Sculpture 1

Fall 2021

4 Units No Prerequisite Req.
Instructor: Ruben Ochoa

M/W 3-5:40 pm

This studio course is an interdisciplinary approach to sculpture. Led by class lectures, readings, and critiques, students will work in materials familiar to them from Sculpture I, but also understand how objects have the potential to engage beyond volumetric space, architecture and begin to encompass site.

This course is based around the production of objects in wood, metal, found materials, and soft sculptures.
