Ceramics I

Spring 2020

4 Units

No prerequisite

M/W 12-2:40 pm
T/Th 9-11:40 am

Students will learn fundamental ceramic hand-building techniques including coil-building, slab construction, pinching and more. Students will be exposed to a variety of surface treatment techniques and glaze processes. While the class will focus on individual ceramic sculptures and class critiques, students will also participate in discussions, field trips and visiting artist lectures and more. Students will be introduced to both historical and contemporary ceramics.
