If you have any questions about Zoom, please contact the Marshall Help Desk at

helpdesk@marshall.usc.edu.

Classroom Policies

1. Class attendance and participation is important in learning the material covered in the course. Unless accommodated as described in (b) below, attendance and active participation is expected at the synchronous Zoom class sessions.
 - a. Students are expected to have cameras on during the synchronous Zoom sessions, and preferably use headsets or earphones to ensure the best audio quality. *Please advise me if you have circumstances under which you will not be able to meet these expectations.*
 - b. For students who are located in a time zone where the synchronous class sessions or exams fall outside the window of 7 a.m. to 10 p.m. local time, please contact me. You will not be penalized for not attending the live Zoom class sessions. The Zoom sessions will be recorded and posted on Blackboard, and you will be responsible for watching the recorded sessions. Exams and other assessments will be scheduled for students to be able to complete them between 7 a.m. and 10 p.m. in your local time zone.
2. During synchronous Zoom sessions, the following netiquette is expected:
 - a. Please do:
 - i. Log into class promptly.
 - ii. Mute your microphone, unless you are asking or answering a question.
 - iii. Arrange to attend class where there is a reliable internet connection and try to eliminate distractions. If possible, please do not connect via phone,

ipad, or other small screen devices, and rather use a laptop or desktop computer.

- iv. Dress respectfully. Video conference business meetings are currently the norm, and we can use the classroom to practice professional telepresence.
- v. You can use virtual backgrounds, but please, keep it professional.
- vi. Display both your first and last name class meetings.
- vii. Respectfully minimize distractions by muting and or turning off video if necessary and when appropriate.
- viii. Engage in appropriate tone and language with instructors and classmates.

b. Please try not to:

- i. Engage in a simultaneous activity not related to the class.
- ii. Interact with persons who are not part of the class during the class session.
- iii. Leave frequently or not be on camera for extended periods of time.
- iv. Have other persons or pets in view of the camera.

3. All Zoom sessions will be recorded and posted on Blackboard.

Course Description

Real estate is a critical part of the economy and aggregate wealth. The primary goal of this course is to develop an understanding of the principle issues involved in real estate investment and finance. Our treatment of real estate will be rigorously based on the modern finance theory. In the first half of the course, we will cover real estate investment analysis, valuation and financing at the “micro” (individual property) level. In the second half, we will cover mortgages, and briefly discuss real estate capital markets. This course is designed to provide the student with essential tools to understand how real estate value is determined, created, and influenced. We will cover a critical set of analytic concepts and techniques essential for students planning careers in almost any aspect of real estate. It is also a valuable course for finance majors who may become involved with real estate at the corporate level or alternatively as investors, investment advisors, or providers of capital.

Learning Objectives

Students successfully completing this course will be able to:

- Interpret current event articles and case studies through the lens of the formal finance, real estate, economics concepts learned in the course
- Perform a qualitative and quantitative evaluation of income-producing properties, which includes:
 - Using industry-standard terminology and techniques for valuing income producing real estate
 - Making cash flow projections and preparing proforma statements using spreadsheets
 - Evaluating risk of investments and developing expected return measures
- Explain the roles of debt and equity in the structure of real estate transactions
- Understand the mechanics, pros and cons of different types of mortgages. Calculate the APR, payments of mortgages, understand how debt financing affects the risk of the investment

- Navigate the loan underwriting process
- Develop a basic cash flow model using ARGUS Enterprise.

Required Materials

There is no required textbook for the class. If you would like to have a reference textbook, the main recommendation is Geltner, Miller, Clayton and Eichholtz, *Commercial Real Estate Analysis & Investments*, South-Western Educational Publishing; 3rd edition (February, 2013). It is available from all major online booksellers and at the USC bookstore. You can use any edition of the textbook.

There will be supplemental readings and cases, which will be made available on Blackboard. The Harvard Business School cases (required) can be purchased online from Harvard Business Online. The website will allow you to purchase a digital copy of each case for \$4.25 using your credit card. The login link for the course will be provided in class.

Case/project submissions will be made through Blackboard. Make sure to complete your submission by the due date and time announced on Blackboard.

Prerequisites and Recommended Preparation

BUAD 215 or BUAD 306. Individuals should have a good understanding of basic financial concepts and techniques such as cash flow discounting, risk and return. A profound background in real estate is neither expected nor necessary, but a solid background in finance is necessary. A basic knowledge of Microsoft Excel is also highly recommended. The use of a financial calculator which can compute annuities/present values and IRRs, such as HP 10B II or 17B II+ is allowed, but is neither necessary nor encouraged.

Course Notes and Communication

Most of the communication outside of class time will take place on Blackboard. I will post all class related information, including the syllabus, lecture notes, Zoom recordings, most of the readings and cases on Blackboard. Please check the Blackboard site regularly for class materials and announcements. If you have any class related questions or comments outside of the class time, you can either use the **Blackboard Discussion Board** to communicate with me and your classmates, or reach out to me or the TAs via email.

Grading Policies

This is an “applied” course. In order to gain hands-on practice, you will be working on several projects, case studies, and assignments, which will account for the majority of your grade in this class. Your grade will be determined by assignments, four project/cases, a midterm exam, a final exam, a final project, and class participation. The grade breakdown will be as follows:

Homework/Cases	40%
Participation	5%
Final project	20%
Midterm exam	25%
Final exam	10%

Midterm and Final exam: There will be one midterm exam and one final exam. Exams will cover all materials examined in class or the class notes. The two tests will jointly account for 35% of your grade (25% for the Midterm, 10% for the Final). The midterm will test material covered in the first half of the course, while the final will focus on the second half of the course. However, remember that the latter material builds heavily on the earlier material. Exams will be **open book/notes**.

Homework: There will be homework \ and exercises which are aimed towards giving you the opportunity to use the techniques we learn in class and prepare you for the exams. This homework is marked with “H” in the course outline below, and will be posted on Blackboard. I encourage you to discuss the assignments with your classmates; but each student is responsible for preparing and uploading his/her solution independently.

Cases: Answers to case questions (marked with “C” in the outline below) are to be submitted through Blackboard. Each student is required to make a separate submission, but you are encouraged to work on the cases in groups.

Final project: The group project will serve as the culmination of the class. The goal of this project is to search for a potential real estate investment, and to present your group's investment proposal to the rest of the class during the last week of the semester. You are expected to attend all of the presentations and provide constructive feedback to your classmates. The potential investment will be the acquisition of an existing development. The source of your development can be the local broker community, the Internet (CoStar, Loopnet, ...), the Wall Street Journal, or your own contacts. The project analysis and presentation will account for 20% of your grade in the course.

Class participation: I encourage you to ask your questions to gain clarity, enrich discussion or bring a different perspective. I expect everybody to prepare for and attend the classes, participate in case/project discussions and offer answers to my questions.

Notice on Academic Integrity

The use of unauthorized material, communication with fellow students during an examination, attempting to benefit from the work of another student, and similar behavior that defeats the intent of an examination or other class work is unacceptable to the University. It is often difficult to distinguish between a culpable act and inadvertent behavior resulting from the nervous tensions accompanying examinations. Where a clear violation has occurred, however, the instructor may disqualify the student's work as unacceptable and assign a failing mark on the paper.

Academic dishonesty includes: (Faculty Handbook, 1994: 21-22):

- Examination behavior - any use of external assistance during an examination shall be considered academically dishonest unless expressly permitted by the teacher.
- Plagiarism - the appropriation and subsequent passing off of another's ideas or words as one's own. If the words or ideas of another are used, acknowledgment of the original source must be made through recognized referencing practices.
- Other types of academic dishonesty - submitting a paper written by or obtained from another, using a paper or essay in more than one class without the teacher's express permission, obtaining a copy of an examination in advance without the knowledge and consent of the teacher, changing academic records outside of normal procedures and/or petitions, using another person to complete homework assignments or take-home exams without the knowledge or consent of the teacher.

USC Statement on Academic Conduct and Support Systems

Academic Conduct:

Plagiarism – presenting someone else's ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, "Behavior Violating University Standards" <https://policy.usc.edu/scampus-part-b/>. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

Note

This syllabus is an invitation to you as a student to engage in an exciting and interactive study of real estate finance and investments. My instruction will focus on real-world engagement with real estate investments; it will provide you with information, offer practice with skills, and enhance your preliminary understanding of real estate concepts. It is my intention to provide a collaborative and supportive learning environment where students learn from one another both in and out of the classroom. To that end, modifications to this syllabus might be warranted as determined by the instructor as I assess the learning needs of this particular class of students.
