### **Course Description**

Data is now an integral part of our lives and to be successful in today's business landscape, we need to be able to leverage data to make critical business decisions. This course will teach students how to use data to make those decisions confidently.

### **Learning Objectives**

After completing this course, students will be able to:

- Use MS Excel, MS Access, SQL, NoSQL, MongoDB and leading industry tools
- Model database and formulate/code database queries
- Pose questions, collect relevant data, analyze data, interpret data and provide insights
- Present data-driven insights using data visualization and dashboards
- Tell compelling stories with data

**Prerequisite(s):** None

### **Course Notes**

Lecture slides and any supplemental course content will be posted to Blackboard. All announcements for the course will be posted to Blackboard.

Students are introduced to several tools most used in the industry: MS Excel, MS Access, SQL, MySQL, NoSQL, MongoDB, SAS and Tableau.

All Labs will be conducted during second portion of class.

***Bringing your laptop to class is mandatory.***

Additional reference material will be provided in class as needed.

## Optional Books

Robert Stine and Dean Foster. *Statistics for Business Decision Making and Analysis*. Essex, UK: Pearson Education Limited, 2014. (SF) ISBN-13: 978-0134497167

Carlos Coronel, Steven Morris and Peter Rob. *Database Systems: Design, Implementation, and Management*. Boston, MA: Cengage Learning, 2014. (CMR) ISBN-13: 978-1111969608

Additional reference material will be provided in class as needed.

## Description and Assessment of Assignments

This course will make use of Blackboard for assignments. All assignments will be posted to Blackboard under the "Assignments" section. Each assignment will include instructions, a due date, and a link for electronic submission. Assignments must be submitted using this link.

## Grading Breakdown

The weight of the graded material during the semester is listed below:

Item	% of Grade
Homework, labs	30
Project	10
Midterm	30
Final	30
<b>Total</b>	<b>100</b>

## Grading Scale

Course final grades will be determined using the following scale:

A	95-100
A-	90-94
B+	87-89
B	83-86
B-	80-82
C+	77-79
C	73-76
C-	70-72
D+	67-69
D	63-66
D-	60-62
F	59 and below

## Individual Homework Assignments

This course will make use of Blackboard for assignments. All assignments will be posted to Blackboard under the "Assignments" section. Each assignment will include instructions, a due date, and a link for electronic submission. Assignments must be submitted using this link.

## Project

For a hands-on experience, there will be a final team project. The goal of the project is to solve real world problems using data analytics. This is a team project with each consisting of 2 to 3 members. Each team will work together to identify a problem to solve, collect the necessary data, prepare, clean and format the

data, analyze the data, create visualizations, dashboards and models to analyze and understand the problem and to use insights to develop solutions.

The project grading breakdown is listed below:

Item	% of Grade
Project Statement, methodology and accuracy	25
Final Report	50
Peer Evaluation	25

## Policies

Students are expected to attend and participate in lecture discussions, in-class exercises and team meetings. Attendance will be taken during lecture sessions electronically using Blackboard. Do not share the code with students that are not in the room; doing so is an academic integrity violation. If they would like to be considered for an excused absence, email the instructor and include name, week (1-15), day, date, reason, and documentation.

Students are responsible for completing individual assignments and their fair share of team assignments by stated deadlines. Assignments turned in late will have **25% of the total points** deducted from the graded score for each late day.

No make-up exams (except for documented medical or family emergencies) will be offered. If the student will not be able to attend an exam due to an athletic game or other valid reason, then they must coordinate with the instructor before the exam is given. The student may arrange to take the exam before they leave, with an approved university personnel during the time they are gone, or within the week the exam is given. If students do not take an exam, then they will receive a 0 for the exam.

## Disability Services and Programs

Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. Please be sure the letter is delivered to your course instructor (or TA) as early in the semester as possible. If you need accommodations for an exam, the form needs to be given to the instructor at least two weeks before the exam.

DSP is located in STU 301 and is open from 8:30am to 5:00pm, Monday through Friday. Contact info: 213-740-0776 (Phone), 213-740-6948 (TDD only), 213-740-8216 (FAX), [ability@usc.edu](mailto:ability@usc.edu), [http://sait.usc.edu/academicsupport/centerprograms/dsp/home\\_index.html](http://sait.usc.edu/academicsupport/centerprograms/dsp/home_index.html).

## Statement on Academic Conduct and Support Systems

### Academic Conduct

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, “Behavior Violating University Standards” <https://policy.usc.edu/scampus-part-b/>. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

### Support Systems

*Student Counseling Services (SCS) - (213) 740-7711 – 24/7 on call*

Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention. <https://engemannshc.usc.edu/counseling/>

*National Suicide Prevention Lifeline - 1-800-273-8255*

Provides free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week. <http://www.suicidepreventionlifeline.org>

*Relationship and Sexual Violence Prevention Services (RSVP) - (213) 740-4900 - 24/7 on call*

Free and confidential therapy services, workshops, and training for situations related to gender-based harm. <https://engemannshc.usc.edu/rsvp/>
