COURSE GOALS

Welcome to your first semester of Italian at USC! After the successful completion of this course, you will be able to perform the following tasks:

- Introduce and talk about yourself, other people and your immediate environment (e.g., hobbies, likes/dislikes, your daily routine, your home and campus), using simple sentences and memorized phrases;
- Begin and maintain conversations by using memorized language and asking some simple questions;
- Report basic information about your activities in the present;
- Write one-page compositions on controlled topics (self, friends and family, routine, housing, etc.), using simple sentences;
- Listen to simple dialogues and short descriptions and identify and demonstrate comprehension of the main facts;
- Identify the text type and extract information from short readings (such as menus, ads, web pages and forms), and react or reply to this information;
- Identify some aspects of Italian culture and daily life (such as family, university, food and practices), as well as key products of certain regions in Italy.

OUR APPROACH TO TEACHING LANGUAGES

At our institution we utilize ACTFL and the National Standards to organize the acquisition of Italian language around five key notions: **communication**; **cultures**; **connections**; **comparisons**; and **communities**. Thus, our goal is for you to develop the following abilities:

1. To communicate in Italian (**communication**);
2. To appreciate and understand Italian cultural products, perspectives, and practices (**cultures**);
3. To connect the study of Italian to other fields of knowledge, so that you can deepen your understanding of those disciplines and appreciate their specific features (**connections**);
4. To better understand how language and culture work by contrasting your own culture to Italian culture (**comparisons**);
5. To use Italian and the knowledge you will gain in this course beyond the university setting and in the society at large (**communities**).

More specifically, for point 1 above (**communication**) you will develop competence in listening, speaking, reading and writing in Italian. In order to develop these skills, you will be actively engaged in authentic communicative activities that have real world relevance. Role-plays, pair- and group-work and interactions with your instructor will provide you with numerous opportunities to interact in Italian with other learners. Authentic materials, such as ads, brochures, videos, songs, newspaper and magazine articles, will be used to expose you to contemporary Italian language and culture. Our courses are student-centered, so you will have many occasions to practice your developing linguistic skills on a daily-basis. Most of our class time will be spent helping you acquire and practice the linguistic structures, vocabulary, and cultural skills that you will need to function in various real-world, communicative contexts. Pair- and group-work will give everyone a chance to participate actively and simultaneously during the lesson. It also will give you a chance to practice your conversational skills more freely and

without the fear of making errors in front of the whole class. Your instructor will explain and clarify any confusing points, if needed.
