Prerequisite: ISE 220 Probability Concepts in Engineering

Objective: In this course, you will develop the skills necessary to gather data that is representative of the phenomenon that you intend to study, to describe the uncertainty in scientific results, and to draw valid conclusions in the face of uncertainty.

Text: Montgomery, Runger, and Hubele, Engineering Statistics, 5<sup>th</sup> edition

Course Material: Chapters 1-7 of the text, plus topics discussed in lecture by the instructor

Grading Policies:

Points Breakdown -	
Homework	120
Project	120
Midterm Exam	130
Final Exam	<u>130</u>
Total	500

Course GRADES will be determined by the distribution of point totals for the class. “Natural groupings” will be used to assign letter grades. The highest scoring group will receive A’s, the next group is the B’s, and so on. A single point will not be the difference between any two letter grades.

A “gap” must exist to create a grade boundary.

HOMEWORK assignments will be due on the following Thursdays:

**August 27; September 3, 10; October 1, 8, 22, 29; November 5**

Late homework will be accepted until noon on the Friday following the original due date. Homework will be graded on an “all or nothing” basis. If a paper shows an answer to each assigned exercise that uses approximately the correct method, the grade for the assignment is 15 points. If any exercise is unacceptable, the paper will be returned with no points awarded. Completions of returned assignments will be accepted for full credit until noon on the Friday after the assignment is returned to the class.

A PROJECT will be due on the following date:

**Thursday, October 15**

The project will involve data collection and analysis to investigate a scientific claim. For this project, you will work with an assigned partner. The project assignment will be distributed about two or three weeks in advance of the due date.

The MIDTERM EXAM will be given on the following date:

**Thursday, September 17**

The exam will cover the material presented up to and including the preceding homework assignment. Points will be assigned to each section of the exam. Partial credit will be awarded according to work shown. No re-takes will be allowed. No make-up exam will be given.

The FINAL EXAM is scheduled for **Thursday, November 19, at 11:00-1:00**. It will cover material since the midterm exam, up to and including the last homework assignment and will be graded similarly to the midterm exam.

**Academic Conduct:**

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, “Behavior Violating University Standards” <https://policy.usc.edu/scampus-part-b/>. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

**COVID-19 Statement:**

In keeping with University policy, all students are required to engage in appropriate behavior to protect the health and safety of our community. If you feel ill or are unable to come to class or complete class assignments due to issues related to COVID-19, including but not limited to: testing positive yourself, feeling ill, caring for a family member with COVID-19, or having unexpected child-care obligations, contact the instructor immediately.

**Intellectual property policies:**

This is a clarification that any misuse, inappropriate dissemination, or attempted sale of class recordings and handouts, as well as the appropriation of intellectual property is not acceptable. It is a student's responsibility to abide by the appropriate use and handling of these recordings under existing campus policies regarding class notes (<https://policy.usc.edu/scampus-part-c/>). Students are not permitted to create their own class recordings without the instructor's permission. Violations of these policies will be met with the appropriate disciplinary sanction.
