POS C 391: Political Science Honors Seminar

Taught by Professor Dennis Chong

Fall Semester 2021
CPA 101
Wednesday 2-4:50

Description: The Honors seminar is designed to allow students who have compiled an outstanding record in the undergraduate Political Science program to conduct a research project on a topic of their choice in any area of the political science discipline. Admission to the class requires a minimum 3.5 GPA. Students who successfully complete the two-semester program (and maintain a 3.5 GPA) will graduate with Honors in Political Science (this will be designated on their transcripts).

The program is divided into two semesters. During the Fall semester, students will learn the basic elements of the research process and develop an original research proposal. The Spring semester will be devoted to research and writing of the thesis in close consultation with the course instructor. The Honors Program provides an excellent research and writing experience and an opportunity for students to distinguish themselves academically.
