**ITP 466 – Building A High Tech Startup****Units: 4****Spring 2021—M/W—12:00 to 1:30PM****IMPORTANT:**

The general expectation for a standard format course offered in a standard 15-week term is that the number of 50-minute contact hours per week should equal the number of semester units indicated and that one semester unit entails 1 hour of class time and 2 hours of outside work (3 hours total) per week. Standard fall and spring sessions (001) require a final summative experience during the University scheduled final exam day and time.

Please refer to the [Contact Hours Reference](#) to see guidelines for courses that do not follow a standard format and/or a standard term.

Prerequisite(s): none

Co-Requisite(s): none

Concurrent Enrollment: none

Recommended Preparation: none

Course Notes

This course will be graded based on a letter grade basis. Copies of lecture slides and other class information will be posted on Blackboard.

Technological Proficiency and Hardware/Software Required

Students should have a working knowledge on presentation software as well as basic website development experience. Coding experience (web or app development) is a plus, but not necessary. Software required for the course will be provided to students through free of charge download or through a virtual desktop environment.

Required Readings and Supplementary Materials

Instructor will assign regular outside reading material on latest developments in FinTech ecosystem and we will either leverage in class discussion or presentation to digest these topics.

Description and Assessment of Assignments

For a hands-on experience, there will be a semester-long group project assignment. Each group must have between 5 and 6 members. Each group will act as a startup and go through the full process of creating a product that will be pitched at the end of the semester to a group of investors.

Grading Breakdown

Assessment Tool (assignments)	Points	% of Grade
Homework		20
Participation		20
Weekly Presentations		20
Final Presentation		20
Final Exam		20
TOTAL		100

Presentations

On a weekly basis, students are required to produce individual or group presentation on topics discussed in the prior week. Presentations are 5-7 minutes each with peer review and Q and A following each presentation.

Final Presentation

Final Presentation will be delivered by individual or as group (5-6 students) on your startup. The presentation will consist of:

- Introduction to the team
- Total addressable market analysis and competitive analysis
- Problem statement and vision statement
- Product features and demo
- Business model and scaling plan
- Capital needs and use of proceeds

Final Presentation Grading

The following point-structure will be used in determining the grade for the final presentation. Final presentation will be based upon the total points received, the highest total in the class, and the average of the class. Students will work on each of these deliverables in a team based or individual setting.

Deliverables Points

Effectiveness of the problem statement and proposed solution - 20
Market research and competitive analysis - 20
Product demonstration and demonstrable traction - 20
Business mode, pricing strategy, monetization model - 20
3-5 year business plan – 10
Fund raising needs and use of proceeds - 10
