In these situations, VAC Field recommends that students remain in field for a minimum of 8 hours and a maximum of 12 hours per week to preserve self-care, keep interns in the student role, and ensure full semesters at field placement (not ending early due to extra break hours). These hour limits are recommendations, not policy, and should be used to guide discussions with students and Field Instructors/Preceptors about break hours. The Field Faculty Liaison must be informed of this plan, which should be written in the student's Learning Agreement.</p>
