

Professor: Rebecca Heino, PhD.

Office: HOH 413

Email: rheino@marshall.usc.edu

Office Hours: Monday 2-3pm & by appointment via: <https://usc.zoom.us/my/beckyheino2>

Teaching Assistant: Himani Desai

Email: himanid@usc.edu

Please email both Himani and me when you have a question.

COURSE DESCRIPTION

Course Overview

Organizational behavior addresses the human side of organizations—what people need and desire at work, how they use their time, talent, and energy for collective ends, and how they can work together effectively for a greater good. **Leadership** guides and influences others to engage in these collective endeavors.

BUAD 304 therefore has a dual focus on helping you: 1) learn evidence-based knowledge from the field of organizational behavior in order to identify and apply best organizational practices for leading teams and organizations, and 2) develop the interpersonal skills required to lead diverse groups and organizations effectively.

This combined focus on organizational knowledge and leadership behaviors will enable you to use sound judgment in making complex decisions, manage relationships with others, motivate and influence others without relying on formal authority, build and manage high performing teams, deploy social capital, negotiate effectively, lead organizational change, and generally make sense of today's — and tomorrow's — organizational world. Organizations place a high value on these leadership skills, so learning them will enable you to excel in today's dynamic, competitive, and global marketplace.

Learning Objectives

After successfully completing BUAD 304, you will be able to:

- Utilize organizational behavior theories, frameworks, principles, and tactics to prevent OB problems from emerging and, when problems are identified, intervene to fix them.
- Evaluate the benefits and challenges of alternatives to achieve high performance at the individual, team and organizational levels.
- Evaluate the effectiveness of a variety of leadership behaviors depending on the context.
- Create a plan to improve your own personal leadership skills and to manage your career.

The course will place a special emphasis on developing your critical thinking skills. Cases will seek to develop your ability to uncover the various potential problems, challenges and opportunities faced by a business, sort and select the most important, develop alternative courses of action for addressing those issues, assess the different courses of action in light of multiple criteria, select the solutions that have the potential to be the most effective and develop an effective implementation plan.

The relationship between the course learning goals and the Marshall School of Business' undergraduate business program learning goals is described in Bb under Syllabus.

Our Inclusive Learning Community

Our USC Principles of Community state “USC is a multicultural community of people from diverse racial, ethnic, gender, and class backgrounds, national origins, faith backgrounds, political beliefs, abilities, and sexual orientations. Our activities, programs, classes, workshops, lectures, and everyday interactions are enriched by our acceptance of one another, and we strive to learn from each other in an atmosphere of positive engagement and mutual respect.”

<https://diversity.usc.edu/usc-principles-of-community/>

As Trojans, we understand the value of the perspectives of individuals from all backgrounds that reflect the rich diversity of our USC community and beyond. The study of organizational behavior and leadership requires us to recognize how diversity, equity and inclusion is not only the ethical approach, but also creates a competitive advantage for organizations. Together, we will strive to make this classroom a psychologically safe and inclusive environment for all of us to develop and practice inclusive behaviors. As such, we will:

- Respect the dignity and essential work of all individuals,
- Promote a culture of respect within the university community,
- Respect the privacy, property, and freedom of others,
- Reject bigotry, discrimination, violence or intimidation of any kind,
- Practice personal and academic integrity and expect it of others, and
- Promote the diversity of opinions, ideas and backgrounds which is the lifeblood of the university.

If you see ways I can improve, please let me know.

COURSE REQUIREMENTS

Course Materials

You need the following resources for this course.

- (1) Textbook & Connect/LearnSmart:** You will need the ONLINE version of Organizational Behavior: A Practical, Problem-Solving Approach 3rd edition by Angelo Kinicki and Mel Fugate. 2020. McGraw Hill.

I recommend that you purchase the textbook and Connect directly from the publisher, McGraw Hill through our Blackboard course site. The price for the e-book and Connect will be \$80 - a significant discount.

To purchase the required ONLINE version of our textbook via Blackboard, *Organizational Behavior: A Practical, Problem-Solving Approach*, 3rd edition by Angelo Kinicki (2020) follow these instructions to register directly with McGraw Hill.

1. Sign into our course Blackboard site (blackboard.usc.edu)
2. Go to our BUAD 304 Organizational Behavior and Leadership class page.
3. Select “Connect Content” in the left column menu.
4. Click on a chapter and it will take you to the McGraw-Hill site to pay.
5. Follow the onscreen instructions to register.

(2) ARES The course reader is accessible for free on the USC Libraries ARES system online. Go to <https://reserves.usc.edu/ares/> and search for BUAD 304 under course. You will choose Instructor Tolan’s section – it is the only course for ALL sections of 304.

(3) HBR Case Reader: BUAD 304 Spring Organizational Behavior & Leadership Coursepack available for purchase (\$21.25) at <https://hbsp.harvard.edu/import/789708>

Additional Readings, Resources and Assessments

1. Videos are available on the USC Marshall Critical Thinking Initiative website to help you better understand how to do case analysis and use the Marshall USC-CT framework. You will want to watch these before completing the first case analysis memo. <http://info.marshall.usc.edu/faculty/critthink/Pages/default.aspx>
2. Personal assessments are listed in the class schedule with how to access them via a website or McGraw-Hill Connect.
3. Any additional readings and/or assessments will be posted on Blackboard.

Blackboard: Course Communication & Management

All course information is available through your Blackboard account. Blackboard is the primary channel of communication for this course so take note of announcements and other email messages you receive. Assignment and exam scores are posted here as well. You can also communicate directly with your Professor, your project team members, and other classmates from your section. To access Blackboard from your web browser, enter <https://blackboard.usc.edu>, and use your USC username and password to log in.

Grading and Evaluation

Individual Assignments		55%
• <i>Midterm Assignment</i>	15	
• <i>Case Analysis Assignment (2)</i>	5	
• <i>Final Reflection Paper</i>	10	
• <i>Final Exam</i>	25	
Team Project		30%
• <i>Proposal & Team Contract</i>	5	
• <i>Paper</i>	15	
• <i>Presentation</i>	10	
Contribution & Professionalism		15%
• <i>Active Class Participation</i>		
• <i>Team Engagement</i>		
• <i>Research studies (2)</i>		
• <i>Team Self & Peer Evaluation</i>		
TOTAL		100%

Final grades for this course will reflect the weighted sum of your assignment grades and will adhere to the grading policy approved by Marshall. Three items are considered when assigning final grades:

1. Your average weighted score as a percentage of the available points for all assignments (the points you receive divided by the number of points possible).

2. The overall average percentage score within the class.
3. Your ranking among all students in the class.

Late work: Work that is not submitted on the due date noted in the course syllabus without advance notice and permission from the instructor will be graded down 1/3 of a grade for every day it is late (eg. from a B+ to a B).

Review of evaluation: Feedback and reflection are critical to learning, and especially for learning from our mistakes. I am happy to discuss how you are performing on assignments or in class participation to help you improve and/or correct your mistakes. This must happen BEFORE your final grade is posted. So, I invite you to contact me within a week of when an assignment is returned to discuss so I can clarify my comments – which I assume you have read and reflected on your own first. If you want to officially ask for a grade change after we speak, you must put your case into writing.

Additionally, I do hold extra office hours for students to review exams. In the event that assignments are graded by a Teaching Assistant, you will meet with the TA first since s/he will be in the best position to provide useful feedback. I am happy to meet with you after you meet with the TA if you have any additional questions or concerns.

USC Marshall Critical Thinking Initiative: The USC Marshall Critical Thinking Initiative is a school-wide effort to improve your critical thinking skills in order to be more successful problem solvers in class and ultimately in the workplace. This means that you will engage in a variety of learning activities in your courses which are aimed at developing and applying your critical thinking skills in a disciplined manner so that you can outperform others to get your desired job and to further excel in your career. Your ability to think critically is an important part of the evaluation/grading process in this course. The centerpiece of Marshall's critical thinking knowledge is a website that contains instructional materials and videos. We utilize these resources to prepare you to do the case analysis assignments as noted in Course Materials. Website: <http://info.marshall.usc.edu/faculty/critthink/Pages/default.aspx>

Course Requirements: Individual Assignments

Midterm Exam: The exams will include short case-based essay questions and multiple-choice questions. Refer to the exam study guide that is posted on Blackboard for information on the format of the questions, topics covered, and a sample question. The midterm exam will take place in Week 7. Make-up progress exams will not be permitted. I expect this exam to be administered in person. In the event you are attending this course remotely, please anticipate your exam may not be at the same time and location as the class time due to this accommodation.

Final Reflection Paper: You will write a short personal reflection paper that describes what has impacted you in the class, how your team experience was influenced by different group properties and processes, and its influence on your career goals. You will be assessed based on thoughtful, convincing, insightful, and exploratory writing and reflection, a strong connection between the experience and the learning or insights gained, and the use of specific detail and narrative accounts that convey an understanding of the experience supported by course material and personal assessment results. We strongly recommend that you maintain a learning journal or notes throughout the semester to aid in the writing at the end of the semester. Instructions and a grading rubric will be posted on Blackboard.

Final Exam: The final exam will be during the final exam period. Refer to the exam study guide that is posted on Blackboard for information on the format of the questions, topics covered, and sample questions

The final exam will take place on the date and time assigned based on the University final examination schedule. If you have another final exam scheduled for the same time as the final exam for this course, you must let me know about the conflict at least 2 weeks prior to the final exam. I expect this exam to be administered in person. In the event you are attending this course remotely, please anticipate your exam may not be at the same time and location as the class time due to this accommodation.

If you need OSAS accommodations for the final exam, please notify me early in the semester so we can make the necessary arrangements. If you wait until the day of the exam, it is highly unlikely that I will be able to accommodate extra time or any other accommodation. If you have any questions or concerns, please come and speak with me. I am eager to make every student successful in any way I can.

Course Requirements: Team Project Assignments

Team Project: You will work together as an intact project team throughout the semester to prepare for and complete the Team Project. Your team will demonstrate that you understand the major challenges and key success factors to perform effectively as an individual, on a functioning team, and as a leader in business and society today. The aims of the team project are (1) to enrich your understanding of organizations and leadership; (2) to provide you with an opportunity to apply what you have learned in the course; (3) to assess your ability to define and analyze an organization or organizations and come to insightful conclusions and (4) to help you develop critical interpersonal and teamwork skills.

Your team will have a choice of conducting either:

(a) Fieldwork study with a local organization such as a student organization, business unit on campus, or other local company. Your team will investigate and analyze some aspect of this organization that connects with themes in the course such as the organization's culture, the structure and functioning of groups within the organization, its reward systems, or its relation to its local or national environment. You will make recommendations or identify best practices based on your study.

(b) Issues analysis of an issue/topic connected to the themes in the course and of importance to multiple organizations; this issue may be inspired by something in the headlines of the business press or something in your own experience. You will need to examine the nature of this issue and analyze in detail how different companies have addressed and/or experienced the issue. You will make recommendations and/or identify best practices based on your study using archival sources (i.e. library research).

Your "deliverable" for this project has four components. Submitted assignments should use 12-point font, double spaced, 1-inch margins on all sides.

1. Project proposal with team contract: A 1-2 page memo with appendix (contract)
2. Project paper: An 8-10 page analytical paper
3. In-class presentation: A 15-minute presentation, 5 minutes for Q&A
4. Self & peer evaluation feedback (online assessment explained in class).

Feedback helps you learn and improve your performance as well as the quality of your output as a team. As part of the team project, you will practice and develop skills in providing and receiving effective feedback through in-class exercises and a more formal peer evaluation survey. The criteria for the peer evaluation will be discussed in class and posted on Blackboard.

The final grade for this project is based upon four components - project proposal, project paper, presentation, and self/peer evaluation. The team project will be evaluated according to quality of analysis, appropriate use of course concepts, logic and substantiation of conclusions, and clarity and appeal of your class presentation. The detailed outline of the paper is not graded but you will receive feedback to help improve the final paper. Further instructions and grading rubrics will be posted on Blackboard.

Grades for individual student contributions to team projects are **assigned by your Professor**, based on my observations of the team's working dynamics, my assessment of the team project quality, and thoughtful consideration of the information provided through your peer evaluations.

Course Requirements: Contribution & Professionalism

Class Participation: This part of your grade will be based on consistent and effective contributions to class discussions and activities. Connect reading assignments and practice quizzes, in-class assignments and activities also contribute to this score. You are expected to attend every class session having read, thought about, and prepared any assigned material. You should also be prepared to share your ideas and to actively listen to and interpret the ideas presented by others.

Comments that are vague, repetitive, unrelated to the discussion, or disrespectful of others will be evaluated negatively. Quality comments possess one or more of the following attributes:

- Offer a relevant concept or personal experience;
- Provide careful analysis by applying theory and concepts from readings and lectures;
- Move the discussion forward by building on previous contributions with new insights;
- Ask thoughtful and challenging questions.

Our learning community operates in an environment of openness, respect, encouragement and engagement. Discussions will be richer if you share your unique perspective. There is rarely one right answer in organizational behavior! It may take courage or patience or imagination to engage with the course material, our classmates and our experiences. In our classroom, I aim to develop a psychologically safe space where we can all learn together and benefit from the diversity that leads to increased innovation, better problem solving and, in our case, what I hope will be new friends and a great semester!

Case Analysis Preparation: To actively engage in case discussions, you will need to complete an analysis of the assigned case before attending class. Case analysis allows us to explore how what we learn applies to real world situations. This goes beyond simply reading the case. You are expected to use the USC-CT critical thinking framework to analyze the assigned case. You will identify critical problems or issues and develop alternative solutions based on a particular situation or scenario. These assignments provide scaffolding (i.e. analytical skill development) for your Module 1 Case Analysis paper, the team project as well as the final exam. Be sure to watch the assigned USC-CT videos as noted in Week 1. Additional instructions will be posted on Blackboard.

Research Studies Participation: Finally, another part of your participation grade for class is based on your involvement in research activities. The purpose of this research requirement is to expose you to how the scientific process works and to provide you with an opportunity to contribute to

science and research. There are **two components** to the research participation requirement. You must complete both components in order to fulfill your research requirement.

a. Participate in Lab Studies

To do this, you will participate in studies outside of class (online), conducted by researchers in MOR at the Marshall School of Business. You will earn 0.5 or 1.0 credit for each separate study you complete. The amount of credit earned depends upon the length and complexity of the research study; most studies take no longer than one hour to complete.

You will need to obtain **2.0 credits** during the semester in order to fulfill this component of the research requirement. Students must be age 18 or older by Sunday, October 24th, 2021 to participate in the research studies. If you will not be 18 by this date, please consult with your professor about an alternative assignment (details below).

Register for a SONA account to Participate in Research Studies at this link:

<http://marshall-mor.sona-systems.com/>.

Account Reactivation for Previous BUAD 304/497 Students:

If you previously took BUAD 304/497 and you already have a SONA account, you will need to email the SONA administrator (mor.sona@marshall.usc.edu) in order to request account reactivation. Past credits earned CANNOT be used for current courses. If you see past credits appearing in your profile, you should notify the SONA administrator immediately.

DEADLINE to Register: Friday, September 10, 2021. Those who do not register for an account (or reactivate a pre-existing account) by this date will be required to complete the alternative assignment (details below).

Participating in Research Studies: After you verify your SONA account, you will need to check the SONA site regularly to find open studies and sign up to participate in them. Sometimes email announcements regarding new studies are sent out, but please do not rely on announcements alone.

Studies are scheduled throughout the semester at various days and times. For online studies, you must complete them in one sitting by the due date listed on the study webpage. Please remember to cancel within 6 hours if you cannot attend a study.

While there are usually enough studies to accommodate all students, you may wish to complete your credits early for your own peace of mind and to ensure you are able to obtain all the credits you need. You are not guaranteed enough study spots.

Other Deadlines:

- * **Friday, January 28, 2022** – To receive full participation credits, you must complete any study by this date.
- * **Friday, March 4, 2022** – Students must be age 18 or older by this date to participate.
- * **Friday, March 11, 2022** – Please complete your first study by this date to get full credit.
- * **Friday, April 29, 2022** (the last day of Fall 2022 classes) - Final credits can be earned any time by this date.
- * **Friday, April 29, 2022** (the last day of Fall 2021 classes) - Optional Research Paper Due.

Note for Students Currently Enrolled in Marketing (MKT) BUAD 307:

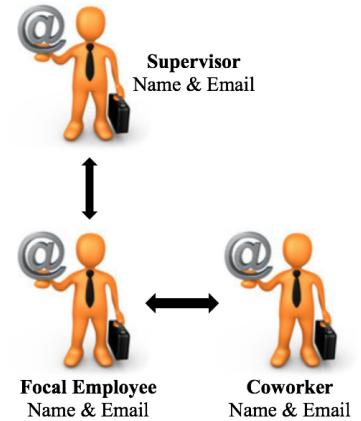

Please make sure you can visit the Marketing research study website that your Marketing professor has given you (see your Marketing course syllabus). Each course has its own unique SONA Systems

web address. Credits will NOT transfer from one course to another for credit fulfillment. No exceptions.

Where to Direct Questions: Please review the FAQs about Lab Studies for assistance. Additional questions regarding the completion of lab studies should be directed to the SONA administrator (mor.sona@marshall.usc.edu).

b. Contribute to Field Studies

To do this, you will need to identify a full-time employee who would be willing to fill out an online survey about his/her work experiences. This might be a parent or guardian, a family friend, or anyone else who is currently a full-time employee. This (focal) employee must have a coworker and a supervisor who would be willing to fill out an online survey as well. Please note that the coworker and supervisor should know the focal employee. You will need to submit the information of all **three employees**.

Information Required:

The employee who agrees to participate should provide you with the following information:

- His/her own name and e-mail address (**focal employee**).
- The name and e-mail address of a **coworker** of theirs who is willing to participate in a survey.
- The name and email address of a **supervisor** of theirs who is willing to participate in a survey.

Submitting the Three Names and E-mail Addresses:

You will receive an e-mail with a link to submit the names and e-mail addresses of the three people you have recruited to participate. We will then e-mail survey links directly to the three employees within the following few weeks.

Deadlines:

You will receive an e-mail with a link. Friday, February 4, 2022 is the deadline for using that link to submit the names and e-mail addresses of the three people you recruited. Once you submit valid and accurate names and e-mail addresses, your participation in this portion of the research requirement is complete. There is no need to follow-up with your contacts to see if they received a survey.

Where to Direct Questions: Please review the FAQs about Field Studies for assistance (see Appendix C). Additional questions regarding the field data studies should be directed to the USC Marshall MOR Research Team (mor.research@usc.edu).

c. Alternative assignment:

If for any reason you do not wish to participate in the research requirements listed above, you can complete the research requirement of your participation grade by engaging in literature-based research on topics relevant to the course. To do so, you will need to write **three** short (3-page) research papers on topics pre-approved by your Professor. See your Professor for details. The deadline to submit papers is Friday, April 29, 2022 (last day of classes).

Still have questions? You can find a Research Studies FAQ on Bb under Syllabus.

WEEKLY CLASS SCHEDULE

is available on Bb under Syllabus – please follow it closely.

POLICIES

Course Policies

Statement on Technology Use in Class

Please note: You will need to use your computer laptop or tablet if you are going to access the course via zoom. It is far more important to participate than to take detailed notes. Course PPT slides and Zoom recordings will be posted on Blackboard. After each class session, you may want to take some time to reflect on the learning experience and type up whatever notes seem useful. You should turn off your mobile phone and kept off throughout the class session unless you are using it to access the class session. Participation/Contribution points will be deducted for students misusing technology during class. We invite you to “Be Here, Be Present!” to create an engaging learning community.

Online Class Expectations

1. Class attendance and participation is important in developing a coherent view of the materials covered in the course. Because BUAD 304 is highly interactive and experiential, attendance and active participation is required at the synchronous Zoom class sessions.
 - a. Students are expected be in the classroom. In the event you cannot do so, you must contact the professor prior to classes beginning. On-line attendance is an emergency situation only, and requires prior approval, including documentation from your home Department/School. Please make a note of this. In the event you are on-line, I expect you to have cameras on during the synchronous Zoom sessions. Headsets or earphones ensure the best audio quality but are not required. *Please advise me if you have circumstances under which you will not be able to meet these expectations. We will see if there can be any accommodation or if you will want to register for a different section that better fits your time zone.*
 - b. In addition, for any student who does not attend the Zoom session live, you will be required to complete an assignment as an alternate method of contribution to the class. You must contact me prior to the session.
2. During synchronous Zoom sessions, the following netiquette is expected, as if you were in a physical classroom.
 - a. Please DO:
 - Log into class early or promptly.
 - Arrange to attend class where there is a reliable internet connection and without distractions.
 - Dress respectfully. Video conference business meetings are and will be the norm, so practice your professional telepresence.
 - If you use a virtual background, please keep it respectfully professional.
 - Display both your first and last name during video conferencing and synchronous class meetings. You may choose to rename with a nickname (i.e. Thomas Trojan -> Tommy Trojan).
 - Respectfully minimize distractions by muting and or turning off video if necessary and when appropriate.
 - Engage in appropriate tone and language with instructors and classmates.

- b. Please DON'T:
 - Engage in a simultaneous activity not related to the class.
 - Interact with persons who are not part of the class during the class session.
 - Leave frequently or not be on camera for extended periods of time.
 - Have other persons or pets in view of the camera.

3. All Zoom sessions will be recorded and posted in the Blackboard Course pages.

Online Technology Requirements: The following equipment and system requirements are recommended to successfully participate in this online course:

- Computer with webcam
- Earphones or headset
- Reliable (preferably high speed) Internet connection
- Current operating system for Windows or Mac
- Current browser
 - Google Chrome
 - Firefox
 - Internet Explorer (not recommended)
 - Safari (Mac)

Retention of Graded Coursework

Final exams and all other graded work, which affects the course grade, will be retained for one year after the end of the course *if* the graded work has not been returned to the student (i.e., if we returned a graded paper to you, it is your responsibility to file it, not ours). We recommend that you keep returned work in a folder or other safe place in the event you need to reference it.

University Policies

Academic Integrity & Conduct

USC seeks to maintain an optimal learning environment. General principles of academic honesty include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one's own academic work from misuse by others as well as to avoid using another's work as one's own. All students are expected to understand and abide by these principles. *SCampus*, the Student Guidebook, (www.usc.edu/scampus) contains the University Student Conduct Code (see University Governance, Section 11.00), while the recommended sanctions are located in Appendix A in the *SCampus* document online.

Should there be any suspicion of academic dishonesty, students will be referred to the Office of Student Judicial Affairs and Community Standards for further review. The Review process can be found at: <https://sjacs.usc.edu/students/academic-integrity/>. Failure to adhere to the academic conduct standards set forth by these guidelines and our programs will not be tolerated by the USC Marshall community and can lead to dismissal.

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. The use of unauthorized material or technology, communication with fellow students during an examination, attempting to benefit from the work of another student, and similar behavior that defeats the intent of an examination or other course work is unacceptable and will be treated accordingly. Other integrity violations include handing in someone else's homework assignment for them when they did not attend class, or claiming credit for words or thoughts that are not your own, which includes having your name appear on a team project/paper when you did not fully participate in completion of the

project/paper. These actions will have significant impact such as failing the course. Not only is it your responsibility to abide by these standards, it is also your responsibility to notify the instructor if you observe any violations of academic integrity in this course.

You are expected to familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, "Behavior Violating University Standards" <https://policy.usc.edu/scampus-part-b/>. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

Add/Drop Process

Most Marshall classes are open enrollment (R-clearance) through the Add deadline. If there is an open seat, you can add the class using Web Registration. If the class is full, you will need to continue checking Web Registration or the *Schedule of Classes* (classes.usc.edu) to see if a space becomes available. Students who do not attend the first two class sessions (for classes that meet twice per week) or the first class meeting (for classes that meet once per week) may be dropped from the course. Therefore, let me know if you have any conflicts in Week 1 like visa or health issues so you aren't dropped. There are no formal wait lists for Marshall undergraduate courses, and professors cannot add students or increase the course capacity. If all sections of the course are full, you can add your name to an interest list by contacting the Office of Undergraduate Advising & Student Affairs; if new seats or sections are added, students on the interest list will be notified.

Religious/Cultural Observance

Persons who have religious or cultural observances that coincide with class should let me know by email as soon as possible so we can make accommodations for any missed work or participation. I strongly encourage you to honor your cultural and religious holidays! However, if I do not hear from you before the holiday, I will assume that you plan to attend all class meetings.

Emergency Preparedness/Course Continuity

In case of a declared emergency (i.e. earthquake or fire), the *USC Emergency Information* web site (<http://emergency.usc.edu/>) will provide safety and other information, including electronic means by which instructors will conduct class using a combination of USC's Blackboard learning management system (blackboard.usc.edu), teleconferencing, and other technologies.

Student Well-being Support Systems

Please reach out to appropriate offices if you need support. See document with that title posted on Bb under Syllabus.
