Southern California

Center for the Instruction
in Mathematics to Engineering Students

MATH245

Mathematics of Physics & Engineering I

Units: 4

Spring 2021

MWF: @ 9:00 - 9:50 am (#39601D)

MWF: @ 11:00-11:50am (#39609D)

Instructor: Ramtin Sheikhhassani

Office: OHE 500J

Office hours: TBD

E-mail: sheikhha@usc.edu - Include Math245 in subject
I will respond to emails within 48 hours.

Teaching Assistant

Anahid Khoobyar

E-mail: khoobyar@usc.edu

Discussion TTH.: 2-2:50 PM & 3-3:50 PM

Shuqi Zhang shuqizha@usc.edu

Discussion TTH 10-10:50 AM & 11-11:50AM

Disclaimer: This syllabus is subject to change based on the needs of the class. Verbal or written changes announced in class, are considered as an addendum to this syllabus. Students will be held responsible for all changes.

Course Description

This course introduces mathematical models that govern the laws of universe. These laws are formulated in terms of differential equations. Differential equations involve functions and their derivatives which are often with respect to time. Engineers and scientists should understand, construct, solve and interpret differential equations using contemporary analytical and numerical methods.

Learning Objectives and Outcomes

- Understand the concept of differential equations and their classification
- Develop, select and apply solutions for 1st order, 2nd order and higher order homogeneous and non-homogeneous equations by manual and numerical-based methods
- Apply Laplace transforms to solve ordinary linear differential equations (ODEs)
- Find solutions to systems of differential equations using eigenvalues, matrix of exponents and diagonalization
- Solving and approximating non-linear ODEs using analytical and numerical methods
- Demonstrate proficiency in using MATLAB to solve, analyze and interpret ordinary differential equations.

Pre-requisite

Calculus III Math 226 or 227 or 229

Textbook

Polking, J., Boggess, A., Arnold, D. (2017) *Differential Equations* Classic Version 2nd ed. Pearson Education, ISBN: 9780134689586

Resources

Blackboard Copies of lecture notes, and other class information will be posted on blackboard.

Campuswire We use Campuswire platform to post announcements, Q&A and discussions

Gradescope Homework, quizzes and exams are submitted and graded via Gradescope.

Technological Proficiency and Hardware/Software Required

This course requires use of MATLAB. An introduction regarding installation, activation and basic operations will be provided during the first two weeks of class.

Communication

I want you to feel comfortable asking questions and giving me feedback on the course. If you have questions or comments, please speak to me directly after class or during my posted office hours. You can also email me (sheikhha@usc.edu). I will respond to all emails within 48 hours.

Description and Assessment of Assignments

Homework

At least 12 problem sets will be assigned. Problems will be submitted to Gradescope.

Late Work Policy

No late homework will be accepted. Two of the lowest grades in homework assignments will be discarded.

Quizzes

Weekly quizzes conducted in the discussion sessions on Thursdays, with problems extracted from assigned homework or similar problems. There will be a quiz each week with exception of the first week and the midterm weeks. NO “make-up” of any of the quizzes will be offered. Two of the lowest quiz grades will be discarded before a final course grade is calculated.

Simulations

Numerical simulations are assigned weekly. Simulations are performed with Matlab. Instructions will be provided during the discussion sessions. There will be about 7-8 simulation assignments and 2-3 projects. Assignments are due within a week and projects are to be completed within two weeks. No late work will be accepted.

Examinations

Two midterm examinations are scheduled for the regular lecture periods. The format will be similar to the assigned homework assignments; successful completion of the homework will be a good indicator of your success on the exams.

a. Midterm examinations:

i. Midterm 1: Friday, Feb 26, class time

ii. Midterm 2: Friday, Apr 2, class time

b. Final Examination :

Wed, May 5, 11 a.m- 1p.m (39609D)

Fri, May 7, 8 a.m- 10 a.m (39601D)

The final examination will be comprehensive, covering all topics presented in the course. Extra emphasis will be placed on the material covered after the second midterm.

A respectable performance on quizzes and exams can be realized by all students if attention and energy are given to the timely completion of assigned homework problems.

Dates

Midterm dates are tentative and may change depending on how the class progresses. Any change will be announced two weeks before. The final examination date and time are set by the office of registration and cannot be changed.

Grading Breakdown

Assignments	Points	%
Homework	100	5
Simulations	100	10
Quiz	100	20
Max(MT#1,#2)	100	22
Min(MT#1,#2)	100	18
Final	100	25
Total	500	100

If there is any extra-credit assignment or project it will be applied to the final exam.

Grading Scale

Course final grades will be determined using the following scale.

Grade	Total
A	93-100
A-	90-92.99
B+	88-89.99
B	83-87.99
B-	80-82.99
C+	78-79.99
C	73-77.99
C-	70-71.99
D+	68-69.99
D	63-67.99
D-	60-62.99
F	59.99 and below

The overall letter grade will be assigned within three days of grading the final. The grade letters are based on a class average performance of B. If the mean falls below the grade cutoffs of B, the grades will be curved.

Grading Dispute

Grading disputes are to be resolved within two days after returning the exam.

Additional Course Policies

Class attendance is strongly encouraged. The approach to specific subjects in the lecture might be different from the text. Students will be responsible for the methods outlined in the class.

Cellphones, laptops, tablets (except for note-taking purposes) and anything else electronic are to be turned off during class.

Final grade will depend entirely on the performance on the above components and be independent of the financial support requirements (e.g., minimum grade requirement for tuition reimbursement).

Work-related travel must be scheduled outside of the mid-term and final examinations periods. Accommodation to take exams on different dates will be made only for family emergencies, religious observance and documented illness or health-related emergencies.

DSP approved students should inform the instructor at the beginning of the semester for any requested accommodation.

Course evaluation

Two surveys will gather student opinions about the course: the mid-semester evaluation and the standard USC course evaluation survey at the end of the semester. Your opinion is valued and can make a difference in how this course is conducted; please give your honest and constructive recommendations.

Table 1: Tentative Schedule : a weekly breakdown

Lec*	Date	Principal Topics	Readings	Problem Set
1	Wed Jan 20	Intro, Classification, Separable 1st order, dir-field	1.1,2.1	
2	Fri Jan 22	Linear 1st order, constant coefficient ODE	2.2	
3	Mon Jan 25	Linear 1st order, variable coefficient ODE: Integral factor	2.4-5 and 2.7-9	
4	Wed Jan 27	Bernoulli's equations. Stability/Instability		
5	Fri Jan 29	2nd Order: Characteristic and Fundamental solutions	4.1	
6	Mon Feb 1	2nd Order homogeneous ODE: Real roots, Abel's theorem	4.3	HW1
7	Wed Feb 3	Characteristic repeated roots	4.3	
8	Fri Feb 5	Characteristic complex roots	4.3	
9	Mon. Feb 8	Application: vibration	4.4	HW2
10	Wed. Feb 10	Amplitude-phase form, Free damped motion	4.4	
11	Fri. Feb 12	2nd Order non-homogeneous: Undetermined coefficients	4.5	HW3
12	Wed. Feb 17	2nd Order non-homogeneous: Undetermined coefficients	4.5	
13	Fri Feb 19	Variation of Parameters	4.6	
14	Mon. Feb 22	Forced motion, Electrical circuits. Resonance	4.5-7	
15	Wed Feb 24	Higher order ODE		HW4
	Fri. Feb 26	Midterm #1		
16	Mon. Mar 1	Intro to Laplace transforms	5.1	
17	Wed. Mar 3	Properties of Laplace	5.2	HW5
18	Fri. Mar 5	Properties of Laplace	5.2	
19	Mon. Mar 8	Inverse Laplace	5.3	
20	Wed Mar 10	ODEs with Laplace	5.4	HW6
21	Mon Mar 15	ODE with unit step	5.5	
22	Wed. Mar 17	Laplace of Periodic functions	5.5	HW7
23	Fri. Mar 19	Delta Dirac function	5.6	
24	Mon. Mar 22	Impulse response	5.6	
25	Wed. Mar 24	Convolution	5.7	HW8
26	Fri. Mar 26	Linear systems and feed-back control		
27	Mon. Mar 29	Review of Laplace		
28	Wed. Mar 31	Intro to system of ODE	8.1,8.4	
29	Fri Apr 2	Review of matrices, vectors and linear systems	7	
	Mon. Apr 5	Midterm #2		HW9
30	Fri Apr 9	System of ODEs	9.1-2	HW10
31	Mon. Apr 12	System of ODEs: complex eigenvalues	9..2	
32	Wed Apr 14	System of ODEs: repeated eigenvalues	9.2-3	
33	Fri. Apr 16	Non-homogeneous system of ODE,	9.6,	HW11
34	Mon. Apr 19	Non-homogeneous system of ODE	9.6	
35	Wed. Apr 21	Exponential of a matrix	9.9	
36	Fri. Apr 23	Intro to non-linear system of ODEs	10.1	
37	Mon. Apr 26	Analysis of fixed points of non-linear systems	10.6	
38	Wed. Apr 28	Exact Equations	2.6	
Final			Comprehensive	

A review session will be offered for each examination. Dates and time will be announced accordingly.

Table 2: Academic sanctions

Violation	USC – Recommended sanction	Recommended sanction
Copying answers from other students ** on any course work	F for course	First offense: F on assignment Second offense: F for course
One person allowing another to cheat from his/her exam or assignment	F for course for both persons	If assignment: First offense: F on assignment Second offense: F for course If exam: F for course
Possessing or using material during exam (crib sheets, notes, books, etc.) which is not expressly permitted by the instructor.	F for course.	First offense: F on exam. Second offense: F for course.
Continuing to write after exam has ended.	F for course.	F on exam
Taking exam from room and later claiming that the instructor lost it.	F for course and recommendation for further disciplinary action (possible suspension)	F for course
Changing answers after exam has been returned.	F for course and recommendation for further disciplinary action (possible suspension)	F for course
Fraudulent possession of exam prior to administration.	F for course and recommendation for suspension.	F for course
Obtaining a copy of an exam or answer key prior to administration	Suspension or expulsion from the university for both students F for course.	F for course
Having someone else complete course work for oneself.	Suspension or expulsion from the university for both students; F for course.	F for course
Plagiarism — Submitting other’s work as one’s own or giving an improper citation.	F for course.	First offense: F on assignment. Second offense: F for course.
Submission of purchased term papers or papers done by others	F for course and recommendation for further disciplinary action (possible suspension).	F for course
Submission of the same assignment, to more than one instructor where no previous approval has been given	F for both courses.	F for both courses
Unauthorized collaboration on an assignment.	F for the course for both students.	First offense: F on assignment. Second offense: F for course
Falsification of information in admission applications (including supporting documentation).	Revocation of university admission without opportunity to reapply	Revocation of university admission without opportunity to reapply
Documentary falsification (e.g., petitions and supporting materials; medical documentation.)	Suspension or expulsion from the university; F for course when related to a specific course.	Suspension or expulsion from the university; F for course when related to a specific course.
Plagiarism in a graduate thesis or dissertation	Expulsion from the university when discovered prior to graduation; revocation of degree when discovered subsequent to graduation.***	Expulsion from the university when discovered prior to graduation; revocation of degree when discovered subsequent to graduation.***

*Assuming first offense

**Exam, quiz, tests, assignments or other course work.

***Applies to graduate students

Statement on Academic Conduct and Support Systems

Academic Conduct

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Part B, Section 11, “Behavior Violating University Standards” policy. <http://usc.edu/scampus-part-b>

Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

Support Systems

Student Health Counseling Services - (213) 740-7711 – 24/7 on call

<http://engemannshc.usc.edu/counseling>

Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention.

National Suicide Prevention Lifeline - 1 (800) 273-8255 – 24/7 on call

<http://suicidepreventionlifeline.org>

Free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week.

Relationship and Sexual Violence Prevention Services (RSVP) - (213) 740-4900 – 24/7 on call

<http://engemannshc.usc.edu/rsvp>

Free and confidential therapy services, workshops, and training for situations related to gender-based harm.

Office of Equity and Diversity (OED) — Title IX - (213) 740-5086

<http://equity.usc.edu>,

<http://titleix.usc.edu>

Information about how to get help or help a survivor of harassment or discrimination, rights of protected classes, reporting options, and additional resources for students, faculty, staff, visitors, and applicants. The university prohibits discrimination or harassment based on the following protected characteristics: race, color, national origin, ancestry, religion, sex, gender, gender identity, gender expression, sexual orientation, age, physical disability, medical condition, mental disability, marital status, pregnancy, veteran status, genetic information, and any other characteristic which may be specified in applicable laws and governmental regulations.

Bias Assessment Response and Support - (213) 740-2421

<http://studentaffairs.usc.edu/bias-assessment-response-support> Avenue to report incidents of bias, hate crimes, and microaggressions for appropriate investigation and response.

The Office of Disability Services and Programs - (213) 740-0776

<http://dsp.usc.edu>

Support and accommodations for students with disabilities. Services include assistance in providing readers/notetakers/interpreters, special accommodations for test taking needs, assistance with architectural barriers, assistive technology, and support for individual needs.

USC Support and Advocacy - (213) 821-4710

<http://studentaffairs.usc.edu/ssa>

Assists students and families in resolving complex personal, financial, and academic issues adversely affecting their success as a student.

Diversity at USC - (213) 740-2101

<http://diversity.usc.edu>

Information on events, programs and training, the Provost's Diversity and Inclusion Council, Diversity Liaisons for each academic school, chronology, participation, and various resources for students.

USC Emergency - UPC: (213) 740-4321, HSC: (323) 442-1000 - 24/7 on call

<http://dps.usc.edu>

<http://emergency.usc.edu>

Emergency assistance and avenue to report a crime. Latest updates regarding safety, including ways in which instruction will be continued if an officially declared emergency makes travel to campus infeasible.

USC Department of Public Safety - UPC: (213) 740-6000, HSC: (323) 442-120 - 24/7 on call
