

# Solving Engineering Problems with Code

## ISE 150 (3 Units)

---

Spring 2022

### Description

While teaching critical thinking skills, this class will use engineering examples as a platform to introduce a programming approach to problem solving.

### Objective

This course is an introduction to the Python programming language from an engineer's perspective. By the conclusion of this course, students will understand:

1. Core Python functional programming
2. Core Python object-oriented programming
3. Using Python for data manipulation

### Concepts

Programming fundamentals including variables, control statements, loops, functions and object-oriented programming.

### Prerequisites

None. This class is intended for students with no prior programming experience.

### Instructor

Listed on Blackboard under Contacts

### Office Hours

Listed on Blackboard under Contacts

### Lecture / Lab

See online schedule of classes for exact times  
1 hour 50 minutes twice weekly

### Textbook

**Optional:** *Head First Python, 2<sup>nd</sup> Edition*. Paul Barry. O'Reilly Media Inc. ISBN: 9781491919538.

This book is available through USC Libraries Safari account

(<https://libproxy.usc.edu/login?url=http://proquest.safaribooksonline.com>)

## Course website

All course material will be on Blackboard (<http://blackboard.usc.edu>).

We will use Piazza (<http://piazza.com/>) as an online question and discussion forum.

## Course Structure

Topics covered during lecture will be applied to about 14 homework assignments spread throughout the semester. All homework assignments must be completed *individually* and outside of regularly scheduled class meetings.

Regular class meetings will feature a 60-minute lecture followed by an in-class lab assignment. These “labs” must be completed *individually* and are due at the end of the class period. These “labs” will immediately apply material from lecture and serve as an introduction to the other programming assignments.

There is a midterm and cumulative final exam in this course

## Grading

The following percentage breakdown will be used in determining the grade for the course.

Lab assignments	10%
Homework assignments	50%
Participation	5%
Midterm exam	15%
Final exam	20%
<b>Total</b>	<b>100%</b>

## Grading Scale

The following shows the grading scale to be used to determine the letter grade.

93% and above	A
90% - 92%	A-
87% - 89%	B+
83% - 86%	B
80% - 82%	B-
77% - 79%	C+
73% - 76%	C
70% - 72%	C-
67% - 69%	D+
64% - 66%	D
63% and below	F

## Policies

### Lab assignments

Each lab assignment must be completely *individually*. There are no group projects in this class.

There will be lab assignments after most lectures. These assignments will be an immediate application of the material presented in lecture. These assignments will be graded as pass/fail. For credit on each lab you must complete and submit the lab before class time has ended. Each lab will contribute to your overall grade. There is no way to make up a missed lab.

## **Policies (continued)**

### **Homework assignments**

Each homework assignment must be completely *individually*. There are no group projects in this class.

Each homework assignment will include instructions, a due date, and can be found on the Blackboard site for this course.

It is your responsibility to submit your all homework assignments on or before the due date. Homework assignments turned in one day late will have 20% of the total points deducted from the graded score. Homework assignments turned in two days late will have 50% of the total points deducted from the graded score. After two days, submissions will not be accepted, and you will receive a 0.

All homework assignments must be digitally submitted through Blackboard except when otherwise specified by the course staff. Do not email homework assignments to the course staff.

Homework assignment questions should be posted to the online question forum. Questions about specific code should be private posts while general class questions can be public posts. Class time is for lecture and lab assignments only. Do not send any email to the instructor regarding homework assignments or ask specific homework questions during the lecture sessions. You are encouraged to attend the office hours for homework related questions.

### **Participation**

Participation scores will be evaluated based on responses to in-class polls during lecture. You do not need to get the right answer – only enter an answer to these polls.

### **Exams**

Make-ups are only allowed under extraordinary circumstances. Students must provide a satisfactory reason (as determined by the instructor) along with proper documentation. There are two exams: a midterm and a final. These exams are comprehensive of all topics covered.

### **Lab facilities**

You are encouraged to save your work using a USB flash drive or a website such as [Dropbox](#). You must keep a copy of all coursework. You will not be able to save your work on the school's lab computers. Any work saved to the computer will be erased after restarting the computer.

The course staff is not responsible for any work lost.

### **Course material policy**

Do not reproduce, distribute, or post any assignment solutions or exams publicly without written consent of the instructor, as this will be considered an academic integrity violation. Except where otherwise noted, the lecture notes and assignment instructions for this course are © 2021 Nathan Greenfield.

## Incomplete and Missing Grades

Excerpts for this section have been taken from the University Grading Handbook, located at <http://www.usc.edu/dept/ARR/grades/gradinghandbook/index.html>. Please see the link for more details on this and any other grading concerns.

A grade of Missing Grade (MG) “should only be assigned in unique or unusual situations... for those cases in which a student does not complete work for the course before the semester ends. All missing grades must be resolved by the instructor through the Correction of Grade Process. One calendar year is allowed to resolve a MG. If an MG is not resolved [within] one year the grade is changed to [Unofficial Withdrawal] UW and will be calculated into the grade point average a zero grade points.”

A grade of Incomplete (IN) “is assigned when work is no completed because of documented illness or other ‘emergency’ **occurring after the twelfth week** of the semester (or 12<sup>th</sup> week equivalency for any course scheduled for less than 15 weeks).”

## Academic Conduct and Support Systems

### Academic Conduct

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Section 11, Behavior Violating University Standards <https://scampus.usc.edu/1100-behavior-violating-university-standards-and-appropriate-sanctions/>. Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct/>.

Discrimination, sexual assault, and harassment are not tolerated by the university. You are encouraged to report any incidents to the Office of Equity and Diversity

<http://equity.usc.edu/> or to the Department of Public Safety

<http://capsnet.usc.edu/department/department-public-safety/online-forms/contact-us>.

This is important for the safety whole USC community. Another member of the university community – such as a friend, classmate, advisor, or faculty member – can help initiate the report, or can initiate the report on behalf of another person. The Center for Women and Men <http://www.usc.edu/student-affairs/cwm/> provides 24/7 confidential support, and the sexual assault resource center webpage [sarc@usc.edu](mailto:sarc@usc.edu) describes reporting options and other resources.

## **Academic Conduct and Support Systems (continued)**

### **Academic Conduct:**

Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in *SCampus* in Part B, Section 11, “Behavior Violating University Standards” <https://policy.usc.edu/scampus-part-b/>. Other forms of academic dishonesty are equally unacceptable. See additional information in *SCampus* and university policies on scientific misconduct, <http://policy.usc.edu/scientific-misconduct>.

### **Support Systems:**

*Student Counseling Services (SCS)* - [\(213\) 740-7711](tel:(213)740-7711) – 24/7 on call

Free and confidential mental health treatment for students, including short-term psychotherapy, group counseling, stress fitness workshops, and crisis intervention. <https://engemannshc.usc.edu/counseling/>

*National Suicide Prevention Lifeline* - [1-800-273-8255](tel:1-800-273-8255)

Provides free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week. <http://www.suicidepreventionlifeline.org>

*Relationship & Sexual Violence Prevention Services (RSVP)* - [\(213\) 740-4900](tel:(213)740-4900) - 24/7 on call

Free and confidential therapy services, workshops, and training for situations related to gender-based harm. <https://engemannshc.usc.edu/rsvp/>

*Sexual Assault Resource Center*

For more information about how to get help or help a survivor, rights, reporting options, and additional resources, visit the website: <http://sarc.usc.edu/>

*Office of Equity and Diversity (OED)/Title IX compliance* – [\(213\) 740-5086](tel:(213)740-5086)

Works with faculty, staff, visitors, applicants, and students around issues of protected class. <https://equity.usc.edu/>

*Bias Assessment Response and Support*

Incidents of bias, hate crimes and microaggressions need to be reported allowing for appropriate investigation and response. <https://studentaffairs.usc.edu/bias-assessment-response-support/>

*Student Support & Advocacy* – [\(213\) 821-4710](tel:(213)821-4710)

Assists students and families in resolving complex issues adversely affecting their success as a student EX: personal, financial, and academic.

<https://studentaffairs.usc.edu/ssa/>

*Diversity at USC* – <https://diversity.usc.edu/>

Tab for Events, Programs and Training, Task Force (including representatives for each school), Chronology, Participate, Resources for Students

### **Academic Conduct and Support Systems (continued)**

All submissions will be compared with current, previous, and future students' submissions using a code plagiarism identification program. If your code significantly matches another student's submission, you will be reported to SJACS with the recommended penalty of an F in the course.

You may discuss solutions to specific problems with other students, but you should not look through another's code. The code can be from an online forum or another student, the source is immaterial – all code submitted in this course must be your own. Do not share your code with anyone else in this or future sections of the course, as allowing someone to copy your code carries the same penalty as copying the code yourself.

# Solving Engineering Problems with Code

ISE 150 (3 Units)

## Course Outline

Note: Schedule subject to change

W	Topic(s)	Lab	Homework
1	Introduction		
	Variables		
2	Holiday	Lab 01	HW01 assigned (Due week 3)
	Booleans and conditionals	Lab 02	
3	Modules	Lab 03	HW02 assigned (Due week 4)
	While loops	Lab 04	
4	More loops; Sequences;	Lab 05	HW03 assigned (Due week 5)
	In class lab	Lab 06	
5	Lists	Lab 07	HW04 assigned (Due week 6)
	Tuples		
6	Dictionaries	Lab 08	HW05 assigned (Due week 7)
	Sets	Lab 09	
7	Holiday	Lab 10	HW06 assigned (Due week 8)
	Review	Lab 11	
8	Midterm		
	Functions	Lab 12	
9	In class lab	Lab 13	HW07 assigned (Due week 10)
	Functions	Lab 14	
10	Files	Lab 15	HW08 assigned (Due week 11)
	Errors and Exceptions	Lab 16	
11	Varying function input, separate files	Lab 17	HW09 assigned (Due week 12)
	Objects	Lab 18	
12	Using classes	Lab 19	HW10 assigned (Due week 13)
	Wellness day		
13	Writing classes	Lab 20	HW11 assigned (Due week 14)
	In class lab	Lab 21	

<b>W</b>	<b>Topic(s)</b>	<b>Lab</b>	<b>Homework</b>
14	Inheritance	Lab 22	HW12 assigned (Due week 15)
	Inheritance	Lab 23	
15	Command line python	Lab 24	
	Review		
<b>FINAL EXAM – as according to the final exam schedule</b>
