RXRS 200: Approaches to Pharmacology and Drug Development

**Coordinators:**
Amanda M. Burkhardt, PhD
Assistant Professor of Clinical Pharmacy
University of Southern California
Office: HSC campus PSC 506
aburkhar@usc.edu
(323) 442-1463
Office hours: Wednesdays 12p-2p HSC 506, UPC or Zoom by appointment.

Tam Phan, PharmD, AAHIVP
Assistant Professor of Clinical Pharmacy
University of Southern California
Office: HSC campus SRH-305
tamphan@usc.edu
(323) 442-6301
Office hours: 2 hours per week

Daryl L. Davies, PhD
Professor, Department of Clinical Pharmacy
University of Southern California
Office: HSC campus PSC 506
ddavies@usc.edu
(323) 442-1427
Office hours: 2 hours per week

**Course Weight:**
4 units

**Days/Time:**
Tuesday, Thursday: 12:30-1:50pm

**Location:**
WPH B27

**Catalogue description:**
Pharmacology and Drug Development explored through the lens of Clinical Pharmacy, Translational and Bench Research, and Regulatory Science.

**Introduction**
This introductory course in **Pharmacology and Drug Development** is designed to give students a sampling of the many facets of pharmacology, including drug discovery and development. It will also be of great interest to undergraduates seeking a basic understanding of the process of medication development as it spans from initial discovery to a final drug product. The material presented will give undergraduate students an introductory sampling of basic pharmacological principles and their application in the research and clinical settings.

In addition, the course will introduce to the students to basic principles of drug action and pharmacodynamics, differences in drug sensitivity across the population and how inappropriate drug use can lead to addiction. Finally, students will have the opportunity to see how these
processes are currently being applied to the development of therapeutic agents for the COVID-19 public health crisis.

**Objectives**
Upon successful completion of this course, the student should be able to participate in a thoughtful debate about the following topics:

- Describe and define the basic terms and concepts of pharmacology
- Explain the scientific principles of drug action and their pharmacological effect
- Explain the hallmarks of different drug classes and provide examples of specific drugs within each broad class
- Describe the biochemical reactions that result in drug metabolism
- Compare different patient populations and their relationships to drugs
- Describe and give examples of drug addiction as it relates to pharmacology
- Describe the regulatory workflow that new pharmaceuticals follow from discovery to market
- Develop therapeutic treatment plans to manage and treat complex disease states
- Evaluate the pharmacology of known therapeutics for their efficacy in treating or managing disease

**Evaluation and Grading:**
Evaluation will be based on class participation, quizzes, one midterm exam, one final exam, and one group presentation.

</table>

Attendance at all classes is expected. It is expected that the students read the assigned papers prior to the lecture, prepare for group presentations and be prepared to discuss the background, current understanding, treatments, and gaps in knowledge for the topic in each lecture.

**15% Quizzes:** There will be 3 quizzes over the course of the semester. Quizzes will be administered at the beginning of the lecture on schedule days. Students will be able to drop one quiz and the two quizzes with the highest grades will count towards the overall grade. The quizzes will be based on questions from the lecture and content discussed in class. Quizzes will include multiple-choice, T/F, and fill-in-the-blank questions. Quizzes may also be in the form of in-class writing assignments to assess the comprehension of topics presented in class.

**20% Midterm:** There will be 1 midterm for this course that will cover the first 7 weeks of course material. The midterms will also include multiple-choice questions T/F questions fill-in-the-blank questions and possibly short answers. This midterm exam will help students to generate a critical assessment of critical topics in this course, to develop a suitable argument, and to convey their ideas and interpretations through the written word.
35% Final: The final exam (70 points) will include multiple choice and T/F questions as well as a series of questions involving short answers. The final exam will be cumulative but will emphasize material covered after the 2nd midterm.

25% Therapeutics Battle: See Assignment Description on Blackboard for full details about this activity. All students will participate in this activity each week it is offered.

5% Discussion Board Participation: Each student will participate in Discussion Board posts during the semester or other deliverable assignments on Blackboard. The points will be allocated below

There are no make-up exams. If exceptional circumstances prevent you from attending an exam, your reason for missing it must be accompanied by a written statement from a third party (e.g., a note from a medical doctor).

Notes, books, calculators, electronic dictionaries, regular dictionaries, cell phones, or any other aids are not allowed during exams.

Students will be asked to complete an anonymous critical evaluation of the course at its completion.

Please note below is the “Approximate” grading scale breakdown. However, this scale is not set in stone and may slightly shift up or down based on overall scores.

Class Policies Regarding Class Discussions and Etiquette
An overview of the class policies and how they relate to the discussions and interactions that will occur in this class can be found below. We expect each student to review, understand and
adhere to these policies.

**Respect**
- Listen actively and attentively
- No name calling or other character attacks
- Always use a respectful tone
- Be aware that tone of voice and body language are powerful communicators. Some postures or facial expressions can silence, intimidate, or hurt your classmates (e.g. crossed arms, eye rolls). Other postures or facial expressions can show you are listening respectfully (e.g. making eye contact, staying quiet, nodding).

**Constructiveness**
- If you wish to challenge something that has been said, challenge the idea not the individual sharing it
- Ask for clarification if you are confused
- Commit to learning, not debating

**Inclusivity**
- Try not to silence yourself out of concern for what others will think about what you say
- Try not to let your question (or answer) run on. Give others the chance to speak, too.
- Do not remain silent. Make sure to contribute to the discussion
- Take responsibility for the quality of the discussion

**Course Readings**

**Textbook**

The textbook is not required, but short, selected supplemental chapters will be listed in the syllabus to clarify and augment lecture materials.

**Supplemental Readings**
Supplemental readings will be posted on the course website ([http://blackboard.usc.edu/](http://blackboard.usc.edu/)). These readings have been compiled from a variety of source materials to provide you with current evidence-based practices from the field of pharmacology and augment lecture materials. These materials are relevant for quizzes and exams.

**Course Outline**
This course will be in the format of a directed lecture under the guidance of the instructor for the specific session for the first 9 weeks, and then a mixture of lecture and student-led activities for the remainder of the semester. During each biweekly session, the instructor will engage the students with questions and ask for interpretations to be drawn from the presented lecture or activity materials. Students are expected to ask questions and participate in an interactive fashion. As this is an area of rapid change in policies, the readings may vary from one term to the next. The course schedule is subject to change, but tentatively will follow the schedule below.

**Statement on Academic Conduct and Support Systems**

**Academic Conduct:**

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Part B, Section 11, “Behavior Violating University Standards” [policy.usc.edu/scampus-part-b](policy.usc.edu/scampus-part-b). Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, [policy.usc.edu/scientific-misconduct](policy.usc.edu/scientific-misconduct).

**Support Systems:**

_Counseling and Mental Health_ - (213) 740-9355 – 24/7 on call
[studenthealth.usc.edu/counseling](studenthealth.usc.edu/counseling)
Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention.

_National Suicide Prevention Lifeline_ - 1 (800) 273-8255 – 24/7 on call
suicidepreventionlifeline.org
Free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week.

Relationship and Sexual Violence Prevention Services (RSVP) - (213) 740-9355(WELL), press “0” after hours – 24/7 on call
studenthealth.usc.edu/sexual-assault
Free and confidential therapy services, workshops, and training for situations related to gender-based harm.

Office of Equity and Diversity (OED) - (213) 740-5086 | Title IX – (213) 821-8298
equity.usc.edu, titleix.usc.edu
Information about how to get help or help someone affected by harassment or discrimination, rights of protected classes, reporting options, and additional resources for students, faculty, staff, visitors, and applicants.

Reporting Incidents of Bias or Harassment - (213) 740-5086 or (213) 821-8298
usc-advocate.symplicity.com/care_report
Avenue to report incidents of bias, hate crimes, and microaggressions to the Office of Equity and Diversity |Title IX for appropriate investigation, supportive measures, and response.

The Office of Disability Services and Programs - (213) 740-0776
dsp.usc.edu
Support and accommodations for students with disabilities. Services include assistance in providing readers/notetakers/interpreters, special accommodations for test taking needs, assistance with architectural barriers, assistive technology, and support for individual needs.

USC Campus Support and Intervention - (213) 821-4710
campussupport.usc.edu
Assists students and families in resolving complex personal, financial, and academic issues adversely affecting their success as a student.

Diversity at USC - (213) 740-2101
diversity.usc.edu
Information on events, programs and training, the Provost's Diversity and Inclusion Council, Diversity Liaisons for each academic school, chronology, participation, and various resources for students.

USC Emergency - UPC: (213) 740-4321, HSC: (323) 442-1000 – 24/7 on call
dps.usc.edu, emergency.usc.edu
Emergency assistance and avenue to report a crime. Latest updates regarding safety, including ways in which instruction will be continued if an officially declared emergency makes travel to campus infeasible.

USC Department of Public Safety - UPC: (213) 740-6000, HSC: (323) 442-120 – 24/7 on call
dps.usc.edu
Non-emergency assistance or information.
Supplement: Backboard

Blackboard

Blackboard is the University’s Learning Management System (LMS) used by instructors across campus to distribute course materials, communicate with students in discussion boards, and to collect and assess student work through assignments, quizzes, and tests. A Blackboard course is created for every course at USC and should be the primary tool used for classroom management and communication.

Visit https://blackboardhelp.usc.edu to learn more about the various functions of Blackboard.
