ONLINE INSTRUCTION ONLY

OFFICE HOURS: By appointment online

PREREQUISITES: CTPR 508 OR CTAN 547 OR CTIN 534

Auditing CTPR 506 is not permitted. This course does not use pass/no pass grading.

INTRODUCTION & PURPOSE

Just as a writer is concerned with story structure or a musician with musical structure, a picture maker must be concerned with visual structure. Visual structure is the only language available to picture makers yet it is often misused or simply ignored. The key to using visual structure is an understanding of the basic visual components and how visual structure relates to narrative/story structure. The basic visual components are: space, line, shape, color, tone, movement, and rhythm. It is through the control of these basic visual components that the picture maker stirs an audience's emotions, creates a visual style, gives unity to their work and links story structure to visual structure. The principles discussed in this class can be used to create and control pictures for any format including theatrical motion pictures, television/streaming shows, commercials, internet sites, and digital games, using live-action, traditional or CG animation. This class relates all of the visual concepts to practical production and bridges the gap between theory and practice.

The Structure of the Class:

1. Define each basic visual component.
2. Show how to recognize these components.
3. Demonstrate how these components communicate to an audience.
4. Apply the components to a text/script.
5. Discuss how the component is used technically and aesthetically in actual production.
6. Show examples from films.

ASSIGNMENTS AND GRADES

The class is extremely rigorous. Lectures are complex and require extensive note taking. There are weekly assignments plus a photo notebook due at the end of the semester.

Final Assignment: Each student, working alone, creates a photographic notebook of 51 still photos illustrating the concepts discussed in class. Approximately half of these photos are due during the semester as works-in-progress.

Notebook grades are based on originality, directorial clarity and realization of each visual concept. Final course grade is based on the photo notebook grade and class participation. There is no mid-term grade. Late photo notebooks will not be accepted. The class does not allow make-up exams, extra credit papers or projects, or photo notebook re-dos. Due date for the photo notebook will be announced in class. Students who plagiarize, share or exchange photos for their assignments will receive a failing grade.

Students should not enroll in 506 if they are simultaneously a key crew member on any active, in-production student project.

Students are expected to be on time for class. Excessive tardiness will be counted as an absence. Two absences will result in a student's grade being lowered by one full letter (IE: A becomes B). A third absence will result in a student's grade being lowered by one additional full letter (IE: B becomes C). A student's grade will be lowered by one full letter for each additional absence.

READING & REFERENCES

The text for the class is *The Visual Story* by Bruce Block. The book is available at the USC Student bookstore, from online vendors and at local bookstores. The class lectures are divided into topics that coincide with the chapters in the book.

LECTURES & SCHEDULE

Class lectures are dense and rigorous. Students are encouraged to take notes, which includes drawings and diagrams. Recording and photography are not permitted. The listing below of specific material for each lecture is approximate since discussion lengths will vary.

LECTURE 1: Orientation and overview of the basic visual components. Basic class terms are defined. Space is introduced with an overview followed by the organization of space into four basic categories.

LECTURE 2: Definition of space continues. Discussion moves to secondary spatial concepts.

LECTURE 3: Discussion of space finishes. The final assignment for the class (individual student photo notebook) is discussed.

LECTURE 4: Visual structure. The relationships between visual and narrative structure, structural analysis and visual economy are discussed.

LECTURE 5: Visual structure continues. The Principle of Contrast & Affinity is discussed. Graphing, structure and visual change are discussed.

LECTURE 6: Line and shape discussion begins. Linear motif, basic shapes, perception of line, and methods of creating shapes are discussed.

LECTURE 7: Color. Color structure and systems are discussed to clear up and simplify an extremely misunderstood visual component.

LECTURE 8: Color continues with an explanation of color interaction and control in production.

LECTURE 9: Tone & Light. Although tone is an aspect of color, tone also relates to directorial emphasis and exposure control. Tone and light are related to the gray scale.

LECTURE 10: Movement. Movement is defined in relation to the screen, the camera, a single object and an object & background.

LECTURE 11: Movement continues. Continuum of Movement is defined. Fragmented and continuous structures of movement are discussed.

LECTURE 12: Rhythm. Visual rhythm is discussed in stationary and moving objects, and editing.

LECTURE 13: Screening & discussion of a feature length film.

Statement on Academic Conduct and Support Systems

Academic Conduct:

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Part B, Section 11, “Behavior Violating University Standards” policy.usc.edu/scampus-part-b. Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, policy.usc.edu/scientific-misconduct.

Support Systems:

Student Health Counseling Services - (213) 740-7711 – 24/7 on call
engemannshc.usc.edu/counseling

Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention.

Student Health Leave Coordinator – 213-821-4710

Located in the USC Support and Advocacy office, the Health Leave Coordinator processes requests for health leaves of absence and advocates for students taking such leaves when needed.

dps.usc.edu

Non-emergency assistance or information.

Diversity and Inclusion

Diversity and Inclusion are foundational to the SCA community. We are committed to fostering a welcoming and supportive environment where students of all identities and backgrounds can flourish. The classroom should be a space for open discussion of ideas and self-expression; however, SCA will not tolerate verbal or written abuse, threats, harassment, intimidation or violence against person or property. If students are concerned about these matters in the classroom setting they are encouraged to contact their SCA Diversity and Inclusion Liaison, <http://cinema.usc.edu/about/diversity.cfm>; e-mail diversity@cinema.usc.edu. You can also report discrimination based on a protected class here <https://equity.usc.edu/harassment-or-discrimination/>

Disruptive Student Behavior:

Behavior that persistently or grossly interferes with classroom activities is considered disruptive behavior and may be subject to disciplinary action. Such behavior inhibits other students' ability to learn and an instructor's ability to teach. A student responsible for disruptive behavior may be required to leave class pending discussion and resolution of the problem and may be reported to the Office of Student Judicial Affairs for disciplinary action.

PLEASE NOTE:

FOOD AND DRINKS (OTHER THAN WATER) ARE NOT PERMITTED IN ANY INSTRUCTIONAL SPACES IN THE CINEMATIC ARTS COMPLEX
