Groups (SOWK 544) will:

Objective #	Objectives
1	Teach professional identity and ethical standards and practices of professional social work. Provide an environment that encourages students to explore how their particular gender identity, age, religion, ethnicity, social class, and sexual orientation (sexual identity) influence their ethics and how these variables may affect their understanding, empathy, and ethical decision making in practice.
2	Provide opportunities for students to increase awareness of individual needs that diverse populations (gender, race, sexual orientation, social class, religion, and vulnerable and oppressed groups) present and which require appropriately matched effective services.
3	Demonstrate the importance of the role of theory, empirical research, and evidence-based intervention as they apply to social work practice. The principles of evidence-based practice will be presented and students will have opportunity to apply the principles to clinical case studies.
4	Present foundation materials on the complex nature and scope of generalist social work practice, including the varied tasks and roles that social workers undertake as effective change agents. Emphasis will be placed on the importance of a systems paradigm and person-in-environment framework, both of which show the interaction among the biological, psychological, social, and cultural systems.
5	Demonstrate major concepts to support the treatment process (engagement, assessment, planning and contracting, implementation, and termination/evaluation phases). Provide students with commonly applied models of practice and experiential activities to practice clinical skills.

V. COURSE FORMAT/INSTRUCTIONAL METHODS

The format of the course will consist of didactic instruction and experiential exercises. Case vignettes, videos, and role plays will also be used to facilitate the students' learning. These exercises may include the use of videotapes, role-play, or structured small-group exercises. Material from the field will be used to illustrate class content and to provide integration between class and field. Confidentiality of material shared in class will be maintained. As class discussion is an integral part of the learning process, students are expected to come to class ready to discuss required reading and its application to theory, research, and practice.

VI. STUDENT LEARNING OUTCOMES

The following table lists the nine Social Work core competencies as defined by the Council on Social Work Education's 2015 Educational Policy and Accreditation Standards:

Social Work Core Competencies	
1	Demonstrate Ethical and Professional Behavior*
2	Engage in Diversity and Difference in Practice*
3	Advance Human Rights and Social, Economic, and Environmental Justice
4	Engage in Practice-informed Research and Research-informed Practice
5	Engage in Policy Practice
6	Engage with Individuals, Families, Groups, Organizations, and Communities*
7	Assess Individuals, Families, Groups, Organizations, and Communities*
8	Intervene with Individuals, Families, Groups, Organizations, and Communities*
9	Evaluate Practice with Individuals, Families, Groups, Organizations and Communities

* Highlighted in this course

The following table shows the competencies highlighted in this course, the related course objectives, student learning outcomes, and dimensions of each competency measured. The final column provides the location of course content related to the competency.

Competency	Objective	Behaviors	Dimensions	Content
<p>Competency 1: Demonstrate Ethical and Professional Behavior Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels. Social workers understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize personal values and the distinction between personal and professional values. They also understand how their personal experiences and affective reactions influence their professional judgment and behavior. Social workers understand the profession's history, its mission, and the roles and responsibilities of the profession. Social Workers also understand the role of other professions when engaged in inter-professional teams. Social workers recognize the importance of life-long learning and are committed to continually updating their skills to ensure they are relevant and effective. Social workers also understand emerging forms of technology and the ethical use of technology in social work practice.</p>	<p>1. VII. COURSE ASSIGNMENTS, DUE DATES, AND GRADING

	Assignment	Due Date	% of Final Grade
Assignment 1:	Engagement Phase Vignettes	Unit 5	20%
Assignment 1:	Reflection Paper & Processing	Unit 6	5%
Assignment 2:	Family of Origin Paper	Unit 9	25%
Assignment 2:	Reflection Paper & Processing	Unit 10	5%
Assignment 3:	Take Home Exam	Unit 15	35%
Participation		Throughout	10%

Each of the major assignments is described below

Assignment 1: Engagement

This assignment will focus on examining engagement strategies with clients. Each student will prepare engagement strategies in response to one of the two vignettes provided. Students will be graded on their ability to describe appropriate engagement strategies focusing on cultural values, beliefs, and behaviors that are described in the literature as related to the vignettes. Concepts must be supported by professional literature. The vignettes will be provided during the first class session. A follow-up reflective paper is also part of this assignment.

Engagement Paper Due: Fifth Week (9/ /19); *assignment relates to student learning outcomes 1, 2, 6.*

Assignment 1 Reflection Paper Due: Sixth Week (9/ /19)

Assignment 2: Family of Origin Paper

The family assignment for this course will consist of a paper which requires you to apply theoretical and empirical knowledge to your family of origin. Papers will require you to: develop an analysis of your family that includes intergenerational patterns and family structure as described in the Hepworth reading. The assignment includes completing a genogram and an infographic.

Family of Origin Paper Due: Ninth Week (10/ /19); *This assignment relates to student learning outcomes 1, 2, 6, and 7.*

Assignment 2 Reflection Paper Due: Tenth Week (10/ /19)

Assignment 3: Take Home Exam

This exam will test your ability to apply concepts related to facilitating groups, implementing short term interventions, and implementing group interventions. The test will cover concepts from all required readings in addition to class discussions from units 10 – 15. The exam will be an open book, on-line test consisting of short answer/multiple choice questions and will be time limited.

Due: 15th Week (11/ /19); *This assignment relates to student learning outcomes 1, 2, 3, 4, 6, and 7.*

ASSIGNMENTS DETAILS CAN BE FOUND TOWARD THE END OF THE SYLLABUS

Class Participation: (10% of Course Grade)

It is expected that students will attend class regularly, participate in the class discussions, and submit work promptly. Failure to meet these expectations may result in reduction in grades. Your involvement in this class is considered essential to your growth as a practitioner. You will be asked to discuss the material assigned, participate in role-playing, exercises, etc. Knowing the "right" answers is not nearly as important as being willing to risk, explore your ideas, and be open to new information and ideas. Your presence in class along with preparation by having read and considered the assignments, and participation in discussion is essential. Participation on a course website, if developed, also constitutes meaningful class participation.

Guidelines for Evaluating Class Participation

10: Outstanding Contributor: Contributions in class reflect exceptional preparation and participation is substantial. Ideas offered are always substantive, provides one or more major insights as well as direction for the class. Application to cases held is on target and on topic. Challenges are well substantiated, persuasively presented, and presented with excellent comportment. If this person were not a member of the class, the quality of discussion would be diminished markedly. Exemplary behavior in experiential exercises demonstrating on target behavior in role plays, small-group discussions, and other activities.

9: Very Good Contributor: Contributions in class reflect thorough preparation and frequency in participation is high. Ideas offered are usually substantive, provide good insights and sometimes direction for the class. Application to cases held is usually on target and on topic. Challenges are well substantiated, often persuasive, and presented with excellent comportment. If this person were not a member of the class, the quality of discussion would be diminished. Good activity in experiential exercises demonstrating behavior that is usually on target in role plays, small-group discussions, and other activities.

8: Good Contributor: Contributions in class reflect solid preparation. Ideas offered are usually substantive and participation is very regular, provides generally useful insights but seldom offer a new direction for the discussion. Sometimes provides application of class material to cases held. Challenges are sometimes presented, fairly well substantiated, and are sometimes persuasive with good comportment. If this person were not a member of the class, the quality of discussion would be diminished somewhat. Behavior in experiential exercises demonstrates good understanding of methods in role plays, small-group discussions, and other activities.

7: Adequate Contributor: Contributions in class reflect some preparation. Ideas offered are somewhat substantive, provides some insights but seldom offers a new direction for the discussion. Participation is somewhat regular. Challenges are sometimes presented, and are sometimes persuasive with adequate comportment. If this person were not a member of the class, the quality of discussion would be diminished slightly. Occasionally applies class content to cases. Behavior in experiential exercises is occasionally sporadically on target demonstrating uneven understanding of methods in role plays, small-group discussions, and other activities.

6: Inadequate: This person says little in class. Hence, there is not an adequate basis for evaluation. If this person were not a member of the class, the quality of discussion would not be

changed. Does not participate actively in exercises but sits almost silently and does not ever present material to the class from exercises. Does not appear to be engaged.

5: Nonparticipant: Attends class only.

0: Unsatisfactory Contributor: Contributions in class reflect inadequate preparation. Ideas offered are seldom substantive; provides few if any insights and never a constructive direction for the class. Integrative comments and effective challenges are absent. Comportment is negative. If this person were not a member of the class, valuable air-time would be saved. Is unable to perform exercises and detracts from the experience.

Class grades will be based on the following:

Class Grades		Final Grade	
3.85–4.00	A	93–100	A
3.60–3.84	A–	90–92	A–
3.25–3.59	B+	87–89	B+
2.90–3.24	B	83–86	B
2.60–2.89	B–	80–82	B–
2.25–2.59	C+	77–79	C+
1.90–2.24	C	73–76	C
		70–72	C–

Within the USC Suzanne Dworak-Peck School of Social Work, grades are determined in each class based on the following standards which have been established by the faculty of the School:

- (1) Grades of A or A- are reserved for student work which not only demonstrates very good mastery of content, but which also shows that the student has undertaken a complex task, has applied critical thinking skills to the assignment, and/or has demonstrated creativity in her or his approach to the assignment. The difference between these two grades would be determined by the degree to which these skills have been demonstrated by the student.
- (2) A grade of B+ will be given to work which is judged to be very good. This grade denotes that a student has demonstrated a more-than-competent understanding of the material being tested in the assignment.
- (3) A grade of B will be given to student work which meets the basic requirements of the assignment. It denotes that the student has done adequate work on the assignment and meets basic course expectations.
- (4) A grade of B- will denote that a student's performance was less than adequate on an assignment, reflecting only moderate grasp of content and/or expectations.
- (5) A grade of C would reflect a minimal grasp of the assignments, poor organization of ideas and/or several significant areas requiring improvement.

(6) Grades between C- and F will be applied to denote a failure to meet minimum standards, reflecting serious deficiencies in all aspects of a student's performance on the assignment.

Assignment #1: Engagement Strategy
Due: Unit 5 (9/ /19 by 11:59 pm)
(20% of final grade)

This assignment is designed for you to apply culturally appropriate strategies to engage and build rapport with a difficult client case. In each vignette you are asked to consider how you (whom the client is meeting for the very first time) could develop a working relationship and to support your intervention strategies with the assigned reading material in the syllabus.

When reading the vignette, think about the unique strengths and challenges each client presents and how you can use that knowledge to build rapport. Consider the cultural, spiritual, religious, and filial identities that each client in the vignette displays and apply your reading to understand the unique considerations for each case.

Due: Unit 5 (9/ /19) uploaded on Blackboard (by 11:59 pm). *This assignment relates to student learning outcomes 1, 2 and 6.*

Please consider the following questions in your engagement strategies:

This paper is only about *engagement*.

1. What is (are) the major obstacle(s) in engaging this client?
2. What is your clinical countertransference in working with this client? Please use first person tense for this section.
3. What does the literature/research say about engagement with this client?
4. What is your strategy to engage this client considering all your answers above?

Academic Paper Guidelines

Select 1 of the vignettes. The paper should be 4-6 pages in length (not counting the title page or reference list), double-spaced, with 1-inch margins on all sides, with 12 point Times New Roman font. Insert page numbers with the title page. Use subheadings (in bold font) to organize your paper. See APA Manual p. 62 for *levels of headings*. Do not restate the vignette or the questions in your paper, though you can identify the client as a subheading, if desired. Throughout the paper, please provide conceptual and empirical evidence to support your intervention, referencing a minimum of 4 scholarly works (at least 1 of those must be found outside of the 544 syllabus). Use editorial referencing styles as specified in the APA Publication Manual 6th Edition (<http://apastyle.apa.org/>).

The title page should be formatted as follows:

Assignment #1: Engagement Strategy
[Student Name]
[University Name]
[Course Number]
[Course Instructor]
[Date]

The evaluation of the paper will be based on whether you addressed all aspects of the assignment, the quality of your written work (graduate level writing, organization, flow, clarity, depth, mechanics of

writing such as grammar, spelling, etc.), and the correct application of APA style. Avoid citing from only one source to support entire sections of your paper.

Proofread and edit your work.

It is expected that students will be responsible for submitting their own work and not the work of other students. If you study with other students, be conscious of shaping and writing your own work, and not relying on a “group” consensus of what should go in the paper. Refer to the university guidelines on academic integrity and plagiarism if you have any doubts.

Late submissions without prior permission from the instructor will have 1 point deducted for each day late. Extensions are only granted under extreme circumstances and are at the instructor’s discretion.

Assignment #1 Reflection paper
Due 9/ /19 by 11:59 pm
(Pass/fail score 5% of final grade)

The purpose of a reflection is to be honest with yourself about your thoughts and feelings. This reflection will not be used to assess your abilities as a social worker but instead it is intended to help prepare you for processing your feelings about engaging with clients who are different than you or who have had different experiences than you have had, or those with whom you might over identify. There is no right answer when writing a reflection, there is only the truth of your own experience.

1. When thinking about engaging with the client that you chose to write about, what made you the most uncomfortable?
2. What is the most significant thing you learned from this assignment about engaging a client in a therapeutic relationship?
3. What is the most significant thing you learned from this assignment about yourself as a budding social worker?
4. What is one area you would like to improve in this semester related to engaging and building rapport with clients?

Reflection due: Unit 6 (9/ /19 by 11:59 pm). You must submit your reflection by the beginning of the Week 6 class and be prepared to discuss your reflection with a small group of your peers in class.

Late submissions without prior permission from the instructor will have 1 point deducted for each day late. Extensions are only granted under extreme circumstances and are at the instructor’s discretion.

Assignment #2: Family of Origin Paper
Due 10/ /19 by 11:59 pm
(25% of final grade)

Purpose of this assignment: This assignment has become a ‘classic’ assignment in the USC School of Social Work program. Understanding family functioning and familial patterns will be an important foundation in your ability to help your clients work through family problems. In order for you to help your clients better understand their familial patterns, you need to evaluate and assess family systems on a personal level as well. By understanding your family and who you are within the family context you will be better prepared to identify countertransference reactions with your clients, which is an ethical responsibility for competent social work practice. Many social workers believe, “you cannot bring a client further than you have brought yourself”. Therefore, by exploring and reflecting on your own experiences, including factors of resilience and risk, this assignment will highlight ways in which you can be more empathetic towards yourself and others.

Please note that this assignment is not a replacement for personal psychotherapy, but it may offer some insights into who you are, and how you can help your clients live more fulfilling lives. If this assignment brings up unresolved personal conflict (which it often does), the USC School of Social Work has free psychotherapy provided to students. The contact number for psychotherapeutic support for campus students is (213) 740-1771.

Due: Unit 9 (10/ /19 by 11:59 pm on Blackboard). All papers must be submitted on Blackboard.

General instructions: This assignment requires you to apply the concepts and theories that are discussed in your SOWK 544 classes along with the concepts and theories that are found in the required readings.

Instructions for paper:

Section one: (One page) Produce a detailed genogram of your family of origin covering at least three generations. Please include names and ages. The genogram must include a key. At a minimum it should also include sub-systems and alliances between family members. Boundaries between you and each of your family members (diffuse [or enmeshed], rigid [disengaged], or clear) must also be documented.

Section two: (2-3 pages) Write and discuss a brief illustration from a time in your childhood which exemplifies how your family system typically operated. Issues you may cover include (choose 3 of these):

1. Boundaries (within the family as well as between the family and the world)
2. Hierarchies
3. Subsystems
4. Alliances
5. Rules (spoken and unspoken)
6. Feedback loops

7. Communication style and patterns
8. Resources/ resiliency factors
9. Intergenerational patterns

You must give specific behavioral examples to back up your analysis. For example, it is not sufficient to state that there were poor communication patterns, rather, you should discuss the specific behaviors that demonstrated how those communications played out and were maintained. (The Hepworth article is an important guide for this section).

In completing this section, you will need to cite at least three scholarly articles and/or books (from outside of this syllabus) that address the concepts you are discussing.

Section three: Construct a one page infographic and post it to Blackboard for your classmates to learn from. Select an underlying theme that emerged from the analysis of your family which has influenced your way of thinking about social work practice. Research this theme and discuss how it impacts families in general. You must support your conclusions using statistics and psychological findings from research articles. You may create your own theme or select from the following list:

1. The effects of alcoholism or addiction on the family.
2. Gay and lesbian families, Blended family issues, Single-parent family.
3. The effects of violence or abuse.
4. Poverty and the family.
5. Family secrets.
6. Legacies of loss.
7. The role of ritual in the family.
8. Birth order.
9. Cultural themes.
10. The effects of mental or physical illness on the family.
11. Gender roles within the family.
12. Family stories and the construction of meaning.
13. Models of marriage.

In completing this section, you will need to cite at least three sources that address the data and research related to the theme you are discussing. Free infographic programs are available online. <https://www.canva.com/create/infographics/> or <https://piktochart.com/> are examples of many more.

Late submissions without prior permission from the instructor will have 1 point deducted for each day late. Extensions are only granted under extreme circumstances and are at the instructor's discretion.

Assignment #2 Reflection paper (1 full page)
Due 10/26/18 by 11:59 pm
(Pass/fail score 5% of final grade)

After you conclude your family paper, please write a one-page reflection on how it was for you to look at your family through a social work systems lens. Answer one or more of the following questions:

- What have you learned about yourself as a member of your family?
- What have you learned about yourself as a social worker who will be engaging with families of similar systems?
- How has this research increased your understanding of families in general?
- Identify one or more myths you previously believed about family systems that you now know is/are no longer valid?
- What new knowledge did you gain about families that will impact your future?

Reflection due: Unit 10 (10/ /19 by 11:59 pm on Blackboard). You must submit your reflection by the beginning of the Week 10 class and be prepared to discuss your reflection with a small group of your peers in class.

Late submissions without prior permission from the instructor will have 1 point deducted for each day late. Extensions are only granted under extreme circumstances and are at the instructor's discretion.

Assignment #3: Take Home Exam
Due 11/30/18 by 11:59 pm
35% of final grade

This assignment is an online exam that will consist of short answer questions. The assignment will be posted on the classroom's blackboard two weeks prior to the due date. Each of the questions will tap into the student's knowledge of the material that is covered in the last six units of the SOWK 544 course. The exam assesses the student's knowledge of, and ability to apply, information presented in these units including required readings, class discussion, and skills presented in the SOWK 544 course or learned in other courses.

Students are expected to exhibit knowledge of concepts related to facilitating groups, implementing short term interventions, and implementing group interventions.

The exam will consist of short answer and /or multiple choice questions taken on Blackboard. Students will be able to start the exam at any time within a two-week period once the exam is posted, however, once a student begins the exam s/he will only have two hours to complete the exam (there is no way to pause the test once a student starts it). Additionally, the exam is open book and open note. Your instructor will give you a start and end time for the exam window and a password to begin the exam.

All answers are expected to be of high written quality and demonstrate a graduate level work. Examples should be provided, when appropriate, to illustrate the ideas discussed. All answers should demonstrate focus, flow, analytical depth and clarity of thought. The answers should be clearly written and well supported by the readings. All answers should be free of grammatical errors and misspelled words.

It is expected that students will be responsible for submitting their own work and not the work of other students. If you study with other students, be conscious of shaping and writing your own paper. Students found to be in violation of the academic integrity guidelines may be referred for judicial review. An overview of the University's guidelines on academic integrity can be found at the following URL:

<http://www.usc.edu/student-affairs/SJACS/forms/AcademicIntegrityOverview.pdf>

Due: Unit 15 (11/ /19 by 11:59 pm on Blackboard). This assignment relates to student learning outcomes 1, 2, 3, 4, 6, and 7.

Late submissions without prior permission from the instructor will have 1 point deducted for each day late. Extensions are only granted under extreme circumstances and are at the instructor's discretion.

University Policies and Guidelines

IX. ATTENDANCE POLICY

Since the USC Suzanne Dworak-Peck School of Social Work is a professional school, class attendance and participation is an essential part of your professional training and development. You are expected to attend all classes and meaningfully participate. Therefore, having more than 2 unexcused absences from class may result in the lowering of your grade by a half grade. Additional absences can result in additional deductions.

Students are expected to notify the instructor by email (xxx@usc.edu) of any anticipated absence or reason for tardiness.

X. ACADEMIC CONDUCT

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, “Behavior Violating University Standards” <https://policy.usc.edu/scampus-part-b/>. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

To access Perspectives, Ltd., call 800-456-6327.

XIII. STATEMENT ABOUT INCOMPLETES

The Grade of Incomplete (IN) can be assigned only if there is work not completed because of a documented illness or some other emergency occurring after the 12th week of the semester. Students must NOT assume that the instructor will agree to the grade of IN. Removal of the grade of IN must be instituted by the student and agreed to be the instructor and reported on the official “Incomplete Completion Form.”

XIV. POLICY ON LATE OR MAKE-UP WORK

Papers are due on the day and time specified. Extensions will be granted only for extenuating circumstances. If the paper is late without permission, the grade will be affected.

XV. POLICY ON CHANGES TO THE SYLLABUS AND/OR COURSE REQUIREMENTS

It may be necessary to make some adjustments in the syllabus during the semester in order to respond to unforeseen or extenuating circumstances. Adjustments that are made will be communicated to students both verbally and in writing.

XVI. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS (OPTIONAL)

Approved by the 1996 NASW Delegate Assembly and revised by the 2017 NASW Delegate Assembly <https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English>

Preamble

The primary mission of the social work profession is to enhance human well-being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual well-being in a social context and the well-being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. "Clients" is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation, administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.

XVII. ACADEMIC DISHONESTY SANCTION GUIDELINES

Some lecture slides, notes, or exercises used in this course may be the property of the textbook publisher or other third parties. All other course material, including but not limited to slides developed by the instructor(s), the syllabus, assignments, course notes, course recordings (whether audio or video) and examinations or quizzes are the property of the University or of the individual instructor who developed them. Students are free to use this material for study and learning, and for discussion with others, including those who may not be in this class, unless the instructor imposes more stringent requirements. Republishing or redistributing this material,

including uploading it to web sites or linking to it through services like iTunes, violates the rights of the copyright holder and is prohibited. There are civil and criminal penalties for copyright violation. Publishing or redistributing this material in a way that might give others an unfair advantage in this or future courses may subject you to penalties for academic misconduct.

XVIII. COMPLAINTS

If you have a complaint or concern about the course or the instructor, please discuss it first with the instructor. If you feel cannot discuss it with the instructor, contact the chair of the [xxx]. If you do not receive a satisfactory response or solution, contact your advisor and/or Associate Dean and MSW Chair Dr. Leslie Wind for further guidance.

XIX. Tips for Maximizing Your Learning Experience in this Course (Optional)

- ✓ Be mindful of getting proper nutrition, exercise, rest and sleep!
- ✓ Come to class.
- ✓ Complete required readings and assignments BEFORE coming to class.
- ✓ BEFORE coming to class, review the materials from the previous Unit AND the current Unit, AND scan the topics to be covered in the next Unit.
- ✓ Come to class prepared to ask any questions you might have.
- ✓ Participate in class discussions.
- ✓ AFTER you leave class, review the materials assigned for that Unit again, along with your notes from that Unit.
- ✓ If you don't understand something, ask questions! Ask questions in class, during office hours, and/or through email!
- ✓ Keep up with the assigned readings.

Don't procrastinate or postpone working on assignments.
