**ASSIGNMENTS**

**Assignment 1: Policy Analysis & Data-Driven Decision Making to Inform Implementation (6-8 pages), 25%, (Group Assignment)**

Assignment 1 asks students to provide an analysis of a recent policy, which may include an enacted law, resolution, or ordinance, approved at the federal, state, or County level, that is currently in implementation phase. In addition to understanding the process for the passage of the selected policy, students will examine how data informs the implementation of the policy. The paper should be 6-8 pages in length. See Assignment Prompt #1 for additional details.

**Due: Unit 7**

**Assignment 2: Systemic Reform and Model for Change Paper (7-9 pages), 25%, (Group assignment)**

Assignment 2 is a group paper. Each group (3-4 members per group) will research and write about an area of systemic reform related to their identified content area (of the 5 provided in class) and propose a model for change. Their model will be guided by and highlight relevant data and should demonstrate how individual reform efforts (e.g. policy changes) support larger level systemic reform. Papers should be 7-9 pages in length not including the title page, reference page. See Assignment Prompt #2 for additional details.

**Due: Unit 13**

**Assignment 3: Systemic Reform and Model for Change Presentation 15%, (Group Presentation)**

Each group will deliver a 25-minute group presentation on their Model for Change proposal (followed by a 10-minute Q & A) to a governing board/decision maker of the group's choice (e.g. County Board of Supervisors, foundation, private funders, State legislature). Groups should develop a PowerPoint/Prezi for the presentation. The presentation should include relevant information from Assignment 2, highlighting the policy and research context as well as a proposed model for social change, recommendations to a governing board and an "ask" to the audience. In addition to the presentation, students will submit a self and peer evaluation, which will provide each student an opportunity to reflect upon their own contributions and those of each group member as well as the group process generally. **Self and Peer evaluations will be due by 11:59 pm on the date of the final class of the semester.**

**Due: Unit 14/15**

**Assignment 4: Policy Meeting and Reflection Paper, 25%, (Individual assignment)**

Students will attend (in-person) a local governance meeting of their choice where policy related to children, youth and/or families is discussed/decided on by elected officials and submit a 2-3 page paper (excluding title page and references) which provides an in-depth summary and analysis of critical points made during the meeting attended as well as general reflections on the role of policy in social work practice. See Assignment Prompt #4 for additional details.

**Due: Monday of Finals Week**

**Class Participation (10% of Course Grade)-** Participation points will be determined by the quality of in class contributions, engagement in classroom activities, completion of required readings and asynchronous content on the VAC Platform, completion of assignments prior to class, the quality of teamwork in preparation for Assignments 2/3 (as demonstrated by peer review feedback and instructor observation) and engagement with students and the instructor throughout the semester.

**Note:** Additional required and recommended readings and out of class activities may be assigned by the instructor throughout the course.

Class grades will be based on the following:

Class Grades		Final Grade	
3.85 – 4	A	93 – 100	A
3.60 – 3.84	A-	90 – 92	A-
3.25 – 3.59	B+	87 – 89	B+
2.90 – 3.24	B	83 – 86	B
2.60 – 2.87	B-	80 – 82	B-
2.25 – 2.50	C+	77 – 79	C+

1.90 – 2.24	C	73 – 76	C
		70 – 72	C-

Within the School of Social Work, grades are determined in each class based on the following standards which have been established by the faculty of the School: (1) Grades of A or A- are reserved for student work which not only demonstrates very good mastery of content but which also shows that the student has undertaken a complex task, has applied critical thinking skills to the assignment, and/or has demonstrated creativity in her or his approach to the assignment. The difference between these two grades would be determined by the degree to which these skills have been demonstrated by the student. (2) A grade of B+ will be given to work which is judged to be very good. This grade denotes that a student has demonstrated a more-than-competent understanding of the material being tested in the assignment. (3) A grade of B will be given to student work which meets the basic requirements of the assignment. It denotes that the student has done adequate work on the assignment and meets basic course expectations. (4) A grade of B- will denote that a student's performance was less than adequate on an assignment, reflecting only moderate grasp of content and/or expectations. (5) A grade of C would reflect a minimal grasp of the assignments, poor organization of ideas and/or several significant areas requiring improvement. (6) Grades between C- and F will be applied to denote a failure to meet minimum standards, reflecting serious deficiencies in all aspects of a student's performance on the assignment.

## University Policies and Guidelines

---

### IX. ATTENDANCE POLICY

Students are expected to attend every class and to remain in class for the duration of the unit. Failure to attend class or arriving late may impact your ability to achieve course objectives which could affect your course grade. Students are expected to notify the instructor by email [mziegler@usc.edu](mailto:mziegler@usc.edu) of any anticipated absence or reason for tardiness.

University of Southern California policy permits students to be excused from class for the observance of religious holy days. This policy also covers scheduled final examinations which conflict with students' observance of a holy day. Students must make arrangements *in advance* to complete class work which will be missed, or to reschedule an examination, due to holy days observance.

Please refer to Scampus and to the USC School of Social Work Student Handbook for additional information on attendance policies.

### X. ACADEMIC CONDUCT

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, "Behavior Violating University Standards" <https://policy.usc.edu/scampus-part-b/>. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

## **XVI. CODE OF ETHICS OF THE NATIONAL ASSOCIATION OF SOCIAL WORKERS (OPTIONAL)**

*Approved by the 1996 NASW Delegate Assembly and revised by the 2017 NASW Delegate Assembly*  
<https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English>

### **Preamble**

The primary mission of the social work profession is to enhance human well-being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual well-being in a social context and the well-being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. "Clients" is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation, administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.
