# IML 309: INTEGRATIVE DESIGN FOR MOBILE DEVICES
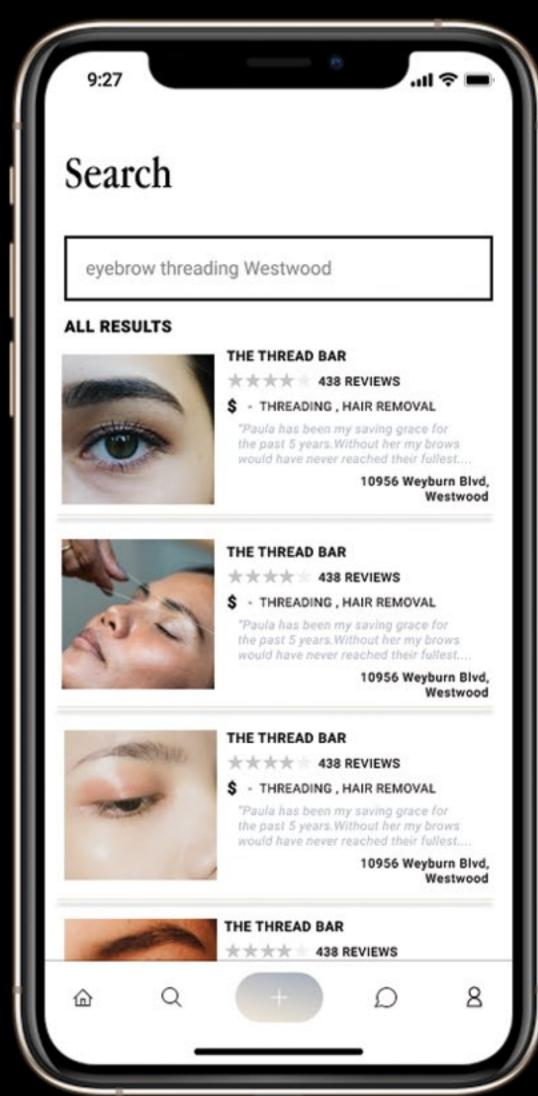

## EXPLORE THE EXCITING WORLD OF
# MOBILE DESIGN

- RECENT STUDENT PROJECTS -

# DESIGN YOUR APP IDEA

Dive deep into the cultural significance of the mobile age.

Identify a problem that a mobile solution can address.

Design and present a working prototype for a mobile application using the latest techniques of design thinking, user experience and user interface design (UX/UI).

Former students work at startups and technology companies.

No prior experience in designing or coding is expected.
